Inside A Smart Home

Automating your home is fun and exciting, and the possibilities are limited only by your imagination! Here are some of the options available for customizing your own connected smart home. Start out slowly, build onto your current system, or incorporate all these systems into a new construction project! The choice is yours!

We are committed to providing the best free technical support in the automation industry, and helping you with product advice, system design and of course, troubleshooting. Just call 1-800-266-8765 any weekday between 8:00 a.m. and 5:00 p.m. Pacific Time.

HOME AUTOMATION » Page 6

Lighting & Appliance Control

- 1 Turn lights on or off and dim or brighten them from anywhere, inside or outside your home, without running any new wires! It's possible with powerline or RF/wireless control.
- 2 Program indoor and outdoor lights to turn on and off according to a schedule or event.
- 3 Program entire lighting scenes with one button push. For example, a keychain remote can initiate your "At Home" security mode and lighting scene, so you never again have to drive up to a dark home. Or your "Home Theater" scene might dim your lights, close the drapes, turn on entertainment components, and start the popcorn maker!
- 4 Control your lights and appliances with light sensors. If it gets dark, lights turn on and then off again a few hours later. When it gets light, automatically turn on your coffee pot and even your hair curlers.
- 5 Sensors turn on outdoor lights when someone approaches. Turn on house lights when you're driving up the driveway with a keychain remote.

Pool & Spa

- 6 Gain complete control of your pool and spa functions from in your spa, on your patio, in your home, in your car or anywhere else! Plus, completely automate the cleaning, heating and filter pump!

Irrigation Systems

- 7 Program your irrigation system to operate on a set schedule by event (or even a set time before dawn).

Automation Controllers

- 8 Your entire home operates automatically when you program an intelligent controller to become the brains of your smart home. Control lighting, climate controls, entertainment components, irrigation, and any other systems in the Home Controls online catalog. After your system is programmed, it operates on its own to decide what your home should do under various circumstances. You can also manually control your system with user-friendly keypads and touchscreens, and even through a smart phone or the Internet!

SECURITY » Page 30

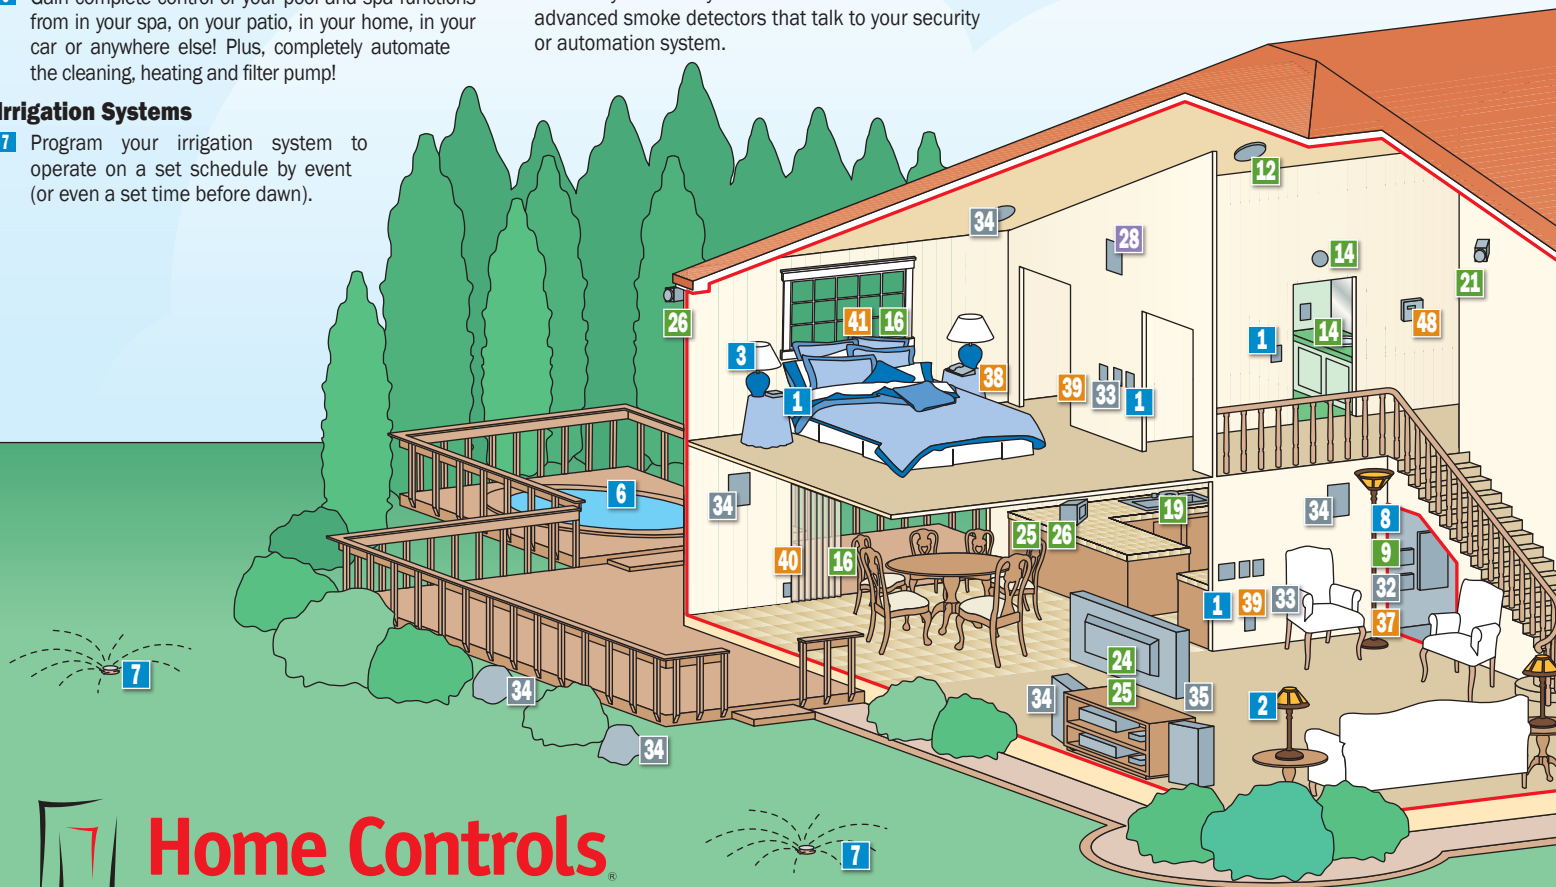

Security

- 9 You'll get peace of mind knowing your family is protected with a security system. Security systems include control panels, keypads, sensors, sirens, locks, lights, access control and more. You can choose an integrated wired system or an easy-to-install wireless system.
- 10 Control your locks remotely or from your cell phone.
- 11 Sirens scare away intruders, and notify neighbors and authorities of burglary or fire.
- 12 Protect your family and home from fire with advanced smoke detectors that talk to your security or automation system.

Sensors

Sensors detect motion, temperature, light and more. Their uses in automation are almost endless ...

- 13 Perimeter sensors alert you when a person crosses your property line.
- 14 Motion sensors can be installed on walls, on ceilings, in light switches, outdoors and more.
- 15 Incorporate door and window sensors into your security system, and use them as automation sensors when you are at home.
- 16 Glass break sensors alert your security system when a window is broken.
- 17 Be alerted when people arrive.
- 18 Light sensors know when it's light or dark. If it gets dark, lights turn on and then off again a few hours later.
- 19 Flood sensors know if the washer or water heater breaks, and can even automatically shut off the water supply before a potential disaster.
- 20 Driveway alerts let you know when visitors arrive.

Home Controls

Automation Products & Support

Video & Cameras

- 21 Monitor your home with surveillance cameras. Choose from cameras that see in the dark, large and small cameras, bullet, dome and hooded cameras, and hidden cameras! Some are even wireless!
- 22 View your home from any computer over the Internet from any PC or smart phone.
- 23 Install a camera at the door to see who's knocking.
- 24 Time lapse and digital video recorded keep a log of what goes on around your home.
- 25 Send wireless TV, VCR and video surveillance.
- 26 Monitors let you watch different areas of the house, like the pool area or nursery. Simple modulators even allow you to watch the video on your TV.

STRUCTURED WIRING » Page 48

Wire Management

- 27 Structured wiring systems connect all of your home systems in one central location. Also known as a "connected home," wire management systems include a control panel in a centralized location and high-quality wire connecting to multi-media outlets throughout your home.
- 28 Create your own hot spot. In-wall or in-ceiling wireless access points provide the greatest Wi-Fi coverage with pleasing aesthetics.

- 28 A structured wiring system can distribute the fastest, most reliable high-speed Internet throughout your home. These hard-wired connections give you crystal clear streaming video, hi-fi digital audio, reliable online gaming and blazing Internet.

Powerline Conditioning & Surge Protection

- 29 Protect your computer, phone, fax and cable line connections with suppression plug strips.
- 30 Protect your entire house with whole-house surge suppressors.
- 31 Fine-tune your X10 system with signal amplifiers, signal bridges and noise blocks.

ENTERTAINMENT » Page 58

Audio/MUSIC DISTRIBUTION

- Entertainment will never be the same once you upgrade to a smart home audio system.
- 32 Distribute music from one location throughout your entire home with a whole-home distribution system.
 - 33 Control speaker volume in each room individually or all at the same time.
 - 34 Choose from in-wall speakers, ceiling speakers, surround sound, subwoofers and more! Make outdoor entertainment fun with outdoor speakers.
 - 34 Don't want to run wires throughout your home? Home Controls carries wireless audio distribution systems, too! Ideal for renters.
 - 35 Expand your home theater system with HDMI and IR distribution components.

COMMUNICATIONS » Page 78

Phones & Intercoms

- 36 Transform your regular phone into a high-tech telecommunications system for your home.
- 37 Easy integrate your cell phone with your home phone.
- 38 Answer the door from any of your telephones, including cell phones.
- 39 Install an intercom system to talk with your family located in different parts of the house.

COMFORT » Page 84

Window & Drapery Control

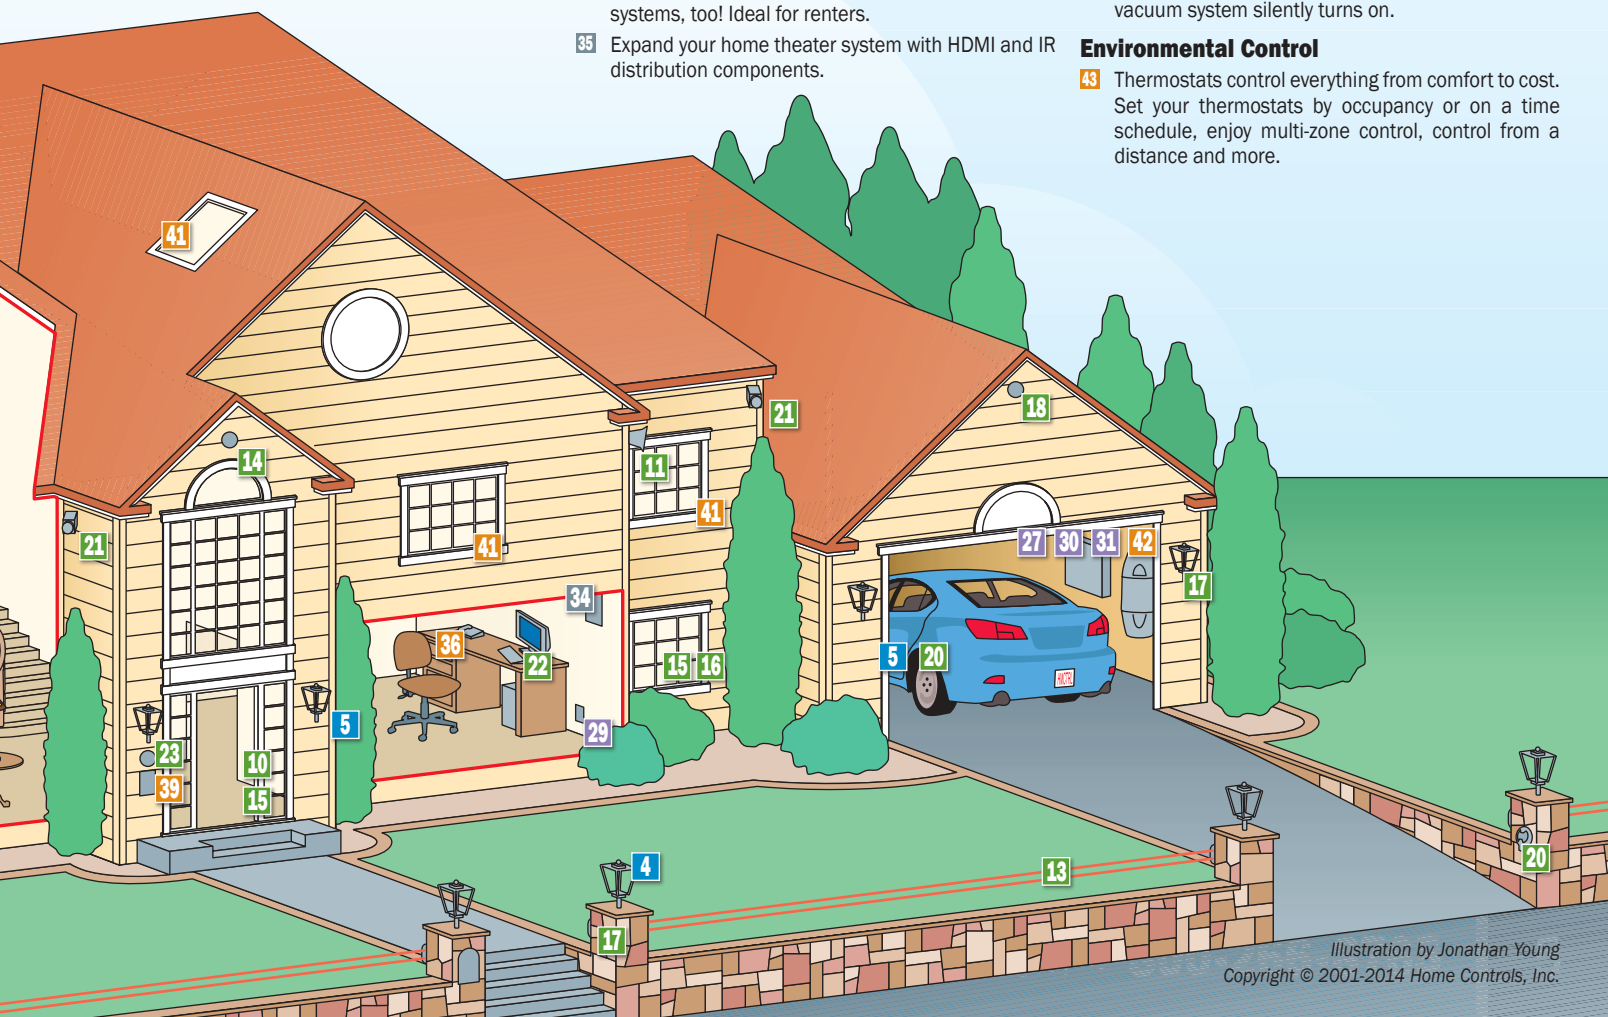

- 40 Set your drapes to automatically close on a schedule, by remote control or automatically when the sun shines directly in. A great natural energy saver!
- 41 Control windows by wall switch, remote control or an automation system. Automatically close them when it starts to rain. Perfect for skylights that are hard to reach!

Central Vacuum System

- 42 Central vacuum systems are the most efficient way to clean. The system includes a vacuum motor installed in a convenient location (like the garage), with tubing in the walls that connect to wall inlets in each room. When it's time to vacuum, simply insert a lightweight hose into a nearby inlet and your central vacuum system silently turns on.

Environmental Control

- 43 Thermostats control everything from comfort to cost. Set your thermostats by occupancy or on a time schedule, enjoy multi-zone control, control from a distance and more.

Home Automation & Security

How To Build A Smart Home

LEVITON SECURITY & AUTOMATION: "AUTOMATION SIMPLIFIED"

Now part of the Leviton Security & Automation (LSA) brand, the Omni control systems are the heart of an automated home, coordinating all of the systems in a home to talk to each other.

Homeowners recognize that an Omni home control system can pay for itself through energy savings while increasing the value and enjoyment of their home. It adjusts the security, access control, cooling, heating, lighting, and surveillance automatically for comfort, convenience, and safety.

EASY TO USE

Omni systems are simple to understand and operate, which is why they are Automation Simplified. Even young children can learn and understand how to use the basic features of Omni products.

RELIABLE

Omni uses embedded controller technology in its home control systems, a technology proven to be reliable with decades of use. Omni controllers have no fans, disk drives, or other moving parts to fail.

All Omni products can work in a stand-alone fashion so they are not dependent on any other products in the house, including computers. There is no single part that can cause an entire system to fail. Light switches still control the lights and thermostats still control your heating and cooling system.

ELK M1

The M1 offers unequalled automation control value. Elk boasts a rock solid security foundation with imaginative and powerful automation functionality.

» SEE PAGE 10

ZIPATO

Featuring an easy-to-expand system design, Zipabox uses advanced technology to hide the complexity of home networking – delivering a simple smart home.

» SEE PAGE 13

HOMESEER

HomeSeer integrates and automates the major systems of your home. Start with the HomeSeer software and a computer to run it on, and then add any number of interfaces to communicate with a home automation system.

» www.HomeControls.com/HomeSeer

1 SELECT A SYSTEM

OMNI CONTROLLERS

HAI/Leviton OmniPro II

The OmniPro II is Leviton's flagship home control system. It has the largest feature set and can control the maximum number of devices. It is designed for large residences and commercial installations.

