EARN

You automatically generate points with every purchase you make online or by phone.

REDEEM

Cash in your rewards points at any time for a Home Controls Smart Rewards gift certificate.

SAVE

Use your gift certificate to save on future purchases at Home Controls!

The Smart Rewards program is our way of saying thank you for being a loyal Home Controls customer. As a Home Controls Smart Rewards member, you get something back from us!

EXCLUSIVE MEMBERSHIP BENEFITS

- Free to join at any time
- 3 points for every \$1 spent
- 300 points = \$3 cash back
- Points never expire
- Bonus point opportunities
- Access your account online

Each time you make a purchase either online or by phone, you automatically earn points to use in future purchases. For every dollar spent, you receive three Smart Rewards points, redeemable at any time for 1% cash back! The points you accrue NEVER EXPIRE and are automatically recorded for you in your Home Controls account.

Inside A Smart Home

Automating your home is fun and exciting, and the possibilities are limited only by your imagination! Here are some of the options available for customizing your own connected smart home. Start out slowly, build onto your current system, or incorporate all these systems into a new construction project! The choice is yours!

We are committed to providing the best free technical support in the automation industry, and helping you with product advice, system design and of course, troubleshooting. Just call 1-800-266-8765 any weekday between 8:00 a.m. and 5:00 p.m. Pacific Time.

HOME AUTOMATION » Page 10

LIGHTING & APPLIANCE CONTROL

- 1** Turn lights on or off and dim or brighten them from anywhere, inside or outside your home, without running any new wires! It's possible with powerline or RF/wireless control.
- 2** Program indoor and outdoor lights to turn on and off according to a schedule or event.
- 3** Program entire lighting scenes with one button push. For example, a keychain remote can initiate your "At Home" security mode and lighting scene, so you never again have to drive up to a dark home. Or your "Home Theater" scene might dim your lights, close the drapes, turn on entertainment components, and start the popcorn maker!
- 4** Control your lights and appliances with light sensors. If it gets dark, lights turn on and then off again a few hours later. When it gets light, automatically turn on your coffee pot and even your hair curlers.
- 5** Sensors turn on outdoor lights when someone approaches. Turn on house lights when you're driving up the driveway with a keychain remote.

POOL & SPA

- 6** Gain complete control of your pool and spa functions from in your spa, on your patio, in your home, in your car or anywhere else! Plus, completely automate the cleaning, heating and filter pump!

IRRIGATION SYSTEMS

- 7** Program your irrigation system to operate on a set schedule by event (or even a set time before dawn).

AUTOMATION CONTROLLERS

- 8** Your entire home operates automatically when you program an intelligent controller to become the brains of your smart home. Control lighting, climate controls, entertainment components, irrigation, and any other systems in the Home Controls online catalog. After your system is programmed, it operates on its own to decide what your home should do under various circumstances. You can also manually control your system with user-friendly keypads and touchscreens, and even through a smart phone or the Internet!

SECURITY » Page 30

SECURITY

- 9** You'll get peace of mind knowing your family is protected with a security system. Security systems include control panels, keypads, sensors, sirens, locks, lights, access control and more. You can choose an integrated wired system or an easy-to-install wireless system.
- 10** Control your locks remotely or from your cell phone.
- 11** Sirens scare away intruders, and notify neighbors and authorities of burglary or fire.
- 12** Protect your family and home from fire with advanced smoke detectors that talk to your security or automation system.

SENSORS

Sensors detect motion, temperature, light and more. Their uses in automation are almost endless ...

- 13** Perimeter sensors alert you when a person crosses your property line.
- 14** Motion sensors can be installed on walls, on ceilings, in light switches, outdoors and more.
- 15** Incorporate door and window sensors into your security system, and use them as automation sensors when you are at home.
- 16** Glass break sensors alert your security system when a window is broken.
- 17** Be alerted when people arrive.
- 18** Light sensors know when it's light or dark. If it gets dark, lights turn on and then off again a few hours later.
- 19** Flood sensors know if the washer or water heater breaks, and can even automatically shut off the water supply before a potential disaster.
- 20** Driveway alerts let you know when visitors arrive.

Home Controls

Automation Products & Support

VIDEO & CAMERAS

- 21 Monitor your home with surveillance cameras. Choose from cameras that see in the dark, large and small cameras, bullet, dome and hooded cameras, and hidden cameras! Some are even wireless!
- 22 View your home from any computer over the Internet from any PC or smart phone.
- 23 Install a camera at the door to see who's knocking.
- 24 Time lapse and digital video recorded keep a log of what goes on around your home.
- 25 Send wireless TV, VCR and video surveillance.
- 26 Monitors let you watch different areas of the house, like the pool area or nursery. Simple modulators even allow you to watch the video on your TV.

STRUCTURED WIRING » Page 48

WIRE MANAGEMENT

- 27 Structured wiring systems connect all of your home systems in one central location. Also known as a "connected home," wire management systems include a control panel in a centralized location and high-quality wire connecting to multi-media outlets throughout your home.
- 28 Create your own hot spot. In-wall or in-ceiling wireless access points provide the greatest Wi-Fi coverage with pleasing aesthetics.

- 28 A structured wiring system can distribute the fastest, most reliable high-speed Internet throughout your home. These hard-wired connections give you crystal clear streaming video, hi-fi digital audio, reliable online gaming and blazing Internet.

POWERLINE CONDITIONING & SURGE PROTECTION

- 29 Protect your computer, phone, fax and cable line connections with suppression plug strips.
- 30 Protect your entire house with whole-house surge suppressors.
- 31 Fine-tune your X10 system with signal amplifiers, signal bridges and noise blocks.

ENTERTAINMENT » Page 60

AUDIO/MUSIC DISTRIBUTION

Entertainment will never be the same once you upgrade to a smart home audio system.

- 32 Distribute music from one location throughout your entire home with a whole-home distribution system..
- 33 Control speaker volume in each room individually or all at the same time.
- 34 Choose from in-wall speakers, ceiling speakers, surround sound, subwoofers and more! Make outdoor entertainment fun with outdoor speakers.
- 34 Don't want to run wires throughout your home? Home Controls carries wireless audio distribution systems, too! Ideal for renters.
- 35 Expand your home theater system with HDMI and IR distribution components.

COMMUNICATIONS » Page 78

PHONES & INTERCOMS

- 36 Transform your regular phone into a high-tech telecommunications system for your home.
- 37 Easy integrate your cell phone with your home phone.
- 38 Answer the door from any of your telephones, including cell phones.
- 39 Install an intercom system to talk with your family located in different parts of the house.

COMFORT » Page 84

WINDOW & DRAPE CONTROL

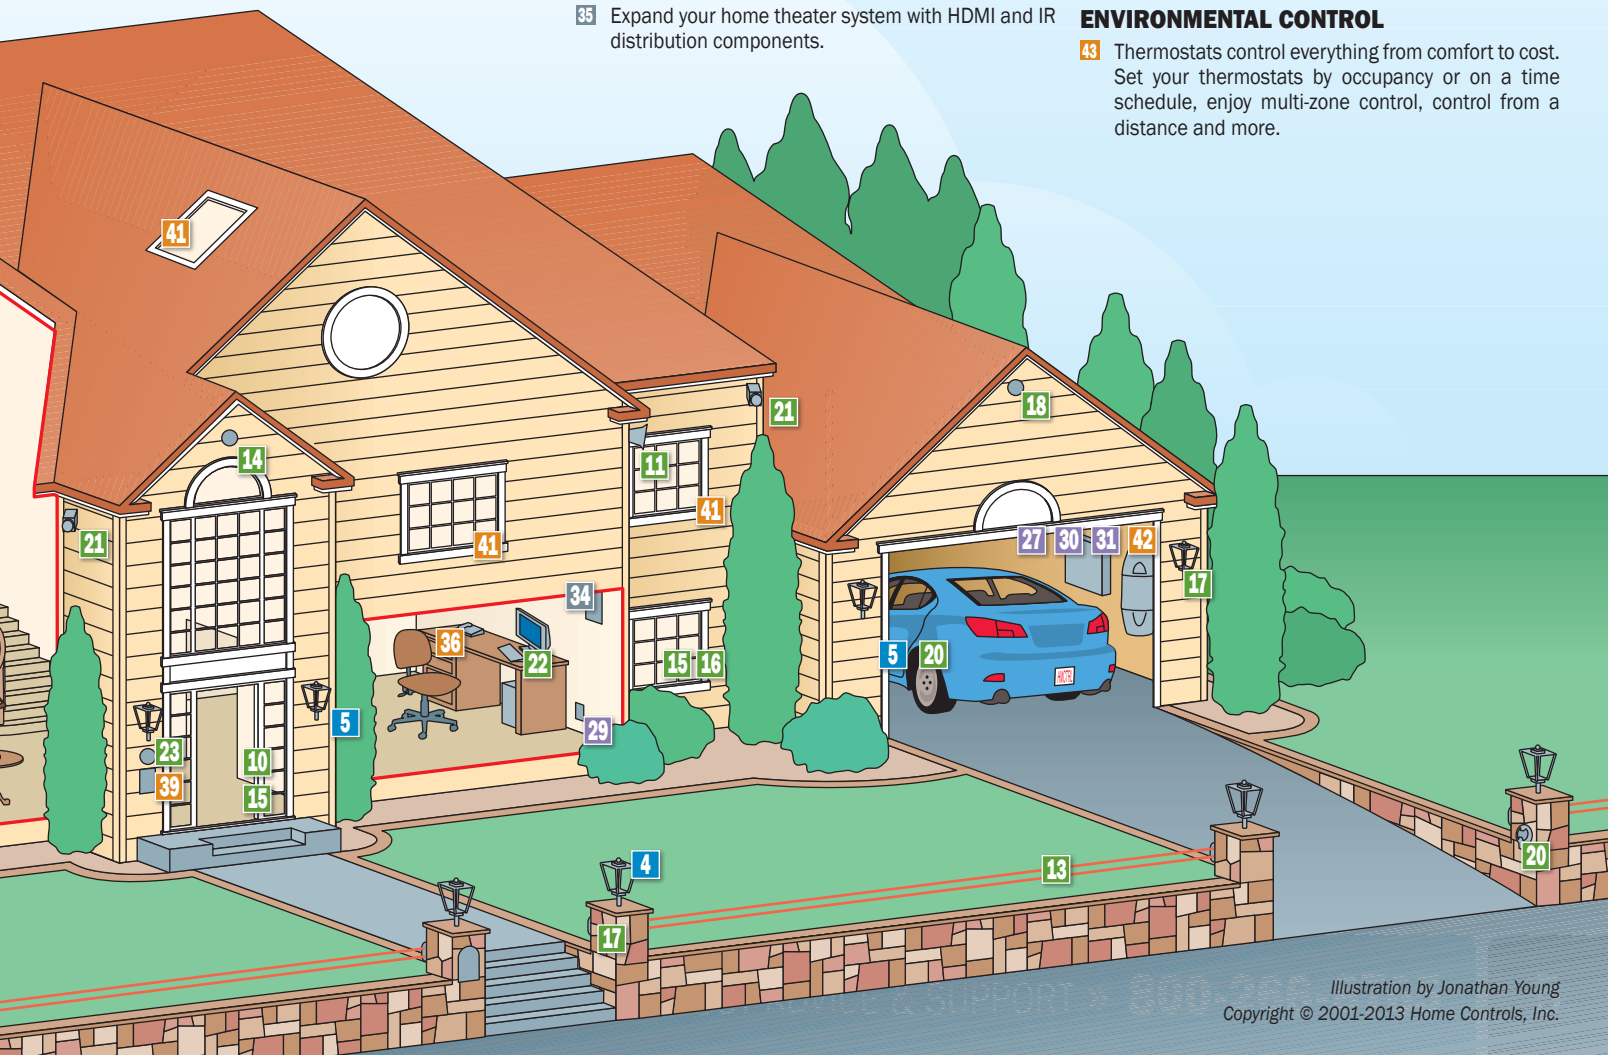

- 40 Set your drapes to automatically close on a schedule, by remote control or automatically when the sun shines directly in. A great natural energy saver!
- 41 Control windows by wall switch, remote control or an automation system. Automatically close them when it starts to rain. Perfect for skylights that are hard to reach!

CENTRAL VACUUM SYSTEM

- 42 Central vacuum systems are the most efficient way to clean. The system includes a vacuum motor installed in a convenient location (like the garage), with tubing in the walls that connect to wall inlets in each room. When it's time to vacuum, simply insert a lightweight hose into a nearby inlet and your central vacuum system silently turns on.

ENVIRONMENTAL CONTROL

- 43 Thermostats control everything from comfort to cost. Set your thermostats by occupancy or on a time schedule, enjoy multi-zone control, control from a distance and more.

Save Energy With Home Automation

LIGHTING & APPLIANCE CONTROL

According to the Energy Conservation Enhancement Project, 20% of all electricity is used for lighting – yet 50% of that power is wasted.

- Coordinate lighting and set by your schedule, time of day or event.
- Simply replacing switches with dimmers offers energy payback to homeowners. Dimming the lights by 25% – which is almost unnoticeable – reduces electrical energy consumption by 20%, while extending bulb life by four times.
- Timer switches save energy in rooms by adding a new degree of automation, giving you control of how long the lights stay on.
- Turn lights on and off based on whether a room is occupied, so you won't waste energy leaving the lights On in an empty room.
- Most of today's appliances incorporate advanced technologies that use 10–50% less energy and water than older models. Look for the ENERGY STAR logo to guarantee savings.

Dimming
Lights By **10%**

Reduces Energy By **10%** &

Reduces Energy By **20%** &
Extends Bulb Life **4x** Longer

Dimming
Lights By **50%**

Reduces Energy By **40%** &
Extends Bulb Life **20x** Longer

CLIMATE CONTROL

Approximately 56% of an average home's energy cost is spent on heating, ventilation and air conditioning (HVAC) systems, according to the U.S. Department of Energy. The best way to control your energy cost is by managing your heating and cooling system.

- Programmable thermostats allow you to adjust temperature based on day and time, security settings, or occupancy – even by phone.
- The Alliance To Save Energy says you can save up to 10% a year if you add a programmable thermostat to your home! See page 86 for an array of programmable thermostat choices.

NATURAL CLIMATE CONTROL

- Automated and controlled drapery and shade systems allow you to control the temperature inside your home naturally. See page 87 for several window covering options.

ENTERTAINMENT

- Without reducing audio quality, today's amplifiers use drastically less energy – up to half – to deliver better sound. See pages 60-67 for energy-saving products.
- Eliminate vampire or phantom power (energy that devices use even when turned off) with automated switches. See page 77 for details.
- You can find energy savings on everything from standard TVs, to HD-ready TVs, to the largest flat-screen TVs – some using as much as 30% less energy. Look for the ENERGY STAR logo to guarantee savings.

IRRIGATION

- Program your irrigation system to work on a set schedule – and save water! See page 7 for a simple-to-use automated irrigation systems.

Home Energy Monitoring

ZIGBEE WIRELESS CONTROL

ZIGBEE BY HAI/LEVITON

Home Controls is very excited to announce the release of our first ZigBee collection from HAI. ZigBee Pro technology establishes a standard approach for wireless products worldwide, eliminating the need for proprietary technology. Home automation solutions can take advantage of a consistent wireless communication technology which offers unprecedented benefits in operational reliability, control, convenience, and security.

These products communicate through a mesh network between the ZigBee Interface Module (ZIM) and controlling ZigBee devices. The ZIM is also designed to communicate with ZigBee Pro Home Automation Profile products from other manufacturers thereby expanding compatibility.

Each point-to-point communication is referred to as a "hop." Adding more devices to the network increases the efficiency of the network due to increased numbers of hops available. A maximum of 64 devices can be utilized on a single network and each device can operate a

maximum of five hops.

HAI's ZigBee Pro products are equipped with high-powered ZigBee radios to ensure enhanced signal strength and range. These devices possess a 200' (61m) maximum single line of sight transmission under optimal conditions. Device-to-device hops expand that range significantly.

While communication for each device is wireless, power sources are conventional. The ZIM is powered by its direct connection to the Omni or Lumina home automation controller via the included serial cable. The 5A and 30A Load Control Modules (LCMs) are powered by the same circuit powering the appliance at a given LCM controls. Omnistat2 Programmable Communicating Thermostats (PCTs) receive power via traditional HVAC wiring.

FIDO WATCHDOG

FIDO HOME ENERGY MONITOR SYSTEM

EcoDog, Inc. gives homeowners ultimate control over their energy use. Consumers often feel that there is nothing they can do in the face of rising energy prices. Now, EcoDog's FIDO Home Energy Watchdog provides a circuit-by-circuit visibility to electricity consumption that gives homeowners unprecedented power over their energy use with an added measure of privacy as a bonus.

FIDO makes it easy to make sense of electric bills, letting users know the cost of running major appliances or how much the kids add to the monthly bill when they don't turn off their video games! With simple tips and graphic charts, FIDO turns kilowatt hours into monthly savings of 15 to 25% or more on typical electric bills.

ED900006 EcoDog FIDO Home Energy Monitor System **\$1,289.95**

Includes Computer Adaptor with enclosure, Communication cable RJ11-DB9, USB to RS232 Adaptor, UMC211, EcoDog Software Kit (thumb drive), EcoDog Computer Adaptor Quick Start Guide, Breaker Monitor (PLC16) Board Assembly, Kit CT Assemblies, FIDO Breaker Monitor Quick Start Guide and Ribbon Cable Assembly

ENERGY & COST SAVINGS WITH LED LIGHTS!

Home Controls is very proud to offer Pageant LED, a family of unique high power, high performance LED replacement bulbs that fit the needs of ecologically minded but economically rooted enterprises. Everyone is concerned about the environment and we want to do our share of reducing the carbon footprint. Pageant bulbs are high performance LED products that offer lumen outputs that rival high wattage incandescent bulbs but only use a fraction of the incandescent's wattage. This saves energy and reduces carbon footprint.

7W PAGEANT MEDIUM BASE A19

Fully encapsulated, 120V, 7W, screw-in medium base mounting that integrates energy saving LED technology into a standard A19 format.

- Compare to 40W
- Soft White (2700K); Daylight (5500K)
- Up to 50,000 hour lamp life
- 5 year warranty

LD1010 7W Pageant Medium Base A19 (Soft White) **\$26.95**

LD1011 7W Pageant Medium Base A19 (Daylight) **\$26.95**

8W PAGEANT R20 WIDE 105° FLOOD

Fully encapsulated, 120V, 8W, screw-in R20 medium base mounting that integrates energy saving LED technology into a standard R20 format.

- Compare to 40W
- Soft White (2700K); Daylight (5500K)
- Up to 50,000 hour lamp life
- 5 year warranty

LD1714 8W Pageant R20 Wide 105° Flood (Soft White) **\$29.95**

LD1715 8W Pageant R20 Wide 105° Flood (Daylight) **\$29.95**

14W PAGEANT R40 WIDE 105° FLOOD

Fully encapsulated, 120V, 14W, screw-in R40 medium base mounting that integrates energy saving LED technology into a standard R40 format.

- Compare to 75W
- Soft White (2700K); Daylight (5500K)
- Up to 50,000 hour lamp life
- 5 year warranty

LD1716 14W Pageant R40 Wide 105° Flood (Soft White) **\$49.95**

LD1717 14W Pageant R40 Wide 105° Flood (Daylight) **\$49.95**

CANDELABRA MOUNT SERIES

Fully encapsulated, 120 Volt, 3.4 Watt, candelabra base mounting that integrates energy saving SMD LED technology into a standard candle /candelabra format. Available in Soft White (SW) in a 160° beam spread.

- E12 candelabra base
- 3.4 Watt, 120 Volt operation
- Remote transformer not required
- Operates off of standard house current
- Soft White SW (2700K) in a 160° beam spread
- Compare to 25W incandescent
- 36 on-board SMD LED diodes
- Up to 50,000 hour lamp life
- Low heat output
- 5 year warranty
- Dimmable

LD3010 LED Candelabra Mount Series **\$18.95**

R30/65BR30/PAR30 DIMMABLE SERIES

Fully encapsulated, 120 Volt, 11 Watt, screw-in medium base mounting that integrates energy saving LED technology into a standard R30 / 65BR30 / PAR30 format.

- 11 Watt, 120 Volt operation; Remote transformer not required; Operates off of standard house current
- Soft White (3000K); Daylight (5500K)
- Compare to 65W R30 / 65BR30 / PAR30
- 88 on-board Hi Power LED diodes
- Up to 50,000 hour lamp life
- Very low heat output
- 5 year warranty
- Dimmable

LD1694 11W Pageant R30/65BR30/PAR30 Wide 105° Flood (Soft White) **\$39.95**

LD1695 11W Pageant R30/65BR30/PAR30 Wide 105° Flood (Daylight) **\$39.95**

LANDSCAPE AUTOMATION

RAIN8 PRO NETWORK SPRINKLER CONTROLLER

The Rain8net is a modular 8-zone sprinkler controller module that can be controlled over the Internet by any computer or other control device. It's capable of driving standard 24VAC irrigation valves directly.

- On/Off control of each valve at the Rain8 module itself, no need to run back to a PC to turn a zone on (or off)
- Each zone has a LED to indicate if it is running
- All valve wires and connections are protected against lightning surges
- All RS232 and network connections protected against ESD and lightning
- The 8 outputs to the valves is protected against overloading by a self-resetting electronic fuse

UPB VERSION

WG41020 Rain8upb Pro UPB Sprinkler Main Controller **\$243.40**

WG41030 Rain8upb Pro UPB Sprinkler Expansion Controller **\$218.30**

WATER-SAVING SHOWERS

EVOLVE ROADRUNNER II

Do you multitask while you wait for the shower to get hot? Brush your teeth? Make the bed? Maybe even pick out your clothes or iron a collar? Many of us do – and don't know that two-and-a-half gallons of hot water per minute are funneling down the drain.

That's where evolve showerheads and adapters come in. Utilizing the unique, patent-pending ShowerStart technology, these products stop the flow to a trickle when the water reaches a comfortable 95 degrees.

- Colors: Choose Brushed Nickel or Chrome Polish

SL2107x evolve Roadrunner II Showerhead **\$39.95**

Motion-Activated Lighting Controls

MOTION-ACTIVATED PLUG

SENSORPLUG

SensorPlug is a motion activated plug-in electrical outlet. Its plug-in design eliminates wiring and associated expenses common to other motion activated products.

The passive infrared (PIR) motion sensor used in this product offers the convenience of controlling many of the household electrical products – not just lighting – by motion. It is the only motion activated product that can be used to control lighting as well non-lighting electrical products.

AISP01 SensorPlug **\$15.99**

OUTDOOR LIGHTS

OCCUPANCY SENSORS

UNIVERSAL OCCUPANCY SENSORS

Leviton's line of Occupancy and Vacancy Sensors combine state-of-the-art technology with new aesthetics to provide optimal management of lighting and motor loads and a choice of either Manual-On (Vacancy Sensor) or Automatic-On (Occupancy Sensor) switching. These energy-saving sensors ensure that lights turn On manually or automatically and turn Off automatically when motion is no longer detected within the covered range. Designed to fit in a standard wallbox, these devices offer 180° Field of View and 900 sq. ft. of coverage.

The devices feature a time delay setting which allows you the option to delay the lights from switching off for 30 seconds, 5 minutes, 15 minutes or 30 minutes.

- Provides control of LED, CFL, Incandescent, Halogen or Motor loads
- Colors: Includes White, Ivory and Light Almond
- Wallplate not included (see page 57)

SOLAR-POWERED FLOODLIGHTS

Lights automatically turn on when motion is detected at night. Easy DIY installation with no wiring. Includes 6V 4Ah sealed lead acid rechargeable battery. Adjustable motion sensor detects motion up to 35' away within a 180° detection area. 15' cable allows ideal location for solar panel and lets you mount the light inside, if desired.

- Perfect for entry ways, walkways, sheds, patios, balconies, decks, steps, garages, driveways, carports, backyards and farm sheds
- When charged, light can activate up to 360 times

MX40225 80 LED Solar-Powered Motion-Activated Floodlight (White) **\$79.95** (Black also available)

MX40110 30W Halogen Solar-Powered Motion-Activated Floodlight (White) **\$84.95**

MX40220 10W Halogen Solar-Powered Motion-Activated Floodlight (White) **\$42.00**

SOLAR-POWERED WEDGE LIGHT

Because of its unique shape and design, it can be placed on the ground or attached to a post or wall. Provide light when you are trying to unlock the door or in a place when it would normally be hard to mount a light! Detects motion up to 25' away with a 100° detection area.

- When charged, light can activate up to 300 times

MX40235 Solar-Powered Motion-Activated Wedge Light (White) **\$39.95**

DUEL HEAD SOLAR-POWERED FLOODLIGHT

Has dual heads to allow the light to cover a wide area. The light also has a swivel head sensor and dials to adjust motion sensitivity, light sensitivity, and light duration. The solar panel has a 9' cable so it can be mounted away from the light and motion sensor.

MX40218 Duel Head Solar-Powered Motion-Activated Floodlight (White) **\$54.95**

Timer Controls

PLUG-IN TIMERS

PLUG-IN DIGITAL INDOOR TIMERS

New plug-in digital indoor timers are great for On/Off control of your home's lamps, portable fans, holiday lights and more. The user-friendly design is easy to program and shows the timer settings at a glance. Compatible with incandescent and energy smart CFL bulbs, these timers give you the flexibility to automate everyday tasks or to vary lighting for a lived-in look while you're away.

ELECTRIC VEHICLE RECHARGING SYSTEM

EVR-GREEN

These innovative solutions help rapid expansion of the smart grid infrastructure and wide adoption of electric vehicles: a win-win for you and the planet. Whether you are an EV driver, a commercial business, utility company or municipality, there's an Evr-Green solution for you.

- Charging stations attach to the wall on the pre-installed bracket, and include an EV cable to connect to your vehicle
- Tool-less, non-permanent installation also makes it easier to remove and replace or take with you in the event that you move (when used in conjunction with Leviton's EVK Series Installation Kit)
- Chargers are compatible with plug-in electric vehicles that comply with the SAE J1772 plug-in electric vehicle charging standard

EVR-GREEN 320 HOME CHARGING STATION

Your electric vehicle recharges in no time with the Leviton Evr-Green 320 Home Charging Station. Designed to beat the charging time of older charging stations, Evr-Green can speed up the process by 7%, making electric vehicles ever more practical for everyday use. Evr-Green also offers advanced built-in features that help make sure your vehicle is always properly charged *before* you hit the road. The unit even provides "wrap-around" cable management for easy storage between uses.

- Meets all Charging Station Standards and Recommended Practices
- Supports electric vehicles with larger on-board chargers
- Built-in cable management for easy storage
- Status indicator lights for power, charging status and faults
- Available Cord Lengths: 18' and 25'

LVEVB32xML Leviton Evr-Green 320 Plug-In Home Charging Station **Starting at \$1,639.95**

LVEVK0500M Leviton Evr-Green 320 Home Charging Station Pre-Wire Kit **\$109.95**

Evr-Green 320 is ideal for indoor applications, but can be converted to a hard-wired installation, if outdoor use is required.

MONITOR YOUR ENERGY USE

TRICKLESTAR PLUG-IN ENERGY MONITOR

The first thing you can do to save energy at home is to start understanding and measuring how much energy each home appliances uses. Watch and track your electricity usage with energy display and see the impacts or benefits when you change your electricity usage behavior.

- Separate display and wall tap design for convenient handheld viewing
- Display instant energy consumption in Watts, Cost, CO2
- Display projection KWH, Cost, CO2 by Day / Month / Year
- Built-in timer to control outlet on/off

TS890EMUSW TrickleStar Plug-In Energy Monitor **\$29.95**

Omni Home Automation + Security

HOW TO BUILD A COMPLETE HOME AUTOMATION SYSTEM

HOME AUTOMATION, INC (HAI) IS NOW LEVITON SECURITY & AUTOMATION

Now part of the Leviton Security & Automation (LSA) brand, the Omni control systems are the heart of an automated home, coordinating all of the systems in a home to talk to each other.

Homeowners recognize that an Omni home control system can pay for itself through energy savings while increasing the value and enjoyment of their home. It adjusts the security, access control, cooling, heating, lighting, and surveillance automatically for comfort, convenience, and safety.

Easy to Use

Omni systems are simple to understand and operate, which is why they are Automation Simplified. Even young children can learn and understand how to use the basic features of Omni products.

Reliable

Omni uses embedded controller technology in its home control systems, a technology proven to be reliable with decades of use. Omni controllers have no fans, disk drives, or other moving parts to fail.

All Omni products can work in a stand-alone fashion so they are not dependent on any other products in the house, including computers. There is no single part that can cause an entire system to fail. Light switches still control the lights and thermostats still control your heating and cooling system.

	OMNI LTE	OMNI IIE	OMNI PRO II
Lighting/Rooms	4	8	31
Lighting Scenes	32	64	128
Lighting Addresses	32	64	256

Custom Vocabulary	No	No	Yes
Aux Current Max	1A	1A	1A

Leviton's products increase the energy efficiency of your home with lighting control, temperature control, and control of large appliances.

- Thermostats automatically set back and lights turn off when leaving the home. Settings restore automatically when you return.
- Enhance your home with elegant lighting control.
- Coordinate lighting and set by schedule, time of day or event.

Control Your Omni System With SnapLink Mobile for iPhone or iPad

HAI LEVITON
Security & Automation

STEP 1 CONTROLLER

OMNI CONTROLLERS

HAI/LEVITON OMNI PRO II

The OmniPro II is HAI's flagship home control system. It has the largest feature set and can control the maximum number of devices. It is designed for large residences and commercial installations.

LV20A002 OmniPro II Controller **\$1,604.95**

Includes Controller With Enclosure, Lock With 2 Keys, HLC Powerline Interface, RJ31X Cord & Jack, Manuals

LV20A008 OmniPro II Controller **\$1,604.95**

Includes Controller On A Structured Wiring Backplate

LV20A0021 OmniPro II Controller **\$1,534.95**

Board Only

HAI/LEVITON OMNI IIE

An ideal choice for mid-range homes and small businesses, Omni IIE is the middle member of HAI's best-selling Omni product line.

LV20A0050 Omni IIE Controller **\$974.95**

Includes Controller With Enclosure, Lock With 2 Keys, HLC Powerline Interface, RJ31X Cord & Jack, Manuals

LV20A0052 Omni IIE Controller **\$974.95**

Includes Controller On A Structured Wiring Backplate

LV20A0053 Omni IIE Controller **\$934.95**

Board Only

HAI/LEVITON OMNI LTE

The newest addition, the Omni LTE is an ideal choice for small to mid-range homes and small businesses. Omni LTE is the entry level system.

LV20A0070 Omni LTE Controller **\$584.95**

Includes Controller With Enclosure, RJ31X Jack & Cable, Manuals & Accessories

LV20A0072 Omni LTE Controller **\$584.95**

Includes Controller On A Structured Wiring Backplate

LV20A0073 Omni LTE Controller **\$549.95**

Board Only

Full Omni System Specs »

www.HomeControls.com/Leviton-Omni-Controllers

LUMINA CONTROLLERS

A Lumina home control system provides sophisticated lighting control that is affordable, easy to install, easy to operate and offers unrivaled expandability. The Lumina provides the same features as an Omni, without the security. The number of rooms and lights that you wish to control will usually determine which Lumina home control system you need to buy.

LV44A002 Lumina Pro (31 rooms, 217 lights) **\$1,069.95**

Includes Controller In Enclosure With Lock & Keys, Ethernet Port, LCD Keypad, UPB Powerline Interface, Phase Coupler, Serial Cable, Transformer & Battery, Manuals & Accessories

LV44A001 Lumina (8 rooms, 56 lights) **\$799.95**

Includes Controller In Enclosure With Lock & Keys, Ethernet Port, LCD Keypad, UPB Powerline Interface, Phase Coupler, Serial Cable, Transformer & Battery, Manuals & Accessories

Full Lumina System Specs & Accessories »

HomeControls.com/Leviton-Lumina-Controllers

STEP 2 ADD TOUCHSCREENS & CONSOLES

OMNI TOUCHSCREEN OPTION

OMNITOUCH 7

The OmniTouch 7 Touchscreen offers quick, enhanced home control with a faster processor, upgraded graphics, and an improved user interface. Featuring a beautiful 7-inch HD capacitive touchscreen with swipe technology, the OmniTouch 7 streamlines user interaction. View enhanced video surveillance, access all of your security, energy, and entertainment settings, and intuitively control every system in your home.

