NX-1516E

Emergency Keys

With the touch of one button for two seconds, these keys can be programmed to contact the appropriate personnel in the event of an emergency.

Code Entry Keypad

Enter your personal code on the telephone-like touchpad. Features include optional audible tone when individual keys are pressed and backlit keys to ensure error-free operation, even in a darkened room.

Function Keys

Five pre-programmed touch keys allow you to perform the most common functions with one touch.