LV20A002 OmniPro II Controller **\$1,420.58**

Includes Controller With Enclosure, Lock With 2 Keys, HLC Powerline Interface, RJ31X Cord & Jack, Manuals

LV20A008 OmniPro II Controller **\$1,420.58**

Includes Controller On A Structured Wiring Backplate

LV20A0021 OmniPro II Controller **\$1,361.35**

Board Only

HAI/Leviton Omni Ile

An ideal choice for mid-range homes and small businesses, Omni Ile is the middle member of Leviton's best-selling Omni product line.

LV20A0050 Omni Ile Controller **\$993.98**

Includes Controller With Enclosure, Lock With 2 Keys, HLC Powerline Interface, RJ31X Cord & Jack, Manuals

LV20A0052 Omni Ile Controller **\$1,037.70**

Includes Controller On A Structured Wiring Backplate

LV20A0053 Omni Ile Controller **\$952.06**

Board Only

HAI/Leviton Omni LTe

The newest addition, the Omni LTe is an ideal choice for small to mid-range homes and small businesses. Omni LTe is the entry level system.

LV20A0070 Omni LTe Controller **\$618.44**

Includes Controller With Enclosure, RJ31X Jack & Cable, Manuals & Accessories

LV20A0072 Omni LTe Controller **\$618.44**

Includes Controller On A Structured Wiring Backplate

LV20A0073 Omni LTe Controller **\$680.98**

Board Only

LUMINA CONTROLLERS

A Lumina home control system provides sophisticated lighting control that is affordable, easy to install, easy to operate and offers unrivaled expandability. The Lumina provides the same features as an Omni, without the security. The number of rooms and lights that you wish to control will usually determine which Lumina home control system you need to buy.

LV44A002 Lumina Pro (31 rooms, 217 lights) **\$1,331.13**

Includes Controller In Enclosure With Lock & Keys, Ethernet Port, LCD Keypad, UPB Powerline Interface, Phase Coupler, Serial Cable, Transformer & Battery, Manuals & Accessories

LV44A001 Lumina (8 rooms, 56 lights) **\$997.93**

Includes Controller In Enclosure With Lock & Keys, Ethernet Port, LCD Keypad, UPB Powerline Interface, Phase Coupler, Serial Cable, Transformer & Battery, Manuals & Accessories

2 ADD TOUCHSCREENS & CONSOLES

OMNI TOUCHSCREEN OPTION

HAI/Leviton OmniTouch 7

The OmniTouch 7 Touchscreen offers quick, enhanced home control with a faster processor, upgraded graphics, and an improved user interface. Featuring a beautiful 7-inch HD capacitive touchscreen with swipe technology, the OmniTouch 7 streamlines user interaction. View enhanced video surveillance, access all of your security, energy, and entertainment settings, and intuitively control every system in your home.

- Glass-front capacitive 7" touchscreen

- 800x480 resolution

- Swipe technology supports use of slider control bars

Designed for the OmniPro II, Omni Ile, Omni LTe, Lumina Pro, and Lumina automation systems, the OmniTouch 7 Touchscreen gives you direct access to your whole home. Two digital MEMS microphones and a 2-watt mono digital amplifier and speaker offer improved noise and echo cancellation. All power and communication is delivered through the Touchscreen's PoE connection, and an optional 12VDC power supply can be used if you are not utilizing PoE. Firmware updates are downloadable via Ethernet.

Security: Perfect for controlling your home security system, the OmniTouch 7 can be used to arm/disarm the system, alert emergency dispatchers, check surveillance video and more. With a clear, color screen, the OmniTouch 7 displays crisp video footage (MJPEG and JPEG) from any security camera, including IP cameras and analog cameras with an IP converter.

Energy Management: Use the OmniTouch 7 to conveniently minimize wasted energy throughout your home. With easy controls for lighting, HVAC, irrigation, ventilation and window coverings, it's the only device you need to manage energy consumption! Swipe technology supports the use of slider bars to adjust lighting load levels from 0 to 100 percent, and you can access up to 64 thermostats, including humidity settings.

Entertainment: When the OmniTouch 7 is connected to Leviton's Hi-Fi 2 Distributed Audio System or any other compatible system from a Connectivity Partner, you have complete control over your home's audio. Just touch a button and enjoy your music!

- Colors: Choose White or Black

LV99A00x OmniTouch 7 Color Touchscreen **\$709.58**

OMNI CONSOLE OPTIONS

HAI/Leviton Omni Consoles

The Omni Console is a surface or flush mount console that features a 48-character LCD display with menu operation, backlit keys, selectable key click, beeper functions and viewing angle.

A LV33A001 Omni Console **\$161.16**

B LV33A004 Omni Console with Speaker/Mic **\$194.95**

C LV33A003 Omni Console Flush Mount

Kit **\$29.95**

EMAIL & PHONE ALERTS

HAI/Leviton E-mail Notifier Module

Receive automatic email and text alerts when an alarm occurs at home by adding the HAI/Leviton Omni E-mail Notifier Module to your Leviton Omni or Lumina system. No fees are required. Simply plug the module into your controller's RS-232 port.

- Stores up to 100 custom alert messages
- Sends alerts to up to 8 email addresses
- No service fees or contracts
- Plug and play for Omni or Lumina systems

LV20A301 HAI/Leviton E-mail Notifier Module **\$240.00**

3 ADD LIGHTING

UPB CONTROL

Omni systems support UPB lighting systems, including the Leviton HLC system. When used with an Omni control system, lights can be set by sunrise/set, motion, or event – and controlled by remote control, phone, Internet, touchscreen or TV. See page 20.

Omni also supports Z-Wave lighting systems. See page 14.

Omni also supports X10 lighting systems. See page 24.

AUTOMATION ONLY

HAI/Leviton Lumina Lighting Control Series

A Lumina home control system provides sophisticated lighting control that is affordable, easy to install, easy to operate and offers unrivaled expandability. The Lumina family consists of the Lumina Pro and the Lumina. The number of rooms and lights that you wish to control will usually determine which Lumina home control system you need to buy.

- Supports all Omni IIe and OmniPro II accessories, including Web Link II for Internet control and Home Control for Windows Media Center

LV44A002 Lumina Pro (31 rooms, 217 lights) \$1,331.13

Includes Controller In Enclosure With Lock & Keys, Ethernet Port, LCD Keypad, UPB Powerline Interface, Phase Coupler, Serial Cable, Transformer & Battery, Manuals & Accessories

LV44A001 Lumina (8 rooms, 56 lights) \$997.93

Includes Controller In Enclosure With Lock & Keys, Ethernet Port, LCD Keypad, UPB Powerline Interface, Phase Coupler, Serial Cable, Transformer & Battery, Manuals & Accessories

LV33A003 Lumina Console Flush Mount Kit \$29.95

LV1111 PC Access for Lumina Software \$90.00

LV38A003 Lumina Mode Switch \$174.95

4 ADD SECURITY & SURVEILLANCE

WIRELESS SECURITY

Wireless Receiver

Allows up to 64 unique wireless security transmitters to report information to an Omni controller. The wireless transmitters replace wired sensors, detectors and other wireless transmitters.

Includes Receiver Signal Strength Indicator (RSSI), which is stored in the system and can be accessed from any Omni interface. This is important to ensure optimum placement of the transmitters and receivers.

LV45A001 Receiver for Omni Sensors \$177.68

LV42A002 Receiver for NetworX sensors \$367.90

See Interlogix Wireless Sensors & HAI/Leviton Compatible Security Sensors On Page 34

Wireless Transmitters

A LV46A001 Door/Window Transmitter \$52.26

B LV58A001 Mini Door/Window Transmitter \$56.74

C LV56A001 Recessed Door/Window Transmitter \$56.74

D LV47A002 PIR Motion Detector, Pet \$126.91

E LV61A001 Glassbreak Detector \$126.91

LV57A001 Vanishing Contact \$79.77

F LV63A001 Driveway Sensor \$251.84

Wireless Controllers

G LV48A001 4-Button Key Fob Mini \$49.95

H LV50A001 Personal Panic Pendant \$49.95

I LV69A001 4-Button Keypad \$86.63

Monitor your home with surveillance cameras from HAI/Leviton. See page 40.

ACCESS CONTROL

HAI/Leviton Access Control Card Reader

125 KHz high security, digitally encrypted, 26-Bit proximity card reader that connects to a serial port on an Omni system. The reader has durable and scratch resistant polycarbonate housing. It can be mounted to a metal door frame (mullion) or to any flat wall surface. The two color LEDs and Piezo sounder guarantee accurate operations.

LV75A002 Access Control Card Reader \$265.44

ACCESS CONTROL CARD

125 KHz credit card size, 1.7mm thick, high security proximity card with fully encrypted format stored on the card.

ACCESS CONTROL KEY TAG

A very small (only 4 grams) 125 KHz high security, digitally encrypted proximity key tag. It has a hole for a key ring or chain.

LV78A001 Access Control Card (10 Pack) \$54.95

LV78A002 Access Control Key Tag (10 Pack) \$71.95

HAI/Leviton Access Control Keypad

The Access Control Keypad is an attractive, rugged and reliable keypad for Leviton's Omni family and Lumina family home control systems. The Access Control Keypad offers access to all options provided by Leviton Security & Automation's home control systems. Select users of the keypad will be able to arm and disarm the security system (Omni family systems only), activate an electric door strike or magnetic locks, activate lighting, operate a garage door, open/close a security gate, set off a panic alarm and manage many other functions.

LV54A001 Access Control Keypad \$389.49

Electric Door Strike

When used with Access Control Reader, the Electric Door Strike securely locks and unlocks a door without the need for a key. 12 VDC, Fail Secure.

LV79A001 Electric Door Strike \$69.28

5 ADD HVAC

HAI/Leviton Omnistat2

Using advanced digital technology, the Omnistat2 learns your home's heating and cooling patterns and adjusts control to maximize both your HVAC's efficiency and your family's comfort.

- The backlight comes to life as you approach – with more than 100 customizable backlight colors
- To adjust the temperature, simply turn the scroll wheel to the right or left
- Supports 1 indoor/outdoor temperature sensor
- Colors: Choose White, Silver or Black

LVRC1000xx Omnistat2 **\$199.95**

1-Stage Conventional & Heat Pump

LVRC2000xx Omnistat2 **\$264.95**

Multi-Stage & Heat Pump With Humidity Control

LVRC1000xZB Zigbee Omnistat2 **\$279.95**

Single-Stage & Heat Pump with Auxiliary Heat

LVRC2000xZB Zigbee Omnistat2 **\$334.95**

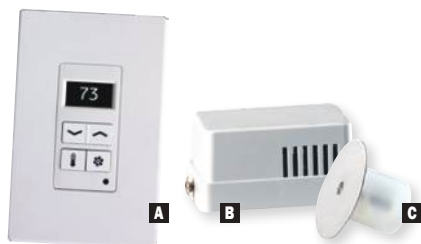

Multi-Stage & Heat Pump with Humidity Control

Universal Zigbee Thermostat

The Leviton Zigbee Thermostats are used as a standalone thermostat or integrated into a home automation system for convenient control over your HVAC unit.

LVRC1500WHZB Universal Zigbee Thermostat **\$279.95**

White only: 2 Cooling, 3 Heating Stages

OMNISTAT ACCESSORIES

A LV95A031TKT Thermostat Display Control & Communications Adapter **\$282.98**

Remote control interface for Omnistat2 (RC-2000)

B LV23A001 Remote Indoor Temperature Sensor, Surface Mount **\$48.66**

C LV23A002 Remote Indoor Temperature Sensor, Flush Mount **\$54.95**

LV31A007 Extended Range Indoor/Outdoor Temperature Sensor **\$62.57**

LV31A008 Extended Range Indoor/Outdoor Temperature/Humidity Sensor **\$120.90**

LV29A001 Omnistat Relay Isolation Module **\$89.95**

6 ADD ENTERTAINMENT

HI-FI 2

The Hi-Fi 2 is HAI/Leviton's distributed audio system. With double the zones, more than double the power, more sources, and an all new keypad with OLED display, the Hi-Fi 2 is reinvented for today's demanding homeowners. See page 63.

LEVITON SPEAKERS

Leviton and JBL have partnered together to create the Leviton Architectural Edition powered by JBL. The Leviton/JBL multi-room speakers feature Elliptical Oblate Spheroidal (EOS) Waveguide technology for improved dispersion throughout a listening area. See page 67.

When an OmniTouch 7 is connected to Leviton's Hi-Fi 2 Distributed Audio System or any other compatible system from a Connectivity Partner – including the NuVo Grand Concerto – you have complete control over your home's audio. Just touch a button and enjoy your music! See page 58.

+ CUSTOMIZE OPTIONS

PROGRAMMING & CONTROL SOFTWARE

HAI/Leviton Snap-Link

HAI/Leviton's Snap-Link is an encrypted USB key that plugs into any computer to monitor and control lights, security, temperatures and web cameras over the Internet. It communicates through a secure Ethernet port on an Omni home control system – no on-site computer is needed. It's easy to use and setup because it is self-contained on the USB drive. Just plug it into any computer. Snap-Link is sold without any subscription fees.

LV1120 Snap-Link **\$98.00**

HCSMARTAPP033 Snap-Link Mobile (for iPhone, Android & Kindle Fire) **\$49.95**

HAI/Leviton PC Access

PC Access allows you to set up, program and monitor a home control system over a modem or by a serial or network connection. PC Access is the only software product HAI/Leviton offers that has the ability to program an Omni home control system.

The dealer version of PC Access allows professional installers to configure settings remotely in the Omni console via the software's exclusive installer setup menu. This provides remote control of the entire system.

LV1105W PC Access, for Dealers **\$186.64**

LV1106W PC Access, for End Users **\$69.17**

LV1111 PC Access, for Lumina **\$90.00**

OMNI ACCESSORIES

Power Hub

This general purpose 12VDC power supply is designed to provide power to several HAI/Leviton products, including the Access Control Readers with electric or magnetic locks, Omni Consoles and many other devices.

LV83A001 Power Hub (with Enclosure) **\$310.95**

LV83A002 Power Hub (for Structured Wiring Enclosures) **\$310.95**

Speaker/Mic Modules

LV28A001 Speaker/Mic Module, Surface **\$34.95**

LV28A002 Speaker/Mic Module, Flush **\$29.95**

LV10A111 2-Way Voice Module (required) **\$140.42**

Relay Modules

LV10A071 4 Relay Module **\$69.32**

LV19A001 8 Relay Module **\$112.30**

Installation Accessories

LV20A072 Mounting Plate **\$34.95**

Power Accessories (Required)

ELKTRG2440 Power Transformer **\$14.95**

Required For Omni Pro II, Omni IIe & Lumina

ELKTRG1640 Power Transformer **\$14.95**

Required For Omni LT

IBSEC1075 Backup Battery, 7Ah **\$19.95**

TPAV550SC Tripp Lite Backup Power Block **\$199.95**

Recommended – See page 57 for details

1 SELECT AN AUTOMATION SYSTEM

ELK M1: CROSS PLATFORM AUTOMATION & SECURITY CONTROL

ELK's M1 Controls incorporate security, fire, door entry control, and energy and task management to provide total control of a home or business. By working with products from over 50 partner manufacturers, the M1 Gold and M1EZ8 offer a truly integrated solution. These IP accessible systems offer simple, yet powerful on-site and remote user interfaces, giving full control anytime, from anywhere – without monthly fees!

- 16 Zones, expandable to 208
- Wireless capability: Up to 144 Zones
- Menu driven, full text keypad programming
- 2-Way listen-in interface
- Voice Announcements (500+ word vocabulary)
- 13 On-board Outputs: 1 voice/siren, 1 siren driver, 1 Form-C relay and 10 low current (50mA) outputs
- Fire alarm verification routine
- PC Programming Software includes conflict resolution to find differences between control and PC

ELK M1 GOLD

M1 Gold is commonly referred to as a Cross Platform control because it can be networked with other industry standard systems. The built-in voice dialer can call up to 8 phone numbers and alert owners of status changes, such as critical temperature levels, water leaks, children arriving home from school, etc. Built-in telephone remote control allows you to control your system from anywhere.

ELKM1GSYS3 M1 Gold Controller Kit \$550.95

Includes M1 Gold Controller in Enclosure, Transformer, 8Ah Battery, Speaker & RJ Set, Surge Protection (no keypad)

ELKM1GSYS4 M1 Gold Controller Kit \$710.95

Includes M1 Gold Controller in Enclosure, Transformer, M1 KP Keypad, 8Ah Battery, Speaker & RJ Set, Surge Protection

ELKM1GSYS4S M1 Gold Controller Kit \$681.95

Includes M1 Gold Controller in Enclosure, Transformer, M1 KP2 Keypad, 8Ah Battery, Speaker & RJ Set, Surge Protection

ELKM1GSYS4STW M1 Gold Controller Kit \$743.95

Includes M1 Gold Controller in Enclosure, Transformer, M1 KP2 Keypad, 8Ah Battery, Speaker & RJ Set, Surge Protection, 2-Way Wireless Transceiver & 2-Way Wireless 4-Button Keyfob

2 ADD TOUCHSCREENS & CONSOLES

ELK Navigator

A Touchscreen Keypad for the M1 Control System, Navigator features a touch sensitive 3.5" LCD color display with easy-to-use graphic icons and soft keys. Not only is Navigator stylish, but it also makes the M1 Control System extremely easy to operate.

- Six Programmable Function Keys
- Operates on 4-wire RS485 Data Bus
- Built-in Piezo Sounder with Adjustable Pitch

ELKM1KPNV M1 Navigator Touchscreen \$264.95

M1 LCD Consoles

A ELKM1KP KP LCD Keypad \$165.95

A ELKM1KPB KP LCD Keypad \$165.95

With Blue LCD Display

B ELKM1KP2 KP2 LCD Keypad \$137.95

ELKM1BBK2 KP2 LCD Keypad Flush Mount \$8.95

ELKM1KP3 KP3 LCD Keypad \$153.95

ELK Wireless Control

Add the M1-XEP interface for wireless control from any internet-connected computer (with ELK's free M1 to Go software) or iPhone and Android Apps.