- Glass-front capacitive 7" touchscreen
- 800x480 resolution
- Swipe technology supports use of slider control bars

Designed for the OmniPro II, Omni IIE, Omni LTE, Lumina Pro, and Lumina automation systems, the OmniTouch 7 Touchscreen gives you direct access to your whole home. Two digital MEMS microphones and a 2-watt mono digital amplifier and speaker offer improved noise and echo cancellation. All power and communication is delivered through the Touchscreen's PoE connection, and an optional 12VDC power supply can be used if you are not utilizing PoE. Firmware updates are downloadable via Ethernet.

Security: Perfect for controlling your home security system, the OmniTouch 7 can be used to arm/disarm

the system, alert emergency dispatchers, check surveillance video and more. With a clear, color screen, the OmniTouch 7 displays crisp video footage (MJPEG and JPEG) from any security camera, including IP cameras and analog cameras with an IP converter. And with the touchscreen's quick-glance LED in the top right corner, you can easily check whether the system is armed or disarmed.

Energy Management: Use the OmniTouch 7 to conveniently minimize wasted energy throughout your home. With easy controls for lighting, HVAC, irrigation, ventilation and window coverings, it's the only device you need to manage energy consumption! Swipe technology supports the use of slider bars to adjust lighting load levels from 0 to 100 percent, and you can access up to 64 thermostats, including humidity settings.

Entertainment: When the OmniTouch 7 is connected to Leviton's Hi-Fi 2 Distributed Audio System or any other compatible system from a Connectivity Partner, you have complete control over your home's audio. Just touch a button and enjoy your music!

- Colors: Choose White or Black

LV99A00x OmniTouch 7 Color Touchscreen **\$669.95**

OMNI CONSOLE OPTIONS

OMNI CONSOLES

The Omni Console is a surface or flush mount console that features a 48 character LCD display with menu operation, backlit keys, selectable key click, beeper functions and viewing angle.

A LV33A001 Omni Console **\$154.95**

B LV33A004 Omni Console with Speaker/Mic **\$194.95**

C LV33A003 Omni Console Flush Mount

Kit **\$29.95**

STEP 3 ADD LIGHTING

UPB CONTROL

Omni systems support UPB lighting systems, including the Home Lighting Control (HLC) system. When used with an Omni control system, lights can be set by sunrise/set, motion, or event – and controlled by remote control, phone, Internet, touchscreen or TV. See page 16.

Omni also supports X10 lighting systems. See Page 26.

Omni also supports Z-Wave lighting systems. See Page 22.

AUTOMATION ONLY

LUMINA LIGHTING CONTROL SERIES

A Lumina home control system provides sophisticated lighting control that is affordable, easy to install, easy to operate and offers unrivaled expandability. The Lumina family consists of the Lumina Pro and the Lumina. The number of rooms and lights that you wish to control will usually determine which Lumina home control system you need to buy.

- Supports all Omni IIe and OmniPro II accessories, including Web Link II for Internet control and Home Control for Windows Media Center

LV44A002 Lumina Pro (31 rooms, 217 lights) **\$1,069.95**

Includes Controller In Enclosure With Lock & Keys, Ethernet Port, LCD Keypad, UPB Powerline Interface, Phase Coupler, Serial Cable, Transformer & Battery, Manuals & Accessories

LV44A001 Lumina (8 rooms, 56 lights) **\$799.95**

Includes Controller In Enclosure With Lock & Keys, Ethernet Port, LCD Keypad, UPB Powerline Interface, Phase Coupler, Serial Cable, Transformer & Battery, Manuals & Accessories

LV33A003 Lumina Console Flush Mount Kit **\$29.95**

LV1111 Lumina Programming Software **\$59.95**

LV38A003 Lumina Mode Switch **\$174.95**

STEP 4 ADD ENTERTAINMENT

HTX2

The Home Theater Extender 2 (HTX2) lets you extend your home control to the existing audio/video equipment in your home theater. Control their home theater from a smart phone or from an OmniTouch Touchscreen. See page 67.

HI-FI 2

The Hi-Fi 2 is HAI/Leviton's distributed audio system. With double the zones, more than double the power, more sources, and an all new keypad with OLED display, the Hi-Fi 2 is reinvented for today's demanding homeowners. Choose a large or small system to fit your home. See page 65.

When an OmniTouch 7 is connected to Leviton's Hi-Fi 2 Distributed Audio System or any other compatible system from a Connectivity Partner – including the NuVo Grand Concerto – you have complete control over your home's audio. Just touch a button and enjoy your music! See Page 60.

EXPAND CUSTOMIZATION OPTIONS

SOFTWARE

SNAP-LINK

HAI/Leviton's Snap-Link is an encrypted USB key that plugs into any computer to monitor and control lights, security, temperatures and web cameras over the Internet. It communicates through a secure ethernet port on an Omni home control system – no on site computer is needed. It's easy to use and set-up because it is self-contained on the USB drive. Just plug it into any computer. Snap-Link is sold without any subscription fees.

LV1120 Snap-Link **\$64.95**

HCSMARTAPP033 Snap-Link Mobile (for iPhone, Android & Kindle Fire) **\$49.95**

PC ACCESS

PC Access allows you to set up, program and monitor a home control system over a modem or by a serial or network connection. PC Access is the only software product HAI/Leviton offers that has the ability to program an Omni home control system.

LV1105W PC Access, for Installers **\$174.95**

LV1106W PC Access, for End Users **\$64.95**

AUTOMATION STUDIO

Automation Studio is a comprehensive software tool primarily used to design custom legacy OmniTouch 5.7e Touchscreen interfaces. With Automation Studio there is no need to learn a difficult computer programming language. It is a drag and drop, WYSIWYG program that opens up Omni to your unlimited creativity.

LV1126 Automation Studio **\$264.95**

OMNI ACCESSORIES

POWER HUB

This general purpose 12VDC power supply is designed to provide power to several HAI/Leviton products, including the Access Control Readers with electric or magnetic locks, Omni Consoles and many other devices.

LV83A001 Power Hub (with Enclosure) **\$294.95**

LV83A002 Power Hub (for Structured Wiring Enclosures) **\$294.95**

SPEAKER/MIC MODULES

LV28A001 Speaker/Mic Module, Surface **\$34.95**

LV28A002 Speaker/Mic Module, Flush **\$29.95**

LV19A001 8 Relay Module **\$104.95**

INSTALLATION ACCESSORIES

LV20A072 Mounting Plate **\$34.95**

POWER ACCESSORIES (Required)

ELKTRG2440 Power Transformer **\$14.95**

Required For Omni Pro II, Omni IIe & Lumina

ELKTRG1640 Power Transformer **\$14.95**

Required For Omni LT

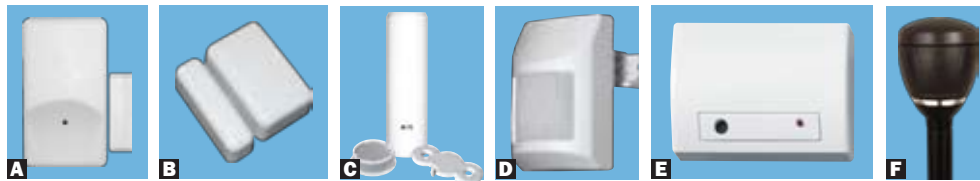

IBSEC1075 Backup Battery, 7Ah **\$18.95**

TPAV550SC Tripp Lite Backup Power Block **\$214.95**

Recommended – See Page 76 For Details

STEP 5 ADD SECURITY & SURVEILLANCE

WIRELESS SECURITY

WIRELESS RECEIVER

Allows up to 64 unique wireless security transmitters to report information to an Omni controller. The wireless transmitters replace wired door and window sensors, as well as wired, motion and glassbreak detectors.

Includes Receiver Signal Strength Indicator (RSSI). That information is stored in the system and can be accessed from any Omni interface. This is important to ensure optimum placement of the transmitters and receivers.

LV45A001 Receiver for Omni Sensors **\$169.95**

LV42A002 Receiver for NetworX sensors **\$344.95**

See Interlogix Wireless Sensors On Page 31
& HAI/Leviton Compatible Sensors On Page 37

Monitor your home

C3 uses cell technology to
communicate in case
land lines go down.
See Page 43.

ACCESS CONTROL

ACCESS CONTROL CARD READER

125 KHz high security, digitally encrypted, 26-Bit proximity card reader that connects to a serial port on an Omni home control system. The reader has durable and scratch resistant polycarbonate housing. Full epoxy potting ensures successful operation. It can be mounted to a metal door frame (mullion) or to any flat wall surface. The two color LEDs (green and red) and Piezo sounder guarantee accurate operations.

LV75A002 Access Control Card Reader **\$249.95**

ACCESS CONTROL KEYPAD

This access control keypad is designed to interface with any HAI/Leviton Omni family or Lumina family home control system. The piezoelectric buttons work simply by tapping the surface.

LV54A001 Access Control Keypad **\$364.95**

ELECTRIC DOOR STRIKE

When used with Access Control Reader, the Electric Door Strike securely locks and unlocks a door without the need of a key. 12 VDC, Fail Secure.

LV79A001 Electric Door Strike **\$64.95**

ACCESS CONTROL DEVICES

Access Control Card: 125 KHz credit card size 1.7mm thick high security proximity card with fully encrypted format stored on the card. It is pre-programmed at the factory with a unique encryption code. It provides a read range up to 4".

Access Control Key Tag: A very small (only 4 grams) 125 KHz high security digitally encrypted proximity key tag. It has a hole for a key ring or chain. It is pre-programmed at the factory with a unique encryption code. It provides a read range up to 2".

LV78A001 Access Control Card (10 Pack) **\$54.95**

LV78A002 Access Control Key Tag (10 Pack) **\$69.95**

STEP 6 ADD HVAC

OMNISTAT2

OMNISTAT2

Using advanced digital technology, the Omnistat2 learns your home's heating and cooling patterns and adjusts control to maximize both your HVAC's efficiency and your family's comfort.

- The backlight comes to life as you approach, making it easy to adjust in the dark – with more than 100 customizable backlight colors
- To adjust the temperature, simply turn the scroll wheel to the right or left
- 3 buttons facilitate easy to navigate menus to display information
- Selectable simplified and advanced displays
- Supports 1 indoor/outdoor temperature sensor
- Colors: Choose White, Silver or Black

Comfort

- Digital precise temperature control
- Automatic heat/cool changeover
- Fan mode periodically circulates air for comfort
- Outdoor sensor averaging with remote sensor
- Humidity Control (with LVRC2000)
- No batteries needed to retain settings and time

Energy Management

- Learns how your home heats and cools to control the equipment for efficiency and comfort
- Graphical display of HVAC usage, by week
- 7 day schedule with copy function
- Filter reminder for peak efficiency
- Built-in vacation mode feature – restores temperatures before arriving home

Communication

- Communicates with an Omni home control systems and other automation systems
- Remote Internet and phone access (optional)
- Expansion port for wireless communication

LVRC1000xx Omnistat2 **\$199.95**

1-Stage Conventional & Heat Pump

LVRC2000 Omnistat2 **\$264.95**

Multi-Stage & Heat Pump With Humidity Control

OMNISTAT ACCESSORIES

B LV23A002 Remote Indoor Temperature Sensor, Flush Mount **\$54.95**

LV14A008 Water Temperature Sensor **\$104.95**

LV31A007 Extended Range Indoor/Outdoor Temperature Sensor **\$59.95**

LV31A008 Extended Range Indoor/Outdoor Temperature/Humidity Sensor **\$114.95**

LV29A001 Omnistat Relay Isolation Module **\$89.95**

M1 Home Automation + Security

ELK

The M1 controller offers unequalled automation control value. Unlike panels that may be strong in automation, but weak in security – or vice versa – the M1 boasts a rock solid security foundation with the most imaginative and powerful automation functionality available.

- 16-Zones expandable to 208
- Wireless capability: Up to 144-Zones
- Menu driven, full text keypad programming
- 2-Way listen-in interface
- Voice Announcements (500+ word vocabulary)
- 13 On-board Outputs: 1 voice/siren, 1 siren driver, 1 Form-C relay and 10 low current (50mA) outputs
- Supports 4-wire (any zone) and 2-wire (zone 16) smoke detectors
- Fire alarm verification routine
- PC Programming Software includes conflict resolution to find differences between control and PC

ELK M1 GOLD

ELKM1G M1 Gold Controller in Enclosure **\$511.95**

Unity Home System

COMBINE ON-Q'S LIGHTING, SURVEILLANCE, AUDIO & INTERCOM INTO ONE INTEGRATED SYSTEM

UNITY INTEGRATION MODULE

The Unity Home System is more than just a home control solution. It's a way to maximize your home's potential by allowing it to respond to your lifestyle. Through a variety of intelligent individual systems from our Studio Collection – such as lighting, intercoms, cameras, and multi-room audio – Unity places the power of control right at your fingertips.

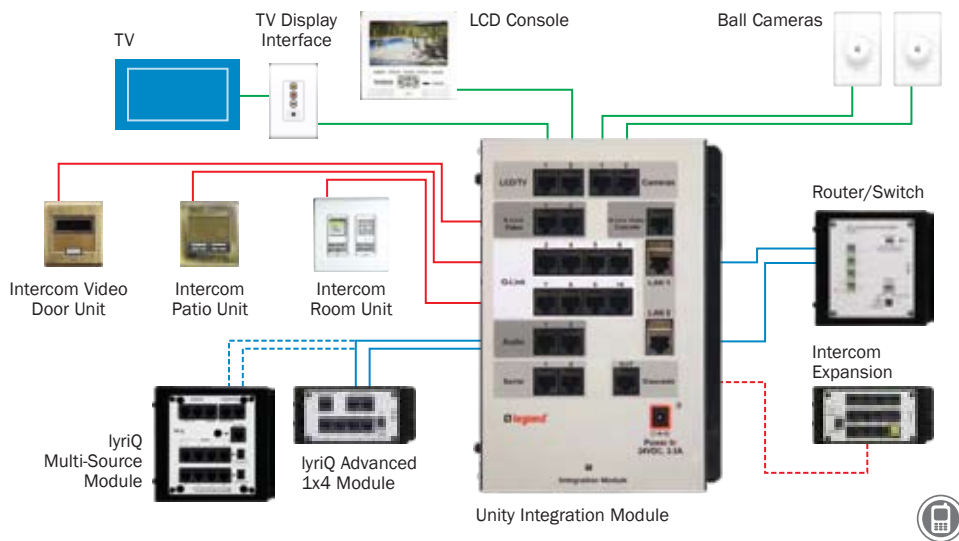

Cameras help you monitor loved ones and protect against intruders. One-touch lighting control sets the perfect scene for any occasion, while multi-room audio lets you enjoy the sounds of your favorite artists inside or outside the home. Cutting edge intercoms make room to room communication as simple as pressing a button, and mobile access keeps you connected and in control of your home regardless of location.

Unity is convenience, simplicity, communication, personality and peace of mind, all wrapped into one stylish package. Bring your home to life. Unity – need and desire, together at last.

- Up to 6 cameras per system
- Up to 8 LCDs or 64 TV Displays per system
- Up to 32 intercom units per system
- System can be expanded for up to 16 audio zones

OQHA6001 On-Q Unity Integration Module **\$1,599.95**

OQHA6101 On-Q Unity Expansion Module **\$1,334.95**

Unity 2.3: Unity 2.3 enables remote viewing of any video feed connected to Unity via a smart phone or tablet device. Homeowners can now check on the kids while out to dinner, keep an eye on the baby's room from the basement, or periodically monitor their home during a long vacation, all with a few flicks of a finger.

GLOBAL CACHÉ NETWORK ADAPTERS

GLOBAL CACHÉ HOME NETWORK ADAPTER

The GC-100 Network Adapter connects IR, serial (RS232), and relay (contact closure) devices and equipment to a TCP/IP network. The GC-100 includes sensor input, can be polled by other network devices, and can be used in a wired and wireless environment. A small, embedded web server allows for easy configuration from any browser. Global Caché Network Adapters integrate simply and easily into most automation and control environments without modification. Global Caché offers additional products including sensors, an IR Learner, an IR Extender and conversion cables.

- Connects IR, Sony Control-S, RS232 serial, sensors and relay contact closures to a network
- 10 Base-T network port

UPB Lighting Controls

HAI/LEVITON HLC SWITCHES

HOME LIGHTING CONTROL (HLC)

With Home Lighting Control (HLC) from HAI/Leviton, you can experience all of the benefits of a sophisticated lighting control system that is affordable and retrofittable. HLC is a modular system, so you can easily add rooms or lights anytime, updating as your needs change. For retrofits or expansion, simply replace the existing light switch!

- HLC uses Generation III UPB
- Switches feature true rocker action. Press and hold to brighten or dim. Press up to turn on. Press down to turn off
- Homeowners may easily change scene settings at any time without a service call
- LED indicator lights at the top of the switches can be programmed to glow Blue, Red, Magenta, or turned off entirely
- Expansion is easy!
- HLC can be integrated into any Omni or Lumina automation control system (see pages 10-13)
- Wallplate not included (see page 57)

HLC DIMMER SWITCHES

A LV40A001 HLC Relay Switch, 15A **\$104.95**
A LV55A001 HLC Dimmer, 1,000W **\$174.95**
A LV55A003 HLC Dimmer, 2,400W **\$424.95**

HLC SCENE SWITCH

Control all lights in a room or area – On or Off, Dimmed, Brightened, and set to 4 different scenes. Setting a scene is as simple as pressing the scene button on the Scene Switch 5 times.

- Color: White (Color change kits available)

- B LV38A001** HLC Scene Switch **\$144.95**
LV38A16 HLC Scene Tabletop Switch **\$199.95**

HLC STATUS SWITCHES

This master control shows the status for up to 8 rooms. If any light is On, the button for that room is illuminated.

- Color: White (Color change kits available)

- C LV38A002** HLC House Status Switch **\$174.95**

HLC SWITCHES & REMOTES

- A LV40A001** HLC Relay Switch, 15A (White) **\$104.95**

UPB Relay Switch Used For Controlling Heavier Loads Or Motors, Such As Ceiling Fans, That May Hum When Used With Dimming Or Non-Dimming Switches

- A LV37A001** HLC Auxiliary Switch (White) **\$34.95**

For Remote Operation Of HA35A00, HA40A00 & HA55A0

UPB INSTALLATION SOFTWARE

While some basic UPB functions can be set via simple push buttons on the wall switches and modules, the power of UPB is best realized by using the Windows-based UPB configuration tool called UPStart. UPStart requires a UPB Interface Module to connect the PC to the powerline, which can be removed after configuring. Once installed, a UPB system can operate without a computer or central controller.

UPStart Is Available Free For Download on All UPB Product Listings » www.HomeControls.com/UPB-Lighting-Appliance-Controls

PULSEWORX UPB LIGHTING CONTROLS

PULSEWORX SWITCHES

- Colors: Choose White, Ivory, Almond, Black, Brown or Grey
- Wallplate not included (see page 57)

WS1D: The WS1D is perfect for controlling incandescent, fluorescent, inductive and magnetic low voltage loads.

- PCWS1D6** Dimmer Switch, 600W **\$138.29**
PCWS1D10 Dimmer Switch, 1000W **\$162.10**
PCWS1D15 Dimmer Switch, 1500W **\$333.76**

Special Wallplate Included

- PCWS1D24** Dimmer Switch, 2400W **\$429.11**

Special Wallplate Included

WS1DL: The WS1DL is designed for LED, CFL, fluorescent, inductive loads, magnetic LV loads, incandescent and halogen.

- PCWS1DL6** Dimmer Switch, 600W **\$138.29**
PCWS1DL10 Dimmer Switch, 1000W **\$162.10**
PCWS1DL15 Dimmer Switch, 1500W **\$333.76**

Special Wallplate Included

- PCWS1DL24** Dimmer Switch, 2400W **\$429.11**

Special Wallplate Included

FOR THREE-WAY OR MULTI-WAY LIGHTING CONTROL

- PCRWS** Auxiliary Remote Dimmer Switch **\$55.50**

**5 Year
Warranty!**

PULSEWORX KEYPAD CONTROLLERS & DIMMERS

The Keypad Load Dimmer is an all-in-one Keypad Controller and Light Dimmer. It incorporates the functionality of our KPC Keypad Controllers and a 400W Dimmer Switch.

- Colors: Choose White, Ivory, Almond, Light Almond, Brown or Grey
- Wallplate not included (see page 57)

- A PCKPLD6** PulseWorx Keypad Load Dimmer, 6 Button **\$342.25**
B PCKPLD8 PulseWorx Keypad Load Dimmer, 8 Button **\$342.56**

PULSEWORX KEYPAD CONTROLLERS

The 6- and 8-Button Keypads can control single lights, trigger dramatic scenes, or send messages to a central controller. Select from 16 commands to be transmitted when each push button is tapped, double-tapped, held or released. Both types are IR compatible.

- Colors: Choose White, Ivory, Almond, Black, Brown or Grey
- Wallplate not included (see page 57)

- A PCKPCW6** PulseWorx KPC Wall Controller, 6-Button **\$257.15**
B PCKPCW8 PulseWorx KPC Wall Controller, 8-Button **\$257.15**

SWITCH BASE

FACEPLATE

WALLPLATE

SIMPLY AUTOMATED SIMPLYBRILLIANT LIGHTING

Simply Automated, an industry leader in home lighting control and home automation, offers the broadest, most cost effective, flexible assortment of products utilizing powerful ultra-reliable UPB technology.

From UPB dimmer controller switch, to UPB lamp module, UPB appliance module, UPB fixture dimmer module, UPB fixture relay module, UPB wall receptacle, UPB low voltage I/O module, UPB tabletop pedestal, scheduler-timer and revolutionary UPB universal controller dimmer base that can take up to 13 different faceplates in 6 color combinations – an industry exclusive.

- UPB switches can be used for stand-alone scene lighting control, or with a central controller
- Wall switches can be programmed to function as dimmers, On/Off switches, transmitters, or all three
- 200 dimming steps and variable fade rate can be programmed, from instant-on to a fade rate of up to one hour
- The LED lights on the dimmers can be programmed to show a different color for a different load status, and a locally switched dimmer can be programmed to send a status report to the controller

STEP 1 PICK A CONTROLLER BASE

SAI UNIVERSAL DIMMING CONTROLLER BASE

The Simply Brilliant US2-40 is a universal solution for UPB control. With ability to perform simple single rocker to multi-rocker/button functions, it is used in most any light control application.

Custom lighting scenes at the touch of a button, in your living room, family or great room, kitchen, study master bedroom/bathroom, and office. Turn on or off all lights in your home. From creating a "virtual" 3-way switch anywhere in your home, to turning on a group of lights when your garage door is opened, door bell or phone rings, or your alarm system is armed/disarmed/alarmed, Simply Automated offers simple and flexible solutions.

- On/Off control, 200 Dimming steps and Resume Dim
- Compatible with all Rocker and Button Faceplates (not Scene Faceplates)

SAUS240 Universal Switch Base **\$79.95**

SAUS2240 Universal Switch Base, Dual Circuit **\$179.95**

Controls 2 Separate Circuits, 2x550W & Countdown Timers

SAI DEDICATED REMOTE CONTROLLER BASE

- Compatible with SAZS11 or SAZS12 Rocker Faceplates only

SAUSR40A Dedicated Remote Controller Base **\$24.95**

SAI STANDARD DIMMING CONTROLLER BASE

The SimplyBrilliant US1-40 single rocker dimming controller is used wherever multi-rocker or multi-button dimmers will never be required. The adjustable response time feature allows these switches to turn on quickly. The light level status can be automatically transmitted whenever the rocker is pushed.

- Compatible with SAZS11 Rocker Faceplates only

SAUS140 Standard Dimming Controller Base **\$69.95**

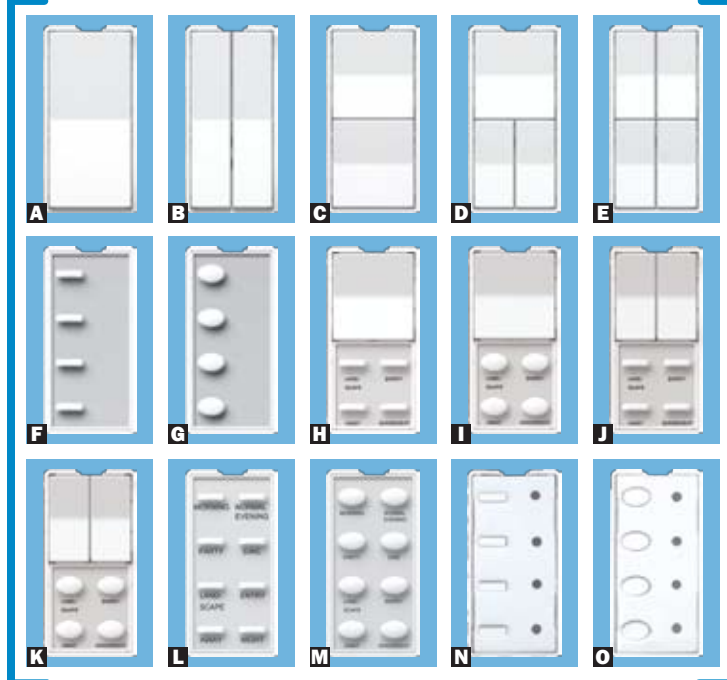

SAI SCENE CONTROLLER BASE

The SimplyBrilliant 4-button scene controller turns On/Off/Dims UPB devices by transmitting UPB scene links. Four green LEDs are configurable and indicate when a lighting scene is active or has been deactivated. Great for applications where the controlled light/loads are not visible.

- Compatible with SAZS240S or SAZS24BS Scene Faceplates only

SAUCQT40 Scene Switch Controller Base **\$74.95**

STEP 2 ADD A FACEPLATE

ROCKER FACEPLATES

UPB Plug-In Modules

LAMP MODULES

UPB LAMP MODULES

This plug-in module controls the operation of 120VAC incandescent lamps based on digital commands received over the powerline.

- On/Off and Dimming control
- Plugs into a standard outlet
- Controlled lamp plugs into the bottom; non-controlled outlet provided on the face of the module
- Color: White

A SAUML20W SAI Lamp Module (Timer), 400W **\$74.95**

A SAUMLEW SAI UPB Lamp Module, 300W **\$64.95**

A PCLM14 PulseWorx Lamp Module, 400W **\$120.25**

D LV59A001 HAI/Leviton UPB Lamp Module **\$79.95**

2 Channel: Provides 800W at any one time split between 2 channels. Plug the module into any standard wall outlet and plug lamps into the 2 bottom outlets.

B PCLM28 UPB Lamp Module, 2-Channel **\$222.00**

APPLIANCE MODULES

UPB APPLIANCE MODULE

This plug-in module controls the operation of 120VAC appliances, motors and fluorescent lamps based on digital commands received over the powerline.

- On/Off control for appliances
- Plugs into a standard outlet
- Controlled device plugs into the bottom; non-controlled outlet provided on the face of the module
- Color: White

C SAUMA20W SAI UPB Appliance Module (with Timer), 15A **\$74.95**

C SAUMAEW SAI UPB Appliance Module, 12A **\$64.95**

C PCAM112 PulseWorx UPB Appliance Module, 12A **\$120.25**

D LV60A001 HAI/Leviton UPB Appliance Module **\$104.95**

Find More UPB Plug-In Modules Online, Along With Additional Specs & Details.
» www.HomeControls.com/UPB-Plug-In-Modules

INTERFACE MODULES

UPB POWERLINE INTERFACE MODULE (PIM)

These plug-in modules enable computer-based configuration of UPB devices and control of household lighting, appliances and other devices over the powerline.

- Plugs into standard outlet

E SAUMCDB9W SAI UPB PIM, RS232 **\$94.95**

Has A Non-Controlled Power Outlet On The Module Face

F SAUMCUSBW SAI UPB PIM, USB **\$94.95**

G LV36A001 HAI/Leviton UPB PIM (& Cable) **\$84.95**

H PCPIMR PulseWorx UPB PIM, RS232 **\$166.50**

I PCPIMU PulseWorx UPB PIM, USB **\$185.00**

ELKUSB232 RS232-to-USB Cable **\$34.95**

Addressable PIM designed to provide an assigned Unit ID for any RS232 controller in an UPStart network file.

J PCPIMA PulseWorx UPB Addressable PIM **\$166.50**

UPB INPUT/OUTPUT MODULE

Identifies and transmits the status of low voltage inputs and contact closures, and controls the operation of low-power actuators based on digital commands.

- Detects events such as a ringing phone or doorbell, monitors alarm outputs, switches on doors and windows, or senses signals from a sound system
- Outputs deliver On/Off control for low-power electrical devices

SAUMI32W SAI UPB 3 Input/2 Output Module **\$94.95**

PCICM PulseWorx UPB Input Module **\$185.00**

PCOCM PulseWorx UPB Output Module **\$185.00**

UPB Wire-In Modules

SAI UPB RECEPTACLE

A wire-in duplex receptacle designed to control the operation of 120VAC appliances and lighting.

- Provides On/Off and timed control for lighting and appliances up to 12A
- Power to the top outlet is controlled by UPB; bottom outlet is always powered
- Wallplate included
- Colors: Choose White, Ivory, Light Almond or Almond

SAURD30 UPB Receptacle **\$94.95**

SAI UPB FIXTURE DIMMER & FIXTURE RELAY

UPB Fixture Dimmers and Fixture Relays are wire-in modules designed to control remote lighting and ceiling fixtures.

- Dimmers deliver On/Off and Dimming for lamps up to 300W
- Relays deliver On/Off control for appliances up to 12A

These modules fit easily inside a standard outlet box. Fixture modules connect directly to the existing household power wiring. A traveler wire allows operation with a remote switch.

SAUFR30 UPB Fixture Relay Module (with Timer) **\$84.95**

SAUFD30 UPB Fixture Dimmer Module (with Timer) **\$84.95**

PULSEWORX UPB FIXTURE DIMMER & FIXTURE RELAY

PCFMD24 UPB Fixture Dimmer Module, 2 Output, 400W **\$166.50**

PCFMR120 UPB Fixture Relay Module, 20A **\$166.50**

AVAILABLE COLORS

SAI UPB SCHEDULER-TIMER

This UPB Scheduler-Timer is easy to program. Once the unit is set for time, date and location (zip code or latitude and longitude) there are only 2 displays needed to add devices, link scenes and set up events. The UPB Scheduler-Timer automatically adjusts time referenced to the nationally synchronized power grid; it knows when daylight savings and leap years occur and even when the sun rises and sets for your location.

- New Tools Menu: works like a pocket programmer; add devices to a network, change receive links, monitors signal/noise levels, logs noise, and more
- New 'Link Mode' for easy Vacation Mode change
- No computer interface required
- Easy push button and display to set time and control devices (events)
- 250 devices and 99 events
- Schedule modes: On, Off, Vacation, All On and All Off
- Each device event can function as On/Off, Dim, scenes and random

- Real-time clock maintains time in the event of a power outage for up to one week
- Includes power cord for tabletop and right angle power plug for outlet mount
- Doubles as a Computer Interface Module (CIM) allowing connection of a PC with UPStart to a UPB network

SAUCS01 UPB Controller, Scheduler-Timer **\$159.95**

PULSEWORX TIMED EVENT CONTROLLER

The Timed Event Controller (TEC) is an automation timer device that transmits and receives digital commands and status over the existing powerlines at preset times. Designed in a small plug-in enclosure. The TEC can be programmed to control single lights, trigger dramatic scenes, or send messages to a central controller.

