

DESCRIPTION

The **UM38-SB** is the patented **Universal Mounting Rack System**. With this product, you can quickly and easily mount any circuit board into any structured wiring cabinet or almost anywhere else. The unique butterfly tabs can be adjusted for easy installation under any specifications. In addition, multiple brackets can be assembled together to accommodate any size circuit board. The UM38-SB comes standard with the add-on modules DP29-SW/IM and DP29-CI.

FEATURES

- Can be used as a stand-alone mount on walls or other surfaces
- Pinholes and butterfly tabs allow easy installation in any manufacturer's structured wiring cabinet
- Several brackets can be assembled together to accommodate any size circuit board
- Risers provide a buffer zone for circuit board protection
- Dust covers protect circuit boards outside the structured wiring cabinet
- Removable tabs on dust cover allow for any amount of wiring

APPLICATIONS

- Support circuit boards in structured wiring cabinets
- Mount circuit boards onto walls or other surfaces