ELKM1XEP Ethernet Port Expander Interface \$234.95

3 ADD LIGHTING

ELK M1 also supports UPB lighting systems. See page 20.

ELK M1 also supports Z-Wave lighting systems. See page 14.

UPB Interface Module

Control PulseWorx UPB lighting products with M1.

ELKM1PCSPIM PulseWorx UPB PIM for ELK M1 \$220.95

Z-Wave Interface Module

Control Z-Wave lights, locks, thermostats and more with M1. Requires Z-Wave Interface Module.

ELKM1XSLZW M1 to Z-Wave Interface \$149.95

LVVRCOP1LW Z-Wave Interface Module \$121.95

4 ADD SECURITY

ELKM1XRFTWKIT ELK Wireless Starter Kit \$369.95

Includes 1 Door/Windows Sensor, 2 Key Fobs, PIR Motion Sensor & Transceiver.

ELKM1XRFTW Wireless Transceiver \$142.95

LOCKSTATE CONNECT

Gaining control over your property has never been easier. Control all LockState devices from your computer, iPhone or iPad with LockState Connect.

It's inexpensive and easy to control your devices: lock or unlock your door, set your thermostat temperature, turn on and off lights! You can then control your home devices from an Internet-connected computer or your smart phone from anywhere in the world.

Provide temporary lock codes to guests or service personnel, adjust temperature settings from afar and know who is entering your home with email or text alerts.

With LockState Connect your home will always be within reach. Use your existing wireless router with no additional equipment needed. No bridges or expensive equipment necessary.

NOTE:

Requires a monthly service fee of \$0.99 per Lockstate Connect device.

Network Controllers

BITWISE AUTOMATION & AV CONTROL

A Bitwise system allows other systems in your home to interact with one another. Everything from home theaters and lights to security and HVAC can be accessed from any controller or user interface in the system.

Since each controller is connected to your network, your system can scale from a single room to an entire home or building. Whether you want to control a home theater or your entire house, you can find the right controller for the job.

- Logic scheduling for automation
- The controllers don't just run the components of your automation system – significant compatibility with industry devices
- Supports two-way interaction with serial and networked devices
- Communicates with every Bitwise user interface (including iOS, Android, and OmniTouch 7) and Bitwise controller on the network
- Provides built-in macro storage.

It is easy to integrate Bitwise controllers with

little to no coding needed, and it is simple to manage systems via the Bitwise control app on smart devices. Instead of requiring dedicated touch-panels, Bitwise lets you use the smart devices you already own. You can use any combination of Apple and Android phones and tablets to control every aspect of your home.

Contact Home Controls At 800-266-8765 To Get Started With Bitwise

GLOBAL CACHÉ NETWORK ADAPTERS

The GC-100 Network Adapter connects IR, serial (RS232), and relay (contact closure) devices and equipment to a TCP/IP network. The GC-100 includes sensor input, can be polled by other network devices, and can be used in a wired and wireless environment. A small, embedded web server allows for easy configuration from any browser. Global Caché Network Adapters integrate simply and easily into most automation and control environments without modification.

Integration from any browser. Global Caché Network Adapters integrate simply and easily into most automation and control environments without modification.

- Connects IR, Sony Control-S, RS232 serial, sensors and relay contact closures to a network
- 10 Base-T network port

Z-Wave Automation & Security

2GIG GO!CONTROL: THE FUTURE OF SECURITY & HOME AUTOMATION IS NOW

Enjoy the latest and most advanced security and home management solution in the industry. 2GIG offers Go!Control, the first all-in-one security and home management system.

Full Voice Response: The panel gives clear notifications that indicate system status, zone descriptions, alarms, and emergencies.

Date, Time & Weather Display: With a touch, scroll through the date, time, and daily weather forecast. Has the ability to receive messages, including severe weather warnings.*

Quick Access: The one-touch access buttons allow the quickest help possible in an emergency. The panel's LED lit buttons indicate the system's status.

Multiple Arming Options: Secure your home by arming your system "AWAY" or "STAY." The Quick Arm/Exit and Bypass features offer added convenience.

Home Automation: The built-in Z-Wave radio enables various home automation functions including HVAC, appliances, lighting, and lock control.

2-Way Response Over Cellular: 2-Way voice lets central station operators listen in and talk to you when a signal is received, ensuring that the proper emergency response personnel will be dispatched if necessary.*

User-Friendly LCD Touch Screen: The easy-to-use color touch screen puts a wide range of security and home automation controls at your fingertips.

Convenience: The fully self-contained panel contains

a backup battery, and allows 32 user codes to monitor up to 48 wireless zones and 2 wired zones.

Over-The-Air Updates: There's no need to worry about the panel's software becoming outdated. With our Over-the-Air function, the panel can be remotely updated with the latest software.*

Remote Control Options: Always be in control by remotely managing your system from a computer or web-enabled mobile phone (iPhone, Android, etc.).*

* when accompanied with a cell radio and an active account with a remote services provider

ZIPATO: EASY, AFFORDABLE, WIRELESS HOME AUTOMATION & SECURITY

Zipabox Gateway uses advanced technology to hide the complexity of home networking – delivering a simple smart home. It plugs into any outlet in the home and automatically talks to all the connected devices in the house, connecting them to the cloud so that consumers can control them using tablets, smart phones, computers or TVs – at home or away.

Simple to install and easy to use, Zipabox is far more cost-effective and feature-rich than traditional custom-install alternatives. Zipabox is the new brains of the smart and connected home.

The Zipabox brings real value to consumers and service providers. It represents a platform to connected services and service support. Consumers use it to manage their homes, and service providers use it to activate new services and capabilities on demand.

Plus, it allows service providers to remotely diagnose and troubleshoot issues – meaning faster, better support and less hassle for all.

HOW IT WORKS

The Zipabox has the capability to automate your home through built-in Z-Wave. Additionally, the Zipabox capabilities can easily be expanded through “snap-in” extension modules that add support for new interfaces and functionalities, communication standards and protocols, and more.

Once configured, the Zipabox works standalone, but also features cloud support for advanced monitoring, messaging and programming services. An intuitive graphical user interface allows you to program your own home rules without any previous programming experience.

MAIN CONTROLLER

FIBARO HOME CENTER 2: INTUITIVE INTERFACE. TOTAL CONTROL.

The Fibaro Home Center 2 is a powerful, locally-hosted building management system accessed through a robust browser-based graphic interface or via a native mobile app. The Home Center gives you complete control of Fibaro's innovative line of Z-Wave devices as well as other Z-Wave certified products.

It comes complete with an extensive library of third-party plug-ins for TVs, receivers, VOIP, IP cameras, door entry systems, HVAC, thermostats, alarm panels, media players and other control systems. Create virtual devices to harness third-party APOs, or devices with RS232/IR integration.

- Built with an Intel 1.6Ghz Atom Processor computer
- LUA scripting for advanced scene building or creation of your own drivers
- “Lili” voice control
- Full multi-media integration via third-party open API

- Back up memory USB stick in controller itself
- VOIP SIP Server (intercom & video gate / doorbell integration)

VIZIA RF + FAN SPEED CONTROLLER

Vizia RF + Quiet Fan Speed Control ensures quiet fan control with 3 operation levels: low, medium and high.

LVVRF011LZ Vizia RF + Fan Speed Control **\$151.95**

GE Z-Wave Ceiling Fan Wall Switch

Add Z-Wave remote control to your ceiling fan by installing the GE Z-Wave Ceiling Fan Wall Switch. Once the switch is wired in, you can turn the fan On/Off and choose from three speed levels (High, Medium, Low) via Z-Wave remote or this local switch.

- Colors: Includes both White and Light Almond
- Wallplate not included (see page 71)

JA12730 GE Z-Wave Ceiling Fan Wall Switch **\$44.95**

GE Z-Wave Keypad Controller

The GE Z-Wave Wireless Keypad Controller allows you to create and manage custom lighting scenes right from an easy-to-use wall-mounted screen. The keypad provides control for up to four groups and four scenes, and features soft touch buttons that emit an ambient LED amber glow when pressed.

- Supports up to four groups and four scenes
- Low profile design matches standard wall plates
- Compatible with all Z-Wave certified lighting products
- Mounting hardware and batteries included

The keypad is easy to use as a secondary controller – simply copy the network data from your primary controller. The keypad can be mounted using double-sided tape (included) for a quick and easy installation, or with two screws (included).

- Color: White
- Wallplate included

JA45631 GE Z-Wave Keypad Controller **\$43.95**

Z-WAVE REMOTES

Aeon Labs Z-Wave Mini Remote

The Aeon Labs Minimote is a low-cost remote controller focused on end-user ease of use. Network installation is vastly improved via the interface. The Minimote is upgradeable by the end-user such that the latest Z-Wave protocols are always available. A sliding cover reveals Z-Wave network installation buttons. 4 scene buttons are exposed for easy access.

E LNFS20Z1 Z-Wave Fixture Module **\$47.99**

Z-WAVE THERMOSTATS

RCS TZ45 Z-Wave Thermostat

The TZ45 is a Z-Wave wireless digital thermostat that contains a robust interface and is designed for use with communicating systems where remote monitoring and/or remote control are desired.

- Standard or heat pump HVAC systems
- Programmable, 4x7 day schedule
- 128x64 backlit graphical display
- 6 Buttons with on screen labels
- Remote control of all thermostat functions
- Requires common wire

RCTZ45 RCS Z-Wave Thermostat **\$189.95**

RCS TBZ48 Z-Wave Thermostat

Operating on batteries or standard 24VAC power, this wireless digital thermostat doesn't require a C wire. Simply connect it to your standard or heat pump HVAC system, mount it on the wall or in a single-gang junction box, and power up. Now you can use a Z-Wave remote to control your entire HVAC system.

- Controls standard or heat pump HVAC systems
- Fixed format display with 7-letter message bar
- Wall-mounts or installs in a single-gang box
- Comes with 4 AA batteries

RCTBZ48 RCS Z-Wave Thermostat **\$189.95**

Evolve Z-Wave Thermostat

All thermostat functions can be controlled wirelessly with any standard Z-Wave controller. If you forget to change your thermostat settings before crawling into bed, no problem - just reach for your Z-Wave remote! This is heating and cooling convenience at its finest.

- Works with standard or heat pump HVAC systems
- Programmable 7-day schedule, up to 4 events
- Backlit LCD graphical display (128x64)
- Wall-mounts or installs in a single-gang box

EVT100R Evolve Z-Wave Thermostat **\$149.90**

Z-WAVE SECURITY SENSORS MOTION SENSORS

Aeon Labs Z-Wave Multi Motion Sensor

The Aeon Labs Multi-Sensor is a battery-powered Z-Wave motion sensor, temperature sensor and lighting sensor. It sends signals to up to 6 associated Z-Wave devices when the sensor detects IR changes in front of its viewing window.

AEDSB05ZWUS Aeon Labs Z-Wave Multi-Sensor **\$59.95**

Linear Z-Wave Dual Motion Sensor

The Linear Z-Wave PIR Motion Detector triggers an alert when motion is detected within a 120-degree radius. The sensor also detects rising heat and issues temperature alerts.

- Wireless range up to 100'

LNWAPIRZ1 Linear Z-Wave PIR Motion Sensor **\$51.99**

Ecolink Z-Wave Motion Sensor

Detects motion up to 39' away within 45 degrees in either direction. Features pet immunity for small to mid-sized pets.

- Built-in tamper protection
- Wireless range up to 100'
- Mounting hardware included

ECPIRZWAVE2ECO Ecolink Z-Wave PIR Motion Sensor **\$44.95**

Fibaro Z-Wave Motion Sensor

The Fibaro Z-Wave Motion Sensor is one of the smartest Z-Wave sensors you'll find. The four-in-one wireless multi-sensor serves as a PIR motion detector, light level sensor, temperature sensor, and vibration sensor (accelerometer), giving you the power to monitor an array of conditions with a single device.

- Detects motion, temperature, lighting and vibration
- "Eye" changes colors to indicate conditions
- Earthquake mode alerts you to slight vibrations
- Provides tamper and low-battery alerts
- Easy to install on a wall or any surface
- Compatible with any Z-Wave controller

FBFGMS Fibaro Z-Wave Motion Sensor **\$59.99**

Z-WAVE WATER DETECTION & FLOOD PREVENTION

These sensors wirelessly signal a Z-Wave-enabled alerting device when triggered by the presence of water.

Fibaro Z-Wave Water/Flood Sensor

- Detects presence of water and rapid changes in temperature
- Built-in accelerometer detects tilt of more than 15 degrees
- Sounds siren, flashes LED, and sends alert to network when triggered
- Powered by battery and/or power adapter (optional backup)

FBFGFS Fibaro Z-Wave Water/Flood Sensor **\$59.99**

Aeon Labs Z-Wave Water/Flood Sensor

- Detects as little as 1/32" of water
- Low battery detection and alerts
- Wireless range up to 300'

Z-WAVE GARAGE DOORS

Linear Z-Wave Garage Door Remote Controller

The Linear Z-Wave Garage Door Remote Controller Assembly enables Z-Wave remote control for a sectional garage door opener, so you can operate the opener with either your Z-Wave controller or your existing pushbutton. You can even put the Garage Door Remote Controller on a schedule to automate opening/closing.

- Enables Z-Wave control for a garage door opener
- Works with almost any sectional garage door
- Can be included in scenes and schedules
- Tilt sensor detects door's open/closed status
- Customizable audio and visual alerts enhance safety

LNGD00Z Linear Z-Wave Garage Door Remote Controller Assembly **\$99.99**

Ecolink Z-Wave Garage Door Sensor

If you forget to close your garage door, or an intruder opens it, the Ecolink Z-Wave Garage Door Tilt Sensor will let you know. The sensor mounts inside near the top of your garage door. When the door is opened, the sensor tilts and sends an alert through your Z-Wave network.

- Triggers alert when tilted
- Wireless range up to 100 feet
- Low battery alerts

The tilt sensor easily installs with the included mounting bracket, which mounts to the garage door with screws or double-sided tape.

ECTILTZWAVE2ECO Ecolink Z-Wave Garage Door Tilt Sensor **\$39.95**

Z-WAVE SECURITY SIRENS

Linear Z-Wave Siren & Strobe

By integrating the Linear Z-Wave Siren & Strobe into your Z-Wave security system, you can ensure that your family knows when an emergency occurs. When triggered by another Z-Wave device, the Siren & Strobe activates.

- Sounds 105 dB alarm
- Flashes bright red LED strobe
- Wireless range up to 100'

LNWA105DBZ1 Linear Z-Wave Siren & Strobe **\$59.99**

Aeon Labs Z-Wave Siren

Designed to provide indoor alerts for various events in your Z-Wave system, the Aeon Labs Aeotec Z-Wave Siren features five different alert tones. Each alert tone sounds at up to 106dB, ensuring that you hear it from anywhere in your home. The siren also has three LEDs for visual alerts.

- Plugs into a standard power outlet
- Constantly charges built-in backup battery

AEZW080A17 Aeon Labs Z-Wave Siren **\$54.95**

Z-WAVE LED BULBS

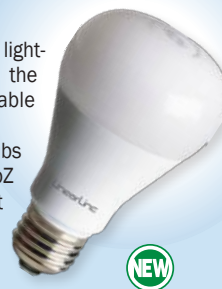

LinearLinc BulbZ Z-Wave Dimmable LED Light Bulb

Create a convenient, easy-to-use lighting control system by screwing in the LinearLinc BulbZ Z-Wave Dimmable LED Light Bulb.

Compatible with most Z-Wave hubs and controllers, the LinearLinc BulbZ replaces any standard 60 Watt incandescent bulb to provide elegant soft yellow light that can be turned On/Off or Dim/Brightened from anywhere in your home!

- Standard A19 shape
- Screws into a standard light socket (E27)
- Produces yellow light, fully dimmable to 100 levels
- Consumes only 9 Watts to save energy
- Works with all Z-Wave hubs or controllers
- Can be included in groups or scenes
- Serves as a Z-Wave signal repeater

LNLB60Z1 LinearLinc BulbZ Z-Wave Dimmable LED Light Bulb **\$43.99**

Zipato Z-Wave RGBW LED Light Bulb

This dimmable Z-Wave bulb offers five adjustable color channels – Red, Green, Blue, Warm White and Cold White – so you can create thousands of different colors, or choose a regular white/yellow hue.

- Create thousands of colors with five adjustable color channels
- Remotely change color, turn On/Off, and Dim/Brighten
- Retains set color when power is shut off
- Screws into standard socket

- Replaces a 60 Watt incandescent bulb

- Consumes only 6.7 Watts to save energy

Full color-changing functionality is achieved when you use the bulb with a Z-Wave RGB(W) controller, such as the Fibaro Z-Wave RGBW Controller, or a Z-Wave hub that supports RGB(W) control, such as the Zipato Zipabox (recommended).

ZPRGBWE27ZWUS Zipato Z-Wave RGBW LED Light Bulb **\$59.95**

Fibaro Z-Wave RGBW Controller

Wirelessly select the perfect colors and lighting effects for your multicolor LEDs. The controller supports the three standard RGB channels plus a white light channel, giving you the power to create a limitless palette of colors. The RGBW controller also features basic dimming control for four LED channels, and even accepts up to four inputs from analog sensors.

FBFGRGBW Fibaro Z-Wave RGBW Controller **\$69.99**

UPB Automation

UPB (Universal Powerline Bus) is a highly reliable, cost-effective, 2-Way communications technology which enables control products to utilize existing powerlines. In addition to being considered a communications standard for residential lighting control, other potential UPB applications include appliance control, HVAC control, and Internet-to-Application device communication.