The TEC stores up to 20 individual timed events. Each event can be configured to occur daily, during the work week, on weekends, on specific days of the week, or on a specific day of the year. Event times can be specified as absolute times or relative to sunrise or sunset times.

PCTEC Timed Event Controller **\$277.50**

UPB TABLETOP KITS

TABLETOP PEDESTAL KITS

- Includes power cord
- Colors: Choose White or Black

A SAUS2TP Tabletop Pedestal with SAI Universal Transceiver Switch Base **\$94.95**

Requires Faceplate, SAZSxx Series, See Page 17

B SAUS280TP Tabletop Pedestal with SAI 8-button Universal Transceiver Switch **\$119.95**

SAUSQT Tabletop Pedestal with SAI 4-Status LED 4-button Scene Controller, Oval **\$119.95**

PCKPCD6 Tabletop Pedestal with PulseWorx 6-Button Keypad Controller Switch **\$286.75**

PCKPCD8 Tabletop Pedestal with PulseWorx 8-Button Keypad Controller Switch **\$286.75**

LV38A16 Tabletop Pedestal with HAI/Leviton Scene Switch **\$199.95**

TABLETOP PEDESTAL CONVERSION KITS

- Includes power cord and assembly hardware
- Colors: Choose White or Black

SAZTP2 SAI Tabletop Pedestal Kit **\$24.95**

Converts any SimplyBrilliant Switch into a plug-in tabletop controller

LV38A15 HLC Tabletop Pedestal Kit **\$39.95**

Converts any HAI/Leviton Scene Switch or House Status Switch into a plug-in tabletop controller

REMOTE CONTROL OF UPB SYSTEMS

REMOTE UPB CONTROLLER

The new Remote Universal Controller is the most advanced remote UPB setup, management and trouble-shooting appliance on the market today, and now it also supports Z-Wave, X10 and ESI drapery controllers! Run UPStart from your desktop so you can manage, setup, change and trouble-shoot the UPB network at your office or your customer's home.

Any other remote access device has to replicate all of UPStart's setup, management, trouble-shooting and diagnostic capabilities. Not so with the Remote Universal Controller – just run the latest version of UPStart on your local PC and you will be able to apply new UPStart features immediately.

There are smart phone apps already available for the RUC, but its ability to generate or accept HTTP Post requests makes it a natural building block in a diverse TCP/IP control network. It maintains the current date, automatically adjusts for daylight savings time and leap year, can control events based on local sunset and sunrise, and utilizes flash memory to ensure the correct operation of all functions after power outages.

WMRUC01K Web Mountain Remote UPB Controller Kit **\$269.95**

Includes Remote UPB Controller & Interface Module

CUSTOMER FAVORITE!

SIMPLY SMART PRE-CONFIGURED KITS

SAI UPB PRE-CONFIGURED KITS

Utilizing SimplySmart technology, the UPB Dimmer and Lamp Module Pre-Configured Starter Kits come programmed at more than a 10% savings! Custom scenes, connecting up to 250 switches in the living, family or great room, kitchen, study, master bedroom/bathroom and office. Turn off all lights in your home at the touch of a button.

- Homes should be no more than 2,500 sq. ft. and have only one breaker panel, or install phase coupler (model SAZPCI) for larger homes
- Wallplates not included (see page 57)

A SADKIT01 UPB Dimmer Pre-Configured Starter Kit **\$224.95**

Includes 2 Standard Single Rocker Dimmers & 1 Deluxe Dimmer Controller Base With Single Rocker & 4 Button Faceplate

SADKIT02 UPB Lamp Module Pre-Configured Starter Kit **\$179.95**

Includes 2 Lamp Modules & Tabletop Pedestal With 4-Button Faceplate

Find Even More UPB Pre-Configured Kits Online » www.HomeControls.com/UPB-Kits

UPB PHASE COUPLERS & REPEATERS

SAI UNIVERSAL INVERTING PHASE COUPLERS

To ensure the most reliable installation, an inverting phase coupler is recommended for every breaker panel in a 2-phase home. Inverting phase couplers provide higher signal levels between phases and also pass X10 and broadband.

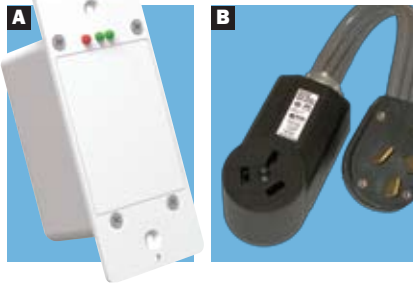

A SAZPCIW Inverting Phase Coupler, wire-in **\$69.95**

SAZPCIB Inverting Phase Coupler, breaker panel **\$69.95**

Fits Cuttler-Hammer, Square-D, Murray, GE

B SAZPCIP30A Inverting Phase Coupler, plug-in, 30A **\$79.95**

B SAZPCIP50A Inverting Phase Coupler, plug-in, 50A **\$79.95**

PULSEWORX PHASE COUPLERS

PCPPC1 PulseWorx Passive Phase Coupler, wire-in **\$92.50**

HAI/LEVITON PHASE COUPLER

LV39A001 HAI/Leviton Phase Coupler, wire-in **\$79.95**

3-PHASE REPEATERS

The 3-Phase Repeater is specifically designed to repeat a UPB message onto phases of an AC powerline (3-Phase AC Powerline). It is capable of receiving a UPB message on 1 of the phases and repeating it onto all 3 phases.

SAUTR SAI 3-Phase Repeater **\$359.95**

PCTPR120 PulseWorx 3-Phase Repeater **\$601.25**

LV39A003 HAI/Leviton 3-Phase Repeater **\$534.95**

SPLIT PHASE REPEATERS

Increase powerline communication reliability by taking UPB messages transmitted on one phase (leg) and strongly repeating them onto the other phase (leg).

PCSPR1 PulseWorx Split Phase Repeater, wire-in **\$416.25**

LV39A002 HAI/Leviton Split Phase Repeater, wire-in **\$374.95**

UPB TO X10 BRIDGES & CONTROLLERS

X10/UPB COMPACT BRIDGE

- Add UPB devices to your X10 system
- Add X10 devices to your UPB system
- Operates alone or attached to legacy X10 controller
- Supports UPB and X10 extended and scene commands

FS100011003 X10/UPB Compact Bridge **\$114.95**

X10/UPB/FGI BRIDGE

All Compact Bridge capabilities, plus:

- Bridges X10 and UPB systems to FGI hard-wired devices
- Run-time monitoring, control and data logging from PC

FS100022003 X10/UPB/FGI Bridge **\$164.95**

FSFG024300 FGI Temp Sensor,

Transition Input **\$44.95**

FSFG02400010 FGI Temp & Humidity Sensor,

Transition Input **\$69.95**

FSFG03202000 FGI Quad Input/Quad Relay

& Solenoid Driver Output **\$49.95**

FSFG032060 FGI Octal Input/Quad Relay Output,

Non-latching **\$89.95**

FSFG056008 FGI 16 Security Input Sensor,

8 Transition Inputs **\$84.95**

X10 & UPB COMPACT CONTROLLERS

- Single protocol automation controller
- Supports UPB and X10 extended and scene commands
- Run-time monitoring, control and data logging from PC
- Open interface protocol supports programs you write
- Intuitive configuration of device interactions
- Extensive timer, macro and operating mode capabilities
- Native monitoring, control and configuration access via LAN, wireless LAN and the Internet

FS100011083 UPB Compact Controller **\$149.95**

FS100011081 X10 Compact Controller **\$149.95**

FS100033083 X10/UPB/FGI Bridge Plus **\$184.95**

*Has Features Of Bridge & Compact Controller Combined,
Plus Double The Memory*

PULSEWORX X10-TO-UPB BRIDGE

The X10-to-UPB Bridge is a small plug-in device that converts standard X10 formatted messages into corresponding UPB signals, and then transmits over the existing powerlines to control UPB devices.

Ideal for integrating UPB devices with an X10 security system.

PCPW513 X10 to UPB Bridge **\$166.50**

PULSEWORX X10-TO-UPB CONVERTER

The X10-to-UPB Converter is a small plug-in device that converts standard X10 formatted messages sent on the AC powerline into corresponding UPB signals to control your UPB devices. Ideal for indoor home use.

PCXPW713 X10-to-UPB Converter **\$185.00**

Need Help Putting Together Your UPB System? Home Controls offers FREE Technical Support & Advice.

» 800-266-8765 or www.HomeControls.com/TechSupport-Design

CONTROL UPB WITH IR

IR UPB MODULE

Gain additional control over a UPB system by simply using your IR remote control. The IR UPB Module transmits any UPB command triggered by a single incoming IR code from almost any hand-held remote controller. Both IR and UPB codes are learned by the IR UPB Module from external transmitting devices.

- Includes UPB Powerline Interface

MIIRUPBM IR-to-UPB Interface Module **\$174.95**

CONTROL UPB WITH ENOCEAN

RF UPB MODULE

Receive RF code from any EnOcean device and translate into a UPB signal. This allows control from any location with any EnOcean RF switch, remote or sensor.

EnOcean is an RF communication and hardware standard that uses kinetic energy to charge a built-in capacitor which in turn broadcasts the RF code. See www.homecontrols.com/EnOcean-Lighting-Appliance-Controls for EnOcean products.

PCRFE EnOcean-to-UPB Interface Module **\$187.50**

SkylinkHome Lighting Controls

SkylinkHome is a wireless control system that allows you to control almost anything electronic in the home, including lamps, garage doors, security systems and coffee makers. Control is easy and flexible with its SkylinkPad, a credit card size remote, and several receiver options. The entire system covers up to 500'!

SKYLINK REMOTES

SKYLINK PAD

At the center of the Skylink system is the Skylink Pad, a wireless control system that allows the user to control almost anything electronic in the home, including lamps, garage doors, security systems, and coffee makers. The credit card size of pad comes in six options with up to 14 buttons to control various household items. Carry this credit card size pad to control your home!

- Up to 500' operating range in an open area
- Can dim if controlling a dimmable receiver and dimmable load
- Mounting bracket allows you to wall mount by screws or to fridge (metal surface) by magnetic tape

- A SKTC3181** Skylink Pad 1-Button Remote **\$14.95**
B SKTC3182 Skylink Pad 2-Button Remote **\$15.95**
C SKTC3183 Skylink Pad 3-Button Remote **\$16.95**

- D SKTC3187** Skylink Pad 7-Button Remote **\$18.95**
E SKTC31810 Skylink Pad 10-Button Remote **\$20.95**
F SKTC31814 Skylink Pad 14-Button Remote **\$21.95**

SMART PHONE CONTROL

SKYLINKHOME INTERNET HUB

By integrating the SkylinkHome Internet Hub into your SkylinkHome wireless control system, you can easily control all your SkylinkHome devices over the Internet, from anywhere in the world.

- Operating range up to 300 feet from other devices
- Free remote control apps available for iPhone, iPad or Android

SKHU318 SkylinkHome Internet Hub **\$94.95**

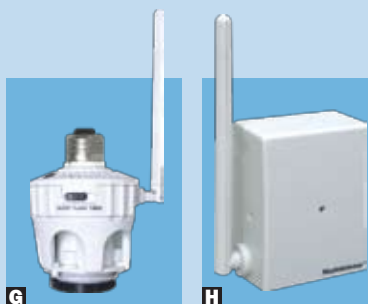

SKYLINK PLUG-IN MODULES

- G SKLS318** Skylink Screw-In Dimmer Module **\$39.95**
SKLX318 Skylink Mini Screw-In Dimmer Module **\$26.95**

The SkylinkHome Plug-In Dimmer allows you to wirelessly turn on and off, dim and brighten connected lights with the SkylinkHome transmitters. Can communicate with up to 8 transmitters.

- H SKPL318** Skylink Plug-In Dimmer Module **\$26.95**
H SKPR318 Skylink Plug-In Dimmer Module with Repeater **\$29.95**
SKPA318 Skylink Plug-In On/Off Control Module, In/Outdoor **\$29.95**

SKYLINK WIRE-IN MODULES

Operates incandescent light or dimmable compact fluorescent light with a maximum load of 300W at 120VAC.

SKMD318 Skylink Wire-In On/Off plus Dim Module **\$26.95**

Operates lights with a maximum load of 600W at 120VAC.

SKMR318 Skylink Wire-In On/Off Module **\$26.95**

MOTION SENSOR

- Turn lights on when motion is detected
- Turn lights off after 5, 30 or 60 minutes
- Can be set to only turn lights on when it is dark

SKID318 Skylink Motion Sensor **\$24.95**

SKYLINK SWITCHES

WALL SWITCH TRANSMITTER

The SkylinkHome wall switch transmitter is completely wireless. It easily mounts anywhere! Regular rocker style wall switch

- Wireless wall switch or 3 way switch
- Control lights On / Off and Dim

A SKTB318 Wall Switch Transmitter **\$21.95**

ON/OFF WALL SWITCH

Replace existing wall switch

- No neutral wire is needed
- Operates up to 1,000W load, including fan or CFL
- Two modes for different applications: On/Off; and countdown timer

E SKWE001 On/Off Wall Switch **\$29.95**

DIMMER WALL SWITCH

Replace existing wall switch

- No neutral wire is needed
- On/Off/Dim operation
- Operation modes (up to 300W load)
- Three modes for different applications: On/Off; countdown timer; and flashing alert

E SKWR001 Dimmer Wall Switch **\$29.95**

SKYLINK SNAP-ON REMOTE

Remote control for On/Off/Dim that docks onto Skylink Wall Dimmer or Wall Switch.

SKTM318 Snap-On Remote **\$16.95**

SKWE318 On/Off Wall Switch with Snap-On Remote Kit **\$44.95**

SKWR318 Dimmer Wall Switch with Snap-On Remote Kit **\$39.95**

Z-Wave Lighting Controls

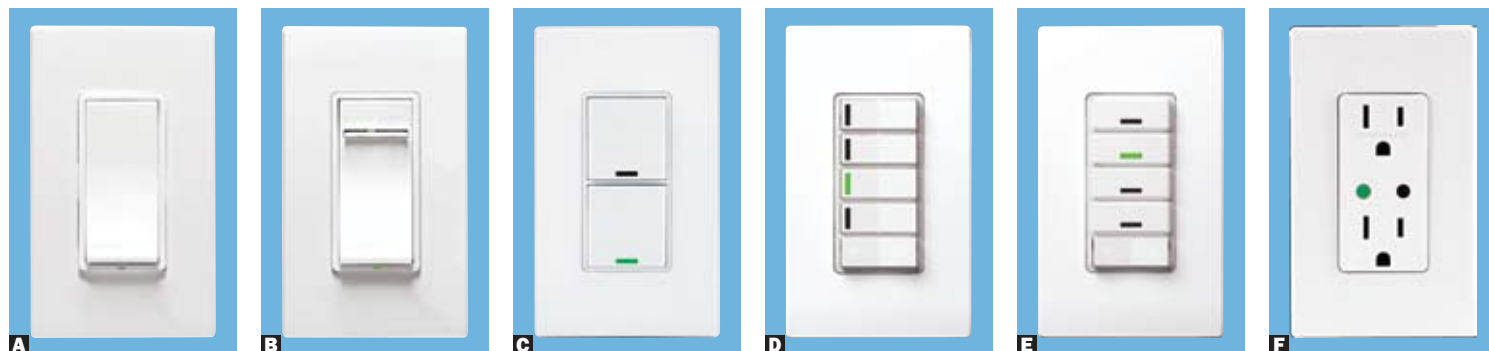

LEVITON VIZIA RF +

The Vizia RF + product family captures the essence of smart lighting control with its embedded Z-Wave radio frequency technology and stylish form factor. Vizia RF + features wireless communication, 2-way control, scene and zone control and remote control operation. Vizia RF + products give homeowners the ability to control lighting and select household devices with the touch of a button. And it does it all by simply replacing standard switches with intelligent Vizia RF + components.

Vizia RF + can control individual zones and scenes, filling a room with light or adding security and safety. You can customize scenes by presetting lighting levels and labeling the buttons. Zone control delivers the flexibility to control an area of lights across

the room or throughout the home. At the touch of a button, the zone controller can turn off all the outside lights or those in the basement, entryway or family room. For added security, you can even create a lived-in look while away.

- Convenient: Press a button to turn on groups of lights in or around your home
- Ready to Install: No need for complex and expensive rewiring. Simply replace existing switches with dynamic 1, 2, or 4-button control
- Adaptable: Customize the system for your lifestyle
- Compatible: Works with Z-Wave devices like shades, thermostats and more to create a complete home control system

VIZIA RF + Z-WAVE WALL SWITCHES

VIZIA RF + SWITCHES

Vizia RF + Scene Capable Switches provide local and remote On/Off switching for Incandescent, Fluorescent, Electronic Low Voltage and Magnetic Low Voltage lighting loads (5A switch is for Incandescent loads only).

A LVVRS151LZ Vizia RF + Switch, 15A \$101.95

15A Scene Capable Switch for single pole, 3-way or more applications

A LVVRS051LZ Vizia RF + Switch, 5A \$91.95

5A Incandescent Scene Capable Switch for single pole, 3-way or more applications

VIZIA RF+ DIMMERS

Vizia RF + Scene Capable Dimmers provide local and remote On/Off/Dim/Bright control for Incandescent, Electronic Low Voltage and Magnetic Low Voltage lighting loads. Vizia RF + Dimmers also provide scene control capability.

B LVVRI061LZ Vizia RF + Dimmer, 600W \$91.95

600W Incandescent Scene Capable Dimmer for single pole, 3-way or more applications, with LED locator and brightness display.

B LVVRI101LZ Vizia RF + Dimmer, 1000W \$107.95

1000W Incandescent Scene Capable Dimmer for single pole, 3-way or more applications, with LED locator and brightness display.

B LVVRM11LZ Vizia RF + Magnetic Dimmer \$171.95

1000VA Magnetic Low Voltage, 1000W Incandescent and Mark 10 Scene Capable Dimmer for single pole, 3-way or more applications, with LED locator and brightness display.

DIMMER REMOTES

B LVVP00R1LZ Vizia Matching Remote \$21.95

120VAC Matching Dimmer Remote to 120VAC Dimmers/Fan Speed Control for 3-way or up to 5 location applications with LED locator and brightness/fan speed display.

LVVP00R10Z Vizia Coordinating Remote \$18.95

120VAC Coordinating Dimmer Remote to 120VAC Dimmers/Fan Speed Control for 3-way or up to 10 location applications (No LEDs).

VIZIA RF + FAN SPEED CONTROL

Vizia RF + Quiet Fan Speed Control ensures quiet fan control with 3 operation levels: low, medium and high.

B LVVRF011LZ Vizia RF + Fan Speed Control \$151.95

VIZIA RF + CONTROLLERS

Vizia RF + Wall Controllers are ideal for remote control of one or multiple Vizia RF + scene-capable devices.

- 1-button controllers are ideal for control of a single zone or lighting scene
- 2-button controller provides remote control of two lighting scenes as well as On/Off switching for two lighting loads in one wallbox
- 4-button controllers provide remote control of four zones or lighting scenes as well as On/Off switching for one lighting load

A LVVRC11LZ Vizia RF + 1-Button Scene Controller \$81.95

1-Button Scene Controller/Virtual Switch Remote 3-way RF Controller for multi-location control, with LED locator.

B LVVRC211LZ Vizia RF + 1-Button Zone Controller \$81.95

1-Button Zone Dimming Controller/Virtual Dimming Remote 3-way RF Controller for multi-location control, with LED locator and brightness display

C LVVRC2MRZ Vizia RF + 2-Button Scene Controller \$158.95

2-Button Scene Controller with Switches for Multi-Location Scene Control.

D LVVRC24MRZ Vizia RF + 4-Button Zone Controller with Switch, 1800W \$209.95

4-Button Zone Controller with Switch for Multi-Location Control with IR Remote.

LVVPZLBZ4 Vizia RF + 4-Button Scene Controller Label Kit \$56.95

E LVVRC4MRZ Vizia RF + 4-Button Scene Controller with Switch, 1800W \$209.95

4-Button Scene Controller with Switch for Multi-Location Scene Control with IR Remote.

VIZIA RF + SCENE CAPABLE RECEPTACLE

F LVVRR151LZ Vizia RF + Scene Capable Receptacle \$118.95

Coordinate your home's lighting with non-RF Vizia switches and dimmers.

White face assembled on all Vizia devices; Ivory and Almond faces also included. Color Change kits available for all Vizia switches and controllers in White, Light Almond, Ivory, Brown, Black, Grey and Red.

Compatible with Leviton's Decora Wallplates (not included). See Page 57.

JA45613 Z-Wave 3-Way Dimmer Kit, 600W \$62.95

JA45614 Z-Wave 3-Way Kit, 600-1800W \$44.95

LINEAR Z-WAVE SWITCHES

The Linear Z-Wave wall switches allow remote On/Off control and dimming of connected lights. The Z-Wave Wall Mount Dimmer is easily wired in place of a standard wall dimmer. This device requires a neutral connection.

- Unique to Linear, the Auto-Sense feature allows for local lamp activation independent of the Z-Wave controller status
- Dimmer Switch: 500W (4A) max load
- Wall Switch: 960W (8A) max incandescent load, 1800W (15A) max resistive load
- Color: White
- Wallplate included

LNWD500Z1 Z-Wave Dimmer Switch, 500W \$43.96

LNWS15Z1 Z-Wave Switch, 96-1800W \$43.96

LNWT00Z1 Z-Wave Add-On Auxiliary Switch \$43.96

LINEAR Z-WAVE ISOLATED CONTACT FIXTURE MODULE

This module can be mounted in a single- or multi-gang electrical box to operate loads or control relay-based devices. The relay can be isolated for dry contact applications or powered to switch live loads.

- This device can operate loads up to 277v.

LNFS20Z1 Linear Z-Wave Isolated Contact Fixture Module \$47.96

AEON LABS IN-WALL MICRO SWITCH

In addition to enabling Z-Wave command and control (on/off), this device can also report the switch's immediate wattage consumption or kWh energy usage!

AEDSC26103ZWUS Aeon Labs Z-Wave Micro Appliance Switch \$44.95

AEDSC27103ZWUS Aeon Labs Z-Wave Micro Light Dimmer \$44.95

Z-WAVE WALL CONTROLLERS

GE Z-WAVE KEYPAD CONTROLLER

The GE Z-Wave Wireless Keypad Controller allows you to create and manage custom lighting scenes right from an easy-to-use wall-mounted screen. The keypad provides control for up to four groups and four scenes, and features soft touch buttons that emit an ambient LED amber glow when pressed.

- Supports up to four groups and four scenes
- Low profile design matches standard wall plates
- Compatible with all Z-Wave certified lighting products
- Mounting hardware and batteries included

The keypad is easy to use as a secondary controller – simply copy the network data from your primary controller. The keypad can be mounted using double-sided tape (included) for a quick and easy installation, or with two screws (included).

JA45631 GE Z-Wave Keypad Controller \$49.95

Z-WAVE PROGRAMMING SYSTEMS

LEVITON VIZIA RF + INSTALLER TOOL USB

Packed with exclusive (patent-pending) features, Vizia RF + Installer Tool USB is a full suite of powerful tools to install, optimize, integrate and maintain a high-performance Vizia RF + Home Control System.

LVRUSB1US Leviton Vizia RF + Installer Tool USB **\$86.95**

AEON LABS Z-STICK SERIES 2

The Aeon Labs Z-Stick Series 2 is a self-powered Z-Wave USB dongle with push button for remote network creation (independent from external power and host microprocessor). When attached to a host processor, it becomes a Z-Wave communication device, which exposes the Zensys API (SerialAPI) through integrated USB. This device is meant primarily to allow a host processor to control up to 232 Z-Wave devices using the Z-Wave technology protocol all while simplifying Z-Wave network installation.

AEDSA02203ZWUS Aeon Labs Z-Stick Series 2 **\$59.95**

AEDSA07203ZWUS Aeon Labs Z-Stick Lite **\$44.95**

NAPCO EXPANDS WITH Z-WAVE CONTROLS

NAPCO iBRIDGE

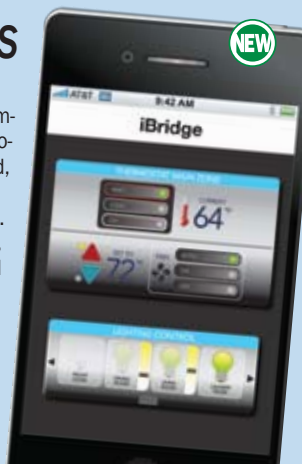

Napco's new iBridge expands a new or existing Gemini security system to communicate with Z-Wave devices, allowing you to control lighting, locks, thermostats and more. The module simply mounts on the bus of your Gemini keypad, which is used to control the connected Z-Wave devices.

At the heart of the system is the iBridge Z-Wave Device Support Module. When used in conjunction with the Napco iBridge Wireless Panel Interface, the module allows you to control connected Z-Wave devices with your keypad or the free iBridge app, available for iPhones, iPads, Androids and iBridge Touchscreens (sold separately).

NPIBRZREMOTE Napco iBridge Z-Wave Device Support Module **\$224.95**

NPIBRWIFMOD Napco iBridge Wireless Panel Interface **\$129.95**

AEON LABS Z-WAVE MINI REMOTE

The Aeon Labs Minimote is a low-cost remote controller focused on end-user ease of use. Network installation is vastly improved via the interface. The Minimote is upgradeable by the end-user such that the latest Z-Wave protocols are always available.

A sliding cover reveals Z-Wave network installation buttons. 4 scene buttons are exposed for easy access.

AEDSA03202x Aeon Labs Aeotec Z-Wave Mini Remote **\$59.95**

Colors: Choose Black or White

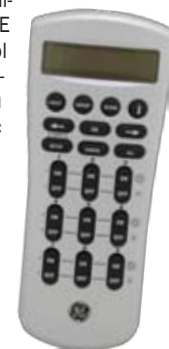

GE Z-WAVE ADVANCED REMOTE

Never forget to turn lights and appliances on/off with help from the GE Z-Wave Wireless Lighting Control Advanced Remote. This easy-to-use handheld remote allows you to schedule up to nine automatic events in your Z-Wave network.

- Program up to nine timed events with advanced timer
- Supports up to 18 individual lights, 18 groups, and 18 scenes
- On-screen LCD men

JA45601 GE Z-Wave Advanced Remote **\$34.95**

KEYCHAIN REMOTE

AEON LABS KEY FOB REMOTE

Aeotec's Key Fob packs all the functionality of larger Z-Wave remote controls into a smaller, more modern design. Crafted to fit on a keyring, the Key Fob has been designed as a Z-Wave remote control that travels with you.

AEDSA22ZWUS Aeon Labs Key Fob Remote **\$49.95**

Z-Wave Security

Z-WAVE SENSORS

AEON LABS Z-WAVE DOOR/WINDOW SENSOR

The Aeon Labs Door/Window Sensor is a battery-powered Z-Wave magnetic door/window sensor with an extremely small form factor. The D/W sensor will send radio signals up to 6 associated Z-Wave devices within its own Z-Wave network when the main unit separates from the smaller unit. Bidirectional mounting plate and push button allows for easy end-user installation.

CUSTOMER FAVORITE!

AEDSB04100ZWUS Aeon Labs Z-Wave Door/Window Sensor **\$49.95**

EVERSPRING Z-WAVE DOOR/WINDOW SENSOR

Monitor activity at any entrance in your home with the Everspring Z-Wave Door/Window Sensor. When the door or window is open, contact is broken between the sensor and the magnet, and the sensor signals your Z-Wave enabled system or alarm (sold separately) to alert you.

- Can signal up to four alert devices

HSSM1031 Everspring Z-Wave Door/Window Sensor **\$46.95**

HOMESEER Z-WAVE MULTI-SENSOR

The HomeSeer Z-Wave Multi-Sensor is primarily intended and supported as a motion sensor – plus it can also function as a temperature, light sensor and battery alert when used with HomeSeer systems! Use it to control Z-Wave devices directly or to trigger HomeSeer automation events.

HSHSM100S3 HomeSeer Z-Wave Multi-Sensor **\$84.95**

AEON LABS Z-WAVE MULTI-SENSOR

The Aeon Labs Multi-Sensor is a battery-powered Z-Wave motion sensor, temperature sensor and lighting sensor all in one. The sensor will send radio signals up to 6 associated Z-Wave devices when the sensor detects IR changes in front of its viewing window.

AEDSB05ZWUS Aeon Labs Z-Wave Multi-Sensor **\$64.95**

EVERSPRING Z-WAVE MOTION SENSOR

When motion is detected, the sensor signals your Z-Wave enabled system.

Install the motion sensor either indoors or outdoors for personalized protection where you need it. Head pivots vertically for easy installation on walls or ceilings.

HSSP1031 Everspring Z-Wave Motion Sensor **\$59.95**

Z-WAVE THERMOSTAT

RCS Z-WAVE THERMOSTAT

The TZ45 is a Z-Wave wireless digital thermostat that contains a robust interface and is designed for use with communicating systems where remote monitoring and/or remote control are desired.

- Standard or Heat Pump HVAC Systems
- Programmable, 4 x 7 day schedule
- 128x64 Backlit Graphical Display
- 6 Buttons with On Screen Labels
- Remote Control of All Thermostat Functions

RCTZ45 RCS Z-Wave Thermostat **\$189.95**

EVERSPRING Z-WAVE TEMPERATURE & HUMIDITY SENSOR

The Z-Wave Temperature & Humidity Sensor warns you when a room's temperature or humidity reaches preset trigger values. When significant change is detected, the sensor signals your Z-Wave enabled system to alert you. Install the sensor either indoors or outdoors for personalized protection where you need it.

Z-WAVE WATER DETECTION & FLOOD PREVENTION

WATERCOP Z-WAVE WATER DETECTION & SHUT OFF

Designed to work with Z-Wave home networks, the WaterCop Z-Wave Electric Actuator Motor is the base control unit for your WaterCop Z-Wave Emergency Water Shutoff system. When combined with the WaterCop valve and moisture sensors, the motor prevents water damage by detecting leaks and/or freezing pipes, then cutting the water supply before your property is ruined.

- Compatible with multiple add-on Water Alarm Sensors

WATERCOP SYSTEM

WaterCop system include one Shut-Off Valve, a WaterCop Motor and one or more Water/Freeze sensors.

A DQWCVLFX WaterCop Shut-Off Valve **\$52.00-\$117.00**

LEAD FREE: Available in 1/2", 3/4", 1" or 1 1/4" Pipe Fitting Sizes

B DQZWACT1 WaterCop Z-Wave Electric Actuator Motor **\$450.00**

C DQZWCF51 WaterCop Z-Wave Wireless Water & Freeze Sensor **\$63.00**

EVERSPRING Z-WAVE WATER/FLOOD SENSOR

The Everspring Z-Wave Water/Flood Sensor helps prevent damage to your property by alerting you to water leaks. When water is detected, the sensor signals your Z-Wave enabled system or alarm (sold separately) to alert you. Install the sensor either indoors or outdoors for personalized protection where you need it.

- Includes built in status LED
- 908.42 MHz Z-Wave network

HST8122 Everspring Z-Wave Water/Flood Sensor **\$69.95**

X10 Lighting Controls

X10 LIGHT SWITCHES & CONTROLLERS

X10 DIMMER SWITCH, INCANDESCENT

- Neutral wire not required

This receiver switch is a mainstay for the bulk of indoor lighting needs. Operates with a simple push on the paddle for On/Off. A continuous press cycles the switch through the Dimming levels. Release when the desired Dim level is reached.

- Turns On to full Bright
- Local or remote Dimming control
- Colors: Includes both White and Ivory
- Wallplate not included (see page 57)

A XPXPD13IW X10 Dimmer Switch, Single Pole & 3 Way **\$32.95**

A XTWS14A X10 Slave Switch **\$14.95**

For 3-Way Operation; Requires 3-Way Dimmer Wall Switch (Includes Wallplate)

X10 APPLIANCE SWITCH

- Control appliances, fluorescent lights and low voltage
- 1 pole and 3-Way control

This switch controls indoor lighting or outdoor lighting switched from indoors, ceiling fans (On/Off only), outlets controlling audio systems, appliances, and more.

- Requires neutral wire
- Responds to On/Off and All Lights On/All Off
- Colors: Includes both White and Ivory
- Wallplate not included (see page 57)

A XTWS13A X10 Appliance Wall Switch, 20A **\$31.95**

A XTWS14A X10 Slave Switch **\$14.95**

For 3-Way Operation; Requires Appliance Wall Switch

XPXPS2 X10 Pro Heavy Duty Switch **\$44.99**

Supports On/Off and All Lights On/All Off. Rated at 20A, 250 VAC and up to 2Hp for motors. Color: Ivory

EASY WIRELESS SWITCHES!

X10 WIRELESS WALL SWITCH

This switch attaches to any wall ... no wiring! It then works as any standard X10 controller, sending remote X10 signals up to 100' to a base transceiver. The transceiver then transfers the command to your powerline and thus controls any X10 module in your house.

- The 4-button unit controls 3 sequential X10 address, plus Dim
- Use in conjunction with any X10 Transceiver
- Color: White
- Wallplate included

XTSS13A Wireless Wall Switch **\$16.95**

DESKTOP CONTROLLER

X10 MINI-CONTROLLER

Just plug it in and you're done!

Turns On/ Off up to 8 X10 lights and appliances.

The X10 Pro Desktop Mini Controller gives you manual control of up to eight X10 Receiver Modules of various formats. Just plug it in and you are in control! This Controller turns On/Off up to eight X10 lights and appliances connected to X10 Receiver Modules. It features On/Off, Bright/Dim, All Lights On and All Units Off Command Buttons. The Selector Switch assigns the 4 On/Off Buttons to control the X10 Receiver Modules set to Unit Codes 1-4 or 5-8.

XTMC10A X10 Mini-Controller **\$25.95**

AVAILABLE COLORS

For Products On This Page

○ WHITE ○ IVORY

TIMER CONTROLLER

X10 MINI-TIMER

Push-button controller, alarm clock and programmable timer all in one! The X10 Mini-Timer with built-in keypad automatically controls up to 8 X10 modules, including All Lights On/All Units Off – and now dimming.

The Mini-Timer allows for a total of 64 On, Off or combination of On and Off. Times can be distributed between unit codes 1 through 8. A security button automatically turns On various X10 devices at a approximated scheduled time, to give a home a lived-in look while the owners are away. The timer offers an alarm with buzzer and snooze button in an attractive table top design with LCD display.

Also accepts 2 AA batteries in case of a power outage.

XTMT13A X10 Mini-Timer **\$54.95**

X10 WIRELESS

X10 KEYCHAIN WIRELESS REMOTE

Turn On lights and sound from inside or outside a home! Convenient black Keychain Wireless Remote has buttons that can be programmed to send any consecutive unit codes. Security and convenience!

- Uses CR2025 battery
- Use in conjunction with any X10-compatible Transceiver

XTKR19A X10 Keychain Wireless Remote **\$14.95**

X10 HANDHELD WIRELESS REMOTE

Issue X10 commands anywhere within 100' of a plug-in base transceiver with this 8-button RF Wireless Remote. Remote controls unit numbers 1-8 or 9-16 (switch selectable).

- Use in conjunction with any X10 Transceiver
- Uses 4 AAA batteries
- Color: White

XTHR12A X10 Handheld Wireless Remote **\$14.95**

X10 CREDIT CARD WIRELESS REMOTE

The compact, water-resistant controller is aptly named for its small, credit-card style design. Turn on/off devices connected to Appliance Modules, dim/brighten lights connected to Lamp Modules and more!

- Use in conjunction with any X10 Transceiver
- Operating range up to 100'

XTKR22A X10 Credit Card Wireless Remote **\$14.95**

X10 PLUG-IN MODULES

X10 LAMP MODULE

The X10 Lamp Module is the simplest and most effective way to control lights.

- On/Off and Dim/ Bright control
- Override the module at the switch
- Soft Start/Fade Off feature

The X10 Lamp Module plugs into any standard 110V household outlet and gives the ability to remotely control any incandescent light you plug into the module (up to 300W). The Lamp Module is a receiver that reacts to X10 signals generated by X10 transmitters (pages 18-20) elsewhere on the powerline.

XTLM465 X10 Lamp Module **\$19.95**

X10 SCREW-IN MODULE

For lights without a plug-in cord. Electronic programming ... no code wheels! Responds to On/Off, All On/Off (non-Dimming).

- 150W incandescent
- Tiny size: Only 2 1/2" x 1 1/4" (plus 3/8" bump on one side)

XTLM15A X10 Screw-In Lamp Module **\$19.95**

X10 APPLIANCE MODULE

The X10 Appliance Module works the same way as the X10 Lamp Module, but handles larger 110V loads, up to 15A or 1/3 horsepower and incandescent loads up to 1800W. Use it with timers, manual and intelligent controllers, telephone responders and a variety of other X10 devices for virtually limitless control of lights and appliances throughout your home.

- On/Off control, All Off (Does not respond to All Lights On or Dim/Bright commands)
- Override this module at the switch

XTAM486 X10 Powerhouse Appliance Module, 2 Prong **\$19.95**

XTAM466 X10 Powerhouse Appliance Module, 3 Prong **\$20.95**

X10 CHIME MODULE

The Remote Chime is designed to provide a pleasant annunciator chime. It can be activated using the correct House Code and Unit Code from any X10 controller, such as the Power Flash Interface or the Mini Controller.

- 120VAC, 60Hz; 1 Watt

XTSC546A X10 Chime Module **\$21.95**

X10 WIRELESS TRANSCEIVERS

X10 TRANSCEIVERS

Transceiver modules are an integral part of an X10 wireless system. These modules accept commands from X10 remote controls and wireless sensors and converts them to X10 signals.

The module also incorporates a built-in outlet (XTTM751 outlet controlled by RF only; XTRR501 outlet controlled by any X10 controller).

A XTTM751 X10 Deluxe Transceiver **\$23.95**

B XTRR501 X10 Transceiver **\$35.95**

WGL X10 TRANSCEIVERS

These X10 Transceivers provide a professional alternative that receives all house codes and offers greater reception range.

- Receives all 256 house/unit code addresses
- External antenna package for extreme range
- Custom house and unit code filtering (optional)
- Filtering settings are not lost during power loss

WG30020 WGL X10 Transceiver **\$84.50**

WG28005 WGL X10 Transceiver, 32-bit (for security system commands) **\$94.75**

CUSTOMER FAVORITE!

X10 USB PC RECEIVER

The USB PC Receiver sends and receives X10 commands to and from your PC. You can use it to control lights, appliances and other modules. The receiver can also receive commands from X10 motion sensors and remote controls. It works with all X10 software.

XTCM19A X10 USB PC Receiver **\$21.95**

X10 WIRE-IN MODULES

X10 SPLIT RECEPTACLE

- X10 control on top
- Bottom is always live

The X10 control elements are built-in, so Lamp Modules aren't necessary. Rated at 15A. Responds to On/Off, All Units Off commands, but not All Lights On or Dim/Bright. Controlled devices may still be controlled with local switches.

- Color: White
- Wallplate included

A XTSR227 X10 Pro Split Receptacle **\$25.95**

X10 DUPLEX RECEPTACLE

- Both outlets X10 controlled; Responds to On/Off, All Off; No local control
- Color: White
- Wallplate included

A XPXPRW X10 Pro Duplex Receptacle, 20A **\$34.95**

X10 FIXTURE MODULE

These high-quality in-line modules mount inside a fixture, box or recessed can lighting to give X10 control where a wall switch or outlet receiver cannot be used. A real problem solver!

- Size: 2" x 3" x 1 1/4"
- For fluorescent lights, appliances and ceiling fans
- Rated 15a 125V for inductive loads. Responds to On/Off and All Lights On/All Off commands. Non-Dimming

XPXPFM X10 Wired-In Inductive Fixture Module **\$30.95**

X10 WIRELESS SECURITY

X10 SECURILINK SECURITY CONSOLE

The X10 Supervised Security System Console with automatic dialer calls neighbors or friends in the event of a break in.

- Control via telephone
- 32 Zones of protection
- Built-in lighting timer to deter crime
- No contracts to sign
- Easy do-it-yourself installation – set it up yourself in under half an hour

When the console is triggered, it flashes your home's lights and blares a piercing 95 decibel siren (about as loud as a home stereo on max volume). Plus, it activates the voice dialer system. It calls you first. If you don't answer, it calls five additional programmable numbers (friends, relatives or neighbors) until somebody picks up. When you answer, it plays a recorded message (in your words), letting you know that there is a possible burglary at your home.

Built-in Lighting Timer: Security is about more than a white box that makes noise. It's about crime prevention. One of the most effective ways to deter crime from your property is proper lighting. With a built-in lighting timer, you can set your lights, indoors and out, to come on at random times or scheduled times throughout the day. This gives your home the lived-in look that strikes fear in the heart of burglars.

32 Zones of Protection! SecuriLINK is set up to handle up to 30 zones of X10 Door/Window Sensors and Motion Detectors – any combination of the two. That's enough for even the largest of homes and buildings! In addition, it also allows for two zones of hard-wired sensors. That means you can use third party sensors.

Have a wired water level sensor or glass break sensor? You can wire it into the SecuriLINK Console and have it trigger your alarm. Have a hard-wired motion detector from another security system? Wire it into the SecuriLINK and use it for your current security system!

XTSC1200 X10 SecuriLINK Security Console **\$99.95**

X10 SECURITY COMPONENTS

A XTDS12A X10 SMART Door/Window Sensor **\$17.95**

B XTWD13A X10 SMART Water Detector **\$27.95**

C XTKR32A X10 SMART Keychain Remote **\$19.95**

MORE X10 SECURITY

XTMS16A X10 EagleEye Wireless Indoor/Outdoor Motion Sensor **\$23.95**

XTSH10A X10 Plug-In Powerhorn Siren Module, 105dB **\$21.95**

XTPH508 X10 Plug-In Powerhorn Siren Module, 110dB **\$28.95**

XTSH624 X10 Wireless Security Handheld Remote **\$17.95**

X10 UNIVERSAL REMOTE

X10 WIRELESS MOUSE REMOTE

With the X10 Wireless Mouse Remote and included software, you can remotely control your PC and any X10 module through that PC. Sit on your couch, bring up a website, and turn off the lights – all with the Mouse Remote.

The Mouse Remote works with a wireless RF mouse receiver (included) that connects to the serial or PS/2 port on your PC. To enable remote control for the PC, your existing mouse then connects to the receiver. Use the Mouse Remote to move the mouse pointer, launch a web browser, and even control the CD/DVD drives.

XTMK19A X10 Wireless Mouse Remote **\$29.95**

Includes Mouse Remote, Receiver & Software

X10 ACCESSORIES

X10 UNIVERSAL MODULE

You name it, you can control it! Use this module to open your garage door, switch a drapery motor, trip an auto dialer, remotely switch on speakers in another part of the house, control your home's thermostat, and more. It provides isolated relay contacts to control devices rated up to 5A at 24VDC (100VA at 30 VAC).

- Relay output, 5A at 24VDC

CUSTOMER FAVORITE!

XTUM506 X10 Universal Module **\$30.95**

X10 SECURITY POWERFLASH MODULE

This Powerflash Interface allows almost anything to send X10 signals. Wire the output from your existing security system to this Burglar Alarm Interface and set the module to Mode 2. The plug-in unit sends an X10 signal to receiver devices when a contact closure is made or low-voltage (6-18V AC, DC or Audio) is applied to its terminals.

XTUM506 X10 Security Powerflash Module **\$30.95**

X10 WHOLE-HOME NOISE BLOCK

The Whole-Home Noise Block is ideal for apartment buildings, condominiums, attached-unit dwellings and single family homes sharing the same electrical transformer as another. Each phase is rated 200A.

HC6284X Leviton Whole-Home Noise Block **\$39.95**

X10 PLUG-IN NOISE FILTERS

Simply plug an appliance into a filter, then plug the filter into the electrical outlet. It completely blocks X10 signals, so isolate multiple appliances on a power strip with a total load of up to 5A.

XPXPPF X10 Pro Plug-In Noise Filter, 5A **\$21.95**

X10 COUPLER/REPEATER

- 2 and 3 phase

Provides the same benefits as the Signal Bridge, but amplifies the signal from 100mV to more than 5V. A must if your signal is much below the required 100mV.

XPXPCR X10 Pro Amplifier/Coupler **\$71.95**

Wireless Lighting Controls

ADD-ON WIRELESS SWITCHES

WIRELESS OUTLET

- Adds a switched outlet, without additional wiring
- Leviton switch operates up to 50'; Heath Zenith switch operates up to 100'
- Wallplate included
- Colors: Leviton available in White; Heath available in White or Ivory

LV6697W Leviton Wireless Outlet, Decora-Style **\$34.95**

HZBL6136W Heath Wireless Outlet, Toggle-Style **\$23.95**

WIRELESS SWITCH

- Receiver replaces an ordinary switch
- Turn lights On and Off from two locations
- Leviton switch operates up to 50'; Heath Zenith switch operates up to 100'
- Wallplates included

Pro Wired/Wireless Security System

HOW TO BUILD A HOME SECURITY SYSTEM

NetworX by Interlogix (previously a GE Security brand) is a control panel family that features a variety of interchangeable keypads and modules to meet the needs of practically any hardwire and/or wireless installation from 4 to 48 zones. Everything from the most basic to the most complex installation – multiple outputs, X10 home automation, 2-Way voice, telephone interface, with cellemetry or long-range radio backup. Better yet, the **NetworX** system uses only one method of programming for all of these installations.

The **NetworX** system standardizes a security control panel line for all your installations. It uses a combination of door and window sensors, glass break sensors and interior motion sensors to detect unauthorized entry. The keypad control is the interface for the various sensors connected to the **NetworX** System.

Sensors on doors that are used for entry and exit have a delay time allowing you to leave and enter while the system is Armed. For perimeter protection during occupancy, these delays can be omitted with the press of a button, and interior motion sensors can be bypassed to allow freedom of movement inside.

- All zones programmable as fire or burglary
- Up/downloadable with competitor lockout
- Fuseless design
- Force arming by zone
- Built-in siren driver/voltage out

DIY Wireless Security Systems

SKYLINK SecurityMan

SKYLINK WIRELESS SECURITY SYSTEMS

SKYLINK AAA+ HOME SMART CENTER

The Skylink Wireless AAA+ Home Smart Center is a complete wireless system that functions as both a security system and a home automation center. As a security system, the Center monitors your premises and alerts you when sensors are triggered. As a home automation system, the Center provides remote operation of household appliances and lights, even when you are away from home. This full-featured system is expandable and can be easily customized to suit your needs.

- User can call in to check system status
- Employs Skylink's rolling code technology
- Works with up to 10 sensors, 5 control modules and 5 keychain remotes

SKML100 Skylink Wireless AAA+ ML-100 Home Smart Center **\$159.95**

Includes ML-100 Console, Keychain Remote, 2 Door/Window Sensors, Motion Sensor, Power Supply & Accessories.

SKYLINK WIRELESS SECURITY SYSTEM

The Skylink Wireless Security Alarm System provides everything you need to set up a highly-effective, cost-effective, and impermanent security system. The wireless system requires only basic installation and operates without a monitoring service.

- No monitoring fees
- Easy to install
- Rolling code technology
- Automatically calls for help in an emergency
- Supports up to 30 sensors

Control Panel: If any of the wireless sensors are triggered when the system is armed, the siren will sound and the Control Panel will send a wireless signal to the dialer that will call for help at the same time.

Emergency Dialer: Program the emergency dialer to call up to 9 different phone numbers, including your own cell phone, your doctor, relatives, friends, neighbors and more.

SKSC100x Skylink Wireless Complete Wireless Security System **\$199.95**

Includes Control Panel, 1-Way Dialer, Motion Sensor, 2 Door/Window Sensors, Keychain Remote, Power Supply & Accessories.

AIR-ALARM

AIR-ALARM

SecurityMan Air-AlarmII is a wireless LED touch pad security alarm system kit with doorbell for home and business. It is user-friendly easy to use protecting home/business at a minimum cost of investment.

Do-It-Yourself installation and monitoring alarm system without monthly fees is a key benefit for users. The system will alert by phone calls to owner through a series of enlisted phone numbers. The owner can then dial into the host to arm or disarm using the phone's numeric keypad.

Air-AlarmII system can be upgraded by adding up to 60 wireless sensors, sirens, and up to 10 remote controllers.

- Supports up to 5 phone numbers for auto alarm call and 1 management center protocol
- Armed/disarmed by remote controller, phone call, or host's keypad
- Easy "one-key" armed/disarmed operation

TLAIRALARMII Air-AlarmII Kit **\$139.99**

Includes Console, PIR Motion Sensor, Door/Window Sensor, Indoor Siren, 2 Remote Controls, Wireless Doorbell, Warning Sign, Power Supply & Accessories

TLAIRALARMIIDL Air-AlarmII Kit, Deluxe **\$169.99**

Includes Console, 2 PIR Motion Sensors, 3 Door/Window Sensors, Smoke Sensor, 2 Remote Controllers, Warning Sign, Power Supply & Accessories.

Remotes For Any Security System *Linear*

LINEAR WIRELESS TRANSMITTERS & RECEIVERS

For almost 50 years, Linear has been a leader in the development of radio frequency transmitters and receivers for the professional security market. Linear offers a wide range of wireless add-ons, as well as a variety of complete systems based on these RF links. Linear manufactures whatever you need for creating wireless security – panics, remotes, door/windows, smokes, PIRs, bill traps, glass breaks, plus all the receivers and controllers that support them.

DX Format: DX transmitters utilize optimized pulse position-based RF transmission technology. DX receivers support up to 32 quick-learn transmitters, and support over one million unique transmitter codes.

DXS Format: Designates fully supervised models of these same transmitters and receivers, with up to 1,500 feet of range.

LINEAR DX & DXS RECEIVERS

A wireless receiver is connected to an alarm control panel, door strike, camera, high current relay or other device. Transmitters are used to activate or control those devices. The digital DX/DXS code format features over a million possible codes. The transmitters are pre-coded at the factory to unique codes, so no field coding is required. For versatility, any transmitter can be programmed into any receiver channel.

- Compatible with DX and DXS transmitters
- 32 transmitter capacity
- Measured line-of-sight range of 1,500 Feet
- Quick-learn programming
- Selectable supervision
- Outputs per RF channel for alarm, low battery, and status trouble reports
- DX Receiver Size: 5.5" W x 4.0" H x 1.25" D
- DXS Receiver Size: 7.25" W x 5.0" H x 1.0" D

ECOLINK

ECOLINK 4-BUTTON REMOTE

The Ecolink 4-Button Remote provides convenient wireless control of your NetworX or DSC security system. Features proven reliable wireless technology, exceptional range and four simple buttons, and is even water-resistant.

NETWORK-COMPATIBLE BUTTONS

- **Lock:** Depending on your control panel: Press once to arm in Stay mode. Press twice to arm in Away mode. Press three times to activate the latchkey feature
- **Light:** For NetworX, press this button to arm the system in Stay mode. For Concord, Simon 3 or XT, it will turn system controlled lights on or off
- **Unlock:** Press this button to disarm your system. You do not have to enter your access code when you use this key to disarm the system
- **Star:** For NetworX, this button will perform the same function as programmed for the Star key on keypad. For Simon 3 or XT with X-10 universal module, pressing this button will open/close the garage door

ECWST101 Ecolink NetworX-Compatible Remote **\$34.95**

DSC-COMPATIBLE BUTTONS

- **Stay Arming:** Press this button to arm your system while you are still at home. All the doors and window will be armed but the motion detectors will remain in standby mode
- **Away Arming:** Press this button to arm your system when no one will be home. All the sensors in the system will be in the armed mode
- **Disarm:** Press this button to disarm your system
- **Panic:** Press and hold this button to activate the panic mode of your security system

ECWST100 Ecolink DSC-Compatible Remote **\$34.95**

NAPCO

NAPCO UNIVERSAL KEYFOB

Designed to be compatible with most major control panel brands, including Napco's Gemini and Magnum, and others such as ADEMCO, DSC, ITI and more, this 2-way keyfob is super-miniaturized for portability yet packs tremendous consumer appeal.

- Bidirectional keyfob
- System Status is indicated on its LCD display with 8 intuitive icons plus corresponding audible beeps

NP2WAYUNIVKFKIT Napco Universal Keyfob Kit **\$124.95**

Includes Receiver (installs into your security system) and 1 Keyfob. The receiver can support 7 Keyfobs.

NP2WAYUNIVKF Napco Extra Universal Keyfob **\$74.95**

Flood Prevention

WATER SENSOR & SHUT-OFF SYSTEM

WATERCOP

Think water damage only happens to the other guy? Why leave your entire investment unprotected and risk an expensive insurance claim? The WaterCop Automatic Water Shut-Off system detects common leaks and immediately shuts off the main water supply.

Wireless flood sensors are placed near water-using appliances known to eventually fail – and at the first sign of water, sensors transmit a closure signal to the WaterCop valve, stopping the leak from flooding your home or office.

WATERCOP KITS

WaterCop Kits include one Shut-Off Valve, a WaterCop Motor and 2 single Probe Moisture Sensors.

DQWCKIT1 WaterCop Flood Prevention Kit, 1/2" **\$404.95**

DQWCKIT2 WaterCop Flood Prevention Kit, 3/4" **\$409.95**

DQWCKIT3 WaterCop Flood Prevention Kit, 1" **\$409.95**

DQWCKIT4 WaterCop Flood Prevention Kit, 1 3/4" **\$454.95**

WATERCOP VALVES

A DQWCVLFX WaterCop Shut-Off Valve **\$55.00-\$117.00**

LEAD FREE: Available in 1/2", 3/4", 1" or 1 1/4" Pipe Fitting Sizes

WATERCOP ELECTRIC ACTUATOR MOTOR

Available for 1/2", 3/4", 1" or 1 1/4" Valve Sizes

E DQWCACT1 WaterCop Electric Actuator Motor **\$306.00**

WATERCOP FLOOD SENSORS

C DQWH100 WaterCop Moisture Sensor, Single Probe **\$63.00**

DQWH200 WaterCop Moisture Sensor, Dual Probe **\$72.00**

DQFH100 WaterCop Low Temperature Sensor **\$82.00**

SINGLE-POINT LEAK DETECTION

WATERCOP LEAKSTOP

DynaQuip's new WaterCop LeakStop System detects water leaks at a single location and automatically shuts off the water supply. It is an ideal solution for water heaters. Features 12VDC Motorized Ball Valve (Low Voltage), Audible Alarm, and 2 Dry Contact Closures.

Includes everything you need: a Valve, Actuator Motor and 2 hard-wired Moisture Sensors. Choose 1/2", 3/4", 1" or 1 1/4" Pipe Fitting Sizes.

DQWCLSLFX WaterCop LeakStopPlus **\$268.00-\$342.00**

Greenfield Direct Provides Remote Control Over The Home's Water AND Gas Supply. Works In Conjunction With An Automation System.
» www.HomeControls.com/Greenfield

WATER SENSOR

WATERBUG WATER SENSOR

Place WaterBug sensors in a laundry room, kitchen, living room and basement. The WaterBug Console mounts on a wall to control up to 6 sensor probes that may be up to 100' away! Each sensor probe has 2 contacts. A film of water forming a bridge between these contacts activates the WaterBug alarm. Will not be fooled by condensation or high humidity.

WLWB200 WaterBug 200 Kit **\$69.95**

Includes 200 Console & 1 Surface Sensor; Requires Power Supply; Supports up to 6 sensors

WLWB350 WaterBug 350 Wireless Kit **\$124.95**

Includes 350 Console & 1 Surface Sensor; Runs on 9V Battery (not included); Supports up to 6 sensors

WLWSU Surface Sensor **\$26.95**

WLWUCU Under-Carpet Sensor **\$79.95**

WLWSS Surface Sensor, Supervised **\$39.95**

WLWUCS Under-Carpet Sensor, Supervised **\$44.95**

Security Sensors

interlogix
AVID Pro & Security Company

ROKONET

MOTION-ACTIVATED SENSORS

NAPCO ADAPTIVE DUAL DETECTORS

Napco's Adaptive Dual Microwave/PIR Detectors automatically adjust to their environment, minute by minute, for reliable false alarm immunity.

The Adaptive detector automatically selects the most appropriate detection mode, optimizing both intruder catch and stability. Each time the sensors detect a stimulus strong enough to generate a signal, yet insufficient in strength to indicate an alarm, the detector automatically changes sensitivity modes, effectively widening the gap between the detected signal and its alarm threshold. Therefore, environmental disturbances are better tolerated and the threat of false alarms is dramatically reduced.

NPC100STE Adaptive Dual Detector **\$29.95**

NPC200AP Adaptive Dual Pet Detector (Immune 100lbs.) **\$34.95**

LUNAR SERIES

LuNAR PIR Motion Sensor: The Rokonet LuNAR PIR is a dual element PIR with adjustable sensitivity, signal logic and variable pulse count. 12VDC, NC.

RK2000DPC LuNAR PIR Motion Sensor **\$59.95**

LuNAR DT Motion Sensor: LuNAR DT combines IR and microwave capabilities to eliminate false alarms – both technologies must verify an intrusion for the alarm to be activated.

RK150T LuNAR DT Motion Sensor **\$99.95**

Industrial LuNAR PIR Motion Sensor: Catch camouflaged intruders and detect movement even in high temperatures with the Rokonet Industrial LuNAR DualTech Motion Sensor. Designed to operate in any industrial environment, this robust motion sensor helps ensure security for warehouses, factories, and other commercial locations where harsher conditions are a concern. Coverage can be customized for optimum monitoring.

RK200DTG3USB LuNAR Motion Sensor **\$124.95**

ZODIAC SERIES

The ZoDIAC provides superior catch performance with immunity to false alarms in even the harshest environments. It ensures improved coverage while significantly reducing false alarms from warm air, moving curtains, and temperature changes.

• PIR Coverage: 40' x 40'

• PET Coverage: 27' (Immune 70lbs)

RK410PR ZoDIAC PIR Sensor **\$18.95**

RK410PT ZoDIAC PET Sensor **\$24.95**

COMET SERIES

The CoMET Series provides a reliable solution based on PIR technology.

The CoMET sensor is compact and attractively designed to meet the needs of residential installations.

• PIR Coverage: 40' x 40'

• Pet Coverage: 26', 90° (immune for 42 lbs. dog, 2 cats or multiple rodents)

RK210PR CoMET PIR Sensor **\$13.95**

RK210PT CoMET Pet Sensor **\$14.95**

iWISE SERIES

The iWISE Series is a range of dual-technology (DT) and passive infrared (PIR) detectors that deliver superior catch performance with excellent false alarm immunity. iWISE detectors incorporating Anti-Cloak Technology (ACT) ensure that no intruder passes undetected. ACT makes the iWISE detector series the premier choice for any commercial, industrial or residential installation.

iWISE DT Sensors: iWISE DT detectors are a true revolution in detector technology due to Risco Group's ACT. iWISE DT combines PIR and microwave capabilities to eliminate false alarms.

RK8DT iWISE DT Motion Sensor **\$49.95-\$74.95**

Choose 30', 50' or 80' Ranges

iWISE Quad PIR Sensors: iWISE QUAD uses two separate dual-element sensors to reduce false alarms and improve catch performance in hostile environments; Two dual element pyroelectric sensors and Two independent processing channels. Also features false alarm rejection of white light and hot air turbulence, patented true temperature compensation, creep zone, and 3 LED walk test indicator.

RK800QA iWISE Quad PIR Motion Sensor **\$34.95**

iWISE Pet Motion Sensors: Provide full pet immunity with no loss of catch performance. iWISE PET and DT PET models easily distinguish between intruders and pets, allowing complete pet freedom of movement without false alarms.

RK811DTPUSC iWISE DT Pet Motion Sensor (Immune 100lbs.) **\$54.95**

MOTION SENSOR & GLASS BREAK IN ONE!

SHATTERPRO PLUS

The ShatterPro Plus is an acoustic glassbreak sensor combined with a motion detector to eliminate occupant-generated false alarms. When a person enters the field of view of the motion detector the glassbreak sensor is shunted during the period of occupancy. This eliminates false alarms generated from normal noise levels when you are home. The ShatterPro Plus can be wired into a 24-hour perimeter loop, free from concerns about false alarms generated by a noisy environment.

GE5885W ShatterPro Plus Motion-Sensitive Glassbreak Detector **\$104.95**

INTERLOGIX PRECISIONLINE MOTION SENSOR

PrecisionLine dual technology sensors offer new, easy solutions for your most challenging residential or pet applications. Using a sophisticated combination of precision controlled microwave and PIR technologies, these sensors give total coverage-on-demand.

GERCR50 PrecisionLine PIR Sensor, 50' **\$64.95**

GERCRPET PrecisionLine PIR Pet Sensor, 35' **\$44.95**

NAPCO IQ PROFILER PIR SENSOR

Napco has improved its already popular IQ Profiler by adding new Quick Catch Mode. The new Quick Catch makes the IQ Profiler even tougher by faster profiling of false and true alarms for verified intruder catch detection. Inside is advanced microprocessor-based circuitry with a built-in library of profiles of common false and real alarm sources, so the reliable unit rejects profiles of dogs, cats, birds, heaters, blinds, etc.

- 50 lbs. pet immunity (22.7kg) and superior false alarm discrimination with unique dual focal lenses
- Installation in a snap with patented Quick-Mount and Quick-Wire terminals
- Maximum range: 50' x 50'
- Down/creep zones provide coverage beneath sensor
- Size: 4½"H x 2½"W x 1⅞"D

NPIQPROFILER IQ Profiler Pet Sensor **\$29.95**

20' range; wall or ceiling mounted. Features alarm/status LEDs and alarm memory LED.

FIRSTALERT SMOKE AND CARBON MONOXIDE ALARMS

FIRSTALERT SMOKE ALARM

Smarten up your home's smoke detection with the FirstAlert Smoke Detector. This full-featured smoke detector incorporates smart technology to reduce "nuisance alarms" and increase true alarm performance. It's cost-effective and reliable, keeping you safe around the clock.

- Single button test/silence
- Latching alarm indicator
- Smart Technology reduces nuisance alarms
- Perfect Mount allows for easy alignment during installation
- Battery backup ensures operation during power outages

GE9120B FirstAlert AC Smoke Alarm with Battery Backup **\$14.95**

GERM4 FirstAlert Relay (Required) **\$24.95**

FIRSTALERT SMOKE & CO ALARM

The convenient two-in-one FirstAlert AC Smoke and Carbon Monoxide Alarm helps keep your family safe.

The detector features ionization technology and an electromechanical sensor with Intelligent Sensing Technology that reduces unwanted or nuisance alarms.

GESC9120B FirstAlert AC Smoke & Carbon Monoxide Alarm with Battery Backup **\$54.95**

GERM4 FirstAlert Relay (Required) **\$24.95**

SMOKE DETECTORS

INTERLOGIX PHOTOELECTRIC SMOKE DETECTORS, 120VAC

Interlogix ESL 350 Series alarms are single/multiple station photoelectric smoke alarms. Up to 12 units may be interconnected for tandem operation. When any unit in tandem senses smoke, all the units sound an alarm. PhotoElectric alarms detect smoldering fire faster than the more common ionization alarms

- Provides a battery backup – up to 46 hours protection during a power outage
- 120VAC powered

CX models include Form-A and C relays that operate from the tandem circuit and when smoke is detected.

A GE350CX PhotoElectric Smoke Detector **\$69.95**

INTERLOGIX SELF-DIAGNOSTIC PHOTOELECTRIC SMOKE DETECTORS, LOW VOLTAGE

4-Wire: Interlogix ESL 449 Series self-diagnostic, 4-wire smoke detectors continually monitor their own sensitivity and operational status, and provide a visual trouble indication if they drift out of sensitivity range or fail internal diagnostics.