Reliable: UPB produces a very strong signal. All UPB devices use true 2-way commu-

nications, allowing devices to reveal their status to each other. This feedback results in reliable communications — greater than 99% accurate!

Flexible: UPB technology can support a stand-alone lighting control system or be incorporated into a complete home automation controller.

Lower Total Cost: UPB uses existing powerlines, eliminating the need for new wires.

High Speed: Supports 0.3 second response time or 10 commands per second.

UPB DIMMER SWITCHES

SAI SimplyBrilliant UPB Dimmer Switch

Simply Automated's SimplyBrilliant UPB Dimmer Switch includes a US1-40 Single-Rocker UPB Dimmer Controller Base and a ZS11 single-rocker faceplate.

Featuring a timer function, this switch provides ultra-reliable control and timed "off" control of new and existing lighting fixtures, lamps, fans and other electrical devices. Each unit has one switch that controls a load of 1 to 800 Watts. Great for LED fixture control!

- Color: White
- Wallplate not included (see page 71)

SAUS1140W SAI SimplyBrilliant UPB Dimmer Switch **\$74.95**

SAUSR140AW SAI SimplyBrilliant UPB Dedicated Remote Switch **\$29.95**

PulseWorx UPB Dimmer Switches

PulseWorx UPB LED/CFL Dimmer Wall Switches are your one stop for light dimming control. This switch was specifically designed to operate all major types of dimmable light sources, including LED lights, CFL lights, fluorescent lights, inductive loads, magnetic LV loads, incandescent lights and halogen lights. No need to search for the right dimmer switch. It's right here.

- Reduces light flickering
- Adjustable minimum dimming
- Top Rocker Max Out: Tap once for preset light-level. Twice for full brightness.
- Auto-Off Timer: Choose a max amount of time the light stays on (1 to 240 minutes).
- Colors: Choose White, Ivory, Almond, Black, Brown or Grey
- Wallplate not included (see page 71)

SIMPLY AUTOMATED SIMPLYBRILLIANT LIGHTING

Simply Automated offers a broad, cost-effective, flexible assortment of products utilizing powerful ultra-reliable UPB technology.

The SimplyBrilliant collection features several base controller options and even more faceplate configurations to suit just about any lighting control need.

- UPB switches can be used for stand-alone scene lighting control, or with a central controller.

- Wall switches can be programmed to function as dimmers, On/Off switches, transmitters, or all three.
- Program 200 dimming steps and variable fade rates, from instant-on to a fade rate of up to one hour.
- The LED lights on the dimmers can be programmed to show a different color for a different load status, and a locally switched dimmer can be programmed to send a status report to the controller.

1 CHOOSE A CONTROLLER BASE

SAI Universal Dimming Controller Base

With the ability to perform simple single rocker and multi-rocker/button functions, it is used in most any light control application.

Turn on or off all lights in your home. From creating a "virtual" 3-way switch anywhere in your home, to turning on a group of lights when your garage door is opened, door bell or phone rings, or your alarm system is armed/disarmed/alarmed, Simply Automated offers simple and flexible solutions.

- On/Off control, 200 Dimming steps and Resume Dim
- Compatible with all Rocker and Button Faceplates (except Scene)

SAUS240 Universal Switch Base **\$79.95**

SAUS2240 Universal Switch Base, Dual Circuit **\$179.95**
Controls 2 Separate Circuits, 2x550W & Countdown Timers

SAI DEDICATED REMOTE CONTROLLER BASE

- Compatible with SAZS11 or SAZS12 Rocker Faceplates only

SAUSR40A Dedicated Remote Controller Base **\$24.95**

SAI Standard Dimming Controller Base

The SimplyBrilliant US1-40 single rocker dimming controller is used wherever multi-rocker or multi-button dimmers will never be required.

- Compatible with SAZS11 Rocker Faceplates only

SAUS140 Standard Dimming Controller Base **\$69.95**

SAI Scene Controller Base

The SimplyBrilliant 4-button scene controller turns On/Off/Dims UPB devices by transmitting UPB scene links. Four green LEDs are configurable and indicate when a lighting scene is active or has been deactivated. Great for applications where the controlled light/loads are not visible.

- Compatible with SAZS240S or SAZS24BS Faceplates only

SAUCQT40 Scene Switch Controller Base **\$74.95**

SAI 3-Speed Fan Controller Base

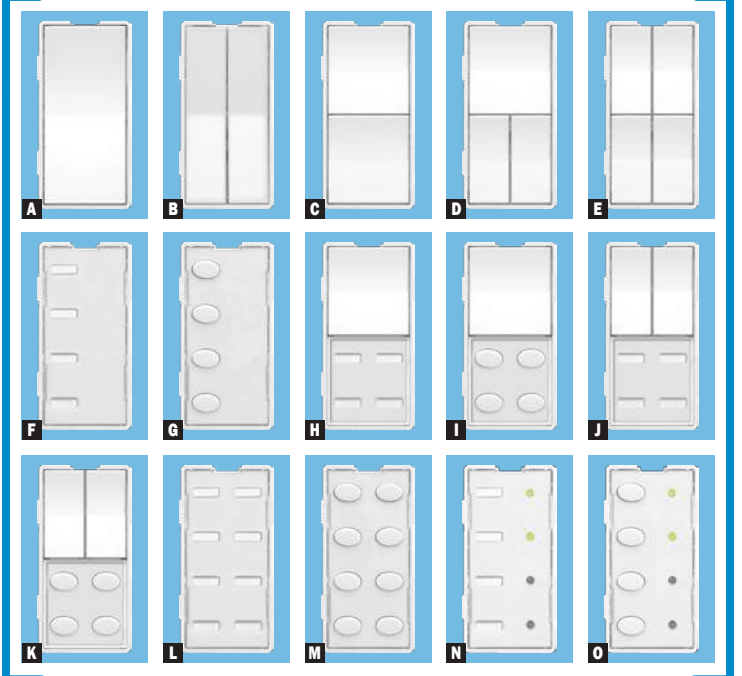

The UPB 3-Speed Fan Controller Base offers quiet fan speed operation by using a capacitive speed control circuit. It controls hard-wired fans up to 2.5 Amps.

- Transmits and responds to UPB commands
- Bottom button optionally controls lighting up to 300W
- Compatible with SAZS240S or SAZS24BS Faceplates only

SAUCQF 3-Speed Fan Switch Controller Base **\$74.95**

SCHEDULERS & TIMERS

CUSTOMER FAVORITE!

SAI UPB Scheduler-Timer

This UPB Scheduler-Timer is easy to program. Once the unit is set for time, date and location (zip code or latitude and longitude) there are only 2 displays needed to add devices, link scenes and set up events. The UPB Scheduler-Timer automatically adjusts time referenced to the nationally synchronized power grid; it knows when daylight savings and leap years occur and even when the sun rises and sets for your location.

- New Tools Menu: works like a pocket programmer; add devices to a network, change receive links, monitors signal/noise levels, logs noise, and more
- New 'Link Mode' for easy Vacation Mode change
- No computer interface required
- Easy pushbutton and display to set time and control devices (events)
- 250 devices and 99 events
- Schedule modes: On, Off, Vacation, All On and All Off
- Each device event can function as On/Off, Dim, scenes and random
- Real-time clock maintains time in the event of a power outage for up to one week
- Includes power cord for tabletop and right angle power plug for outlet mount
- Doubles as a Computer Interface Module (CIM) allowing connection of a PC with UPStart to a UPB network

SAUCS01 UPB Controller, Scheduler-Timer **\$159.95**

PulseWorx Timed Event Controller

The Timed Event Controller (TEC) is an automation timer device that transmits and receives digital commands and status over the existing powerlines at preset times. Designed in a small plug-in enclosure. The TEC can be programmed to control single lights, trigger dramatic scenes, or send messages to a central controller.

The TEC stores up to 20 individual timed events. Each event can be configured to occur daily, during the work week, on weekends, on specific days of the week, or on a specific day of the year. Event times can be specified as absolute times or relative to sunrise or sunset times.

PCTEC Timed Event Controller **\$149.95**

UPB WIRE-IN MODULES

SAI UPB Receptacle

A wire-in duplex receptacle designed to control the operation of 120VAC appliances and lighting.

- Provides On/Off and timed control for lighting and appliances up to 12A
- Power to the top outlet is controlled by UPB; bottom outlet is always powered
- Special wallplate included
- Colors: Choose White, Ivory, Light Almond or Almond

SAURD30 UPB Receptacle **\$94.95**

PulseWorx UPB Receptacle

- Top outlet responds to UPB commands; bottom outlet stays powered
- 120V loads up to 15A
- Optionally set "max on time" for auto-off
- Multi-color LED night light
- Supports Scenes
- Wallplate not included
- Colors: Choose White, Light Almond, Ivory, Black, Brown or Gray

PCRM115x UPB Receptacle **\$54.95**

UPB PHASE COUPLERS & REPEATERS

UPB Phase Couplers

To ensure the most reliable installation, an inverting phase coupler is recommended for every breaker panel in a 2-phase home. Inverting phase couplers provide higher signal levels between phases and also pass X10 and broadband.

A SAZPCIW Inverting Phase Coupler, wire-in **\$69.95**

SAZPCIB Inverting Phase Coupler, panel **\$69.95**

Fits Cuttler-Hammer, Square-D HOM, Murray, GE

B SAZPCIP30A Inverting Phase Coupler, 30A **\$79.95**

B SAZPCIP50A Inverting Phase Coupler, 50A **\$79.95**

PCPPC1 PulseWorx Passive Phase Coupler **\$49.95**

LV39A001 HAI/Leviton Phase Coupler **\$79.95**

UPB Phase Repeaters

Increase communication reliability by taking UPB messages transmitted on one phase and strongly repeating them onto the second phase (in a split repeater), or second and third phase (in a 3-phase repeater).

2-PHASE (SPLIT) REPEATERS

PCSPR1 PulseWorx Split Phase Repeater **\$124.95**

LV39A002 HAI/Leviton Split Phase Repeater **\$374.95**

3-PHASE REPEATERS

SAUTR SAI 3-Phase Repeater **\$359.95**

PCTPR120 PulseWorx 3-Phase Repeater **\$224.95**

LV39A003 HAI/Leviton 3-Phase Repeater **\$534.95**

X10 Automation

X10 WALL SWITCHES

X10 Dimmer Switch, Incandescent

- Neutral wire not required

This receiver switch is a mainstay for the bulk of indoor lighting needs. Operates with a simple push on the paddle for On/Off. A continuous press cycles the switch through the Dimming levels. Release when the desired Dim level is reached.

- Turns On to full Bright
- Local or remote Dimming control
- Colors: Includes both White and Ivory
- Wallplate not included (see page 71)

A XPXPDJ3IW X10 Dimmer Switch, Single Pole & 3 Way **\$27.99**

A XTWS14A X10 Auxiliary Switch **\$12.99**

For 3-Way Operation; Requires 3-Way Dimmer Wall Switch (Includes Wallplate)

X10 Appliance Switch

- Control appliances, fluorescent lights and low voltage
- 1 pole and 3-Way control

This switch controls indoor lighting or outdoor lighting switched from indoors, ceiling fans (On/Off only), outlets controlling audio systems, appliances, and more.

- Requires neutral wire
- Responds to On/Off and All Lights On/All Off
- Colors: Includes both White and Ivory
- Wallplate not included (see page 71)

A XTWS13A X10 Appliance Wall Switch, 20A **\$26.99**

A XTWS14A X10 Auxiliary Switch **\$12.99**

For 3-Way Operation; Requires Appliance Wall Switch

XPXPS2 X10 Pro Heavy Duty Switch **\$44.99**

Supports On/Off and All Lights On/All Off. Rated at 20A, 250 VAC and up to 2Hp for motors. Color: Ivory

AVAILABLE COLORS

For Products On This Page

X10 Wireless Wall Switch

This switch attaches to any wall ... no wiring! It then works as any standard X10 controller, sending remote X10 signals up to 100' to a base transceiver. The transceiver then transfers the command to your powerline and thus controls any X10 module in your house.

- The 4-button unit controls 3 sequential X10 address, plus Dim
- Use in conjunction with any X10 Transceiver
- Color: White
- Wallplate included

XTSS13A Wireless Wall Switch **\$13.99**

CUSTOMER FAVORITE!

DESKTOP CONTROLLER

X10 Mini-Controller

Just plug it in and you're done!

Turns On/ Off up to 8 X10 lights and appliances.

The X10 Pro Desktop Mini Controller gives you manual control of up to eight X10 Receiver Modules of various formats. Just plug it in and you are in control! This Controller turns On/Off up to eight X10 lights and appliances connected to X10 Receiver Modules. It features On/Off, Bright/Dim, All Lights On and All Units Off Command Buttons. The Selector Switch assigns the 4 On/Off Buttons to control the X10 Receiver Modules set to Unit Codes 1-4 or 5-8.

XTMC10A X10 Mini-Controller **\$22.99**

TIMER CONTROLLER

X10 Mini-Timer

Push-button controller, alarm clock and programmable timer all in one! The X10 Mini-Timer with built-in keypad automatically controls up to 8 X10 modules, including All Lights On/All Units Off - and now dimming.

The Mini-Timer allows for a total of 64 On, Off or combination of On and Off. Times can be distributed between unit codes 1 through 8. A security button automatically turns On various X10 devices at an approximated scheduled time, to give a home a lived-in look while the owners are away. The timer offers an alarm with buzzer and snooze button in an attractive table top design with LCD display.

Also accepts 2 AA batteries in case of a power outage.

XTMT13A X10 Mini-Timer **\$49.99**

X10 WIRELESS

X10 Keychain Wireless Remote

Turn On lights and sound from inside or outside a home! Convenient black Keychain Wireless Remote has buttons that can be programmed to send any consecutive unit codes. Security and convenience!

- Uses CR2025 battery
- Use in conjunction with any X10-compatible Transceiver

XTKR19A X10 Keychain Wireless Remote **\$14.99**

X10 Handheld Wireless Remote

Issue X10 commands anywhere within 100' of a plug-in base transceiver with this 8-button RF Wireless Remote. Remote controls unit numbers 1-8 or 9-16 (switch selectable).

- Use in conjunction with any X10 Transceiver
- Uses 4 AAA batteries
- Color: White

XTHR12A X10 Handheld Wireless Remote **\$14.99**

X10 Wireless Repeater

Extend your X10 wireless range by installing the X10 Smart RF Repeater. This repeater improves communication between wireless X10 devices by boosting and retransmitting X10 RF signals, thereby extending their range.

XTSR751 X10 SMART RF Repeater **\$29.99**

X10 PLUG-IN MODULES

X10 Lamp Module

The X10 Lamp Module is the simplest and most effective way to control lights.

- On/Off and Dim/Bright control
- Override the module at the switch
- Soft Start/Fade Off feature

The X10 Lamp Module plugs into any standard 110V household outlet and gives the ability to remotely control any incandescent light you plug into the module (up to 300W). The Lamp Module is a receiver that reacts to X10 signals generated by X10 transmitters elsewhere on the powerline.

XTLM465 X10 Lamp Module **\$17.99**

X10 Screw-in Module

For lights without a plug-in cord. Electronic programming ... no code wheels! Responds to On/Off, All On/Off (non-Dimming).

- 150W incandescent
- Tiny size: Only 2 1/2" x 1 1/4" (plus 3/8" bump on one side)

XTLM15A X10 Screw-In Lamp Module **\$17.99**

X10 Appliance Module

The X10 Appliance Module works the same way as the X10 Lamp Module, but handles larger 110V loads, up to 15A or 1/3 horsepower and incandescent loads up to 1800W. Use it with timers, manual and intelligent controllers, telephone responders and a variety of other X10 devices for virtually limitless control of lights and appliances throughout your home.

- On/Off control, All Off (Does not respond to All Lights On or Dim/Bright commands)
- Override this module at the switch

XTAM486 X10 Powerhouse Appliance Module, 2 Prong **\$16.99**

XTAM466 X10 Powerhouse Appliance Module, 3 Prong **\$17.99**

X10 Chime Module

The Remote Chime is designed to provide a pleasant annunciator chime. It can be activated using the correct House Code and Unit Code from any X10 controller, such as the Power Flash Interface or the Mini Controller.

- 120VAC, 60Hz; 1 Watt

XTSC546A X10 Chime Module **\$18.99**

X10 WIRELESS TRANSCEIVERS

X10 Transceivers

Transceiver modules are an integral part of an X10 wireless system. These modules accept commands from X10 remote controls and wireless sensors, and convert them to X10 signals.

The module also incorporates a built-in outlet (XTTM751 outlet controlled by RF only; XTRR501 outlet controlled by any X10 controller).

A XTTM751 X10 Deluxe Transceiver **\$19.99**

B XTRR501 X10 Transceiver **\$29.99**

WGL X10 Transceivers

These X10 Transceivers provide a professional alternative that receives all house codes and offers greater reception range.

- Receives all 256 house/unit code addresses
- External antenna package for extreme range
- Custom house and unit code filtering (optional)
- Filtering settings are not lost during power loss

WG30020 WGL X10 Transceiver **\$84.50**

WG28005 WGL X10 Transceiver, 32-bit (for security system commands) **\$94.75**

CUSTOMER FAVORITE!

X10 USB PC Receiver

The USB PC Receiver sends and receives X10 commands to and from your PC. You can use it to control lights, appliances and other modules. The receiver can also receive commands from X10 motion sensors and remote controls. It works with all X10 software.