- Intelligent, self-diagnostics
- Advanced false alarm immunity

B GE449C Smoke Detector **\$54.95**

GE449CT Smoke Detector with Heat Sensor **\$54.95**

GE449CTE Smoke Detector with Heat Sensor & Relay **\$64.95**

GE449CST Smoke Detector with Heat Sensor & Sounder **\$64.95**

2-Wire: Interlogix ESL 521 Series self-diagnostic, 2-wire smoke detectors are the industry's first conventional direct-wire smoke detectors with analog features such as remote maintenance/trouble reporting (CleanMe), drift compensation, and multi-criteria detection.

C GE521BXT Self-Diagnostic PhotoElectric Smoke & Heat Detector **\$59.95**

GE521NCSXT Self-Diagnostic PhotoElectric Smoke & Heat Detector with Sounder **\$49.95**

INTERLOGIX SMOKE DETECTOR ACCESSORIES

GESM200 Smoke!-In-A-Can (Canned Smoke For Smoke Detector Testing) **\$9.55**

GE40505 Polarity Reversal Relay Module for 4-Wire Smoke Detectors, 12/24V **\$34.95**

GE2041224V End Of Line Power Supervision Relay (Required for Interlogix 4-Wire Smoke Detectors) **\$19.95**

FIREWOLF SMOKE DETECTORS

Accurately detects all types of fire, including paper, wood, gasoline, polystyrene, smoldering fires, etc. performance superior to previous photo-electric detectors.

- Attractive, low profile
- Dual LEDs
- 360° visibility
- 100% burn-in tested

NPFW4 Firewolf PhotoElectric Smoke Detector, 4-Wire **\$49.95**

NPFW2 Firewolf PhotoElectric Smoke Detector, 2-Wire **\$39.95**

FIREWOLF SMOKE DETECTORS WITH BUILT-IN HEAT SENSOR

NPFW4H Firewolf PhotoElectric Smoke Detector with Heat Sensor, 4-Wire **\$54.95**

NPFW2H Firewolf PhotoElectric Smoke Detector with Heat Sensor, 2-Wire **\$44.95**

USR64 End Of Line Relay (Required for Firewolf 4-Wire Smoke Detectors) **\$24.95**

CO DETECTORS

SAFEAIR CARBON MONOXIDE ALARM

The Interlogix SafeAir carbon monoxide detector is an accurate and reliable way to alert of potentially dangerous levels of CO in the protected area.

- Self-diagnostics
- Sensor is unaffected by fluctuations in indoor temperature
- Built-in trouble/power supervisory relay

GE250CO SafeAir Carbon Monoxide Alarm **\$79.95**

GE250COPLT SafeAir Adapter Plate (from the 240-COe to the 250-CO) **\$3.25**

LINEAR CARBON MONOXIDE ALARM

The Linear CO Detector Transmitter is a single station, carbon monoxide alarm with a built-in supervised transmitter. It is compatible with Linear's wireless DXS Format Security Systems, and other stand-alone receivers.

- Requires DXS receiver (page 34)

LNDXS80 Linear Carbon Monoxide Alarm **\$123.99**

TEMP ALERT WITH EMAIL!

TEMPERATURE@LERT

Temperature@lert connects to your computer's USB port. It monitors the temperature and alerts you via email when it rises or falls outside your acceptable range. The temperature sensor is accurate to within $\pm 0.5^{\circ}\text{C}$ and can report temperatures from -40°F to $+200^{\circ}\text{F}$.

Real time graphing and XML support provide you with the tools you need to integrate temperature readings into third-party applications.

TATMSTD30 Temperature@lert **\$129.99**

Driveway Alert Sensors

DAKOTA ALERT 

STEP 1 CHOOSE A RECEIVER SYSTEM

DAKOTA ALERT 3000

GOOD: The Dakota Alert 3000 series offers a selection of sensor options to take the next step in the evolution of the vehicle and motion detection alerts. Once the sensor detects motion, it sends a radio signal back to the receiver up to 600 feet away.

A DAWR3000 3000 Wireless Receiver \$59.95

DAKOTA ALERT 2500

BETTER: The Dakota Alert 2500 series is a feature-filled wireless motion detector/receiver system with a half mile radio range. The motion detecting sensor detects a person or vehicle passing by out to about 50'. The sensor then sends a signal back to the receiver.

B DADCR2500 2500 Wireless Receiver \$59.95

DAKOTA ALERT MURS

BEST: Communicate over several miles with the Dakota Alert MURS (Multi-Use Radio Service). The transceivers also be used for 2-Way voice communications between other base or handheld transceivers.

C DAM538BS MURS Base Station Transceiver \$84.95

D DAM538HT MURS Handheld Transceiver \$94.95

STEP 2 CHOOSE A COMPATIBLE SENSOR/TRANSMITTER

PIR MOTION

One of the most popular sensors, a motion detector uses passive infrared (PIR) beams to detect people as well as vehicles.

BURIAL PROBE

A plastic cylinder that is buried parallel to a driveway and detects passing vehicles. (Only detects metallic objects)

RUBBER HOSE

A rubber hose that lies across your driveway and detects vehicles as they drive over it.

DUAL BEAMS

A pair of sensors that detect people or vehicles passing through the PIR beam between the sensors.

DAKOTA ALERT 3000

E DAWMT3000 PIR Sensor (Outdoor) \$84.95

G DAIR3000 PIR Sensor (Indoor) \$69.95

H DAWPT3000 Burial Probe Sensor \$194.95

I DAWHT3000 Rubber Hose Sensor \$109.95

DAKOTA ALERT 3000 KITS

All kits include one receiver and one sensor.

A E DAWMA3000 PIR Motion Alert Kit \$124.95

A G DAIRWR3000 PIR Motion Alert Kit \$99.95

SOLAR POWERED WIRELESS VEHICLE ALERTS

STI WIRELESS VEHICLE ALERT

When the sensor detects a vehicle, it signals the receiver to alert you by chiming and flashing. The receiver plugs into any standard outlet in your home, up to 1,000' away from the solar-powered sensor.

- No difficult underground wiring
- Will not be triggered by animals, people or shadows
- Sensitivity options: low, medium, high
- Includes two rechargeable batteries for the sensor

STI34100 STI Solar-Powered Wireless Vehicle Alert Kit (with 4-channel voice receiver) \$139.95

Receiver offers 10 tones/tunes and 53 selectable words (available in English or Spanish)

STI34100 STI Solar-Powered Wireless Vehicle Alert Kit (with 4-channel standard receiver) \$139.95

Plug-n-Play Wireless Sensors

EASY-TO-INSTALL ENTRY ALERT SYSTEMS

STI MOTION-ACTIVATED CHIME KIT

The Wireless Motion-Activated Chime Kit alerts you when someone enters the motion sensor's detection zone. The detection signal passes through doors, walls and floors to detect anyone within 140 degrees, up to 40' away. When motion is detected, the transmitter sends a signal to the receiver, which alerts you with a chime. The system can also be used as an alarm by selecting the alarm sound with a switch on the transmitter.

- Transmission range up to 100'
- Adjustable volume: low, medium, high
- Activation switch allows chime or alarm sounds
- Weatherproof sensor for long-term outdoor use

USP PORTABLE DETECTORS

Motion Alert: Detects body heat and motion. When an intrusion is detected the detector emits a low siren for 5-10 seconds in alert mode or piercing siren sounds in alarm mode for up to 2 minutes.

Beam Alert:

The USP Beam Alert is a compact and portable announcer. It mounts near any door, entry, or window. The Beam Alert features a protective beam that extends up to 15 feet for barrier or spot coverage. When the beam area is entered, the unit emits a short burst of beeps, to signal arrival.

A USSMAH USP Portable Motion Detector **\$59.95**

B USBA1 USP Portable Beam Alert Detector **\$49.95**

DAKOTA ALERT PORTABLE ENTRY ALERT

The Portable Entry Alert uses a photo sensor to detect people walking by up to 10' away. When a person is detected, you're alerted.

The alert can be used to monitor doorways in homes or businesses.

It can also be used in elderly care to help you keep people from wandering away.

The alert has a hi/low volume control as well as an on/off switch. It operates on two "C" cell batteries (not included).

DAEA10 Dakota Alert Portable Entry Alert **\$14.95**

VOICE ALERT SYSTEM

Monitor up to 6 separate zones identified by your custom message! When movement is detected in a zone, the powerful RF Sensor/Transmitter sends a signal to the in-home Receiver/Speaker, triggering your customized voice message that identifies the zone.

For example: "Someone is coming up the driveway"; or "Someone is on the back deck."

- Up to 1,000' range
- 6-Zone Monitoring Capability
- Customized Voice-Recordable Alerts
- All Weather, Wireless PIR Sensor Transmitters
- Multiple Beam Patterns for Optimal Detection
- Adjustable Mounting, Beam Sensitivity, and Delay Timer
- 4 "C" Relays to Trigger Additional Devices

OPTEX WIRELESS 2000 ANNUNCIATOR SYSTEM

Install motion sensors at the driveway entrance, front door, back door, side gate ... wherever you want to be alerted that you have visitors. Receiver emits 1 of 3 different types of tones to announce the arrival and location of a visitor. Features volume control and low battery signal.

- Specially designed sensor mounts easily on walls, ceilings, fence posts, desktops, etc.; Receivers mount on wall or desktop
- Weatherproof design of sensor allows outdoor use
- Two detection patterns: 50' Long Range and 17' Fan Pattern
- Up to 2,000' range
- Single Form-C relay on receiver
- Each Receiver accepts up to 9 transmitters

HOUSEHOLD ALERT SYSTEMS

SKYLINK LONG RANGE HOUSEHOLD ALERT

If you're looking for a simple Alert or Alarm system without having to pay a fortune, Skylink's Household Alert System is the way to go. Ideal for medium- to larger-sized homes, the long-range system works with up to 16 sensors, and has an operating range of 800'.

The Household Alert System is a simple and inexpensive way of bringing some peace of mind to your home. Skylink offers a variety of sensors to suit each and everyone's personal needs. The Household Alert receiver offers an Alert mode and visually shows you which zone has been triggered so you know which exact sensor has gone off. Its four zones allow you to use multiple sensors, each zone capable of holding four sensors in its memory.

REX PLUS II ELECTRONIC WATCHDOG

The STI Rex Plus II offers a versatile way to deter intruders, receive visitor chime alerts, or trigger a siren upon motion detection. Rex Plus II can sense motion through thick doors, walls or glass. When motion is detected, the device sounds one of eight selectable alerts, including an angry, barking watchdog to scare off burglars.

Rex II detects movement up to 26 feet away (adjustable) within 150 degrees. Upon detection, the device begins to produce the alert you have chosen. The closer an intruder gets, the more frequent the barking. With an angry dog barking, intruders are encouraged to leave, and you have time to prepare if they stay. Rex II is also easily muted with a pat on the head.

STIED55 Rex Plus II Electronic Watchdog **\$109.95**

WIRELESS MAIL ALERT SYSTEMS

MAILCHIME

No more wondering if the mail is gone and no more wasted trips to the mailbox just to find it empty. Simply mount the sensor on your mailbox door using double sided tape (included) and plug the Receiver into an electrical outlet anywhere in your home.

When the mailbox door is opened, the Mail Chime will beep four times. And, in case you missed the beeps, a bright red LED light will tell you the mail has been delivered. You'll love the convenience of knowing when your mail is delivered.

HP1200 MailChime **\$49.95**

STI MAILBOX ALERT

The STI Wireless Mailbox Alert is a mail alert system that lets you know when your mail arrives. You no longer have to make wasted trips to the mailbox!

When your mailbox door is opened, the sensor sends a wireless radio signal to the indoor receiver up to 1,000 feet away. The receiver will flash and chime to alert you that your mail has come!

- Notifies you when your mail has arrived
- Receiver chimes and flashes
- Rugged, waterproof sensor for long-term use

STI34200 STI Wireless Mailbox Alert **\$94.95**

OUTDOOR SENSORS

WATCHOUT OUTDOOR SERIES

WatchOUT Outdoor Detectors provide reliable outdoor protection by providing the best Selective Event Recognition. WatchOUT can distinguish between real intrusion events and the false alarms caused by the unstable outdoor environment.

- Digital Correlation Technology for eliminating false alarms from pets, reflections and rapid temperature changes

RK315DT WatchOUT DT Sensor **\$194.95**

SECURITY SPEAKER

A flush mount, interior speaker for alarm or voice applications.

- Mounts in basic J-Box
- 32 Ohms

ELKSP12F In-Wall Security Speaker \$8.95

Remote Monitoring Systems

SENSAPHONE

The Sensaphone offers an easy, inexpensive way to monitor any house, cabin or vacation home. Installed in a clean indoor environment, to monitor a variety of applications.

It has a built-in ability to monitor for power failures and to listen to the sound of a smoke detector. Four external inputs allow you to add a variety of sensors to monitor temperature, water on the floor, humidity, and much more. One of the 4 or 8 external inputs (depending on the Sensaphone model) comes with a temperature sensor for monitoring temperature where the Sensaphone is installed.

When an alarm is detected, the Sensaphone notifies up to 4 or 8 (depend-

ing on the Sensaphone model) people by making voice phone calls. It will continue to make phone calls until someone

responds to the call. The voice messages can be custom recorded, so you get to describe each alarm message that it speaks in your own voice. The phone interface includes a line seize feature so that extension phones are automatically disconnected when it needs to make an alarm phone call.

- Programmable recognition times
- Low voltage NO/NC output relay
- Manual or automatic alarm response
- Makes voice phone calls with customized messages for easy identification
- Built-in alarm test function to simulate and test the notification process
- Internal microphone for custom voice message recording and remote listen-in

SENSAPHONE XLINK

The XLink Cell Phone Module allows your Sensaphone to dial and receive calls using any cell phone with Bluetooth.

Phone & Cell Notifications

GSM CELLULAR COMMUNICATION BACKUP

CELLULAR COMMUNICATION CENTER (C3)

The HAI/Leviton C3 (Cellular Communications Center) is a wireless cellular communicator that allows phone calls to be made over the GSM cellular network using the existing telephones in your home. The C3 can be used when there is no land line in your home or if the land line is temporarily unavailable.

The C3 is perfect for homeowners without land lines, vacation homes, and locations that need remote monitoring. The 70A00-2 now includes Caller ID to display the number of calling party.

The C3 works with any standard security panel, including HAI's Omni family of home controllers, to communicate alarm conditions using the GSM cellular network when the land line or cable phone service has been cut. The C3 checks the status of the existing PSTN telephone line and if it is unavailable, the C3 will emulate the line signal to the security panel. When an alarm occurs, the security panel will dial out using the GSM cellular network to communicate with the central monitoring station and the central monitoring station will be able to call your home through the C3 to verify

the alarm condition.

The C3 ships with an included backup battery in case the power goes out.

Requirements: The C3 requires a GSM Mini-SIM card (25mm x 15mm) and cellular service (AT&T, T-Mobile, and prepaid carriers). Customers with existing GSM accounts can add a line to their cellular account and plug the added phone SIM into the C3.

LV70A002 Cellular Communication System (C3) **\$269.95**

Add a self-contained GSM wireless module for your NetworX security control panels for a secure cellular communication channel to any central station in the event of a line cut or any other interruption of land line telephone service. **GENX591EGSM** NetworX Wireless GSM Module **\$284.95**

NAPCO STARLINK

Bolster the reliability of your dial-up alarm control panel by connecting a Napco StarLink 3 GSM Wireless Alarm Communicator. This universal 2-way communicator works with control panels that communicate using telephone lines to ensure signal transmission to your preferred central monitoring station.

- Universal full event reporting from any panel, not just Napco Gemini
- Optional email and/or text message alerts
- Tamper-resistant aluminum housing
- Supports Napco security panel remote uploading/downloading

Requirements: The StarLink communicator requires a cellular service plan. SIM card is included.

NPSLEGS34G Napco StarLink 3 GSM Wireless Alarm Communicator **\$159.95**

AUTOMATIC VOICE DIALER SYSTEMS

USP VOICE DIALER

- Calls up to 8 phones, cell phones or pagers
- 2 outgoing messages
- 1-Way listen-in and 2-Way voice
- Non-volatile memory retains programming even during power failures
- Auto redial for unanswered or busy numbers
- Built-in line seizure relay
- Stand-alone security applications

When tripped by any sensor, it calls any combination of 4 to 8 regular phones, cell phones or pagers and delivers a custom recorded message to phones and a numeric code to pagers. Accepts up to 2 to 4 input zones and plays a different message for each zone.

Also program an ID message to proceed the Outgoing Message when tripped. The ID message contains the name, phone number and address of the location of the sensor alarm. Great to work with alarm systems, or if you want to know when your kids get home from school.

- Requires 12V power supply

USAD2001 USP Automatic Voice Dialer (2 Inputs & 4 Phone Numbers) **\$204.95**

USAD2000 USP Automatic Voice Dialer (4 Inputs & 8 Phone Numbers) **\$249.95**

USPB12P 12VDC Power Supply **\$89.95**

AUTOMATIC DIAL-UP SENSORS

USPLS Power Loss Sensor for 110V **\$29.95**

USPRS Power Restore Sensor for 110V **\$25.99**

SECO-LARM VOICE DIALER

Automatically dials up to 4 phone numbers and delivers up to 2 different messages when triggered by an alarm system.

- Easily connects to an alarm panel and automatically dials out when activated
- 2 independent voice messages. Stores up to 4 phone numbers, cellular numbers, or pager numbers
- Delivers a message of up to 16 seconds to each number stored
- Instant trigger or exit and entry delay settings
- Repeats the voice message for one minute per call
- Waits 8 to 10 rings before dialing the next programmed number
- Retains memory for up to one year if power is lost

SEE920B Seco-Larm Automatic Voice Dialer **\$114.95**

DAKOTA ALERT VOICE DIALER

The AD-01S is a simple do-it-yourself security dialer that uses your existing telephone line to send a message when an alarm is generated. When an alarm is triggered by one of the hard-wired sensors, the dialer calls out and plays one of two 10-second messages that you record yourself.

You can program up to nine different telephone numbers for the dialer to call. The dialer can be armed and disarmed with the wireless key fob. The dialer can be triggered by wireless PIR sensors, shock sensors or door contacts, or any other hard-wired sensor.

DAAD01S Dakota Alert Automatic Voice Dialer **\$74.95**

DAADKFW Dakota Alert Key Fob for Dials **\$18.95**

POWER SENSOR

POWER-OUT ALERT SENSOR

Plug into any 120 VAC outlet and attach into an existing alarm system, telephone dialer or other emergency equipment. When power to the monitored circuit is interrupted, POWER-OUT ALERT activates the dialer, providing prompt notification of a power outage.

WLPS110 Power-Out Alert **\$64.95**

G OQF2217 RCA to RCA Patch Cable **\$8.65**

INTERNET SURVEILLANCE CAMERAS

ICE WIRELESS INTERNET CAMERAS

View surveillance video on your computer, tablet or smart phone with one of the easiest to install wireless internet cameras. The ICE cameras are true plug-n-play and can be installed in just minutes.

- High-sensitivity 1/4 CMOS sensor
- Video Frame Rate: 30fps (QVGA), 15fps (VGA)
- Resolution: 320 x 240 (QVGA), 640 x 480 (VGA)
- Light Frequency: 50Hz, 60Hz or Outdoor

ICIPCE1000 ICE Wireless Internet Camera **\$79.95**

ICIPCE2000 ICE HD Wireless Internet Camera **\$129.95**

- MJPEG video compression for faster transmission
- Built-in speaker and microphone for 2-way audio
- Remote pan/tilt control
- Auto IR-LED illumination for night vision
- Supports Explorer, Chrome, Firefox or Safari browsers
- Motion detection alert with snapshot via email
- Supports iPhones and Androids
- HD version includes 8GB SD Card

DIY Video Surveillance

SECURITYMAN WIRELESS CAMERA SYSTEMS

DIGIAIRWATCH SURVEILLANCE KITS

This complete DIY surveillance kit is fully wireless – no cables required! Perfect for indoor or outdoor surveillance, the weatherproof cameras automatically send video to the included receiver/DVR, where video can be recorded to an SD card (SD card not included).

- Weatherproof cameras for indoor/outdoor use
- Wireless range up to 200' through walls

TLDIGIAIRWATCH SecurityMan DigiAirWatch Wireless Surveillance Kit, 1 Camera **\$159.99**

Includes DigiAirWatch Receiver, 1 Camera, Installation Adapters & Power Supplies.

TLDIGIAIRWATCH2 SecurityMan DigiAirWatch Wireless Surveillance Kit, 2 Cameras **\$249.99**

Includes DigiAirWatch Receiver and 2 Cameras.

TLSM816DT SecurityMan Add-On Wireless Camera **\$94.95**

DIGILCD/DVR SURVEILLANCE KITS

Designed for convenient video playback and reliable surveillance day or night, the SecurityMan Wireless 7" LCD/SD DVR Kits provides a complete DIY solution for monitoring your home or small business.

The included 7" LCD monitor offers immediate, direct playback of recorded video, which is internally stored on an SD card (not included). With high-quality images, long transmission range, and interference-free signals, this wireless kit is ideal for any DIY monitoring application.

- LCD monitor features built-in DVR that records to SD card (SD card not included)
- Wireless range up to 200' through walls

TLDIGILCDDVR2 SecurityMan DigiLCD/DVR Wireless Surveillance Kit, 2 Cameras **\$319.99**

Includes 7" LCD Monitor, 2 Cameras, Installation Adapters & Power Supplies.

TLDIGILCDDVR4 SecurityMan DigiLCD/DVR Wireless Surveillance Kit, 4 Cameras **\$499.99**

Includes 7" LCD Monitor, 4 Cameras, Installation Adapters & Power Supplies.

TLSM816DT SecurityMan Add-On Wireless Camera **\$94.95**

More great DIY surveillance systems online, including the SecurityMan DigiAirWatch Wireless DVR Kit » www.HomeControls.com/Home-Surveillance-Cameras

WIRELESS BULLET COLOR CAMERA KIT

- Perfect for monitoring around your home
- Wireless video direct to your TV or recorder
- High quality picture and sound transmitting and receiving
- No interference from crowded 2.4GHz devices
- Built-in IR LEDs for night vision (up to 23', B/W)
- Stronger penetration than 2.4GHz/5.8GHz wireless transmission
- Transmits up to 330' clear line of sight or 100' indoor

TLUCAM1 SecurityMan CUCam1 Kit **\$94.99**

Includes Wireless Outdoor/Indoor Color Camera, Wireless Receiver, Power Supplies, Cable, Manual & Installation Brackets.

CAMERA+SENSOR+DVR

IRMOTIONDETECTOR&VIDEORECORDER

The Dakota Alert IR Motion Detector and Video Recorder uses a PIR detector and a digital video recorder to record 30 seconds of video and audio clips every time a person passes in front of the sensor. The camera can be connected to a computer via the USB cable (included) to download the video clips with no software required. The DVR stores the video clips on a Micro SD card (4 GB card included).

CUSTOMER FAVORITE!

This Video Recorder is simple to use and battery operated. It can be set up instantly in nearly any location. It features infrared operation to allow the camera to operate in low light conditions. The built in lithium battery will power the camera for up to 10 days (varies depending on number of activations).

DADVR01 Dakota Alert IR Motion Detector & Video Recorder **\$99.95**

SECURITYMAN MOTION SENSOR WITH HIDDEN CAMERA

It looks like an ordinary motion sensor, but as soon as motion is detected, the hidden camera inside activates and secretly records a one minute video clip. Whatever happens while you're away, rest assured you'll know about it.

- Captures a 1 minute video clip for each motion detection event
- Records up to 12 hours of video footage on a 32GB SD card
- Compatible with any SecurityMan DIY Wireless Air-Alarm System (see page 32)
- Memory full and new file alert notifications

TLPIRS SecurityMan Motion Sensor with Hidden Camera, SD Recorder & Remote **\$119.99**

Digital Video Recorders

CHANNEL VISION 3G SERIES H.264 DVR

Channel Vision's DVR contains H.264 digital compression technology to improve video streaming capabilities and reduce the storage space needed to archive recorded surveillance video.

- Two USB ports (for mouse usage and backup)
- Dual streaming enhances the speed of transmission
- Built-in VGA output up to 1024x768 resolution
- Individual setup of resolution, frame rate and video quality for each channel
- Still image snapshot
- AVI converter with time stamp

- Live display, record, backup, playback and network access simultaneously
- Picture-in-picture monitoring and 2X to 8X digital zoom display
- Intuitive GUI for easy configuration and operation
- Pan / Tilt / Zoom camera control
- Data backup: USB devices, network
- Event triggered with email notification: motion detection, alarm, video loss
- Supports Internet Explorer with same GUI as DVR site
- Multi-language OSD

CVDVR163G1000 Channel Vision H.264 DVR, 16-Channel, 3G with 1TB Drive **\$835.95**

CVDVR83G500 Channel Vision H.264 DVR, 8-Channel, 3G with 500G Drive **\$680.95**

CVDVR43G500 Channel Vision H.264 DVR, 4-Channel, 3G with 500G Drive **\$358.95**

CHANNEL VISION 3G DVR KITS

CVDVR43GKIT2 Channel Vision DVR Kit **\$621.95**

Includes Channel Vision H.264 DVR, 4-Channel with 4 Outdoor Bullet Cameras.

CVDVR43GKIT3 Channel Vision DVR Kit **\$621.95**

Includes Channel Vision H.264 DVR, 4-Channel with 4 Indoor Dome Cameras.

SPECO RS SERIES H.264 DVR

The Speco Technologies RS Series H.264 Networkable Digital Video Recorder is designed for smaller applications that need to be within specific budget guidelines without giving up desirable features.

The DVR features an intuitive and simple graphical user interface for easy setup and installations. It offers remote control viewing from anywhere, anytime and instant notification via email on motion, alarm and video loss. This DVR has built in S.M.A.R.T. (Self-Monitoring,

Analysis and Reporting Technology for HDD) and 2 way audio communication capabilities to assist in instant crime prevention.

SPD4RS500 Speco RS Series H.264 Embedded Value DVR, 4 Channels with 500G Drive **\$439.95**

SPD8RS500 Speco RS Series H.264 Embedded Value DVR, 8 Channels with 500G Drive **\$669.95**

SPD16RS1TB Speco RS Series H.264 Embedded Value DVR, 16 Channels with 1TB Drive **\$759.95**

CCTV POWER SUPPLIES

Seco-Larm's line of DC CCTV power supplies is the cost-effective way to power multiple cameras and is perfect for many security system and access control applications including integration with alarms.

- Each out individually fused
- Output fuses rated 1.1 Amps at 250VAC
- Spare fuse and 6' power cord included

24VAC CCTV POWER SUPPLIES

@ 24VAC (4A)	SEEV1SA4P4UL	\$59.95
@ 24VAC (4A)	SEEV1SA4P9UL	\$74.95
@ 24VAC (8A)	SEEV1SA8P16UL	\$109.95

CHANNEL VISION 4-CHANNEL NETWORK VIDEO RECORDER

The Channel Vision 4-Channel Network Video Recorder provides a variety of video recording, management and playback options for a megapixel IP camera security system, compatible with Channel Vision IP Cameras or any other ONVIF compliant IP cameras. With this recorder, up to four online users can simultaneously view real-time 1080p video streams from any web-enabled device. You can also program event-triggered recording, monitor live video on a TV display, and schedule recording. It's the perfect solution to customized IP camera surveillance.

- View real-time 1080p video streams from any web-enabled device
- Built-in time and event search functions
- Supports one megapixel camera for each channel
- Four online clients with independent remote control

CVNVR4x Channel Vision 4-Channel Network Video Recorder **\$532.95-\$899.95**

No Hard Drive, 1000GB Hard Drive, 4000GB Hard Drive

DVR LOCK BOXES

DVR STORAGE LOCK BOX WITH FAN

This DVR lock box is constructed of formed steel and features an interlocking lift off lid and a keyed lock front door. The lock box includes a fan with a power cord and vents for proper ventilation of the DVR.

VMDVRLB1 DVR Storage Lock box With Fan **\$188.95**

VMDVRLB2 DVR Storage Lock box With Fan & IR Window **\$216.95**

Includes a smoked Plexiglas window for IR signals

LOW PROFILE DVR STORAGE LOCK BOX

- Interior dimensions: 17.2" W x 21" D x 5" H

VMDVRLB3 Low Profile DVR Storage Lock box **\$236.95**

POWER DISTRIBUTION MODULE

Converts a single AC or DC input into 9 individual outputs to power Video Cameras, PIRs, Photo beams, etc. Each output is protected with 250mA or 400mA auto-resetting PTCs to protect any shorted output from disabling the other outputs.

- Requires power supply

ELKPD9 Power Distribution Module, 250mA **\$44.95**

ELKPD9HC Power Distribution Module, 400mA **\$45.95**

ELKP1216 Power Supply, 1.5A, 12VDC **\$28.95**

On-Q Networking System

The On-Q Network System offers an organized approach to low voltage communications wiring distribution in the residential housing market. Several service center enclosure sizes cover the complete range of home and apartment sizes and desired functionality. An array of snap-in modules support telephone, data, local area network (LAN), audio and video services of all types. In addition, home management system controllers are an option to control security, lighting, energy and other conveniences. The modular design permits customization to homes of all sizes and application needs, such as for home office (fax, modem, Internet), entertainment (music, sound video), control of heating and cooling, sophisticated security with cameras (CCTV), programmed lighting and more.

ON-Q ENCLOSURES

ENCLOSURE CONFIGURATIONS

The redesigned line of enclosures from On-Q sets a new standard for structured wiring efficiency. Combining the best features from the entire On-Q line, the comprehensive offering delivers an easier installation, a universally compatible mounting grid and a simplified ordering method. They are available in 4 sizes to meet the needs of any project.

- Left/right mounting covers
- Flush and surface installation
- Flanged covers hide drywall openings
- Drywall depth indicators
- Hangable screw-on cover for ease of installation
- Side tabs for more flexible mounting
- 2 J-Box knock-outs for up to 4 outlets

ON-Q POWER MODULES

POE INJECTOR

The compact 4-Port PoE Injector provides power for a variety of PoE compatible devices - such as a third-party wireless access point, IP phone, or IP camera - over Cat5 wiring. It is designed to easily mount into any On-Q enclosure.

OQDA2401 4-Port PoE Injector, 30W **\$234.95**

OQDA2400 4-Port PoE Injector, 15W **\$114.95**

OQAC1025 PoE Injector Mounting Plate **\$7.05**

POWER MANAGEMENT

OQPW1120 Power Supply Kit, 120W 24V **\$269.95**

Includes Bracket for Hold 2 Power Supplies, 1 Custom Power Strip With 2 Connectors, 2 60W 24V 2.5A Power Supplies

OQPW1240 Power Supply Kit, 240W 24V **\$519.95**

Includes Bracket for 4 Power Supplies, 1 Custom Power Strip With 4 Connectors, 4 60W 24V 2.5A Power Supplies

POWER STRIP MODULE (HALF WIDTH)

The Power Strip Module (Half Width) delivers power to up to six devices, and fits neatly into any standard On-Q style structured wiring enclosure. The module has three top outlets designed for PW Series power supplies, and three side outlets for low voltage transformers/bricks.

OQAC1031 Power Strip Module (Half Width) **\$44.95**

ON-Q VIDEO DISTRIBUTION

1X4 SATELLITE DISTRIBUTION MODULE

Combines an antenna, CATV, and/or an internal network to any combination of Satellite installations using up to 4 coaxial feeds from satellite dishes (LNB's).

OQVM7634 1x4 Satellite Distribution Module **\$69.95**

PASSIVE VIDEO SPLITTER/COMBINERS

The premium video splitters let you experience crystal-clear picture quality on TVs in the home. Whether it is HDTV, Digital Cable or Interactive TV, On-Q video products connect you to strong, consistent signals and the clearest and sharpest pictures.

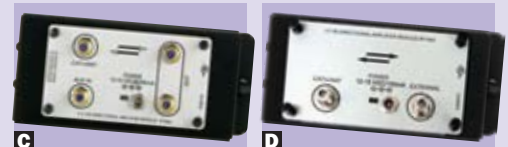

A OQVM1000 1x4 Video Splitter/Combiner **\$21.95**

B OQVM1002 1x8 Video Splitter/Combiner **\$39.95**

2X16 ENHANCED VIDEO MODULE

Distributes a CATV or antenna signal, plus 2 modulator signals, to up to 8 TVs. Supports digital satellite systems with dual LNB connections. Features reverse path amplification for set-top box transmission. Distributes video from security/baby room cameras or VCR/DVD players.

OQ36452201 2x16 Enhanced Video Module **\$339.95**

ON-Q VIDEO AMPLIFIERS

2X2 BI-DIRECTIONAL VIDEO AMPLIFIER

Amplifies signals to up to 16 television locations and provides up to eight internal connections when installed with a video module.

C OQVM7632 2x2 Enhanced Bi-Directional Video Amplifier **\$164.95**

OQPW7760 Required Power supply **\$19.95**

1X1 BI-DIRECTIONAL VIDEO AMPLIFIER

A simple solution that creates a flexible and scalable amplified video system. This affordable module makes it cost-effective to add amplification to every structured wiring installation.

ON-Q NETWORKING

4-PORT GIGABIT ROUTER/SWITCH

Can operate as either a 4-port Gigabit Broadband Router or a 5-port Gigabit Switch.

- Requires power supply QQF7760 or similar

C QQDA1054 4-Port Gigabit Router/Switch **\$139.95**

8-PORT GIGABIT SWITCH WITH POE

Each of the four 802.3af PoE Gigabit ports delivers up to 15.4W to powered devices up to 100 meters away. Features auto detection for powered devices.

- Requires power supply QQPW1248 or similar

E QQDA1458 8-Port Gigabit Switch with PoE **\$229.95**

4-PORT ETHERNET ROUTER/SWITCH

Allows a single high-speed internet connection (DSL/cable modem) to be shared among several computers.

- Requires power supply QQF7760 or similar

QQDA1004 4-Port Ethernet Router/Switch **\$104.95**

8-PORT GIGABIT SWITCH

Provides the perfect way to share media, graphics, in home gaming, and other applications that require large amounts of information sent across a network.

- Requires power supply QQF7760 or similar

A QQDA1008 8-Port Gigabit Switch **\$234.95**

5-PORT ETHERNET NETWORK SWITCH

Supports up to 5 connections in a 10/100 LAN.

- Requires power supply QQF7760 or similar

QQDA1002 5-Port Ethernet Network Switch **\$74.95**

NETWORK INTERFACE MODULES

Share Internet connections, printers, files and modems.

QQAC1012 6-Port Network Interface, Cat5e **\$49.95**

D QQAC1014 12-Port Network Interface, Cat5e **\$74.95**

QQAC1013 6-Port Network Interface, Cat6 **\$64.95**

D QQAC1015 12-Port Network Interface, Cat6 **\$99.95**

ON-Q TELECOM MODULES

1x6 BASIC TELECOM MODULE

Supports up to six telephone outlets, each with up to four lines. Directly interfaces to most security systems. For basic telephone, fax and modem service.

A QQ126706201 1x6 Basic Telecom Module **\$54.95**

1x8 ENHANCED TELECOM MODULE

Supports up to eight phone outlets, each with up to four lines. High performance RJ-45 telecom distribution jacks provide flexibility and convenience. Directly interfaces to most security systems.

B QQ36455101 1x8 Enhanced Telecom Module **\$74.95**

1x12 BASIC TELECOM MODULE

Supports up to 4 incoming telephone lines and distributes to 6 or 12 outlets.

QQ36348402 1x12 Basic Telecom Module **\$94.95**

6-PORT TELECOM EXPANSION MODULE

Support up to 6 additional telephone outlets, each with up to 4 lines.

C QQ126705801 6-Port Telecom Expansion Module **\$49.95**

8-PORT ENHANCED TELECOM EXPANSION MODULE

Support up to 8 additional telephone outlets, each with up to 4 lines.

D QQ36455901 8-Port Enhanced Telecom Expansion Module **\$64.95**

4x8 TELECOM MODULE

Accepts 4 incoming telephone lines and distributes them to up to 8 locations. It includes data ports for high-speed digital data and a security system line seizure port.

E QQTM7556 4x8 Telecom Module **\$39.95**

4x10 PUNCHDOWN TELECOM MODULE

Supports up to 4 incoming telephone lines and 10 flexible telephone outlets. Includes 110 punchdown blocks and line seizure point for home security system configuration.

QQTM7554 4x10 Punchdown Telecom Module **\$34.95**

4x12 TELECOM MODULE

Supports up to 4 incoming lines and 12 flexible telephone outlets with the ability to easily assign or reassign any line to any outlet. It includes data pass-throughs for high-speed digital data access.

F QQTM1478 4x12 Telecom Module **\$54.95**

4x24 CONFIGURABLE TELECOM MODULE

Module accepts 4 incoming telephone lines and enables flexible distribution to 24 telephone locations. It features advanced surge protection with an automatic resetting fuse and push-button activated LED monitoring for active line and surge conditions.

G QQTM7560 4x24 Configurable Telecom Module **\$114.95**

9 Telecom RJ45 Outlets, 8 Video Outlets & RJ-31X Security Functionality

Leviton Structured Media Center

The wired home, once a novelty, has become essential – providing crucial access to advances such as high-speed Internet, digital television and data networking – advances that are becoming vital to functioning in the digital age. The challenge lies in creating an infrastructure that works with the systems already in a home, one that anticipates technological advances, lays the groundwork for the whole-house media system of the future, and incorporates high-tech solutions such as category-rated cabling and components, and opens doors to possibilities. The answer lies in the Structured Media System from Leviton. Structured Media Systems use an advanced, standards-compliant star topology to create one central convergence point in your home for all media and home electronics distribution. Simply run cables from individual rooms to one of a variety of Structured Media Centers, and use Leviton's innovative selection of modules and panels to manage and distribute audio, video, voice and data in the configuration best suited to a home's needs.

ENCLOSURES

SERIES 140

This 14" professional-grade whole-house media enclosure creates one distribution point in the home for all low voltage cables. The 140 is ideal for condos and apartments or more modest homes requiring limited audio/video/voice and data configurations. It will accommodate 2 Pre-Configured Structured Cabling Panels. The sturdy design and functionality facilitate installation, reduce job-site labor costs, and make it ideal for essential home networking.

LV47605140 Series 140 Kit **\$39.95**

Includes Enclosure & Flush-Mount Cover

LV4760514E Series 140 Enclosure (no cover) **\$29.95**

LV4760514P Series 140 Hinged Cover **\$44.95**

LV5L000LOK Hinged Cover Lock & Key **\$18.95**

SERIES 280

The 28" unit accommodates home networking, fax, internet, multi-line telephones, security camera, coaxial cable and satellite video distribution, speaker and audio distribution. The 280 enclosure can comfortably accommodate up to 12 different Distribution Modules, depending on selection and density. It is designed to incorporate a hospital-grade power quality module for maximum protection from line surges.

LV4760528W Series 280 Kit **\$84.95**

Includes Enclosure & Flush-Mount Cover

LV4760528N Series 280 Enclosure (no cover) **\$59.95**

LV4760528P Series 280 Hinged Cover **\$64.95**

LV4761228B Series 280 Extender Bracket **\$49.95**

LV5L000LOK Hinged Cover Lock & Key **\$18.95**

SERIES 420

The 42" unit can handle fax, Internet, multi-line telephones, security camera, coaxial cable and satellite video distribution, and audio distribution. The 420 enclosure, with its generous size and capacity for up to 18 modules, can simultaneously manage many diverse functions and is designed to accommodate our high-quality hospital-grade power module with surge suppression.

LV4760542W Series 420 Kit **\$124.95**

Includes Enclosure & Flush-Mount Cover

LV4760542N Series 420 Enclosure (no cover) **\$84.95**

DATA NETWORKING

INTERNET GATEWAY

Leviton has routers to share Internet access, Ethernet switches to provide additional ports for the in-home Local Area Network (LAN), and a complete collection of connectivity products for Cat5e and Cat6 high-speed networking to help homeowners get their work done. You'll find everything you need to meet today's increasingly complex home office requirements.

E LV47611GT4 Internet Gateway, 4-Port **\$79.95**

LV476115PT Ethernet Switch, 5-port **\$49.95**

F LV476118PT Ethernet Switch, 8-Port **\$69.95**

TV DISTRIBUTION

PASSIVE TV SPLITTERS AND BRACKETS

Use the Leviton 8-Way Coaxial Cable Distribution Module to split digital cable, quality cable TV and off-air antenna signals to 8 televisions throughout the home or office.

G LV476908C2 Coax Cable Distribution Module, 2 GHz **\$39.95**

LV47693xP Premium CATV Module, 1 GHz **\$149.95-\$289.95**

Choose 1x1, 1x8 or 1x16 Modules.

LV476913MS 3x4 Satellite Multi-Switch **\$69.95**

LV47690xC Passive Video Splitter Module, 1GHz **\$24.95-\$34.95**

Choose 1x4, 1x6 or 1x8 Modules.

Complete your Leviton Structured Wiring System with QuickPort Inserts, Connectors & Wallplates. See Page 54.

POWER MODULES

J-BOX KITS

LV47605ACS J-Box Kit, Duplex Receptacle (Surge) **\$29.95**

LV47605ACN J-Box Kit, Duplex Receptacle (Non-Surge) **\$14.95**

AC POWER BLOCK

LV47605DP AC Power Module, 2 Duplex (Surge) **\$79.95**

LV47605NDP AC Power Module, 2 Duplex (Non-Surge) **\$44.95**

DC POWER SUPPLY MODULE

Provide DC Power to up to 6 modules.

LV48212DCS DC Power Module **\$104.95**

UNIVERSAL POWER SUPPLIES

LV47605PSB Universal Mini DC Power Supply (3 12VDC connectors) **\$89.95**

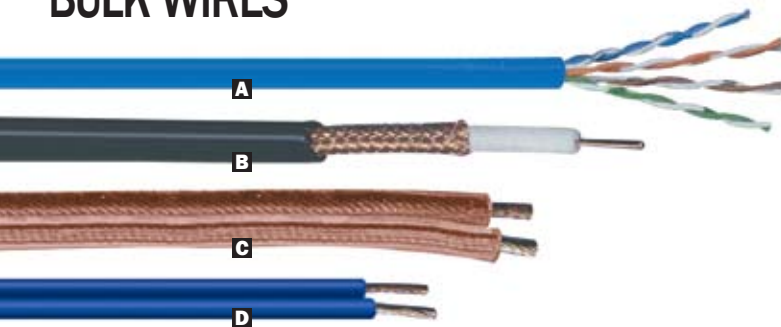

LV47605PSA Universal DC Power Supply (9 12VDC connectors) **\$184.95**

LV47605PSC Versatile AC/DC Power Supply (6 12VDC connectors with 2 upward facing AC receptacles) **\$179.95**

Additional Cable Choices Online »

www.HomeControls.com/BulkWireCable

TERMINATED CABLES

ULTRA HIGH FLEX PATCH CABLES

Low profile cables allow for tighter radius connections.

• Length: Choose 6", 1', 2', 3' or 4'

• Colors: Choose White, Yellow, Red or Blue

LV5HHOM Ultra High Flex Cat5e Patch Cable **\$3.15-\$3.75**

LV6HHOM Ultra High Flex Cat6 Patch Cable **\$4.15-\$4.75**

LEVITON PATCH CABLES

• Colors: Choose Blue, Yellow or White

LV5G46003x Leviton Cat5 Patch Cord, 3' **\$3.35**

LV5G46005x Leviton Cat5 Patch Cord, 5' **\$3.85**

LV5G46010x Leviton Cat5e Patch Cord, 10' **\$5.05**

LV5G46015x Leviton Cat5e Patch Cord, 15' **\$6.45**

HOW TO CHOOSE THE RIGHT WIRES

Whole House: In most installs, professionals use UL Listed Class 2 speaker cable, 14 gauge/4 conductor. 16 gauge/4 conductor is next most commonly used. For those demanding the highest quality cable, use Class 3 cable.

Media Room: Monster size cable is a favorite for media rooms, from Hi-Fi equipment directly to speakers in the same room. We recommend 12 gauge. A larger size 10 gauge is available for long wire runs.

Gauge: The lower the gauge size, the thicker the wire. For example, 12 gauge wire is thicker than 16 gauge wire.

SECURITY, CCTV & FIRE CABLE

WR222CSJ10W Security Wire, 22 Gauge, 2 Conductor, 1,000' **\$69.95**

WR224CSJ10W Security Wire, 22 Gauge, 4 Conductor, 1,000' **\$89.95**

WR184NSDJ05 Fire Alarm Wire, 18 Gauge, 4 Conductor, 500' **\$104.95**

WR182FIRE10R Fire Alarm Wire, 18 Gauge, 2 Conductor, 500' **\$129.95**

ELK9022 Gel Filled B Connectors **\$28.95**

BUNDLED CABLES

Includes 2 Cat5e or Cat6 voice/data cables, 2 RG6 quad shield coaxial cables with or without 2 multi-mode fiber optic cables. Offers standard fire protection.

• Available in 500' rolls

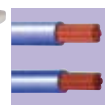

WR2R2C2FJ Bundled Cat5e Cable with Fiber Optic, Jacketed **\$659.95**

WR2R2CJ Bundled Cat5e Cable without Fiber Optic, Jacketed **\$374.95**

WR2R2CB Bundled Cat5e Cable without Fiber Optic, Banana Peel **\$589.95**

WR2R2C62FS Bundled Cat6 Cable with Fiber Optic, Speed Wrap **\$689.95**

WR2R2C6J Bundled Cat6 Cable without Fiber Optic, Jacketed **\$459.95**

Cat5e twisted pair for telephone, computer networks, IR, receive/transmit, ISDN or ADSL

Coaxial cable for cable and satellite TV, security cameras, cable modems, and video conference.

Fiber optic connections provide higher bandwidth and speed for current or future applications.

WIRE BUSHINGS

For installing low voltage wires through drywall.

- Use common drill and/or hole saw
- For single or double drywall thicknesses
- Provides smooth exit/entry of cables

AAWBx Arlington Wire Bushing **\$0.25-\$0.65**

Choose 0.5", 0.875", 1.125" and 2.125" Hole Sizes

ON-Q/LEGRAND PATCH CABLES

• Length: Choose 7', 14', 25' or 50'

OQAC35xxWHV1 On-Q/Legrand Cat5 Patch Cable **\$4.45-\$13.95**

OQAC36xxBEV1 On-Q/Legrand Cat6 Patch Cable **\$6.65-\$34.95**

OQAC6AxxGYV1 On-Q/Legrand Cat6a Patch Cable **\$16.95-\$39.95**

MORE WIRING SYSTEMS!

OPENHOUSE

A revolutionary system that integrates entertainment, communications, safety and automation products, OpenHouse was designed to support the home of the future and the increasingly sophisticated needs of homeowners in a state-of-the art, technologically advanced living environment.

Color: Blue, Red, Green, Yellow, Black or Grey

SELF-TERMINATING CONNECTORS

EZ-SNAPJACK

You may never again need a punchdown tool. At least not for your wall jacks! The patented EZ-SnapJack is self-terminating and quickly installs for professional results in a snap.

- Repair damaged jacks on the spot
- Wire guide ensures pairs stay in order for fast, easy termination
- No Punchdown Tool required (does require a Flush Cutter)
- Colors: Choose White, Light Almond, Blue, Green, Brown, Almond, Ivory, Black, Yellow, Red or Orange

CUSTOMER FAVORITE!

- PL705X1** EZ-SnapJack, Cat5e **\$4.29**
- PL705X4C** EZ-SnapJack, Cat5e (4 Pack) **\$17.95**

DT450041WH Recessed Low Voltage Media Plate with Surge **\$54.95**

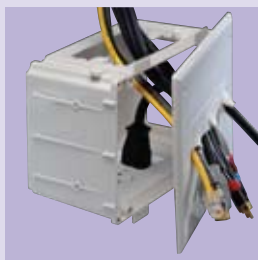

RECESSED MEDIA BOX

Use the DataComm Electronics Recessed Media Box to install power and low voltage cables from behind your flat panel TV, your amplifier or other audio and video devices to your equipment room. Use in your equipment room to organize your incoming audio and video cables.

The Recessed Media Box is designed for new construction or retrofit installations. The flexible cover plate gives the Recessed Media Box the clean finish look you expect.

- Colors: Choose White or Black

DT450010x DataComm Recessed Media Box **\$29.95**

ARLINGTON RECESSED MULTI-MEDIA CONFIGURATIONS

ARLINGTON TV BOX

Arlington's recessed TV BOX for new or old work allows LCD and plasma TVs to mount flush against the wall.

Install two duplex receptacles or low voltage devices. Or you can use the supplied box separator to install one low voltage device and one duplex receptacle.

TV BOX also has two additional built-in mounts for low voltage, data/media connections.

- Colors: White or Black

AATVB613x Arlington TV Box **\$16.95**

ARLINGTON LOW PROFILE TV BOX

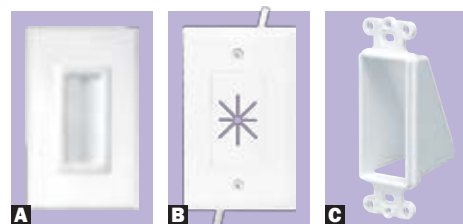

The Arlington Low Profile TV BOX for Shallow Wall Depths is used to install a flat screen TV on 1/2-inch or 5/8-inch drywall with a wall cavity depth 3/4-inches and larger. In addition to accommodating shallow wall depths, the box facilitates installation where plumbing or other obstructions run within the wall cavity. With extra space inside, the box provides room for multiple cables and brackets.

- Color: White

RESIDENTIAL LABEL PRINTER

RHINO 4200 PORTABLE LABEL PRINTER

The DYMO Rhino 4200 gets labeling jobs done fast – and done right.

Easily navigate the familiar QWERTY keyboard. Use one-touch "Hot Key" shortcuts to quickly create and format wire/cable wraps, flags, Code 39 and Code 128 barcodes, fixed-length labels, breaker labels and more.

Print labels up to 3/4" wide in flexible nylon, permanent polyester and durable vinyl materials – plus print directly on heat-shrink tubes. Save even more time with great features – like the "Favorites" key which provides single-key access to commonly used labels, symbols and terms; and the "Custom" key which eliminates repeated steps by saving customized settings.

INDOOR WIRELESS ACCESS POINT

802.11N WIRELESS ACCESS POINT

The Legrand 802.11n Wireless Access Point combines stylish design with blazing speeds and flexible install options to create the best, most reliable network solution for today's homeowners.

With built-in IEEE 802.11b/g/n wireless network capability, the N-WAP allows any computer and wireless enabled network client connect to it without additional cabling. The 802.11n wireless capability gives users the highest speed of wireless experience ever. With an 802.11n compatible wireless adapter installed in your PC, the files can be transferred at up to 300Mbps. The N-WAP flawlessly supports even the most bandwidth-intensive wireless applications such as streaming video services and online gaming without the slightest loss of performance.

The radio coverage is also doubled to offer the high speed wireless connection in an even wider space of your office or house.

To secure the wireless communication, the N-WAP supports most up-to-date encryption: WEP, WPA-PSK and WPA2-PSK. In addition, the N-WAP supports WPS configuration with PBC/PIN type for users to connect to a secured wireless network easily.

The N-WAP ships with both in-ceiling and in-wall mounting brackets and covers included for maximum install versatility, as well as a 48-volt power supply and Power over Ethernet (PoE) injector.

OUTDOOR WIRELESS ACCESS POINT

802.11N WIRELESS ACCESS POINT

The On-Q/Legrand 802.11n Outdoor Wireless Access Point extends the range of your wireless network to outdoor areas, such as the backyard, porch, balcony and patio. With its weatherproof design, including IP55-rated casing, this outdoor WAP is perfect for most outdoor environments, operable even in rain and harsh wind.

The WAP offers speeds of up to 150Mbps to support everyday web browsing and even audio/video streaming.

- Waterproof casing protects WAP in rain and wind
- Provides robust Wi-Fi access both indoors and outdoors
- Supports speeds up to 150Mbps
- Sends power and data through a single Cat5 or Cat6 cable
- Mounts on a wall or pole

NuVo Audio Distribution Systems

GRAND CONCERTO 6-SOURCE, 8-ZONE SYSTEM

NUVO GRAND CONCERTO

Experience ultimate sound. NuVo's Grand Concerto is an elegant, intelligent, whole-home audio system that combines unparalleled performance with the industry's most innovative technology – at an affordable price. With the Grand Concerto system, enjoying uninterrupted, pure, digital sound is a reality in your home.

Feel the power. Get a truly powerful audio experience with 80W per listening zone – enough to drive several speakers in one zone. Listen at loud or soft levels, and get crystal clear sound throughout your home. Our unique Generation D design protocol provides energy conservation, lower heat generation and higher power output.

Integrate seamlessly. Considered to be one of the most uncomplicated systems for integration and control, the Grand Concerto comes equipped for home automation. Because NuVo products are designed for compatibility, it's easy to incorporate your audio distribution system into a complete home automation installation with full connectivity and control.

Install with ease. Concerto's unique Ez Port connection hub neatly integrates the entire system while concealing all keypad wiring. When you compare the Grand Concerto with competitors' products – on performance and price – you'll quickly see and hear the difference NuVo makes.

- 6 audio source inputs for multi-source capability, and up to 8 zones of music
- 80W of power per zone
- Generation D design protocol with digital amplification – runs cooler, saves energy, outputs more power
- The Concerto has versatility in keypad selection. You can pair the Concerto with any mix of E6GCP Single

- gang OLED, I8GCP Double gang OLED, WCP Wireless OLED or CTP LED Color Touch Control Pads
- Flexible setup options: Source Grouping, Security, Volume Reset, Master Mode and much more

- 2 unpowered zones – for use with the NuVo Stereo Amplifier auxiliary satellite amplifier to power up to 6 speakers in a zone. Ideal for large living spaces or outdoor applications
- Built-in IR receiver for wireless control – designed to block adverse interference of plasma displays, sunlight or fluorescent lighting
- Fixed and variable line outputs – for use with high-power external amplifiers

SIMPLESE D 4-SOURCE, 4-ZONE SYSTEM

NUVO SIMPLESE D

Keeping things simple is literally what NuVo's Simplese is all about. A perfect fit for just a few rooms of multi-room audio, or expandable to accommodate up to eight different zones, Simplese delivers clean, crisp audio and incredibly straightforward control, affordably.

Use the backlit buttons of the system's keypad to select your source and control the volume, then sit back and enjoy the great sound and great value. Never before has luxury been so easy.

- Direct wiring for clean audio transfer without distortion or interruption

- Music can be shared in four rooms, all playing the same song or different tunes at once
- Four different inputs (CD Player, Satellite, tuner, etc.) allows each person to customize and listen to whatever they want
- The easy to use controller installs into the wall offering

- a low profile way to manage your system
- Using RS-232 protocol, music can be accessed and controlled through a whole home automation system
- A second Simplese system can add up to four additional rooms of music to accommodate more areas of the home, for a full system of eight zones

WIRELESS AUDIO DISTRIBUTION SYSTEM

NUVO WIRELESS AUDIO

NuVo introduces a new luxury standard for wireless music – audio that sounds as if the band is right in front of you, effortlessly accessible through our wireless whole home audio systems. Developed by audiophiles for audiophiles, this system reproduces every instrumental detail with unflinching clarity, from the deepest bass to the highest ting, because your home, your life, deserves the total range audio experience.

- **Your Music Anytime, Anywhere:** Quickly access music from your PC or Mac and play it anywhere in your home.
- **Streaming Online Music:** Pandora, TuneIn, Rhapsody, and SiriusXM are all at your fingertips with Internet Radio streaming directly to your NuVo System.
- **Lossless Audio Delivery:** Mastering-grade, high-fidel-

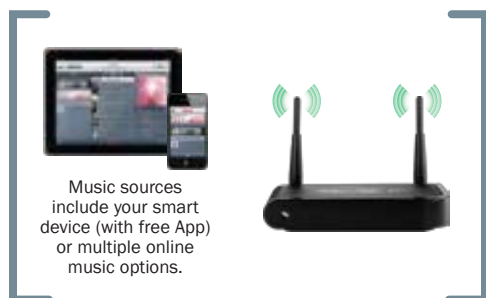

ity audio is delivered to every area of your home, and kept perfectly in sync, even when all rooms are playing the same tune.

- **Audyssey:** World-renown Audyssey music technologies optimize the listening experience for music fanatics and audiophiles.
- **Closed Loop, Class D Digital Amplification:** High-performance amplifier operates coolly and saves energy while minimizing distortion.
- **Wi-Fi:** 802.11n Wireless transmission, delivers the fastest signal speed and broadest coverage available.
- **USB Port:** Connect any storage device to the USB port and play its music through your NuVo system.
- **Audio Line-In:** Connect any analog device.
- **Audio Line-Out:** Connect your player to your existing

home theater receiver or any other amplifier to enable it to play your music.

- **Independent Zone Control:** You are the master of your domain. Every room in your system can play and be controlled independently, so you listen to your favorite album on the deck, while the kids listen to SiriusXM Radio in the den.
- **Wireless Control from Apple, Android, and NuVo Controller:** Wirelessly manage your music, change your listening selection, change volume and more, all from the palm of your hand. With your NuVo Controller, or your personal Android or Apple device you have absolute control.
- **Advanced Features:** Group all of your zones to play in Party Mode and have all zones play the same music.

STEP 1 GATEWAY SETUP

NUVO GATEWAY

The NuVo Wireless Audio System starts with a robust, dual band concurrent wireless Gateway (GW100), allowing the players to communicate with one another, access your music from the network, and stream audio from countless online options. To start the fun, simply connect the Gateway to your home network and a NuVo wireless zone player to your favorite speakers.

RETROFIT SOLUTION: RENOVIA 6-SOURCE, 8-ZONE POWERLINE SYSTEM

NUVO RENOVIA

NuVo's new retrofit solution is the ultimate in flexibility and audio freedom. Combining reliable technology with unprecedented simplicity, Renovia is a whole-home audio system that promises sophisticated sound incorporated almost invisibly into a home's architecture, without a disruptive installation.

Using the home's existing power lines to distribute audio to up to 8 zones (add a Zone Amplifier and Control Pad for zones 5-8), each Renovia system is comprised of a Source Hub and an unobtrusive in-wall Zone Amplifier for each intended zone. The Source Hub, complete with a built-in dual AM/FM/SIRIUS-Ready tuner, centralizes the system's six audio sources and can be easily stored out of sight. Manage the system from a variety of NuVo's attractive control options.

CONTROL LYRIQ WITH YOUR SMART PHONE

ON-Q AIRQAST

Designed for integration exclusively into LyriQ, airQast adds mobile device audio control and streaming to your home's LyriQ system. airQast technology and a free mobile app allow you to start using your mobile devices to select and play music, adjust volume levels, create play lists, and stream Internet radio services through your LyriQ system. Because the airQast mobile app accesses and controls music via Wi-Fi, it provides seamless, uninterrupted audio even during phone calls. Answer the phone, surf the web, even play games – all while enjoying your music.

- Control a LyriQ system with any mobile device
- Stream music from Pandora, YouTube, SiriusXM and Last.FM
- Free mobile app lets you access all your digital music with the flick of a finger

OQAU1015 On-Q airQast **\$224.95**

ON-Q AIRQAST WI-FI SPEAKER

The airQast Wi-Fi Speaker System is unlike any music system that's come before. With the press of a button, users can access, control and play all their favorite music right from their smart phone or tablet through a pair of stunning pro-grade speakers. Just download the free app on any Apple or Android device, choose a song, album or artist, and press play. airQast does the rest.

- Stream songs stored on your computer or Android and Apple devices directly to the airQast speaker over a Wi-Fi network
- Two users can share music to build collaborative play lists, add songs, skip tracks, and control volume
- Add the headphone or line-level audio into the back of the airQast speaker system and easily switch between your airQast source and any input with the included IR remote
- Produces 50 watts of crystal-clear stereo sound for a powerful, immersive audio experience

Hi-Fi 2

8-SOURCE, 8-ZONE SYSTEM

HI-FI 2

With double the zones, more than double the power, more sources, and an all new keypad with OLED display, the Hi-Fi 2 is reinvented for today's demanding homeowners.

Hi-Fi 2 plays music from devices you already own (or those you wish to purchase), and is so easy to operate that anyone can enjoy it. With Hi-Fi 2, you have the ability to listen to different sources at the same time at different volume levels throughout your home. Or set all zones to the same source and volume.

Audio sources can now be located throughout the house using Remote Input Modules, or locally inputted at the Hi-Fi 2 amplifier. Local input examples include items like HAI's Music Gateway and satellite/Internet radio tuners. Remote input examples include a home theater system, kitchen TV, iPod dock, etc.

- 50W per channel with 4 Ohm speakers
- 25W per channel with 8 Ohm speakers

LV95A001 Hi-Fi 2 8-Zone, 8-Source Kit in Enclosure **\$2,539.95**

OEM SYSTEMS IN-WALL AUDIO SYSTEM

IT'S BACK - WITH NEW & IMPROVED FEATURES

IN-WALL AUDIO SYSTEM

Enjoy music throughout your home with space-saving convenience. This elegant in-wall audio system has a number of outstanding features including a Digital Clock with Timer & Sleep functions complete with a full function Remote Control. The unit plays CDs as well as AM/FM radio stations with 30 presets (30 AM, 30 FM). The auxiliary input provides connection for an MP3 player or other portable audio device. The new front USB port allows for playing audio files from an USB flash drive.

The system is suitable for whole-house audio systems capable of driving up to 8 pairs of 8 ohm loudspeakers.

- Digital AM / FM tuner
- CD Transport
- Remote Control
- Front USB port

OEWYS3 OEM In-Wall Audio System **Coming Soon**

MAINSTATION IPOD DOCK

MAINSTATION IPOD DOCKING STATION

Connect the OEM Mainstation Docking Station to your In-Wall Audio System - or any audio/video system - slip your Apple device in, grab the included remote, and press play.

When it's connected, the docking station enables remote control for your iPod, iPad or iPhone!

OEMSD1 Mainstation iPod Dock **\$69.95**

MAINSTATION BLUETOOTH RECEIVER

OEMSBS1 Mainstation Bluetooth Receiver **\$29.95**

LEVITON
Security & Automation

UNIVERSAL IPOD DOCK

IPOD DOCK

The HAI/Leviton Dock allows you to access music on an iPod through IP-enabled devices over a wired or wireless network. When connected to a Hi-Fi 2 distributed audio system, the connected iPod or iPhone becomes a source that can be played in any audio zone connected to the Hi-Fi 2.

The attached iPod/iPhone is controlled from IP-enabled devices, including HAI/Leviton OmniTouch IP-enabled Touchscreens and the Hi-Fi 2. Metadata (e.g. play list, genre, artist, album, and track) is sent to IP-enabled devices on the network and displays on Touchscreens and Hi-Fi 2 Volume Source Controls. Send the iPod control commands and IP-enabled devices navigate and browse the iPod/iPhone music library by play lists, artists, albums, songs, podcasts, genres, composers and audio books.

- Wired: Works over a wired 10/100 LAN network
- Wireless: Works over a wired 10/100 LAN or wireless 802.11 b/g network

SUPPORTS OTHER DISTRIBUTED AUDIO SYSTEM

In addition to seamless integration into HAI's Hi-Fi and Hi-Fi 2, the iPod Dock works with other supported audio systems like NuVo, Russound, Xantech, Speakercraft and Proficient.

LV96A001 HAI/Leviton iPod Dock, Wired **\$399.95**

LV96A002 HAI/Leviton iPod Dock, Wireless **\$509.95**

LV96A011 HAI/Leviton iPod Dock Power Supply **\$34.95**

HD RADIO, INTERNET STATIONS, SIRIUS, PANDORA & MORE!