XTCM19A X10 USB PC Receiver **\$19.99**

X10 WIRE-IN MODULES

X10 Split Receptacle

- X10 control on top
- Bottom is always live

The X10 control elements are built-in, so Lamp Modules aren't necessary. Rated at 15A. Responds to On/Off, All Units Off commands, but not All Lights On or Dim/Bright. Controlled devices may still be controlled with local switches.

- Color: White
- Wallplate included

XTSR227 X10 Pro Split Receptacle **\$22.99**

X10 Duplex Receptacle

- Both outlets X10 controlled; Responds to On/Off, All Off; No local control
- Color: White
- Wallplate included

XTXPBW X10 Pro Duplex Receptacle, 20A **\$29.99**

X10 Fixture Module

These high-quality in-line modules mount inside a fixture, box or recessed can lighting to give X10 control where a wall switch or outlet receiver cannot be used. A real problem solver!

- Size: 2" x 3" x 1 1/4"
- For fluorescent lights, appliances and ceiling fans
- Rated 15a 125V for inductive loads. Responds to On/Off and All Lights On/All Off commands. Non-Dimming

XPXPFM X10 Inductive Fixture Module **\$26.99**

XPXPFD X10 Dimmer Fixture Module **\$26.99**

X10 WIRELESS SECURITY

X10 SecuriLINK Security Console

The X10 Supervised Security System Console with automatic dialer calls neighbors or friends in the event of a break-in.

- Control via telephone
- 32 Zones of protection
- Built-in lighting timer to deter crime
- No contracts to sign

When the console is triggered, it flashes your home's lights and blares a piercing 95 decibel siren (about as loud as a home stereo on max volume). Plus, it activates the voice dialer system. It calls you first. If you don't answer, it calls five additional programmable numbers (friends, relatives or neighbors) until somebody picks up. When you answer, it plays a recorded message (in your words), letting you know that there is a possible burglary at your home.

Built-in Lighting Timer: Security is about more than a white box that makes noise. It's about crime prevention. One of the most effective ways to deter crime from your property is proper lighting. With a built-in lighting timer, you can set your lights, indoors and out, to come on at random times or scheduled times throughout the day. This gives your home the lived-in look that strikes fear in the heart of burglars.

32 Zones of Protection! SecuriLINK is set up to handle up to 30 zones of X10 Door/Window Sensors and Motion Detectors – any combination of the two. That's enough for even the largest of homes and buildings! In addition, it also allows for two zones of hard-wired sensors. That means you can use third-party sensors. Have a wired water level sensor or glass break sensor? You can wire it into the SecuriLINK Console and have it trigger your alarm. Have a hard-wired motion detector from another security system? Wire it into the SecuriLINK and use it for your current security system!

XTSC1200 X10 SecuriLINK Security Console **\$82.95**

X10 SECURITY KITS - BUNDLE & SAVE

XTSECURITYKIT2 X10 11-Piece Starter Security Kit **\$165.95**

Includes SecuriLINK Security Console, 1 SMART Wireless Motion Detector, 2 SMART Wireless Door/Window Sensors, 1 SMART Keyfob Remote, 1 Security Yard Sign & 5 Security Window Stickers.

XTSECURITYKIT3 X10 22-Piece Large Security Kit **\$182.95**

Includes SecuriLINK Security Console, 2 Wireless Motion Detectors, 9 Wireless Door/Window Sensors, 2 Lamp Modules, 2 Wireless Handheld Remotes, 1 Security Yard Sign & 5 Security Window Stickers.

XTSECURITYKIT4 X10 23-Piece Max Security System **\$197.95**

Includes SecuriLINK Security Console, 2 SMART Wireless Motion Detectors, 9 SMART Wireless Door/Window Sensors, 1 Lamp Module, 1 Wireless Handheld Remote, 3 SMART Keyfob Remotes, 1 Security Yard Sign and 5 Security Window Stickers.

XTMS18A X10 SMART Wireless Indoor Motion Sensor **\$39.95**

XTMS16A X10 EagleEye Wireless Indoor/Outdoor Motion Sensor **\$18.99**

XTSH10A X10 Plug-In Powerhorn Siren Module, 105dB **\$19.99**

XTPH508 X10 Plug-In Powerhorn Siren Module, 110dB **\$24.99**

XTSH624 X10 Wireless Security Handheld Remote **\$18.99**

X10 ACCESSORIES

X10 Universal Module

You name it, you can control it! Use this module to open your garage door, switch a drapery motor, trip an auto dialer, remotely switch on speakers in another part of the house, control your home's thermostat, and more. It provides isolated relay contacts to control devices rated up to 5A at 24VDC (100VA at 30 VAC).

- Relay output, 5A at 24VDC

CUSTOMER FAVORITE!

XTUM506 X10 Universal Module **\$25.99**

X10 Security Powerflash Module

This Powerflash Interface allows almost anything to send X10 signals. Wire the output from your existing security system to this Burglar Alarm Interface and set the module to Mode 2. The plug-in unit sends an X10 signal to receiver devices when a contact closure is made or low-voltage (6-18V AC, DC or Audio) is applied to its terminals.

XPPSC01 X10 Security Powerflash Module **\$34.99**

X10 Whole-Home Noise Block

The Whole-Home Noise Block is ideal for apartment buildings, condominiums, attached-unit dwellings and single family homes sharing the same electrical transformer as another. Each phase is rated 200A.

LV6284 Leviton Whole-Home Noise Block **\$39.95**

X10 Plug-In Noise Filter

Simply plug an appliance into a filter, then plug the filter into the electrical outlet. It completely blocks X10 signals, so isolate multiple appliances on a power strip with a total load of up to 5A.

XPXPPF X10 Pro Plug-In Noise Filter, 5A **\$18.99**

X10 Coupler/Repeater

- 2 and 3 phase

Provides the same benefits as the Signal Bridge, but amplifies the signal from 100mV to more than 5V. A must if your signal is much below the required 100mV.

XPXPCR X10 Pro Amplifier/Coupler **\$59.99**

Irrigation Automation

BLUESPRAY WEB-BASED WIRELESS IRRIGATION

Control your sprinkler system from anywhere in the world with the BlueSpray Web Based Wireless Irrigation Controller. The controller has built-in Wi-Fi to send and receive commands from your free online BlueSpray account. No software or service fees are required. Just log into your account through a PC, tablet or smart phone to adjust settings, set schedules, view history reports, and more.

- Control sprinklers from anywhere you have Internet access
- Create watering schedules for each season
- Adjust watering for rain or cold weather
- Optionally integrate the controller into a home automation system
- Works with any standard sprinkler system

Designed for use with any standard irrigation system, BlueSpray can either replace your existing controller or be used as a new controller. Your sprinkler wires connect to the BlueSpray controller, which mounts on a wall with screws.

Setting Up the Interface: When you first log into your BlueSpray account, you will be able to set up the user interface to match your home's sprinkler system. The interface includes selectable illustrations of home properties with lawns. Choose the illustration that best matches your property, or upload your own photo (from Google Earth/Maps), then drag and drop sprinkler head icons onto the illustration/photo to indicate where sprinklers are located in your yard.

Sprinklers are grouped into zones by the controller. You may include only one sprinkler in each zone, or group multiple sprinklers into one zone for quick control over an entire group. Zones can be named for easy recognition.

Controlling the Sprinkler System: Once your sprinkler system is setup in the user interface, you can take advantage of a wide variety of settings that let you customize the system.

- Select individual zones and set the length of watering time for each
- Turn zones on/off
- Set watering run times based on seasons (dates)
- Schedule daily watering with start and run times
- Set sprinklers to run on even/odd days, weekdays,

every "X" number of days, etc.

- Program the system to adjust watering based on weather

The controller features a built-in weather program that allows you to choose how your sprinkler system operates under certain weather conditions. It draws current weather data and forecasts from the National Weather Service (NOAA), and uses that information to adjust watering schedules.

For example, you can program the system not to water if there is a 50% chance of rain and the temperature is less than 50 degrees F. Wind speed and extended rain forecasts can also be used as determining factors.

Expandable Functionality: In addition to built-in programmable settings, the sprinkler system can be controlled according to data from external devices, such as a rain sensor or temperature sensor. The controller can even integrate into a home automation system.

BYBSCxxI BlueSpray Controller **\$229.95-\$279.99**

Available Number of Zones: 8, 16, 24

BLUESPRAY DOOR OPENER EXPANSION KIT

BlueSpray also offers a garage door opener kit. This is especially useful if your sprinklers shoot water toward your garage and you need to make sure your property does not get wet during watering.

BYBSDK BlueSpray Door Opener Kit **\$29.95**

RAIN8 LANDSCAPE AUTOMATION

Rain8 Sprinkler Controller

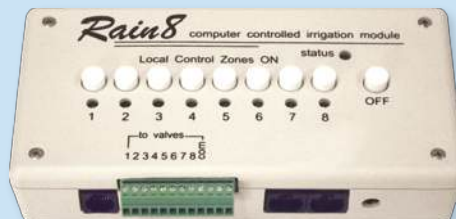

The Rain8net is a modular 8-zone sprinkler controller module that can be controlled over the Internet by any computer or other control device. It's capable of driving standard 24VAC irrigation valves directly.

- On/Off control of each valve at the Rain8 module itself; no need to run back to a PC to turn On/Off
- All valve wires and connections are protected against lightning surges; all RS232 and network connections protected against ESD and lightning

Motion-Activated Lighting Controls

OUTDOOR LIGHTS

Solar-Powered Floodlights

Lights automatically turn on when motion is detected at night. Easy DIY installation with no wiring. Includes 6V 4Ah sealed lead acid rechargeable battery. Adjustable motion sensor detects motion up to 35' away within a 180° detection area. 15' cable allows ideal location for solar panel and lets you mount the light inside, if desired.

- When charged, light can activate up to 360 times

MX40225 80 LED Solar-Powered Motion-Activated Floodlight (White) **\$79.95**

MX40110 30W Halogen Solar-Powered Motion-Activated Floodlight (White) **\$84.95**

Heath-Zenith Motion-Activated Mission Cove Coach Light

The DualBrite Motion Sensing Coach Light turns on when motion is detected. It features dusk accent lighting and a photocell to keep the light off during daylight hours.

- Light turns on when motion is detected
- Photocell keeps the light off during daylight hours
- Meets the ENERGY STAR guidelines

HZSL4135BK Heath-Zenith Motion-Activated DualBrite Mission Cove Coach Light **\$54.95**

Maxxa Motion-Activated Dual LED Battery-Powered Spotlight

Perfect for driveways, walkways and more, the Maxxa Battery-Powered Motion-Activated Dual Head LED Security Spotlight automatically turns on when motion is detected at night. Two bright LEDs light up the area and help you stay safe in the dark.

- Only turns on after dusk, off during daylight
- Batteries last up to six months
- Requires three C-Cell batteries (not included).

MX43218 Maxxa Battery-Powered Motion-Activated Dual LED Security Spotlight **\$44.95**

MOTION-ACTIVATED PLUG

Andev SensorPlug

SensorPlug is a motion activated plug-in electrical outlet. Its plug-in design eliminates wiring and associated expenses common to other motion activated products.

The passive infrared (PIR) motion sensor used in this product offers the convenience of controlling many of the household electrical products – not just lighting – by motion. It is the only motion activated product that can be used to control lighting as well non-lighting electrical products.

AISP01 SensorPlug **\$15.99**

OCCUPANCY SENSORS

Universal Occupancy Sensors

Leviton's line of Occupancy and Vacancy Sensors combine state-of-the-art technology with new aesthetics to provide optimal management of lighting and motor loads and a choice of either Manual-On (Vacancy Sensor) or Automatic-On (Occupancy Sensor) switching. These energy-saving sensors ensure that lights turn On manually or automatically and turn Off automatically when motion is no longer detected within the covered range. Designed to fit in a standard wallbox, these devices offer 180° Field of View and 900 sq. ft. of coverage.

The devices feature a time delay setting which allows you the option to delay the lights from switching off for 30 seconds, 5 minutes, 15 minutes or 30 minutes.

- Provides control of LED, CFL, Incandescent, Halogen or Motor loads
- Colors: Includes White, Ivory and Light Almond
- Wallplate not included (see page 71)

DIMMING OCCUPANCY SENSORS

Dimming sensors allow you to easily adjust lighting levels of compatible dimmable LED, dimmable CFL and Incandescent lamps for energy-efficiency and ambiance. A built-in advanced starting technology ensures instant start-up for hard to start CFLs.

- Provides control of LED, CFL, Incandescent and Halogen
- Colors: Includes White, Ivory and Light Almond
- Wallplate not included (see page 71)

B LVIPSD61LZ Leviton Universal Dimming Wall Switch Occupancy Sensor, 600W, Auto On **\$79.95**

B LVIPVD61LZ Leviton Universal Dimming Wall Switch Occupancy Sensor, 600W, Manual On **\$79.95**

Save money by using lights only when they are needed. Motion-activated occupancy sensors increase convenience and improve everyday living.

AUTOMATIC FAN CONTROL

Leviton Humidity Sensor and Fan Control

The Leviton Humidity Sensor and Fan Control automatically detects excess humidity in a room and activates the ventilation fan to lessen condensation which helps reduce mold and mildew.

The sensor uses a microprocessor combined with state-of-the-art digital sensing technology to continuously monitor and manage humidity levels in areas of the home prone to condensation and mildew. The sensor can replace a single pole switch and can be used with most ventilation fans or fan/light combinations.

- Colors: Choose from White, Ivory and Light Almond.

LVIPHSS51Lx Leviton Humidity Sensor and Fan Control **\$39.95**

How To Build Your Home Security System

1 SELECT A CONTROL SYSTEM

INTERLOGIX NETWORKX SECURITY

The NetworkX line of control panels represent a full-featured security system that uses advanced technology for burglary, fire and environmental detection. A highly flexible security option that is both easy to install and simple to use, NetworkX control panels can accommodate smaller residential applications up to the most

demanding commercial security needs.

- Flash Memory Microprocessor
- Expanded Event Log
- Early Open/Late Close Reporting
- Programmable Loop Response
- Accommodates Multiple Codes from 8 Up to 240

- Up to 8 True Partitions w/Separate Account Codes, Entry/Exit Delays and Feature Selections for Each Partition
- Up to 512-Event History Log that Provides Date, Time, Event and User Number
- 2-Wire or 4-Wire Smoke Detector Compatibility

NETWORKX SECURITY PANELS

- GENX4** NetworkX NX-4 Security Panel, 4 Zones **\$39.95**
GENX6 NetworkX NX-6 Security Panel, 6 Zones **\$59.95**
GENX8 NetworkX NX-8 Security Panel, 8 Zones **\$94.95**
GENX8E NetworkX NX-8E Security Panel, 8 Zones **\$144.95**

NETWORKX SECURITY KITS

- GENX4KIT** NetworkX NX-4, 4 Zones **\$104.95**
Includes Controller, GENX1308E Keypad & Transformer
GENX4KITLX NetworkX NX-4, 4 Zones **\$94.95**
Includes Controller, GENX108E Keypad & Transformer
GENX6KIT8 NetworkX NX-6, 6 Zones **\$139.95**
Includes Controller, GENX1448 Keypad & Transformer
GENX848KIT NetworkX NX-8, 8 Zones **\$219.95**
Includes Controller, GENX148E Keypad & Transformer
GENX848EKIT NetworkX NX-8E, 8 Zones **\$274.95**
Includes Controller, GENX148E Keypad & Transformer
GENX8EKIT7RF NetworkX NX-8E, 8 Zones **\$284.95**
Includes Controller, GENX148ERF Keypad & Transformer

	NX-4	NX-6	NX-8	NX-8E
Standard Hard wired Zones	4	6	8	8

2 INSTALL SENSORS

Sensors monitor any and every part of your house: windows, doors, driveways, plumbing, garages, mailboxes, and more. Once the sensor is activated, it immediately notifies you.

» SEE PAGE 32

3 EXPAND & CUSTOMIZE

Expand and customize your home security system with wireless transmitters and receivers, sirens and speakers, dialers, cell backups and more.

» SEE PAGE 36

4 ADD SURVEILLANCE

Watch your children play, see who is at the front door, view the side yard, monitor the pool area, protect yourself from intruders, and more ... all with a state-of-the-art surveillance system from Home Controls!

» SEE PAGE 40

NAPCO GEMINI SECURITY

Napco designs innovative systems for homeowners that want the most reliable system technology available. Home Controls offers the full line of Napco Gemini systems, allowing you to create your own custom home security or to expand your existing system.

Gemini includes a comprehensive line of hybrid hard wire/wireless multi-tasking products: Control panels ranging from 8 to 255 zones, easy-to-use, designer keypads, and a full line of conventional 8 to 255 point null-free, helically-filtered RF receivers.

All Gemini panels and receivers seamlessly support the full line of Gemini transmitters, and virtually all panels, keypads, and peripherals are compatible with each other and work the same, model to model.

GEMINI SECURITY PANELS

NPGEPM816 Gemini Security Panel, 16 Zones **\$94.95**

NPGEPM3200 Gemini Security Panel, 48 Zones **\$174.95**

Hybrid Design: 32 Wired Zones or 48 Wireless Zones

GEMINI SECURITY KEYPADS

NPGEPMK1VPS Gemini Talking Keypad **\$184.95**

NPGEPMK1CA Gemini Alphanumeric Keypad **\$149.95**

NPGEPMK1CA Gemini Door Style Alphanumeric Keypad **\$149.95**

NPGEPMK3DGT Gemini Digital Keypad **\$69.95**

NPGEPM1632 Gemini Security Panel, 32 Zones **\$114.95**

NPGEPM1664 Gemini Security Panel, 64 Zones **\$119.95**

NPGEPM9600 Gemini Security Panel, 96 Zones **\$339.95**

iBRIDGE CONNECTED HOME

Want to control your home security system with your smart phone? With Napco's iBridge Connected Home, all connected devices (cameras, alarms, locks, etc.) can be controlled by your Gemini keypad or the free smart phone iBridge app.