GRACE DIGITAL WI-FI TUNER & INTERNET RADIO

If enjoying Wi-Fi Internet radio music on your home stereo is your pleasure, the Grace Tuner is for you. The Grace Wi-Fi Tuner provides digital audio directly from the internet to your home stereo. Listen to your personal music collection, over 35,000 internet radio stations, podcast and on demand Wi-Fi radio content or online music services like Pandora, Live365, and SIRIUS.

High Contrast LCD Display: The adjustable 4-line, backlit LCD display makes it easy to view your selections, adjust your audio settings or display song title and artist details.

Function Remote Control: With a full-function remote control you'll be able to choose 1 of your 10 preset stations, search for new stations, skip songs, and give feedback on Pandora from any location in your room.

Remote Control iPhone App/Remote Control iPhone App: The Grace Remote control

application allows you to go where no IR remote has gone before. Control 1 or more of your Grace Internet radios from your iPhone or iPod Touch. You can change the volume, turn it on or off, find stations and set presets or even set any one of your five alarms.

GDIRDT200 Grace Digital Wi-Fi Tuner & Internet Radio **\$234.95**

Wireless Audio

Wireless Multi-Room Audio Distribution

Wireless Control of Any AV System

HOME THEATER EXTENDER

HOME THEATER EXTENDER 2 (HTX2)

The Home Theater Extender 2 (HTX2) lets you extend your home control to the existing audio/video equipment in your home theater. Users can control their home theater equipment from an iPhone, iPad, or iPod Touch using the Snap-Link Mobile for iPhone app, or via an OmniTouch Touchscreen.

The HTX 2 sends IR commands to your A/V equipment. Interfaces are customizable using Automation Studio (for Omni Touchscreens) and Mobile Designer (for iPhone/iPad), which allows you to set up pages to control each A/V device in your household. Mobile Designer is included with the purchase of an HTX2.

How Does It Work? An HTX 2 can be controlled from multiple interfaces and is configured using Automation Studio software. Users can control their AV equipment using an in-wall Touchscreen require an OmniTouch Touchscreen or Snap-Link Mobile for iPhone/iPad.

The Touchscreen/iPhone sends commands to the HTX 2, which controls A/V equipment using its serial and IR ports, as well as its SPDT relays and TCP/IP.

Automate any Room without an Omni controller! With the HTX 2, a customizable OmniTouch Touchscreen, and Automation Studio you may automate any room, whether it is a home theater, corporate boardroom, or a school's classrooms.

You can set up a single button to close the curtains/shades, lower a screen, and turn on the appropriate A/V equipment.

When you add an Omni home control system to this set up, you can add control of the room's lighting, temperatures, and more to the same button on the Touchscreen.

LV86A002 Home Theater Extender 2 (HTX2) **\$734.95**
LV1126 Automation Studio **\$264.95**

Global Caché iTach

CONNECT ALMOST ANY DEVICE TO A NETWORK

GLOBAL CACHÉ iTACH FLEX

Global Caché's iTach Flex is a smart end-point that Wi-Fi or network enables electrical devices instantly. The Flex adds intelligence to the enabled device, allowing events and tasks to be triggered with simple web-based commands and includes onboard memory allowing for stored web pages and files, and web page control of devices. In addition, the Flex supports HTTP for web browser control from anywhere on the network.

The iTach Flex provides powerful, inexpensive, and simple connectivity to almost any electrical device so

it can be controlled and automated using an app on a smart phone, tablet, or any other user interface.

The extremely small footprint, slightly larger than a pack of gum, is ideally suited for transparent coupling and seamless integration to any device in homes or businesses. The Flex's unique hardware form, with a Wi-Fi or network connection to a 3.5mm jack that supports almost any type of protocol translation cable, offers the ability to bridge products and systems in a way never available before.

GLOBAL CACHÉ iTACH

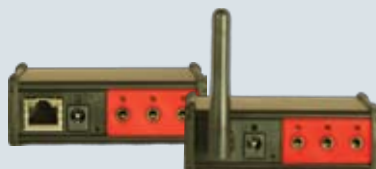

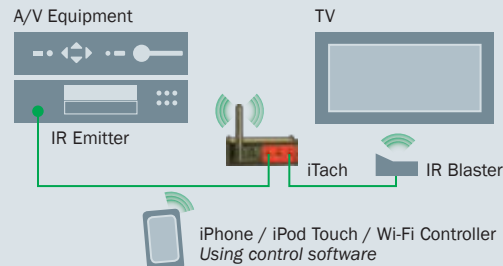

The Global Caché iTach is a family of products designed to connect almost any electrical device to a network in a matter of minutes. Based on open systems and industry standards, the ultra-compact device fits almost anywhere (even the palm of your hand), and includes a choice of wireless (Wi-Fi) or wired connectivity to IR, serial (RS232), and contact closure (relay) equipment.

The innovative design of the Global Caché iTach allows for easy and flexible integration into any net-

worked control solution. The iTach is a simple wired or wireless conduit between you and your device over a network or the Internet.

This is instant network-enabling at its best, delivering the power of choice at a cost-effective price.

- Connects almost any electrical device to a network
- Access, monitor, control standalone equipment
- Supports 8 simultaneous connections
- Ultra-compact design, stylish enclosure
- On board web server for easy setup, HTTP, DHCP

OEM Systems Speaker Collection

ARCHITECH PREMIUM

GOOD: High quality in-wall speakers by OEM Systems feature Carbon Fiber cone woofers with 10 oz. magnets and 1" titanium tweeters. In-wall subwoofer features 8" Carbon Fiber woofer with a 25 oz. magnet, dual channel (stereo) high temperature voice coil and a built-in crossover network. Each speaker includes grilles, screws, cut-out templates and paint mask templates. All round speakers include the OEM Speaker Hole Compass for a perfect size mounting hole every time.

- Rigid captive clamp-ring mounting system
- Perforated metal grilles
- Lifetime Limited Warranty

ARCHITECH KEVLAR

BETTER: Kevlar strength helps the cone of the ArchiTech Kevlar speaker retain its shape at very high energy levels, and its low mass ensures quick, accurate response. The cone's woven surface delivers smooth, uncolored mids. The kapton voice coil former and butyl rubber surround mean these woofers are designed for years of consistent, reliable audio enjoyment.

Phase Plug Technology: The phase plug pole piece extension improves driver performance and clarity.

Pivoting Textile Soft Dome Tweeters: Ferro Fluid lubricates and cools the voice coil enabling high power handling.

IR Receiver Knockouts: The 6½" and 8" in-wall speakers feature a mounting provision for a remote control signal receiver behind the speaker grille.

OERIBLCR Installation Bracket **\$12.95**

All OEM Speakers
include white metal
grilles (paintable)

PRESENCE

PREMIUM: Practical engineering and the best materials available are present throughout the Presence line – namely Kevlar woven fiber woofers with butyl rubber surrounds and ferro fluid cooled Silk dome tweeter and midrange drivers, thick fiberglass crossover network PC boards populated with high-grade electronic components, over-drive tweeter protection, heavy gauge oxygen-free copper wiring and stout gold plated high tension connection terminals. The In-Wall speakers utilize Phase Plug technology designed to keep the midrange clean and minimize critical phase disturbances at the center of the mid-woofer driver. The Ceiling speakers utilize Pole-Mounted pivoting (lens-less) dome tweeters.

PRESENCE SPECIALTY SPEAKER

In-Wall loudspeakers utilize Phase Plug technology designed to keep the midrange clean and minimize critical phase disturbances at the center of the mid-woofer driver. The pivoting dome midrange and tweeter drivers of woven (textile) silk are very open and transparent sounding. Due to their excellent design and costly manufacture they do not require troublesome diffraction contributing lenses.

- Frequency Response: 35Hz-20kHz
- Power Handling: 60 watts nom. 120 max
- Sensitivity: 91dB 1W / 1 meter

OEA830 Presence In-Ceiling Speaker, 8", 3-Way **\$534.95**
OER1B82 Installation Bracket **\$23.95**

PREFERENCE

BEST: Featuring the very finest driver materials, crossover and baffle designs. The Preference Accurate Imaging Baffles (AIB) utilize a ribbed design, which contributes strength and rigidity factors to the baffle, thereby simultaneously eliminating baffle flexure and early reflections from the drivers. Baffle mounted Midrange and High Frequency level switches provide tonal adjustments to compensate for sonic differences due to room acoustics and varying loudspeaker locations.

Preference

- Kevlar long throw woofer cones with butyl rubber surrounds
- Kapton voice coil formers
- Phase plug pole piece extensions
- Teton soft dome pivoting tweeters
- High-grade crossovers
- Polyswitch overdrive protection
- IR knockouts on In-Wall Speakers

JBL Speakers

LEVITON

LEVITON ARCHITECTURAL EDITION

Leviton and JBL have partnered together to create the Leviton Architectural Edition powered by JBL. The Leviton/JBL multi-room Speakers feature Elliptical Oblate Spheroidal (EOS) Waveguide technology for improved high-frequency dispersion throughout a listening area. Titanium-laminate drivers ensure musical accuracy and clarity. The outdoor speakers have the same quality as their indoor counterparts but are engineered to withstand exposure to the elements.

LEVITON/JBL 5.1 CHANNEL HOME THEATER SPEAKER SYSTEM

An extremely versatile performer, the Leviton/JBL 5.1 Channel Home Theater Speaker System is ideal for use in any application where an in-wall/in-ceiling installed home theater speaker solution is impractical but full performance is desired. The satellites can be mounted on walls or ceilings to open up as much living space as possible. Video magnetic shielding means that the satellites can be located right next to a TV screen without causing any problems.

• Colors: Choose Black or White

LVAEH50 JBL Surround Sound Speaker System **\$309.95**
LVAESS5 JBL Extra Surround Sound Speaker **\$44.95**

IN-WALL SUBWOOFER

STUDWOOFER

This StudWoofers is a 10" in-wall subwoofer designed to be installed in standard 2" x 4" and 2" x 6" walls with drywall as thin as ½" without any need for reinforcement. It fastens directly to 16" on-center studs and will not work itself loose from the drywall.

- Frequency response: 25 to 200Hz; Power Handling: 150W max; 8 Ohms nominal
- Cut-out Size: 14 ½"W x 16 ½"H x 3 ¾"D
- Size: 19 ½" x 19 ½", 1 ¾" face relief

OESE10SW StudWoofers, Single Voice Coil **\$249.95**

SPEAKER SWITCHES

PRO-WIRE SPEAKER SWITCHERS

- Maintain minimum 8 Ohm load
- Amplifier protection against impedance loads
- Great barrier termination strip construction
- 4-Speaker: Handles up to 100 Watts per channel
- 8-Speaker: Handles up to 125 Watts per channel

OESW4SPKR Pro-Wire 4-Pair Speaker Switcher **\$84.95**

OESW8SPKR Pro-Wire 8-Pair Speaker Switcher **\$129.95**

ON-Q SPEAKER SWITCHERS

With the On-Q/Legrand 4-Location Speaker Selector, you can easily distribute impedance matching audio signals to up to four pairs of speakers. This speaker selector features protection circuitry that prevents damage to your audio equipment from undercurrents or overcurrents.

- Handles up to 100 Watts per channel

OQAU1100WHV1 On-Q 4-Pair Speaker Switcher **\$39.95**

PRO-WIRE SPEAKER SWITCHES

This Switch can be used to switch between 2 sources through 1 pair of speakers or to switch between 2 speakers with 1 source.

- Wallplate not included (see page 57)
- Colors: Choose White, Ivory or Almond

OEIW101 Pro-Wire A or B Speaker Wall Switch **\$19.95**

OEIW303 Pro-Wire A or B or A+B Speaker Wall Switch **\$44.95**

Volume Controls

CHANNEL VISION VOLUME CONTROLS

The VC-302 is an impedance matching volume control with an IR receiver knockout. The knockout allows Channel Vision's IR-2400 to be integrated with the volume control for applications that require IR repeating.

- Impedance Matching Volume Control
- Protects your amplifier against low impedance loads
- Supports up to 8 pairs of speakers
- Supports 14- 24 AWG speaker wire
- 300 watts peak
- 100 watts RMS per channel
- Wallplate included
- Color: White (Ivory and Almond color change kits available)

CVVC302 Channel Vision Volume Control **\$34.95**

CUSTOMER FAVORITE!

BUFFALO ELECTRONICS VOLUME CONTROLS

The VC-5S is an easy to use, impedance protection volume control with the option to jumper out the impedance protection when it is not needed. The VC-5S works equally well in either mode but has the added responsibility of paying attention to the controlling jumpers.

If you want to drive a single listening zone with its own amplifier this is the volume control for you.

- Wallplate included
- Colors: Choose White, Light Almond or Ivory

BEVC5S Stereo Auto Impedance In Wall Volume Control (up to 12 Gauge Wire) **\$39.95**

ON-Q/LEGRAND VOLUME CONTROLS

The On-Q/Legrand Rotary Volume Control allows you to control speaker volume at the wall.

- Rated at 100 watts per channel
- Built-in impedance matching for easy installation
- Smooth turning rotary knob
- Wallplate included
- Colors: Includes White and Almond or White and Light Almond

OQAU0100WHDV1 On-Q/Legrand Rotary Volume Control (White & Almond) **\$20.37**

OQAU0100WHLAV1 On-Q/Legrand Rotary Volume Control (White & Light Almond) **\$49.95**

PRO-WIRE SLIDER VOLUME CONTROLS

- 12 position autoformer
- Smooth transition between steps
- 12-tap, high-grade 100-watt autoformer
- Wallplate included
- Colors: Choose White, Ivory or Almond

OEXL100 Slider Volume Control **\$39.95**

OEVS100 Impedance Matching Slider Volume Control **\$39.95**

PRO-WIRE OUTDOOR VOLUME CONTROLS

- Knob design
- Wallplate included
- Color: Grey

OEAU100WV Heavy-Duty Outdoor Volume Control **\$59.95**

OEAUIMP100WV Heavy-Duty Impedance Matching Outdoor Volume Control **\$64.95**

OEAUIMP100WVB Heavy-Duty Impedance Matching Outdoor Volume Control (with Box) **\$69.95**

SPEAKER INSTALLATION

SPEAKER PROTECTION

- Patented design protects from moisture and dirt
- Maintains vapor barrier integrity to meet building codes
- TonerCoil insert (included) allows zig zag wire leads at front edge without stapling for strong toner signals on retrofit applications

PPBBX2 Ceiling BackBoxx **\$14.95**

PPBBX1 In-Wall BackBoxx **\$10.95**

PPBB24166 In-Wall BackBoxx Kit **\$74.95**

Includes 6 boxes, 1 BackBoxx Jr & 6 Toner Coils

CEILING SPEAKER PROTECTION

A pop-up nylon cover protects ceiling speakers against abrasive insulation fibers and dust particles. A must for all ceiling speaker installations!

OEISF147 Insu-Flate **\$5.15**

VAPOR DOMES

- 3-in-1: Rough-In Kit, Vapor Dome, and Back Box
- Compatible with ArchiTech, Presence and Preference speakers

HDMI Distribution

HDMI EXTENDERS

OMNI HDMI EXTENDER

The Omni-HDMI Extender incorporates every current HDMI feature, including 1.4a-exclusives like 3-D, 10/100T Ethernet Channel (HEC), Audio Return Channel, and 4K x 2K support. In addition, this HDMI Extender offers features not available elsewhere, including a built in 3-way Ethernet Switch, fully active (9-pin) RS-232 control, multiple IR brand compatibility, TOSLINK audio output, and one power supply for ease of installation.

TEHD1 Omni HDMI Extender **\$626.95**

HDMI OVER CAT5E/6

Use two low-cost Cat5e/6 cables to transmit HDMI signals instead of heavier, less-flexible and more-expensive HDMI Cables.

- Capable of providing HD video and audio up to 328' (100m) for 480i resolution, and 196' (60m) for 1080p resolution
- Supports 1080p, 1080i, 720p, 576p, 576i, 480p, 480i formats

SEMVEAH010Q HDMI Over Double Cat5e/6 **\$124.95**

SEMVEAH020Q HDMI Over Single Cat5e/6 **\$164.95**

ON-Q/LEGRAND HDBaseT HDMI EXTENDER

Costly HDMI cables and limited lengths are history with the On-Q/Legrand HDBaseT HDMI Extender. Extends HDMI and Internet signals up to 300 feet, providing extended HDMI, boosted Internet signals, sharpened picture, clear digital sound and the ability to use remote commands from a second location – all in one unit.

OQAC1030 On-Q/Legrand HDBaseT HDMI Extender **\$444.95**

HDMI CABLES & CONNECTORS

HIGH-SPEED HDMI CABLE WITH ETHERNET

The High-Speed HDMI Cable with Ethernet is a high-performance, pro-grade HDMI cable that delivers uncompressed 1080p high-definition video, 7.1 digital surround sound audio and Ethernet connectivity to any TV in your home.

OQAC2MxBK On-Q High-Speed HDMI Cable **\$7.95-\$134.95**

Available Lengths (in meters): 0.7, 1, 2, 3, 4, 5, 7.5, 10, 15, 20

HIGH-SPEED HDMI SLIMLINE CABLE WITH ETHERNET

- 75% thinner than regular HDMI cables
- Delivers uncompressed HD video and digital audio in a single cable
- Supports 1080p, Ultra HD (4K) and 3D video

OQAC3M0xWHV1 On-Q High-Speed HDMI Slimline Cable **\$13.95-\$39.95**

Available Lengths (in meters): 1, 2, 4

SMART HDMI

NETMEDIA INTELLIGENT HDMI SWITCH

The NetMedia iHDMI 4x1 is an intelligent auto-sensing 4-port HDMI switch. It automatically senses and connects whichever component was last powered up to provide spontaneous access to multiple HDMI devices such as Satellites, Blu-rays, video game consoles, or computers.

The iHDMI 4x1 also includes a serial port for automated control and advanced cable setup. Cascade additional 4x1 switches to make even larger intelligent arrays.

- HDMI v. 1.3a 4-input 1-output switch
- DVI/HDMI resolution up to 1920x1200
- 480i, 480p, 720p, 1080i, 1080p and Deep Color

NMISWITCHHD4X1 NetMedia iHDMI 4x1

Includes iHDMI-4x1 Switch Assembly & Power Supply

HDMI CONDITIONER/STABILIZER

This HDMI Conditioner/Stabilizer is designed to split HDMI signals, and to stabilize and correct HDMI signals that may be compromised by non-conforming HDMI devices.

TEHDS14 HDMI Conditioner/Stabilizer with Quad Output **\$324.95**

TEHDS12 HDMI Conditioner/Stabilizer with Dual Output **\$194.95**

DIGITAL HDMI VOLTAGE INSERTER

At times, a source device (cable box, DVD player, video game system) will not have enough power dedicated to the HDMI output. This will cause a voltage drop and the video quality is affected, or worse, there is no video at all. The RapidRun Digital HDMI Voltage Inserter solves this problem by isolating the power from the source device and providing a dedicated power signal to give the crisp, clean signal that is expected from high definition equipment.

CG42223 C2G Digital HDMI Voltage Inserter **\$21.95**

Remote Control IR Extenders

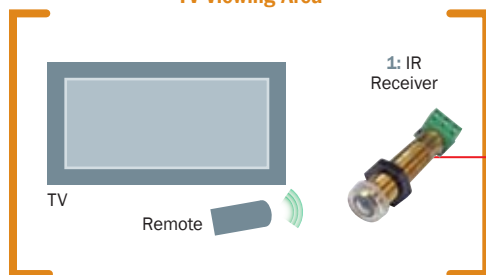

1 At least 1 IR receiver to read the signals from your remote control

2 A Connecting Block to control the entire IR system

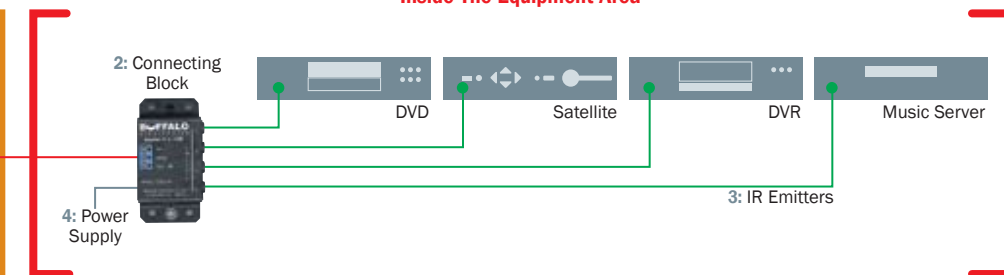

3 As many emitters as needed to control the A/V components

4 A power supply to provide power to the system

HIGH PERFORMANCE J-BOX REPEATER

This ultra-thin, 1/2" deep, high performance voltage regulated repeater installs easily in any electrical box.

- Surface mount technology for superb noise immunity, low current draw and reliability
- Voltage regulation for consistent sensitivity at any home run wire length
- Ambient light range is 40' with an acceptance angle of 130°
- A hidden, pin-light LED flashes confirmation
- Extensive shielding for robust noise shield
- Terminal block connector accepts up to 16 gauge wire
- Installs in any standard electrical box or P-ring
- Colors: Includes White and Light Almond
- Wallplate not included (see page 57)

BEIR250WLA J-Box IR Repeater **\$39.95**

AMPLIFIED IR CONNECTING BLOCK

- 4 flasher jacks
- Will drive 15 repeaters
- Flasher voltage regulation for consistent output levels
- Signal amplification for long repeater runs
- Signal confirmation LED
- Parallel if more required

BEDV9500 Power Supply (required) **\$7.50**

HIGH PERFORMANCE TUBE REPEATER

This standard size, 1/2" diameter, high performance voltage regulated tube repeater installs easily with a built-in terminal block connector. Tube repeaters offer many installation options to achieve a clean and uncluttered look.

- Superb noise immunity, low current draw
- Voltage regulation for consistent sensitivity at any home run wire length
- Approximate range in ambient light is 40' with an acceptance angle of 130°
- Excellent noise shielding
- Installs in any standard 1/2" mounting hole
- Attractive dark polycarbonate lens and black easy grip mounting nut (also clear lens, supplied)

BEIR350 Tube Style IR Repeater **\$37.50**

IR FLASHER

- Self-stick adhesive for easy mounting over equipment IR windows
- LED flashes signal confirmation
- Standard 1/8" mini plug with 6' cord works with most existing IR systems

GLOBAL CACHÉ IR

IR LEARNER

The Global Caché IR Learner is used with a PC to learn the full spectrum (30KHz to 500KHz) of IR codes that control IR driven equipment. When used in conjunction with the free IR Utility, the learned code is displayed, converted into other formats, and automatically copied into the Windows clipboard. Stored codes can be used to control and automate devices that accept IR control signals from networked computers.

GCIRL IR Learner **\$99.95**

IR EXTENDER

The Global Caché IR Extender extends IR capability by converting signals into digital data, which can then be read from any PC or RS232 serial port. It is for use with various IR input devices to capture IR commands that can be recorded, played back and used to initiate actions across a network. It is the first extender to support the full IR frequency spectrum.

GCIRE IR Extender **\$74.95**

CHANNEL VISION IR

PLASMA-PROOF IR SYSTEM

Hide your plasma receiver, audio source, cable box, and DVD equipment in a cabinet or separate room and control it without ever having to open the doors again. The Plasma Proof IR Kit is ideal for IR distances up to 1,000'.

- Ideal for components behind closed doors
- Control up to 4 devices in a single-room

CVIR5010 Plasma-Proof IR System **\$91.95**

Includes IR Receiver, IR Repeater Hub, 4 IR Emitters, Mounting Accessories & Power Supply

CHANNEL VISION ALL-IN-ONE IR SYSTEM

Creates 1-room IR system. The 2-piece design allows the IR sensor to be placed in an inconspicuous location, where its larger piece can be placed behind the TV or other components.

- Feedback LED for IR signal confirmation
- Plasma proof
- Compatible with any standard 12V IR system
- Fluorescent friendly

CVIR5000 Channel Vision All-In-One IR System **\$77.95**

HOT LINK IR

HOT LINK

Hot Link Pro repeats and enhances IR signals while hiding in your cabinet, with no remote control attachments. Drill no ugly holes! Hot Link's IR Eye can be mounted on the back of flat panel displays, behind door slots, speaker grills, cabinets and wall plates without modification or under toe kicks and sub-woofer speakers. Bounce your IR signals to your equipment behind you or to an adjacent room! Hot Link is more than 4 times as sensitive as standard receiver targets, and is broadband, eliminating the need for special receivers at different frequencies. The Receiver Eyes of all Hot Link models can be extended to 25' using RG6 adapted to RCA connections.

- A complete single box solution, Hot Link Pro Remote Control Booster Systems come complete with power supply, main amplifier, emitters and receiver eye

CVIR2400 IR Receiver **\$62.95**

CVIR3002 Dual IR Emitters **\$8.95**

Internet Access

DESKTOP CONNECTIONS

ON-Q DESKTOP 802.11N WIRELESS ROUTER

Enjoy reliable Wi-Fi coverage throughout your home with the On-Q Desktop 802.11n Wireless Router. The router offers speeds up to 300Mbps and features dual antennas to enhance signal strength. In addition to providing Wi-Fi, the router also includes a four-port Ethernet switch for hardwired connections.

- Dual antennas deliver broad coverage
- Supports the latest encryption technologies to keep the network secure
- Includes a 4-port Ethernet switch for hardwired connections
- Simple setup wizard enables easy installation and configuration

OQDA2154V1 On-Q Desktop 802.11n Wireless Router **\$42.95**

ON-Q DESKTOP 802.11N WIRELESS ACCESS POINT

Extend the range of your WiFi signal with the On-Q Desktop 802.11n Wireless Access Point. This access point connects to an existing Internet router, and provides wireless speeds up to 150Mbps. The included software guides you through a simple setup wizard for easy installation and configuration onto your home network.

- Enables Wi-Fi speeds up to 150Mbps
- Built-in antenna optimization for best coverage
- When in Range Extender mode, it boosts the wireless signal so it can reach previously unreachable or hard-to-wire areas

OQDA2155V1 On-Q Desktop 802.11n Wireless Access Point **\$57.95**

ON-Q DESKTOP GIGABIT ETHERNET SWITCH

If you need more bandwidth to support all the network connected devices in your home, the On-Q Desktop Gigabit Ethernet Switch is your solution. The switch upgrades an existing home network to deliver high-speed (1000Mbps) connectivity, providing faster, fluid communication for networked TVs, gaming systems, and other bandwidth demanding devices.

OQDA1015V1 On-Q Desktop Gigabit Ethernet Switch, 5 Port **\$43.95**

OQDA1018V1 On-Q Desktop Gigabit Ethernet Switch, 8 Port **\$57.95**

GREAT SELECTION OF VIDEO MODULATORS!

CABLETRONIX DIGITAL MODULATORS

The CableTronix modulators are frequency agile modulators that allow for insertion of a video, and left and right audio signals from a satellite receiver, VCR, laser disc, DVD or security camera to be inserted on selected TV channels. These units are switchable between off-air and CATV signals, so that one unit can be used for both applications.

NACTARM2LTIR Digital Agile Modulator, 2 Input with Audio Video Loop Through Outputs, IR capable **\$149.95**
NACTARM4IR Digital Agile Modulator, 4 Input, IR capable **\$219.95**

DIGITAL AGILE MODULATOR

Multiple video content distribution to all TVs without the purchase of additional video devices.

- Output level: 25dBmV
- Audio and Video AGC
- Precise digital PLL control
- Extended channel range, UHF 14 to 78 and CATV 65 to 135 (excluding 95 -99)
- Dual RCA inputs directly on the unit
- Built-in RF amplifier

NACTMM10 Digital Agile Modulator **\$34.95**

DIGITAL MICRO MODULATOR

Make your own TV channels with these ultra-compact modulators!

- UHF 14-69 and cable 70-125 channels
- Compact size and weight
- Internally generated test pattern
- Built-in video amplifier
- Combined stereo inputs
- Precise digital channels

NM70 1-Channel Micro Modulator **\$104.95**

Size: 3 1/2" x 2 1/5" x 9/10" & Weighs 4.2oz.

NM73 3-Channel Micro Modulator **\$224.95**

Size: 3 9/10" x 5 1/2" x 9/10" & Weighs 8.7oz.

MULTI-CHANNEL MODULATORS

These input modulators output on a single coax to any distribution system. All models provide loop-thru capability to be used when maintaining MTS Stereo at the modulator location. Features CATV 65-125 (excluding 95-99) and UHF 14-64 and 115V AC power supply.

Smart Power Management

360electrical TrickleStar

360 ELECTRICAL POWERCURVE SURGE PROTECTORS

Finally, you can stop covering up outlets with large, bulky plugs! The 360 Electrical PowerCurve 6-Outlet Surge Protector allows you to plug in those large cell phone adapters and laptop chargers, and still use ALL the other outlets. The surge protector features power outlets that rotate 360 degrees in either direction, providing room for all your large plugs.

EL36051 360 Electrical PowerCurve 6-Outlet Surge Protector **\$29.99**

EL36052 360 Electrical PowerCurve 7-Outlet Surge Protector with USB **\$34.95**

360 ELECTRICAL POWERCURVE MOBILE SURGE PROTECTOR

This compact surge protector plugs into an existing outlet, providing two power outlets and two USB ports. Better yet, the two AC power outlets rotate 360 degrees in either direction to make room for two large, bulky plugs, like that of a cell phone charger.

EL36050 Electrical PowerCurve Mobile Surge Protector **\$19.99**

TRICKLESTRIP

The TrickleStar 7 Outlet Powerstrip features power outlets that can sense when an individual plug-in component is turned off. While components that are turned on remain powered, the powerstrip knows not to send electricity to its "off" outlets, radically reducing vampire/standby energy consumption. The 7 Outlet Powerstrip also provides fireproof surge protection, uniquely designed for PC and TV peripherals.

TS180SSUS7XX TrickleStar 7 Outlet Powerstrip **\$34.95**

TS180SSUS7XD TrickleStar 7 Outlet Powerstrip (with RJ11/45) **\$39.95**

BOOST CELL PHONE RECEPTION INSIDE & OUTSIDE YOUR HOME

WILSON SLEEK UNIVERSAL SIGNAL BOOSTER KIT

For personal cell signal boosting wherever you need it, use the Wilson Sleek Universal Signal Booster Kit. The Sleek works in your car, at home or in the office. Designed for convenient use on the go, the Sleek easily mounts to your vehicle's dashboard. Simply place your phone in the universal cradle, activate your hands free talk option, and experience clear, reliable reception no matter where you roam.

- Reduces dropped calls, extends signal range, and increases data rates
- Amplifies signals both to and from cell tower
- Adjustable arms fit most any phone
- Works with all cell networks (except Nextel/iDEN, 4G)
- Also increases data performance in weak signal areas
- Your phone requires less battery power when used in the Sleek cradle, which includes a built-in charger
- Installs in minutes: no special tools required
- Plug-and-Play kit: package includes everything needed

W1815226 Wilson Sleek Universal Signal Booster Kit **\$109.95**

Includes Sleek Signal Booster, USB Cable, Antenna, Adjustable Arms, Mounting Bracket for Car & Power Supply

W1859970 Wilson Home & Office Accessory Kit **\$29.95**

Required to install the Sleek inside.

WILSON SIGNALBOOST DB PRO

The SignalBoost DB Pro cellular amplifier kit significantly improves the performance of any cellular device on any network (except iDEN Nextel) experiencing weak signal inside of buildings.

At the center of this kit is the DB Pro dual band bi-directional amplifier with a new high gain design. An external omni directional antenna with multiple mounting options eliminates researching cell site locations and antenna pointing. The inside panel antenna which rebroadcasts the amplified signal is designed for optional in-wall mounting.

All components are connected using provided standard coax cable.

W1841262 Wilson SignalBoost DB Pro Kit with Omni-Directional Antenna **\$499.95**

Includes SignalBoost DB Pro Amplifier, Outside Omni-Directional Antenna, Inside Wall Mount Panel Antenna & Coax Cables.

OPIVISION Optex iVision Video Door Phone Kit **\$319.95**

Includes Wireless Video Monitor, Door Intercom Camera, Docking Station & Accessories

ANSWER THE DOOR FROM YOUR TELEPHONE

DOORBELL FON

The DoorBell Fon replaces the doorbell to let you answer the door from any telephone, even cordless phones. Also open the door with one simple keystroke.

When a visitor presses the button on the doorbox, it rings your home's phones with a distinctive ring. You greet your visitor by simply picking up the phone. If you're on the phone, you'll hear a call-waiting tone that is answered with a simple switch-hook or push of your flash button. The DoorBell Fon connects to 2 doorboxes and allows you to flash between the 2 doors.

- Doorbell button rings your phones
- Uses existing single pair doorbell wires
- Distinctive tones at each door
- Can be used as an Indoor Intercom
- Call waiting tone indication
- 1- or 2-lines, key or home PBX systems
- Each controller supports 2 door stations

S-SERIES SLIMLINE DOORBELL

These super thin Door Stations are designed to easily fit on door trim like a regular doorbell switch.

- A built-in awning provides protection from the elements plus a stylish look
- No external power required: power drawn from DoorBell Fon Controller
- Colors: Choose Aluminum or Black

ACDP38xS DoorBell Fon Slimline Kit **\$209.95**

Includes Doorbell Fon Controller and Slimline Doorbell.

ACDP38NxS DoorBell Fon Slimline Doorbell **\$79.95**

DP28-SERIES DOORBOX

- Size: 4¹/₂" x 4¹/₂" x 1⁵/₈" (Fits a 2-Gang Box)
- Colors: Choose Brass, Black, Bronze or Aluminum

A ACDP28xF DoorBell Fon DP28 Kit **\$274.95**

Includes Doorbell Fon Controller and DP28 Doorbox.

ACDP28NxS DoorBell Fon DP28 Doorbox **\$144.95**

DP38-SERIES DOORBOX

- Features housing for pinhole camera
- Size: 4¹/₂" x 4¹/₂" x 1⁵/₈" (Fits a 2-Gang Box)
- Colors: Choose Brass, Black, Bronze or Aluminum

E ACDP38xF DoorBell Fon DP38 Kit **\$274.95**

Includes Doorbell Fon Controller and DP38 Doorbox.

ACDP38NxS DoorBell Fon DP38 Doorbox **\$144.95**

On-Q Studio Intercom

SELECTIVE CALL INTERCOM PAIRS TECHNOLOGY WITH DESIGN

ON-Q SELECTIVE CALL INTERCOM

Seamlessly blending leading edge technology with stunning design, Selective Call is the most advanced intercom in the industry. The system allows broadcast or room-to-room communication at the touch of a button, and enables up to 3 simultaneous conversations – the only intercom in the industry to do so. And it's all based on efficient Cat5 wiring.

- Up to 32 locations per system
- Simple, intuitive user interface
- Up to 3 simultaneous conversations
- No main console
- 96 customizable room names
- 20 built-in digital door tones
- High-resolution color LCD interface
- Four LCD skins
- Convenient RJ45 connection
- One-person installation via system auto-discovery
- Room unit features a high resolution color LCD interface, with advanced customization options like personalized room names and dynamic list sorting
- Each unit includes a high-quality speaker and microphone for crisp, static-free sound
- Features include unit auto-discovery, self-healing capabilities, and local mute and monitor

NUTONE RETROFIT

NuTone's very popular intercom systems have been discontinued and replaced with the new NuTone NM Series. The NM Series, as well as several other intercom systems, allow you to upgrade from a previous NuTone system with stylish retrofit components. Please note: The new systems are not compatible with the older systems.

» www.HomeControls.com/NuTone-NM-Music-Intercom-Systems

The DoorBell Fon system as well as the DMC-1 from M&S Systems also provide retrofit options for older NuTone intercoms.

SEE & RECORD WHO'S AT THE FRONT DOOR

BRINNO PEEPHOLE VIEWER

Clearly see who is at your door with the Brinno PeepHole Viewer. This powerful viewing system turns a hard to see door peephole into a big and bright image by using an LCD panel to display who is at your door. It provides safety and security, plus convenience for individuals with mild to severe vision loss.

The new generation PeepHole Viewer comes with the Image Recording function. When you press the power, it records the visitor's photo on a Micro SD card (card sold separately).

- Simple push button to see large image without darkening the peephole
- Clear image in LCD Panel on door, easy to see for people of any height
- Optional zoom feature
- Compensation for low light images
- Compensation for "fish eye" distortion

BRPHV1330 Brinno PeepHole Viewer **\$99.95**

BRINNO PEEPHOLE VIEWER ACCESSORIES

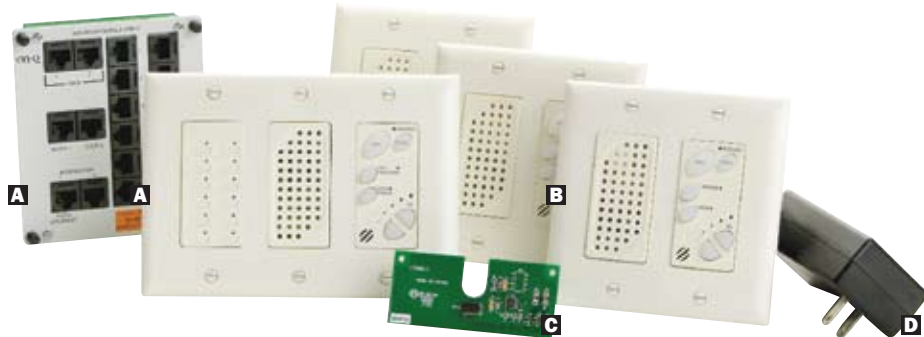

With the Motion Activated Sensor, the PeepHole Viewer records images when a visitor comes close to your door. So even if you are not at home, you will know who came to your door.

BRMAS100 Brinno Motion Activated Sensor **\$64.95**

With the Knocking Sensor, the PeepHole Viewer records images when a visitor knocks on your door.

BRKNS100 Brinno Knocking Sensor **\$44.95**

M&S Communication Systems

VIDEO INTERCOM SYSTEM

VMC1 VIDEO SECURITY INTERCOM

The VMC1 Video Security Intercom – the only residential system that integrates complete intercom functionality with live video and home automation control – gives homeowners multiple communication and security features in one efficient package.

Far from a simple door-to-video screen entry system, the VMC1 seamlessly combines security video, lighting control, e-mail notification and active camera viewing – all with hands-free response capability – to offer exceptional whole-house communication and entryway security. Supports up to 20 remote stations (including up to three color video camera stations), and controls multiple output switches that automate home security.

- View video from any camera station on any TV in the home; View live video or email a snapshot of a person

ringing the doorbell to a smart phone or remote computer monitor

- Turn lights on or off remotely or automatically
- Activate a security panel panic alert

These combined capabilities make the VMC1 Video Security Intercom attractive to homeowners seeking control and safety.

INTERCOM SYSTEM

DMC-10 INTERCOM SYSTEM

The DMC-10 is an intercom system for structured wire installation in residential applications.

The heart of the system is the Structured Wire Intercom Hub. The hub grid mounts in a structured wiring enclosure (not included). Up to 8 room, door and patio stations in any combination can be connected to the system hub using up to 500' of standard Cat5 cable for each station. For larger installations, a second system hub can be added for expansion, providing a total system capacity of up to 16 stations.

Room station keypads are illuminated with soft blue indicators while the intercom is in use. The door and patio station keys are illuminated with white lighting for easy nighttime operation.

- Color: White (Color change kits available)

AirVac Central Vacuum System

AIRVAC POWER UNITS

CENTRAL VACUUM SYSTEMS POWER UNITS

The best part of an AirVac central vacuum system is what it doesn't have: noise, inconvenience, dust. Much less dust left behind – in your rugs, on your furniture, in the air and in your family's lungs. Traditional vacuum cleaners allow too much dust to recirculate – on your rugs, on your furniture, throughout your home. The result: indoor air pollutant levels two to five times greater than outdoor levels.

But an AirVac central vacuum system delivers up to three times more power to lift out dirt, dust mites and animal dander from rugs, drapes and furniture upholstery. AirVac then vents it all outside – safely, quietly, permanently to eliminate this health risk to your family. And AirVac comes with a 10-year warranty (Platinum Series) – that's nothing to sneeze at.

With a little planning, it's easy to install an AirVac system in new or existing homes. The PVC tubing can run through the attic, basement or cold air returns – then lowered or raised behind interior walls to inlet valves that are installed in strategic locations throughout the house. The central vacuum power unit is located in an out-of-the-way area such as a garage, basement or utility room, keeping the living areas quiet, clean and dust free.

THE RED SERIES (BAGLESS)

The Red Series (bagless) AirVac, with its high efficiency and superior performance, delivers incredible cleaning power. You'll notice the difference in air quality. And a built-in inlet port allows you to plug the hose directly into the unit so you can clean anywhere within 30' of the canister. The Red Series AirVac offers a 5-year warranty.

HAI/LEVITON COMMUNICATING THERMOSTATS

OMNISTAT2

Using advanced digital technology, the Omnistat2 learns your home's heating and cooling patterns and adjusts control to maximize both your HVAC's efficiency and your family's comfort.

- The backlight comes to life as you approach, making it easy to adjust in the dark – with more than 100 customizable backlight colors
- To adjust the temperature, simply turn the scroll wheel to the right or left
- 3 buttons facilitate easy to navigate menus to display information
- Selectable simplified and advanced displays
- Supports 1 indoor/outdoor temperature sensor
- Colors: Choose White, Silver or Black

Comfort

- Digital precise temperature control
- Automatic heat/cool changeover
- Fan mode periodically circulates air for comfort
- Indoor sensor averaging with remote sensor
- Humidity Control (with HARC2000)
- No batteries needed to retain settings and time

Energy Management

- Learns how your home heats and cools to control the equipment for efficiency and comfort
- Graphical display of HVAC usage, by week

LVRC2000 Omnistat2 **\$264.95**

Multi-Stage & Heat Pump With Humidity Control

Did you know 56% of the home's energy bill is just for heating and cooling? Save up to 10% with a programmable thermostat that automatically adjusts the temperature.

LOCKSTATE WIFI THERMOSTAT

LOCKSTATE WIFI INTERNET THERMOSTAT

The sleek 7-day programmable WiFi enabled thermostat features touchscreen controls and works with nearly any HVAC system (including traditional furnaces and heat pumps). The LS-90i can also control an external air baffle, external humidifier and de-humidifier.

Linking the LS-90i to your home's wireless router takes just a few minutes and allows you to view and control your thermostat's temperature and settings whether you are at work, on vacation or on the road.

- True Auto mode to switch automatically between heat and cool depending on environmental factors

LSLS90I LockState WiFi Internet Programmable Thermostat **\$299.00**

Requires either power from the furnace ("C" or "Common" wire) or an external transformer to power the thermostat in order to run the Wi-Fi module - plus a Wi-Fi router and a laptop or smart phone with Wi-Fi connectivity to provision thermostat

Integrate your HVAC Controls Into Your Home Automation System With The RCS Z-Wave Thermostat. See Page 24.

GT5STARx GreatCall 5Star Urgent Response **\$49.99**

Monthly service required.

MEDICATION REMINDERS

MED-E-LERT

Med-E-Lert is a cost-effective automatic pill dispenser that assists with medication compliance. It helps organize medications, reminds you when it's time to take each dosage, and makes sure you don't take the wrong ones.

Organize your daily medications in Med-E-Lert's 28 compartments and then set the clock for medication reminder times – for either once a day or up to four times per day. When it's time to take your medications, the system gives you access by turning the dial, and alerts you with a buzzer alarm and flashing light. The alarm continues for 30 minutes or until you take your medication. To stop the alarm and dispense the pills, pick up Med-E-Lert and tilt it over, dumping the pills into the hand or a suitable container.

GMMEQB0903B Med-E-Lert **\$69.95**

MEDFOLIO

MedFolio signifies a time when the old-fashioned "pill box" meets the 21st century. Stylish and sleek, MedFolio will alert you to take your next dose of medications by an audible sound and a unique visual LED-lighting system. Receive your medication reminders by email or text messaging. Plus, a one of a kind built-in medication identification system is right at your fingertips.

MF1001 MedFolio **\$248.00**

Monitoring service optional.

CUSTOMER FAVORITE!

MEDREADY

When it's time to take your medication, MedReady rotates an internal pill box and unlocks the door. It's easy to use and can be programmed for up to four times a day.

- Choose basic model, or with flashing Light and Low Frequency tones

MR1600 MedReady, Standard model **\$149.00**

MR1650 MedReady, Modem model **\$196.00**

Monitoring service required.

Personal Alerts

BELLMAN & SYMFON VISIT

Bellman Visit is a wireless detection system that helps those with hearing loss detect important signals and alarms. The system was developed to catch your attention and alert you to events in your home, including a doorbell, telephone ring, fire alarm and more. With Bellman Visit, life is safer, more flexible and more free. The Visit alerting system offers a broad-ranging suite of transmitters and receivers that fully integrates to work as one.

STEP 1 CHOOSE A RECEIVER

PAGER

Notifies you with vibrations and a lighted symbol when a transmitter is activated. It is small and can be carried in your pocket or on your belt.

BSHCVISITPAGREC \$195.95

CLOCK

Wakes you in the morning with a combination of sound, flashing lights and vibrations from the accompanying bed shaker.

BSHCBAVISITCLK \$139.95

PORTABLE

Notifies you with sound and colored lights when a Visit transmitter is activated. It's wireless, so you can take it out on the balcony or the porch.

BSHCVISITPORREC \$135.95

FLASH

Notifies you with flashing lights and a lighted symbol when a Visit transmitter is activated. Place it on a shelf or mount it on a wall.

BSHCVISITFLSREC \$173.95

STEP 2 CHOOSE A SENSOR/TRANSMITTER

DOOR

Designed for those who have difficulty hearing the doorbell. When someone rings the doorbell, it detects the sound and signals the Visit receiver.

BSHCVISITDTR \$81.95

TELEPHONE

Suggested for those who sometimes have trouble hearing when the telephone rings. When someone is calling, it will signal the Visit receiver.

BSHCVISITTR \$81.95

PUSH BUTTON

Works as a wireless doorbell. Just attach it by the front door, and you will be notified when someone pushes it. It can also be used as a portable alarm.

BSHCVISITPBTR \$69.00

SMOKE

If a fire should occur, the Visit smoke detector will instantly signal the Visit receiver. This means you will always be given an early warning.

BSHCVISITSATR \$110.00

WANDERER ALERT

TRAXXIT360

The Traxxit360 is one of the smallest and lightest GPS tracking devices in the market today. These devices are ideally suited for children, teenagers and adults with special needs. A great wandering alert system!

The Traxxit360 is a compact, electronic, key chain-size tracking device that wirelessly connects to mobile communications networks using the Global Positioning Satellite (GPS) system to locate the device. You can locate the device using a secure browser-based portal, or through the use of a smart phone application. It can locate the device with an accuracy of less than 3 meters.

- Outside use only
- Colors: Choose Black, Silver or Red

TXT3600x Traxxit360 \$149.95

ALL-IN-ONE FALL PREVENTION

STANDDOWN

StandDown all-in-one self contained sensor offers caregivers the ultimate in convenience in every fall prevention monitoring situation. Simply place StandDown on a chair, bed or floor. Switch to On and monitoring begins automatically! The system will not alarm as long as the patient remains seated. If the patient attempts to stand, alarm will sound. If the patient sits again, alarm will stop, the system will automatically reset, and monitoring will resume.

USSD1 Wheelchair StandDown \$104.95

Size: 15"x18"

Size: 18"x25"

USSD4 Floor StandDown \$154.95

Size: 15"x25"

Communication Systems

AMPLIFIED PHONES

CLEARSOUNDS ICONNECT

The ClearSounds iConnect bundle provides a whole-home phone system with two handsets right out of the box. Designed for cell phone users with mild to moderate hearing loss, the Bluetooth-enabled ClearSounds iConnect phone allows you to answer, dial, and switch between landline and cell phone calls – all from a single amplified handset. When you pair your Bluetooth cell phone with iConnect, your two phone lines are combined. Now, any call can be amplified no matter which line you're using.

In addition to amplifying any call, iConnect also enhances your overall phone communication capabilities. A big-button, easy to read backlit keypad benefits anyone with mild vision loss. Users also enjoy enhanced ring tone volume and visual ring notifications.

- 50 dB amplification with full range tone control
- Full duplex speakerphone in handset and base
- Expandable up to five handsets total
- 95 dB adjustable base ringer and 85 dB adjustable handset ringer
- Bright visual ringer on base and handset

If you misplace your cell phone around the house, no problem – your iConnect phone will ring and allow

you to answer any cell calls. Variable ring tones let you distinguish between incoming cell calls and incoming landline calls.

You can dial a cell phone call using the iConnect phone inbound calls list, redial list or phone book. While using the iConnect phone to converse on a cell phone line, you can also receive or place a landline call at the same time.

CLCSA1600BUNBT ClearSounds iConnect **\$264.95**

Includes iConnect Phone Base & 2 iConnect Handsets

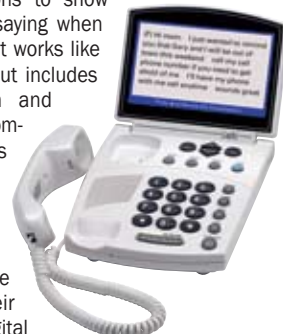

CLCSA1600EBT Extra iConnect Handset **\$69.95**

CAPTIONED PHONE

HAMILTON CAPTEL 840I TELEPHONE

The Hamilton CapTel 840i Telephone provides accurate, real-time captions to show you what a caller is saying when you're on the phone. It works like a traditional phone, but includes volume amplification and text display to solve communication problems caused by mild to severe hearing loss.

Includes a built-in answering machine that records both voice messages and their captions. Supports digital cable or VOIP services.

HT756002600 Hamilton CapTel 840i Captioned Telephone **\$99.00**

To be eligible to use Captioned Telephone Service, any individual purchasing a Captioned Telephone must register and certify that they have a hearing loss and need IP Captioned Telephone Service to communicate over the telephone. Some restrictions apply.

COMPUTERLESS EMAIL PRINTER

PRESTO COMPUTERLESS EMAIL

While most seniors prefer to stay in their own home as they age, loneliness can be an issue. And if they are among the 58% of adults over 65 who don't go online, keeping in touch with family and friends can be difficult. With Presto computerless email, seniors can receive email, digital photos, and other documents without the hassle and expense of a computer or Internet connection.

HOW IT WORKS

Anyone on the approved senders list simply sends email just like they would to anyone else. Presto transforms the messages into beautiful, easy-to-read e-letters, and prepares them for delivery. Up to five times per day, on a schedule you choose, the Printing Mailbox dials into the Presto service to check for messages. If there are messages, they are automatically printed. There is nothing the senior needs to do – no mail program to log on to, no attachments to download – they don't even need to push a button. They simply pick up the automatically printed messages, read and enjoy!

- No spam
- No computer or Internet needed
- Connects to the existing analog phone line
- Selection of puzzles and articles available

PRESTOPM10 Presto Computerless Email **\$99.99**

A subscription to the Presto Mail service is required.

TV LISTENING DEVICES

SERENE TV AMPLIFIER SYSTEM

The TV-Direct 95 TV Amplifier System is designed with your comfort in mind. The lightweight receiver features an "over the collar" design that rests naturally on your shoulders, making it comfortable to wear for hours. Simply connect the system with your TV for amplified TV volume up to 115dB through your headset.

The system comes with noise isolating, high-fidelity earbuds that deliver clear dialogue and lifelike stereo sound to your ears. Adjustable Digital Tone control enhances dialog clarity and intelligibility to suit your hearing, while High Definition Sound (HDS) technology makes sure you get the highest sound quality possible.

SNHCTV95 Serene TV-Direct 95 **\$89.95**

Personal Health

WIRELESS HEALTH MONITORING SYSTEM

WELLNESS CONNECTED

This combo pack contains the tools you need to get moving toward better health at any stage in life. Through daily tracking of blood pressure, weight and physical activity, you can become aware of your personal progress and take a proactive approach to caring for your health. The Wellness Connected software application automatically receives your measurements and graphs it in a user-friendly interface.

With ActiHealth (optional subscription), you can view your wellness data from any computer and even remotely track the progress of family and friends.

SMART BLOOD GLUCOSE METERS

MYGLUCOHEALTH

The MyGlucoHealth Starter Kit's key element – the blood glucose meter – provides testing results in seconds by means of modern technology. With the use of a mobile phone, diabetics can evaluate their blood glucose readings quickly and transmit them immediately to their doctor when necessary.

- Wireless meter works with a real-time online website
- Improves accuracy by eliminating manual logging of test results
- Personalize your blood glucose thresholds
- Test strips work with minimal blood samples
- Tracking Your Health Data Online

MGHBT1SK MyGlucoHealth Starter Kit **\$229.95**

Includes Meter, Case, Lancing Device, 150 Test Strips, Lancets & myglucohealth.net trial subscription.

TELCARE BGM

The Telcare BGM wirelessly uploads each glucose reading to Telcare's online server. This online hub gives patients, their health care providers, and their family members secure, 24/7 access to automatically organized health data, viewable through any web-enabled device, anywhere in the world.

- Automatically uploads test results to the Telserve database
- Stores up to 300 of your most recent readings
- Only requires a small blood sample
- Receives personal messages from your health care team
- Test strips automatically calibrate with the meter

TCTM0001 Telcare BGM **\$169.95**

Includes Meter, Manual, 10 Test Strips, Glucose Control Solution, Lancing Device & Lancets

KITCHEN STOVETOP FIRE PREVENTION SYSTEM

COOKSTOP

Unattended cooking is a top cause of fires in residences. Prevent your loved ones from being part of the statistics. CookStop continuously checks for movement in the kitchen. If the resident leaves the room, or falls asleep, CookStop shuts the stove off.

Is an unattended pan heating on a stove in a residential unit you manage – right now? Is someone asleep with the stove on? Did they get distracted talking on their cell phone and step away from cooking? CookStop can be watching for you – and shut down that fire risk!

CookStop is a proactive solution, stopping the cause of the fire. Smoke detectors, alarms and sprinklers are reactive solutions – by the time they activate, smoke, flames, and risk are already present.

CSCSAxWPIRF CookStop Fire Prevention **\$359.00**

Choose 3- or 4-Prong Configurations.

BRAIN FITNESS

DAKIM BRAINFITNESS

Now you can keep your mind sharp with award-winning Dakim BrainFitness Software for both PC and Mac, available at Home Controls. It's designed specifically for Boomers and Seniors to cross-train the brain in six cognitive domains and strengthen attention, focus and concentration.

Dakim's challenging brain games – based on standardized neurological exercises and tests – are like no others. Created for adults, they are engaging, sophisticated, richly produced and filled with videos, music, exciting graphics and humor that make every session fun ... for adults! No cartoons, child-like themes or robotic voices!

Dakim BrainFitness self-adjusts across five levels of challenge in real time to optimize every brain fitness workout for active individuals with the highest brain function as well as those with mild cognitive impairment. Dakim BrainFitness is more than fun – it's been shown in a clinical trial to improve memory!

With Dakim BrainFitness, it takes just 20 minutes, 3-5 times a week, to get a cross-training workout that exercises all six cognitive domains.

Your Satisfaction Is Guaranteed!

For 24 years, Home Controls has been supplying homeowners and dealers with a wide variety of easy-to-install home automation products at competitive prices, and your satisfaction is guaranteed! We're not happy unless you are! And we back that up with:

HUGE PRODUCT SELECTION

This catalog is only the beginning of the wide variety of home automation and networking products available through Home Controls. If you don't see what you're looking for, visit our website or call 1-800-266-8765 – we'll be glad to help!

LOW PRICE GUARANTEE

We guarantee the lowest prices on items we sell! If you find a lower price from any other retailer or distributor, simply notify us within 30 days of your order and we'll gladly match it!

SAME DAY SHIPPING

Place your order by 3:00 p.m. PST, and we ship in-stock products the same day!

FREE PRODUCT ADVICE & TECH SUPPORT

We are committed to providing the best free technical support in the industry to help you with product advice, system design and of course, troubleshooting. Just call 1-800-266-8765 weekdays between 8:00 a.m. and 5:00 p.m. Pacific Time.

30 DAY REFUND

Our money back return policy guarantees you are happy with your product upon receipt, or we'll refund your money. See Terms and Conditions below

24/7 SHOPPING CONVENIENCE

Order any Home Controls product online at any time of day or night. Our website offers thousands of products with images and full detail. Visit www.HomeControls.com.

RECOGNIZED LEADERS

CEA TechHome's Mark of Excellence Awards recognize the finest achievements in home automation. Each year manufacturers, distributors and installing dealers enter a competition that is judged by experts within the industry representing manufacturers, installing dealers, distributors and the media. Home Controls has been honored with three Mark of Excellence Leadership Awards. The Leadership Award is bestowed on a company that best personifies industry leadership. As the trade association of the home automation industry, TechHome has elected to acknowledge these leaders, and in doing so bestows a single award annually to the company and its executives. Home Controls is widely recognized for its leadership, time and financial contributions to the home automation industry.

TERMS & CONDITIONS

Payment Options: You may pay online or by phone with Visa, MasterCard, Discover, American Express and PayPal.

Money orders, checks, cashier's checks and wired funds are also accepted for phone orders only. Call 1-800-266-8765 for more information. Make checks and money orders payable to Home Controls, Inc.

Sorry, no COD orders are accepted.

Prices are subject to change without notice.

Shipping: Home Controls offers same-day shipping on in-stock products on most credit card orders received before 3 p.m. Pacific Time. Our huge inventory ensures the most timely delivery possible!

Post Office Box addresses are not accepted for online orders. Orders must be shipped to a physical street address. For Post Office Box options, contact Customer Service at 1-800-266-8765.

Our standard shipping method for domestic orders is by ground service. We also offer Second Day Air, Next Day, and Saturday shipping for an additional charge. Please specify when ordering.

Returns: To return a product, simply call our Customer

Service Department at 1-800-266-8765 to obtain the required RA (Return Authorization) number. This number must appear on the outside of the shipment you make to us or it will not be accepted at our receiving dock. We recommend you insure your package, as we cannot be responsible for refund or replacement should your package get lost in shipment.

Merchandise returned within 30 days of purchase with the appropriate RA number will receive a full product cost refund or credit, provided it is in perfect unused condition in original undamaged and unmarked packaging, and is complete with all instructions and warranty card.

Defective products will be replaced or repaired according to the manufacturer's warranty policy. Call us at 1-800-266-8765 if you have any questions.

Shipping costs are not refundable, but Home Controls will pay the UPS ground freight to ship your exchanges or replacements of defective merchandise. Upgraded air shipping is available at customer expense.

Products not eligible for returns: Books, Plans and Software are not returnable due to copyright laws;

Wire products are not returnable; All sales on Surplus and Discontinued Products items are final, and are not returnable.

International Orders: Home Controls routinely ships products all over the world, and would like to do business with you. Online orders less than \$1,000 can be paid for by credit card, in U.S. currency, if issued by a U.S. bank or lending institution. All other orders must be paid for in advance with a money order, cashier's check, or wired funds. Cashiers' checks or money orders must be received prior to shipment and must be drawn on a U.S. bank. Wired funds must be received prior to shipment; call +1-858-693-8887 phone, +1-858-693-8892 fax, or send email to service@homecontrols.com to get instructions on wiring funds.

All duties, custom fees and any other fees are the responsibility of the customer.

International dealers are welcomed and encouraged to contact us for dealer pricing.

Questions? If you have any questions, just call our Customer Service Department at 1-800-266-8765 and a friendly, courteous representative will help you.

More Cell Accessories

CELL PHONE LIGHT SHOW

DREAMZON LIGHTON MOBILE PHONE SIGNALER

Tired of missing calls and texts? If your cell phone's notifications aren't quite cutting it, try the DreamZon LightOn Mobile Phone Signaler. When you receive a call or text, the signaler flashes a soft, glowing blue light to alert you. Simply set your phone to vibrate and place it in the LightOn cradle. It's that easy.

- Flashing bright LED light
- Comfortably conduct sign language calls
- Connects to external alert devices
- Low battery indicator
- Colors: Choose White or Black

DZHC DREAMZONx DreamZon LightOn Mobile Phone Signaler **\$79.95**

UNIQUE CELL CHARGERS

TURBOCHARGE

The Maxsa TurboCharge Universal is a portable and reusable backup power for your cell phone. Never run out of power when making or receiving an important call. Uses a single AA battery (included). Sleek aluminum-coated brass design is portable, storable and only the size of a lipstick tube!

- Includes 10 common phone adapters

MXTC400 Maxsa TurboCharge Cell Phone Charger **\$18.95**

SOLAR ePOWER

Using the latest in photovoltaic technology, the Solar ePower directly charges electronic devices as well as rechargeable AA and AAA batteries.

The Solar ePower is also capable of using alkaline batteries to directly charge electronic devices.

- Includes 5 common phone adapters

WT2053 Wagan Solar ePower **\$49.95**

APPS FOR iPhone, iPod TOUCH & iPad

Home Controls features a collection of home automation apps for your iPhone and iPod touch, all available through the iTunes Store. Control lighting and appliances, home automation controller, window coverings, security systems, irrigation systems, net cameras and so much more. These apps support X10, Z-Wave, UPB and more. Plus, enjoy complete control of your home's audio and video systems with several entertainment apps.

AUTOMATIC CHICKEN COOP MOTOR

CHICKEN COOP MOTOR

Add this motor to your chicken coop and it automatically opens and closes the door on a time schedule you choose. Simply plug it into your lamp timer switch and it protects your hens and eggs, and saves you valuable time every day.

- Includes motor, mounting hardware, AC-DC Adapter, lift-cable, and illustrated instructions
- Works similar to a fishing reel. Has a reversible motor with adjustable stop settings. Motor stops door at open and closed positions you set
- No counter-weight needed
- Motor can lift and lower a door up to 5 lbs., with door openings up to 25". If your door swings open, then you can convert it to vertical lift by installing it in side-channels

AD20 Chicken Coop Motor **\$109.95**

ON THE ROAD

POWER DOME NX

All-in-One emergency and outdoor companion can be used to jump start your car engine, pump your tires, or inflate sports equipment. This power supply also has a radio, AC and DC power source, USB port, audio input socket, LED light, and a storage compartment.

- Functions: Portable & Rechargeable Power; 400Amp Cranking Power Jump-Starter; Heavy duty cables & clamps; 260 PSI air compressor; Tire pressure gauge; 2 AC outlets; 1 DC outlet; AM/FM radio; 1 USB port; LED lights; Storage Compartment

WT2485 Power Dome NX, 200W **\$144.95**

POWER DOME EX

Power Dome EX can be used as a power source for 110V AC or 12V DC applications such as computers, TVs, fax machines, audio, fans, electrical tools, etc. It can also start your car engine in an emergency situation.

- Functions: Portable & Rechargeable Power; 600Amp Cranking Power Jump-Starter; Heavy duty cables & clamps; 260 PSI air compressor; Tire pressure gauge; 2 AC outlets; 1 DC outlet; AM/FM radio; 1 USB port; Audio input socket; LED lights

WT2454 Power Dome EX, 400W **\$159.95**

PARKING SENSOR

GARAGE LASER PARK

Park your car in the garage in the exact same spot every time.

- Prevents damage to car and garage
- Simply attach to your garage ceiling with included hook-and-loop tape or screws. No wiring necessary

MX37310 Garage Laser Park **\$19.95**

MX37312 Dual Garage Laser Park **\$29.95**

GARAGE DOOR REMOTES

Home Controls carries a great selection of garage door remote controls, including MegaCode, Multi-Code, Genie, Stanley and more.