NPBRZREMOTE iBridge Z-Wave Device Support Module **\$224.95**

NPBRWIFIMOD iBridge Wireless Panel Interface **\$129.95**

NOTE: You must also have a wireless Internet router and modem to use with iBridge Interface.

LINEAR SECURITY

Linear's DUAL 824 Security Panel is a hybrid alarm control that includes its own built-in receiver with a measured range of 1,500'.

Homeowner controls for the DUAL 824 are centralized on an easy-to-read, backlit, full-function keypad with numeric indicators for each of 24 supervised wireless sensor zones and up to 8 hard wire loops. A built-in piezo generates alert and alarm tones.

Compatibility with Linear's transmitters and sensors (see page 36), these systems can be easily customized.

LNDAUL824 Linear DUAL 824 Security Panel **\$193.99**

Includes Controller & Keypad.

LNDSKIT63 Linear DUAL 824 Security Kit **\$417.99**

Includes Controller, Keypad, 2-Way Voice Board, 2 Door/Window Transmitters, Motion Detector, Remote Controller, Power Supply and Accessories.

HAI/LEVITON OMNI

An Omni home control system takes the place of a standard security system. It provides the ultimate in safety for your family with features not found in a standard security system.

» HomeControls.com/Leviton-Security-Automation

ELK M1

Combine your security with home automation! Elk's M1 Controls incorporate security, fire, door entry control, and energy and task management to provide total control of the home.

» HomeControls.com/ElkProducts

MOTION-ACTIVATED SENSORS

Napco Adaptive Dual Detectors

Napco's Adaptive Dual Microwave/PIR Detectors automatically adjust to their environment, minute by minute, for reliable false alarm immunity.

The Adaptive detector automatically selects the most appropriate detection mode, optimizing both intruder catch and stability. Each time the sensors detect a stimulus strong enough to generate a signal, yet insufficient in strength to indicate an alarm, the detector automatically changes sensitivity modes, effectively widening the gap between the detected signal and its alarm threshold. Therefore, environmental disturbances are better tolerated and the threat of false alarms is dramatically reduced.

NPC100STE Adaptive Dual Detector **\$29.95**

NPC200AP Adaptive Dual Pet Detector (Immune 100lbs.) **\$34.95**

LuNAR Series

LuNAR PIR Motion Sensor: The Risco LuNAR PIR is a dual element PIR with adjustable sensitivity, signal logic and variable pulse count. 12VDC, NC.

RK2000DPC LuNAR PIR Motion Sensor **\$59.95**

LuNAR DT Motion Sensor: LuNAR DT combines IR and microwave capabilities to eliminate false alarms – both technologies must verify an intrusion for the alarm to be activated.

RK150T LuNAR DT Motion Sensor **\$99.95**

Industrial LuNAR PIR Motion Sensor: Catch camouflaged intruders and detect movement even in high temperatures with the Risco Industrial LuNAR DualTech Motion Sensor. Designed to operate in any industrial environment, this robust motion sensor helps ensure security for warehouses, factories, and other commercial locations where harsher conditions are a concern. Coverage can be customized for optimum monitoring.

RK200DTG3USB LuNAR Motion Sensor **\$124.95**

ZoDIAC Series

The ZoDIAC provides superior catch performance with immunity to false alarms in even the harshest environments. It ensures improved coverage while significantly reducing false alarms from warm air, moving curtains, and temperature changes.

- PIR Coverage: 40' x 40'
- PET Coverage: 27' (Immune 70lbs)

RK410PR ZoDIAC PIR Sensor **\$18.95**

RK410PT ZoDIAC PET Sensor **\$24.95**

CoMET Series

The CoMET Series provides a reliable solution based on PIR technology.

The CoMET sensor is compact and attractively designed to meet the needs of residential installations.

- PIR Coverage: 40' x 40'
- Pet Coverage: 26', 90° (immune for 42 lbs. dog, 2 cats or multiple rodents)

RK210PR CoMET PIR Sensor **\$13.95**

RK210PT CoMET Pet Sensor **\$14.95**

iWISE Series

The iWISE Series is a range of dual-technology (DT) and passive infrared (PIR) detectors that deliver superior catch performance with excellent false alarm immunity. iWISE detectors incorporating Anti-Cloak Technology (ACT) ensure that no intruder passes undetected. ACT makes the iWISE detector series the premier choice for any commercial, industrial or residential installation.

iWISE DT Sensors: iWISE DT detectors are a true revolution in detector technology due to Risco Group's ACT. iWISE DT combines PIR and microwave capabilities to eliminate false alarms.

RK8xxDTGL iWISE DT Motion Sensor **\$74.95**

Choose 30', 50' or 80' Ranges

iWISE Quad PIR Sensors: iWISE QUAD uses two separate dual-element sensors to reduce false alarms and improve catch performance in hostile environments. Two dual element pyroelectric sensors and two independent processing channels. Also features false alarm rejection of white light and hot air turbulence, patented true temperature compensation, creep zone, and 3 LED walk test indicator.

RK800QA iWISE Quad PIR Motion Sensor **\$34.95**

iWISE Pet Motion Sensors: Provide full pet immunity with no loss of catch performance. iWISE PET and DT PET models easily distinguish between intruders and pets, allowing complete pet freedom of movement without false alarms.

RK811DTPUSC iWISE DT Pet Motion Sensor (Immune 100 lbs.) **\$54.95**

Napco IQ Profiler PIR Sensor

Napco has improved its already popular IQ Profiler by adding new Quick Catch Mode. The new Quick Catch makes the IQ Profiler even tougher with faster profiling of false and true alarms for verified intruder catch detection. Inside is advanced microprocessor-based circuitry with a built-in library of profiles of common false and real alarm sources, so the reliable unit rejects profiles of dogs, cats, birds, heaters, blinds, etc.

- 50 lbs. pet immunity (22.7kg) and superior false alarm discrimination with unique dual focal lenses
- Installation in a snap with patented Quick-Mount and Quick-Wire terminals
- Maximum range: 50' x 50'
- Down/creep zones provide coverage beneath sensor
- Size: 4½"H x 2½"W x 1⅞"D

NPIQPROFILER IQ Profiler Pet Sensor **\$29.95**

MOTION SENSOR & GLASS BREAK IN ONE!

ShatterPro Plus

The ShatterPro Plus is an acoustic glassbreak sensor combined with a motion detector to eliminate occupant-generated false alarms. When a person enters the field of view of the motion detector, the glassbreak sensor is shunted during the period of occupancy. This eliminates false alarms generated from normal noise levels when you are home. The ShatterPro Plus can be wired into a 24-hour perimeter loop, free from concerns about false alarms generated by a noisy environment.

GE5885W ShatterPro Plus Motion-Sensitive Glassbreak Detector **\$104.95**

Interlogix PrecisionLine Motion Sensor

PrecisionLine dual technology sensors offer new, easy solutions for your most challenging residential or pet applications. Using a sophisticated combination of precision controlled microwave and PIR technologies, these sensors give total coverage-on-demand.

GERCR50 PrecisionLine PIR Sensor, 50' **\$64.95**

GERCRPET PrecisionLine PIR Pet Sensor, 35' **\$44.95**

OUTDOOR SENSORS

WatchOUT Outdoor Series

WatchOUT Outdoor Detectors provide reliable outdoor protection by providing the best Selective Event Recognition. WatchOUT can distinguish between real intrusion events and the false alarms caused by the unstable outdoor environment.

- Digital Correlation Technology for eliminating false alarms from pets, reflections and rapid temperature changes

RK315DT WatchOUT DT Sensor **\$194.95**

RK312PRB WatchOUT PIR Sensor **\$99.95**

RKRA300B Barrier Swivel for WatchOUT **\$10.95**

RKRA300P Pole Adaptor for WatchOUT **\$24.95**

RKRA300C Conduit Adaptor for WatchOUT **\$6.95**

PHOTOBEAMS

Twin PhotoBeam Sensors

- Indoor or outdoor use
- Twin beams provide reliable perimeter security, minimizing false alarms
- NC/NO alarm output; NC tamper circuit included
- Includes 2 PhotoElectric Sensors (transmitter and receiver), 2 Wall Mounting Plates, 2 Pole Mounting Plates and hardware
- Power supply sold separately

SEE960D Seco-Larm Enforcer Twin Photobeam Sensor **\$94.95-\$144.95**

Choose 90°, 190° or 290°

Quad PhotoBeam Sensors

Because all four beams must be simultaneously broken for activation, false alarms created by animals and leaves are minimized.

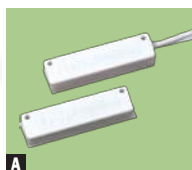

- 4 selectable frequencies eliminate interference
- Beam strength LED indicators
- Audible beam alignment (buzzer)
- Built-in heater for indoor or outdoor use
- NO/NC alarm output
- Power supply sold separately

SEE964QxxxQ Seco-Larm Enforcer Quad Photobeam Sensor **\$94.95-\$144.95**

Choose 165', 330', 495' or 660'

GLASS BREAK SENSORS

VITRON Plus Glass Break Sensor

VITRON Plus uses a unique glass breaking pattern recognition analysis, providing superior detection combined with excellent false alarm immunity. These adjustment-free and easy-to-install units detect breaking of all standard framed glass types and thickness while ignoring possible sources of false alarms.

- The area's acoustics are sampled up to 40,000 times per second
- Protects all glass types
- Up to 30' with automatic adjustment
- Size: 4 1/2"H x 2 1/2"W x 5 1/2"

RKR71FM VITRON Plus Glass Break Sensor **\$34.95**

RKR65 VITRON Plus Glass Break Tester **\$74.95**

Interlogix Glass Break Shock Detector

The 5150 Series Shock Sensor's clean design makes the detector one of the most low profile sensors in the industry. Advanced piezo transducer technology powers the sensor, so no power is needed from the loop. Instead, the piezo generates its own electricity when it bends as the glass breaks. Low profile design.

- Colors: Choose from White or Brown

GE5150x Interlogix Glass Break Shock Detector **\$14.95**

CUSTOMER FAVORITE!

WIRELESS SECURITY SENSORS

iON Wireless Security Sensors

The iON wireless sensors are powered by a long-life lithium battery that is easily replaceable when a low battery condition is indicated by the control.

- Available for NetworX, DSC Security, HAI/Leviton Omni, or 2GIG

The iON Plunger recessed sensor is a reed switch magnet contact transmitter that provides concealed protection for a door.

A IONPLUNGERx Plunger Wireless Door Sensor (1" Deep x 3/4"Dia) **\$34.95**

The iON Micra features a window sash sensor that triggers an alarm whenever the contact between it and its corresponding surface mount magnet is severed.

B IONMICRAX Micra Wireless Window Sensor (1/3" Deep x 3/4"Dia) **\$34.95**

IONFDB75 Window Sensor Drill Bit (required for installation) **\$9.95**

DXS transmitters utilize optimized pulse-position based RF transmission technology – and are fully supervised.

Ecolink Garage Door Tilt Sensor

Receive automatic notification when your garage door is opened with the Ecolink Garage Door Tilt Sensor.

This tilt sensor alerts you through your security system if tilted at approximately 45 degrees. By moving the actual ball sensor up or down, you can adjust this angle by a few degrees.

- Activates at 45° angle
- Low battery alerts
- Compatible with Honeywell/2GIG panels
- 1-second delay prevents false alarms

The sensor is typically mounted above eye-level near the top of your garage door. This ensures that the sensor tilts and activates when the garage door is opened only a few inches. Mounting screws and double-sided tape are included for installation.

ECWST402 Honeywell/2GIG-Compatible Wireless Garage Door Tilt Sensor **\$34.95**

Ecolink Door/Window Sensor

Integrate the Ecolink Door/Window Sensor into your NetworX or DSC security system to easily monitor a door or window. The sensor features proven, reliable crystal-based wireless technology. This white sensor even comes with an interchangeable brown case so you can match it with your personal decor.

- Includes white and brown case
- Size: 1" x 2 1/4" x 1 1/4" inches

ECWST200 DSC-Compatible Sensor **\$34.95**

ECWST201 NetworX-Compatible Sensor **\$34.95**

WITH LOCAL BYPASS

The Ecolink Wireless Door/Window Sensor (with local bypass) allows you to monitor a door or window with your compatible security system. The sensor features a built-in bypass push button, making it easy for you to temporarily disable detection when you need to open the monitored door/window. This white sensor even comes with an interchangeable brown case so you can match it with your personal decor.

- Bypass button for temporary deactivation
- Proven, reliable crystal based wireless technology
- Includes white and brown case

ECWST212 Honeywell-Compatible Door/Window Sensor with Local Bypass **\$34.95**

ECWST211 NetworX-Compatible Door/Window Sensor with Local Bypass **\$34.95**

SMOKE DETECTORS

FireworX Photoelectric Smoke Detectors

FireworX 500 series photoelectric smoke detectors come in a variety of models from the simplest to the most complex smoke and fire alarm applications.

500 Series detectors work on the photoelectric light-scattering principle, a core technology pioneered by ESL in the 1960s. A pulsed infrared light-emitting diode serves as the light source, and a high-speed photo diode as the sensing element. This design has superior protection against nuisance alarms caused by dust, insects, RF interference, and ambient light, while providing the earliest warning to a non-specific fire type.

Find The Latest Advanced In Smoke Detection Technology At Home Controls.

» www.HomeControls.com/SmokeDetectors

Firewolf Photoelectric Smoke Detectors

Accurately detects all types of fire, including paper, wood, gasoline, polystyrene, smoldering fires, etc. Performance superior to previous photo-electric detectors.

- Attractive, low profile
- 360° visibility
- Dual LEDs
- 100% burn-in tested

NPFW4 Firewolf Photoelectric Smoke Detector, 4-Wire **\$49.95**

NPFW2 Firewolf Photoelectric Smoke Detector, 2-Wire **\$39.95**

WITH BUILT-IN HEAT SENSOR

NPFW4H Firewolf Photoelectric Smoke Detector with Heat Sensor, 4-Wire **\$54.95**

NPFW2H Firewolf Photoelectric Smoke Detector with Heat Sensor, 2-Wire **\$44.95**

USR64 End Of Line Relay (Required for Firewolf 4-Wire Smoke Detectors) **\$25.95**

CO DETECTORS

SafeAir Carbon Monoxide Alarm

The Interlogix SafeAir carbon monoxide detector is an accurate and reliable way to alert of potentially dangerous levels of CO in the protected area.

- Self-diagnostics
- Sensor is unaffected by fluctuations in indoor temperature
- Built-in trouble/power supervision relay

GE250CO SafeAir Carbon Monoxide Alarm **\$79.95**

GE250COPLT SafeAir Adapter Plate (from the 240-COe to the 250-CO) **\$15.95**

HEAT DETECTORS

Interlogix Rate-of-Rise Heat Detector

Heat detectors offer rate-of-rise/fixed temperature and fixed temperature only features for high performance and reliability. The rate-of-rise feature detects intense fires by quickly responding to rapid temperature increases. The fixed temperature feature reacts to fires when a specific temperature is reached.

Rate-of-Rise and Fixed Temperature Heat Detectors offer an effective fire safety solution for environments with high likelihood of rapid fire development, or where optical smoke detectors cannot be used due to high dust conditions.

- Low Profile with Wide Base
- Positive Fixed Temperature
- On-site Testing of Rate-of-Rise

FIXED TEMPERATURE/RATE-OF-RISE HEAT DETECTOR

GE10413 135 Degrees **\$15.95**

FIRSTALERT SMOKE AND CARBON MONOXIDE ALARMS

FirstAlert Smoke Alarm

Smarten up your home's smoke detection with the FirstAlert Smoke Detector. This full-featured smoke detector incorporates smart technology to reduce "nuisance alarms" and increase true alarm performance. It's cost-effective and reliable, keeping you safe around the clock.

- Single button test/silence
- Latching alarm indicator
- Smart Technology reduces nuisance alarms
- Perfect Mount allows for easy alignment during installation
- Battery backup ensures operation during power outages

GE9120B FirstAlert AC Smoke Alarm with Battery Backup **\$16.95**

GERM4 FirstAlert Relay (Required) **\$34.95**

FirstAlert Smoke & CO Alarm

The convenient two-in-one FirstAlert AC Smoke and Carbon Monoxide Alarm helps keep your family safe.

The detector features ionization technology and an electromechanical sensor with Intelligent Sensing Technology that reduces unwanted or nuisance alarms.

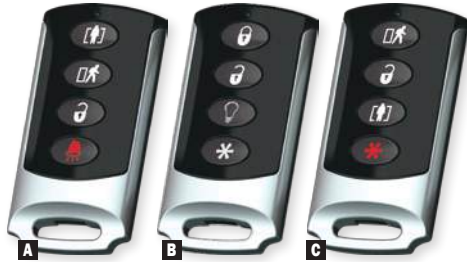

GES9120B FirstAlert AC Smoke & Carbon Monoxide Alarm with Battery Backup **\$59.95**

GERM4 FirstAlert Relay (Required) **\$34.95**

ECOLINK REMOTES

Ecolink 4-Button Remote

The Ecolink 4-Button Remote provides convenient wireless control of your NetwX, DSC or Honeywell security system. With wireless technology, exceptional range and four simple buttons, you can easily arm, disarm, and activate panic mode for your system.

- A ECWST100** DSC-Compatible Remote **\$34.95**
B ECWST101 NetwX-Compatible Remote **\$34.95**
C ECWST102 Honeywell-Compatible Remote **\$34.95**

NAPCO UNIVERSAL KEY FOB

Napco Universal Key Fob

Compatible with most security panels, including Napco's Gemini, ADEMCO, DSC, ITI and more, this 2-way key fob is super-miniaturized for portability yet packs tremendous consumer appeal.

- NP2WAYUNIVKFKIT** Napco Universal Key Fob **\$129.95**
 Includes Receiver (installs into your security system) and 1 Key Fob. The receiver can support 7 Key Fobs.

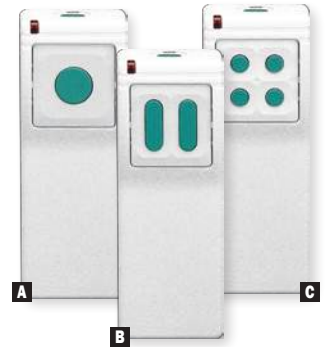

LINEAR WIRELESS TRANSMITTERS & RECEIVERS

Linear DX & DXS System

For almost 50 years, Linear has been a leader in the development of radio frequency transmitters and receivers for the professional security market. Linear offers a wide range of wireless add-ons, as well as a variety of complete systems based on these RF links. Linear manufactures whatever you need for creating wireless security – panics, remotes, door/windows, smokes, PIRs, bill traps, glass breaks, plus all the receivers and controllers that support them.

DX Format: DX transmitters utilize optimized pulse position-based RF transmission technology. DX receivers support up to 32 quick-learn transmitters, and support over one million unique transmitter codes.

DXS Format: Designates fully supervised models of these same transmitters and receivers, with up to 1,500 feet of range.

DX TRANSMITTERS

- A LNDXT21** Linear DX 2-Button, 1-Channel Handheld Transmitter **\$41.99**
B LNDXT23 Linear DX 3-Button, 4-Channel Handheld Transmitter **\$47.99**

C LNDXS25 Linear DXS 5-Button, 8-Channel Handheld Transmitter **\$71.99**

LINEAR DX & DXS RECEIVERS

A wireless receiver is connected to an alarm control panel, door strike, camera, high current relay or other device, and transmitters can activate or control those devices. The digital DX/DXS code format features over a million possible codes. The transmitters are pre-coded, so no field coding is required.

- DX Receiver Size: 5.5" W x 4.0" H x 1.25" D

ELKWK1 Strobe Wall Mount Kit \$8.95

Phone & Cell Notifications

AUTOMATIC VOICE DIALER SYSTEMS

Seco-Larm Advanced Automatic Voice Dialer

When your alarm system is triggered, the Seco-Larm Enforcer Advanced Automatic Voice Dialer can automatically dial up to five phone numbers and leave an emergency voice message. The message will play repeatedly for one minute to maximize the chances of someone hearing it. While phone numbers are being called, the dialer's LCD screen displays the number being dialed at each stage of the process.

- Automatically dials up to 5 numbers when triggered
- Delivers one 20-second message repeatedly
- Built-in 105dB siren and backlit keypad
- Remote listen-in, broadcast, arm/disarm via phone
- Wires into any standard alarm/security system

Once someone picks up the phone and hears the message, the receiver can listen in on the room (the keypad has a built-in speaker and microphone), and talk back and broadcast a message to the room. You can also remotely control the system using a phone (arm/disarm, disable siren).

In addition to sending automated messages when

an alarm is triggered, the Automatic Voice Dialer also serves as a control panel for your security system. Even when an alarm isn't triggered, you can remotely access the system by calling into the keypad through any touch-tone phone.

SEE921CPQ Seco-Larm Enforcer Advanced Automatic Voice Dialer \$114.95

Dakota Alert Voice Dialer

The AD-01S is a simple do-it-yourself security dialer that uses your existing telephone line to send a message when an alarm is generated. When an alarm is triggered by one of the hard-wired sensors, the dialer calls out and plays one of two 10-second messages that you record yourself.

You can program up to nine different telephone numbers for the dialer to call. The dialer can be armed and disarmed with the wireless key fob.

DAAD01S Dakota Alert Automatic Voice Dialer \$74.95

GSM CELLULAR BACKUP

Cellular Communications Center (C3)

The HAI/Leviton C3 (Cellular Communications Center) is a wireless cellular communicator that allows phone calls to be made over the GSM cellular network using the existing telephones in your home. The C3 can be used when there is no landline in your home or if the landline is temporarily unavailable.

The C3 is perfect for homeowners without landlines, vacation homes, and locations that need remote monitoring. The 70A00-2 now includes Caller ID to display the number of the calling party.

The C3 works with any standard security panel, including Leviton's Omni family of home controllers, to communicate alarm conditions using the GSM cellular network when the landline or cable phone service has been cut. The C3 checks the status of the existing PSTN telephone line and if it is unavailable, the C3 will emulate the line signal to the security panel. The C3 ships with an included backup battery in case the power goes out.

Requirements: The C3 requires a GSM Mini-SIM card (25mm x 15mm) and cellular service (AT&T, T-Mobile, and prepaid carriers). Customers with existing GSM accounts can add a line to their cellular account and plug the added phone SIM into the C3.

LV70A002 HAI/Leviton Cellular Communications System (C3) \$269.95

Environmental Protection

WATER SENSOR

WaterBug Water Sensor

Place Winland Electronics' WaterBug sensors in a laundry room, kitchen, living room and basement. The WaterBug Console mounts on a wall to control up to 6 sensor probes that may be up to 100' away! Each sensor probe has 4 contacts. A film of water forming a bridge between these contacts activates the WaterBug alarm. The units will not be activated by condensation or high humidity.

WLWB200 WaterBug 200 Kit **\$74.95**

Includes 200 Console & 1 Surface Sensor; Requires Power Supply; Supports up to 6 sensors

WLWB350 WaterBug 350 Wireless Kit **\$129.95**

Includes 350 Console & 1 Surface Sensor; Runs on 9V Battery (not included); Supports up to 6 sensors

WLWUCU Under-Carpet Sensor **\$84.95**

WLWSS Surface Sensor, Supervised (Only to be used with the WLWB800) **\$39.95**

WLWUCS Under-Carpet Sensor, Supervised (Only to be used with the WLWB800) **\$44.95**

WATER SENSOR & SHUT-OFF SYSTEM

WaterCop

Think water damage only happens to the other guy? Why leave your entire investment unprotected and risk an expensive insurance claim? The WaterCop Automatic Water Shut-Off system detects common leaks and immediately shuts off the main water supply.

Wireless flood sensors are placed near water-using appliances known to eventually fail – and at the first sign of water, sensors transmit a closure signal to the WaterCop valve, stopping the leak from flooding your home or office.

WATERCOP KITS

WaterCop Kits include one Shut-Off Valve, a WaterCop Motor and 2 single Probe Moisture Sensors.

DQWCKIT1 WaterCop Flood Prevention Kit, 1/2" **\$404.95**

DQWCKIT2 WaterCop Flood Prevention Kit, 3/4" **\$409.95**

DQWCKIT3 WaterCop Flood Prevention Kit, 1" **\$409.95**

DQWCKIT4 WaterCop Flood Prevention Kit, 1 3/4" **\$454.95**

WATERCOP VALVES

A DQWCVLfx WaterCop Shut-Off Valve **\$57.00-\$122.00**

LEAD FREE: Available in 1/2", 3/4", 1" or 1 1/4" Pipe Fitting Sizes

WATERCOP ELECTRIC ACTUATOR MOTOR

Available for 1/2", 3/4", 1" or 1 1/4" Valve Sizes

B DQWCACT1 WaterCop Electric Actuator Motor **\$321.00**

WATERCOP FLOOD SENSORS

C DQWH100 WaterCop Moisture Sensor, Single Probe **\$66.00**

DQWH200 WaterCop Moisture Sensor, Dual Probe **\$76.00**

DQFH100 WaterCop Low Temperature Sensor **\$86.00**

Z-Wave WaterCop also Available!

SINGLE-POINT LEAK DETECTION

WaterCop LeakStop

DynaQuip's new WaterCop LeakStop System detects water leaks at a single location and automatically shuts off the water supply. It is an ideal solution for water heaters. Features 12VDC Motorized Ball Valve (Low Voltage), Audible Alarm, and 2 Dry Contact Closures.

Includes everything you need: a Valve, Actuator Motor and 2 hard-wired Moisture Sensors. Choose 1/2", 3/4", 1" or 1 1/4" Pipe Fitting Sizes.

DQWCLSLFAx WaterCop LeakStopPlus **Starting From \$281.00**

REMOTE MONITORING

Sensaphone

Sensaphone offers an easy, inexpensive way to remotely monitor any house, cabin or vacation home.

It has a built-in ability to monitor for power failures and to listen to the sound of a smoke detector. Four external inputs allow you to add a variety of sensors to monitor temperature, water on the floor, humidity, and much more. One of the 4 or 8 external inputs (depending on the Sensaphone model) comes with a temperature sensor for monitoring temperature where the Sensaphone is installed.

When an alarm is detected, the Sensaphone notifies people by making voice phone calls. It will continue to make phone calls until someone responds to the call. The voice messages can be custom recorded, so you get to describe each alarm message that it speaks in your own voice.

- Programmable recognition times
- Low voltage NO/NC output relay
- Manual or automatic alarm response
- Built-in alarm test function to simulate and test the notification process
- Internal microphone for remote listen-in

PHFGD0400 Sensaphone, 4 Channel **\$395.00**

PHFGD0800 Sensaphone, 8 Channel **\$595.00**

SENSAPHONE XLINK

The XLink Cell Phone Module allows your Sensaphone to dial and receive calls using any cell phone.

PHFGD0230 XLink **\$119.00**

TEMP ALERT WITH EMAIL!

Temperature@lert

Temperature@lert connects to your computer's USB port. It monitors the temperature and alerts you via email when it rises or falls outside your acceptable range. The temperature sensor is accurate to within $\pm 0.5^{\circ}\text{C}$ and can report temperatures from -40°F to $+200^{\circ}\text{F}$.

Real time graphing and XML support provide you with the tools you need to integrate temperature readings into third-party applications.

TATMSTD30 Temperature@lert **\$129.99**

DIGITAL VIDEO RECORDERS

**Channel Vision HE Series DVR**

To achieve the highest connectivity and practicality, Channel Vision's HE Series features a combination of a hard disk recorder, video multiplexer and web server, and is based on industry-leading front-end to back-end surveillance infrastructure.

CVDVR4Hx Speco HS Hybrid Digital Video Recorder, 4 Channels **Starting from \$231.95**

CVDVR8Hx Speco HS Hybrid Digital Video Recorder, 8 Channels **Starting from \$278.95**

CVDVR16Hx Speco HS Hybrid Digital Video Recorder, 16 Channels **Starting from \$613.95**

With state-of-the-art system architecture, powerful hardware, compression, intelligent recording algorithms, sixfold operation can be achieved without sacrificing the increasing demands of functionality performance, reliability or availability in the surveillance industry.

Speco HS Series Hybrid DVR

Record smooth, clear video from both IP and analog security cameras with the Speco HS Hybrid Digital Video Recorder (16 Channels). This networkable DVR features 16 hybrid channels, each of which is configurable for either IP or analog. With dual network ports, the DVR also allows you to isolate IP camera network traffic from remote network traffic for a cleaner setup.

- Records audio/video from IP and/or analog cameras
- Real-time recording rate at 30fps/channel
- Dual network ports for isolating IP and remote traffic
- Supports 2-way audio communication
- Free mobile app for remote viewing

View live and stored video from anywhere, anytime through the free mobile app for iOS and Android devices.

SPD8HSx Speco HS Hybrid Digital Video Recorder, 8 Channels **Starting from \$879.95**

SPD16HSx Speco HS Hybrid Digital Video Recorder, 16 Channels **Starting from \$977.95**

The unit also features S.M.A.R.T. (Self-Monitoring, Analysis and Reporting Technology for HDD) and two-way voice communication capabilities to help you take immediate action against suspicious activity. Additionally, you can program recording to initiate automatically upon motion detection, a triggered sensor, or according to your custom schedule.

- Available Options: 1TB, 2TB, 3TB, 4TB, 6TB, 9TB

Speco RS Series H.264 DVR

The Speco Technologies RS Series H.264 Networkable Digital Video Recorder is designed for smaller applications that need to be within specific budget guidelines without giving up desirable features.

The DVR features an intuitive and simple graphical user interface for easy setup and installation. It offers remote control viewing from anywhere, anytime and instant notification via email on motion, alarm and video loss. This DVR has built in S.M.A.R.T. (Self-Monitoring,

Analysis and Reporting Technology for HDD) and 2 way audio communication capabilities to assist in instant crime prevention.

INTERNET SURVEILLANCE CAMERA

SecurityMan Internet Security Camera

Monitor your home or small business from anywhere in the world with the SecurityMan Wireless/Wired PTZ Camera. This IP camera connects to the Internet through your router, with either a wireless (Wi-Fi) or wired (Ethernet) connection. Once connected, you can playback video from any Internet-capable device.

- Crystal clear video, VGA 640x480 at 30fps
- Night vision (B/W) up to 50 feet
- Motion detection recording and email alerts
- Supports up to 8 logins at once

NOTE: Micro SD card not included. Not intended for outdoor use.

TLIPCAMS SecurityMan Internet Camera **\$139.99**

Wireless Video Surveillance

WIRELESS CAMERA SYSTEMS

DigiAirWatch Surveillance Kits

This complete DIY surveillance kit is fully wireless – no cables required! Perfect for indoor or outdoor surveillance, the weatherproof cameras automatically send video to the included receiver/DVR, where video can be recorded to an SD card (SD card not included).

- Weatherproof cameras for indoor/outdoor use
- Wireless range up to 200' through walls

TLDIGAIRWATCH SecurityMan DigiAirWatch Wireless Surveillance Kit, 1 Camera **\$159.99**

Includes DigiAirWatch Receiver, 1 Camera, Installation Adapters & Power Supplies.

TLDIGAIRWATCH2 SecurityMan DigiAirWatch Wireless Surveillance Kit, 2 Cameras **\$249.99**

Includes DigiAirWatch Receiver and 2 Cameras.

TLSM816DT SecurityMan Add-On Wireless Camera **\$83.95**

DigiLCD/DVR Surveillance Kits

Designed for convenient video playback and reliable surveillance day or night, the SecurityMan Wireless 7" LCD/SD DVR Kit provides a complete DIY solution for monitoring your home or small business.

The included 7" LCD monitor offers immediate, direct playback of recorded video, which is internally stored on an SD card (not included). With high-quality images, long transmission range, and interference-free signals, this wireless kit is ideal for any DIY monitoring application.

- LCD monitor features built-in DVR that records to SD card (SD card not included)
- Wireless range up to 200' through walls

TLDIGILCDDVR2 SecurityMan DigiLCD/DVR Wireless Surveillance Kit, 2 Cameras **\$319.99**

Includes 7" LCD Monitor, 2 Cameras, Installation Adapters & Power Supplies.

TLDIGILCDDVR4 SecurityMan DigiLCD/DVR Wireless Surveillance Kit, 4 Cameras **\$499.99**

Includes 7" LCD Monitor, 4 Cameras, Installation Adapters & Power Supplies.

Wireless Bullet Color Camera Kit

- Perfect for monitoring around your home
- Wireless video direct to your TV or recorder
- High quality picture and sound transmitting and receiving
- No interference from crowded 2.4GHz devices
- Built-in IR LEDs for night vision (up to 23', B/W)
- Stronger penetration than 2.4GHz/5.8GHz wireless transmission
- Transmits up to 330' clear line of sight or 100' indoor

TLCUCAM1 SecurityMan UCcam1 Kit **\$94.99**

Includes Wireless Outdoor/Indoor Color Camera, Wireless Receiver, Power Supplies, Cable, Manual & Installation Brackets.

CAMERA+SENSOR+DVR

IR Motion Detector & Video Recorder

The Dakota Alert IR Motion Detector and Video Recorder uses a PIR detector and a digital video recorder to record 30 seconds of video and audio clips every time a person passes in front of the sensor. The camera can be connected to a computer via the USB cable (included) to download the video clips with no software required. The DVR stores the video clips on a

CUSTOMER FAVORITE!

Micro SD card (4 GB card included). This Video Recorder is simple to use and battery operated. It can be set up instantly in nearly any location. It features infrared operation to allow the camera to operate in low light conditions. The built-in lithium battery will power the camera for up to 10 days (varies depending on number of activations).

DADVRO1 Dakota Alert IR Motion Detector & Video Recorder **\$99.95**

SecurityMan Motion Sensor With Hidden Camera

It looks like an ordinary motion sensor, but as soon as motion is detected, the hidden camera inside activates and secretly records a one minute video clip. Whatever happens while you're away, rest assured you'll know about it.

- Captures a 1 minute video clip for each motion detection event
- Records up to 12 hours of video footage on a 32GB SD card
- Compatible with any SecurityMan Wireless Air-Alarm System (see page 44)
- Memory full and new file alert notifications

TLPIRS SecurityMan Motion Sensor with Hidden Camera, SD Recorder & Remote **\$119.99**

Wireless Home Security

OPLINK CONNECTED

If you have a smart phone or tablet, you can check on your home's security from anywhere in the world with the Oplink Wireless Home Security System. Bring up live video feeds, receive automatic security alerts and more – all through Oplink's free mobile app. This do-it-yourself kit is easy to install and does not require a paid subscription for basic service (premium plans available).

- Monitor doors, windows, and more
- Monitor a large area for motion
- Sound an alarm and auto-record when a sensor is triggered
- Arm/disarm system with the free app or keyfob remotes
- Plug and play devices auto-enroll with hub

SMART PHONE CONTROLS

The free Oplink mobile app for tablets and smart phones serves as the command center for your Oplink security system. It can be downloaded to mobile devices with iOS, Android, or Microsoft operating systems.

OLOPG2201 Oplink TripleShield Wireless Home Security System with 2 Cameras **\$199.95**

Includes Oplink Processing Unit, 2 IP Cameras, 2 Door/Window Sensors, 2 Keyfob Remotes, Motion Detector, Siren, 16GB Video Storage Flash Drive, 3 Window Decals, Cables & Power Supplies, Mounting Hardware.

OLOPG2204 Oplink AlarmShield Wireless Home Security System **\$149.99**

Includes Oplink Processing Unit, 2 Door/Window Sensors, 2 Keyfob Remotes, Motion Detector, Siren, 3 Window Decals, Cables & Power Supplies, Mounting Hardware.

Video: View and zoom in/out of live video feeds from all the cameras in your system. View all feeds at once or choose a single camera to monitor. The Video screen gives you five options: Image Setting, Audio, Record, Call, and Siren Activation.

VideoGram: Search through your event history for the last seven days and share video clips with other users, emergency contacts, the authorities, or even your insurance company.

Control: Add users to the system, change the names of devices, change device settings, and add emergency contacts.

Armed/Disarmed Status: Conveniently arm/disarm the security system right from the app's home screen.

The Oplink mobile app also enables automatic pop-up alerts on your tablet or smart phone. When an event occurs at home, you can automatically receive email and mobile "push" notifications.

Additional Oplink Sensors & Modules Available Online » www.HomeControls.com/Oplink-Connected

AIR-ALARM

SecurityMan Air-AlarmII is a wireless LED touch pad security alarm system kit with doorbell for your home. It is user-friendly and easy to use, protecting your home and property at a minimum cost.

Do-It-Yourself installation and monitoring without monthly fees are two key benefits. The system alerts by phone calls to your through a series of enlisted phone numbers. You can then dial into the system to arm or disarm using the phone's numeric keypad.

Air-AlarmII system can be upgraded by adding up to 60 wireless sensors, sirens, and up to 10 remote controllers.

- Supports up to 60 wireless sensors (15 wireless defense zones and 4 wireless sensors per zone).
- Transmit at 430-433MHz frequency band, wireless transmitting distance up to 300' (doorbell, remote controller, siren) and up to 450' (magnetic smart door/window sensor & PIR motion sensor).
- Supports up to 5 phone numbers for auto alarm call and 1 management center protocol
- Armed/disarmed by remote controller, phone call, or host's keypad
- Easy "one-key" armed/disarmed operation
- Programmable silent alarm or audible alarm
- Recordable alarm voice message

TLAIRALARMII Air-AlarmII Kit **\$139.99**

Includes Console, PIR Motion Sensor, Door/Window Sensor, Indoor Siren, 2 Remote Controls, Wireless Doorbell, Warning Sign, Power Supply & Accessories

TLAIRALARMIIDL Air-AlarmII Kit, Deluxe **\$169.99**

Includes Console, 2 PIR Motion Sensors, 3 Door/Window Sensors, Smoke Sensor, 2 Remote Controllers, Warning Sign, Power Supply & Accessories.

TLAIRALARMIII Air-AlarmIII Kit, Economy **\$94.99**

Includes Console, PIR Motion Sensors, Door/Window Sensors, 2 Remote Controllers, Warning Sign, Power Supply & Accessories.

SIMON XT & XTi

Advanced technology combines with wireless convenience in the Simon XT and Simon XTi innovative home security control panels. Wired and wireless systems provide advanced features and multiple zones of protection ideal for any residential application.

» www.HomeControls.com/Interlogix-Simon-XT-XTi

2GIG

Enjoy the latest and most advanced security and home management solution in the industry. 2GIG offers Go!Control, the first all-in-one security and home management system. The built in Z-Wave enables home automation functions including HVAC, appliances, lighting, and lock control.

» [SEE PAGE 12](#)

SKYLINKNET

The SkylinkNet Connected Home Alarm System is a complete starter kit that includes everything you need for an Internet-accessible DIY security system. Use the free mobile app to remotely arm/disarm the system, receive notifications, and check on your home from anywhere, anytime! You can also use the keychain remote to conveniently arm/disarm as you come and go.

- Arm/disarm system via mobile app or remotes
- Receive push notifications and review event logs
- Battery-powered sensors, no wiring required

No Monthly Fees: Affordable Home Alarm System for everyone with no monthly fees and long-term contracts.

Expandable: The Alarm System works with up to 100 wireless sensors/controllers and 10 wireless cameras.

Video Monitoring: With wireless cameras, monitor your home via live streaming videos and record it directly on your mobile device.

SK200 SkylinkNet Connected Home Alarm System \$159.95

Includes indoor motion sensor, 2 door/window sensors, Internet Hub & keychain remote. (Smart phone not included.)

BURGLAR STOPPER

Easily install wireless security for your home or business with the Burglar Stopper Wire-Free Home Protection System. This complete DIY security system comes with a motion sensor and two door/window sensors, as well as a control panel and a keychain remote. When one of the sensors is triggered, the "Smart Panel" sounds a built-in alarm. All hardware is included, making this kit ready for installation right out of the box.

- Built-in 120 dB+ siren
- Supports unlimited sensors
- Wireless range up to 490 feet
- Full backup power supply

The Burglar Stopper Smart Panel supports an unlimited number of wireless sensors and accessories, allowing you to build out and customize the system. Sensors can be grouped into 8 preset security zones. When a sensor is activated, the panel will flash its indicator lights and sound an alarm.

STWS100SG2 Burglar Stopper Wireless Home Security System \$149.95

Includes Smart Panel (with Power Supply), Key Fob Remote Control, 2 Door/Window Sensors, Motion Sensor, Installation Hardware & Instructions.

WIRELESS MOTION ALERT SENSORS

Voice Alert System

Monitor up to 6 separate zones identified by your custom message! When movement is detected in a zone, the powerful RF Sensor/Transmitter sends a signal to the in-home Receiver/Speaker, triggering your customized voice message that identifies the zone.

For example: "Someone is coming up the driveway"; or "Someone is on the back deck."

- Up to 1,000' range
- 6-Zone Monitoring Capability
- Customized Voice-Recordable Alerts
- All Weather, Wireless PIR Sensor Transmitters
- Multiple Beam Patterns for Optimal Detection
- Adjustable Mounting, Beam Sensitivity, and Delay Timer
- 4 "C" Relays to Trigger Additional Devices

SKYLINK HOUSEHOLD ALERT SYSTEM

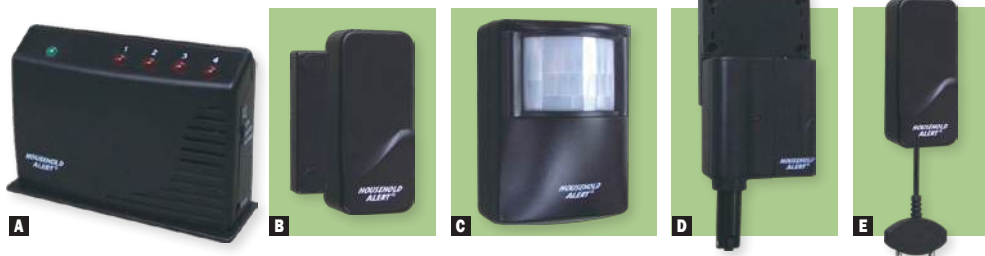

If you're looking for a simple Alert or Alarm system without having to pay a fortune, Skylink's Household Alert System is the way to go. The long-range system works with up to 16 sensors, and has a range of 800'.

Household Alert is a simple and inexpensive way of bringing some peace of mind to your home. Skylink offers a variety of sensors to suit each and everyone's personal needs. The Household Alert receiver offers an Alert mode and visually shows you which zone has been triggered so you know which exact sensor has gone off. Its four zones allow you to use multiple sensors, each zone capable of holding four sensors in its memory.

EXPAND: Add the pre-programmed sensors you need at any time to cover up your entire house. Household Alert (long range) supports up to 16 sensors.

CUSTOMIZE: You can customize your system easily and have control over the operation of each sensors. Easily set each sensor to alert or alarm mode.

SET UP: Most components come with a battery pre-installed and with the mounting accessories/ adhesive tape, making installing a new sensor hassle free.

Wireless Driveway Alert Sensors

1 CHOOSE A RECEIVER SYSTEM

DAKOTA ALERT 2500

BETTER: The Dakota Alert 2500 series is a feature-filled wireless motion detector/receiver system with a half mile radio range. The motion sensor detects a person or vehicle passing by out to about 50'. The sensor then sends a signal back to the receiver.

B DADCR2500 2500 Wireless Receiver **\$64.95**

DAKOTA ALERT MURS

BEST: Communicate over several miles with the Dakota Alert MURS (Multi-Use Radio Service). The transceivers can also be used for 2-Way voice communications between other base or handheld transceivers.

C DAM538BS MURS Base Station Transceiver **\$84.95**

D DAM538HT MURS Handheld Transceiver **\$94.95**

2 CHOOSE A COMPATIBLE SENSOR/TRANSMITTER

PIR Motion Sensor

One of the most popular sensors, a motion detector uses passive infrared (PIR) beams to detect people as well as vehicles.

Burial Probe

A plastic cylinder is buried parallel to a driveway and detects passing vehicles. (Only detects metallic objects).

Rubber Hose

A rubber hose that lies across your driveway and detects vehicles as they drive over it.

Dual Beams

A pair of sensors that detect people or vehicles passing through the beam between the sensors.

Structured Wiring

Build A Connected Home To Wire Into The Future

1 CONFIGURE A MEDIA CENTER

LEGRAND NETWORK SYSTEM

The Legrand Network System offers an organized approach to low voltage communications wiring distribution in the residential housing market. Several service center enclosure sizes cover the complete range of home and apartment sizes and desired functionality. An array of snap-in modules support telephone, data, local area network (LAN), audio and video services of all types. In addition, home management system control-

lers are an option to control security, lighting, energy and other conveniences. The modular design permits customization to homes of all sizes and application needs, such as for home office (fax, modem, Internet), entertainment (music, sound video), control of heating and cooling, sophisticated security with cameras (CCTV), programmed lighting and more.

LEGRAND ENCLOSURES

The redesigned line of enclosures from Legrand sets a new standard for structured wiring efficiency. Combining the best features from the entire Legrand line, the comprehensive offering delivers an easier installation, a universally compatible mounting grid and a simplified ordering method. They are available in 4 sizes to meet the needs of any project.

- Left/right mounting covers
- Flush and surface installation
- Flanged covers hide drywall openings
- Drywall depth indicators
- Hangable screw-on cover for ease of installation
- Side tabs for more flexible mounting
- 2 J-Box knock-outs for up to 4 outlets

2 WIRE YOUR HOME

Home Controls offers just about any cable or wiring you would need to connect your home systems. Choose from security wire, F-type coax, Cat5, Cat5e, Cat6, monster speaker cable and more. Home Controls also features bundled cables and terminated cables.

» SEE PAGE 52

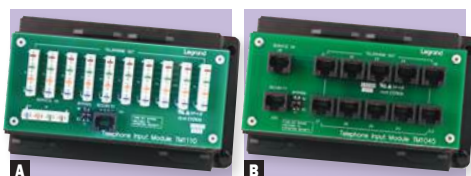

3 INSTALL OUTLETS

Finish your home's structured wiring system by wiring each room with customizable wallplates and inserts. Home Controls carries everything you need, from the mounting brackets to the wallplates, and everything in between!

» SEE PAGE 54

LEGRAND PHONE DISTRIBUTION

Telecom Modules

This module distributes up to 4 incoming telephone lines (110 IDC Punchdown) to 10 locations.

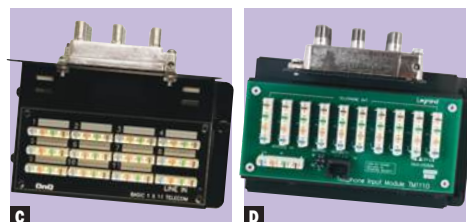

A OQTM1110 10-Way IDC Telephone Module with RJ31X **\$39.95**

This module distributes up to 4 incoming telephone lines (RJ45) to 10 locations.

B OQTM1045 10-Way RJ45 Telephone Module with RJ31X **\$39.95**

The 1x6 Telecom Module supports up to six telephone outlets, each with up to four lines. It directly interfaces to most security systems.

OQ126706201V1 1x6 Basic Telecom Module **\$34.95**

LEGRAND COMBO MODULES

Telecom/Video Modules

C OQ36440004 Basic 11x8 Telecom/Video Combo Module **\$39.95**

OQC01045 10x8 Combo Module, RJ45 Connections with RJ31X **\$49.95**

OQC01110 10x8 Combo Module, 110 Punchdown Connections with RJ31X **\$49.95**

D OQC02110V1 10x8 Combo Module MoCA/110 Punchdown Connections **\$54.95**

LEGRAND DATA NETWORKING DISTRIBUTION

8-Port Gigabit Switch

Capable of transmitting gigabit-speed Ethernet.

• Requires power supply OQPW7760 or similar

A OQDA1008 8-Port Gigabit Switch **\$149.95**

8-Port Gigabit Switch with PoE

Four 802.3af PoE Gigabit ports deliver up to 15.4W to powered devices up to 100 meters away.

• Requires power supply OQPW1248 or similar

B OQDA1458 8-Port Gigabit Switch with PoE **\$215.95**

4-Port Gigabit Router/Switch

Can operate as either a 4-port Gigabit Broadband Router or a 5-port Gigabit Switch.

• Requires power supply OQF7760 or similar

C OQDA1054 4-Port Gigabit Router/Switch **\$139.95**

Network Interface Modules

OQAC1012 6-Port Network Interface, Cat5e **\$49.95**

D OQAC1014 12-Port Network Interface, Cat5e **\$74.95**

OQAC1013 6-Port Network Interface, Cat6 **\$64.95**

D OQAC1015 12-Port Network Interface, Cat6 **\$99.95**

LEGRAND POWER MODULES

PoE Injector

The compact 4-Port PoE Injector provides power for a variety of PoE compatible devices – such as a third-party wireless access point, IP phone, or IP camera – over Cat5 wiring. It is designed to easily mount into any Legrand enclosure.

OQDA2401 4-Port PoE Injector, 30W **\$189.95**

OQDA2400 4-Port PoE Injector, 15W **\$99.95**

OQAC1025 PoE Injector Mounting Plate **\$7.05**

OQPW1120 Power Supply Kit, 120W 24V **\$269.95**

Includes Bracket for 2 Power Supplies, 1 Custom Power Strip With 2 Connectors, 2 60W 24V 2.5A Power Supplies

OQPW1240 Power Supply Kit, 240W 24V **\$519.95**

Includes Bracket for 4 Power Supplies, 1 Custom Power Strip With 4 Connectors, 4 60W 24V 2.5A Power Supplies

Power Strip Module (Half Width)

The Power Strip Module (Half Width) delivers power to up to six devices, and fits neatly into any standard Legrand style structured wiring enclosure. The module has three top outlets designed for PW Series power supplies, and three side outlets for low voltage transformers/bricks.

OQAC1031 Power Strip Module (Half Width) **\$44.95**

1 CONFIGURE A MEDIA CENTER

LEVITON STRUCTURED MEDIA CENTER (SMC)

The wired home provides crucial access to high-speed Internet, digital television and data networking – advances that are becoming vital to the digital age.

The challenge lies in creating an infrastructure that works with the systems already in a home, one that anticipates technological advances, lays the groundwork for the whole-house media system of the future, and incorporates high-tech solutions such as category-rated cabling and components, and opens doors to possibilities. One answer is the Leviton Structured Media System.

Structured Media Systems use an advanced, standards-compliant star topology to create one central convergence point in your home for all media and home electronics distribution.

Simply run cables from individual rooms to one of a variety of Structured Media Centers, and use Leviton's innovative selection of modules and panels to manage and distribute audio, video, voice and data in the configuration best suited to a home's needs.

SMC ENCLOSURES

Series 140

This 14" professional-grade whole-house media enclosure creates one distribution point in the home for all low voltage cables. The 140 is ideal for condos and apartments or more modest homes requiring limited audio/video/voice and data configurations. It will accommodate 2 Pre-Configured Structured Cabling Panels. The sturdy design and functionality facilitate installation, reduce job-site labor costs, and make it ideal for essential home networking.

LV47605140 Series 140 Kit **\$39.95**

Includes Enclosure & Flush-Mount Cover

LV4760514E Series 140 Enclosure (no cover) **\$29.95**

LV4760514S Series 140 Hinged Cover **\$39.95**

Series 280

The 28" unit accommodates home networking, fax, internet, multi-line telephones, security camera, coaxial cable and satellite video distribution, speaker and audio distribution. The 280 enclosure can comfortably accommodate up to 12 different Distribution Modules, depending on selection and density. It is designed to incorporate a hospital-grade power quality module for maximum protection from line surges.

LV4760528W Series 280 Kit **\$84.95**

Includes Enclosure & Flush-Mount Cover

LV4760528N Series 280 Enclosure (no cover) **\$59.95**

LV4760528S Series 280 Hinged Cover **\$64.95**

LV4761228B Series 280 Extender Bracket **\$49.95**

Series 420

The 42" unit can handle fax, Internet, multi-line telephones, security camera, coaxial cable and satellite video distribution, and audio distribution. The 420 enclosure, with its generous size and capacity for up to 18 modules, can simultaneously manage many diverse functions and is designed to accommodate our high-quality hospital-grade power module with surge suppression.

LV4760542W Series 420 Kit **\$124.95**

Includes Enclosure & Flush-Mount Cover

LV4760542N Series 420 Enclosure (no cover) **\$84.95**

LV4760542S Series 420 Hinged Cover **\$84.95**

LV4761242B Series 420 Extender Bracket **\$54.95**

ENCLOSURE ACCESSORIES

LV47612SBK Single Plastic Bracket **\$22.95**

LV47612EBK Expansion Plastic Bracket **\$34.95**

LV47612DBK Data Plastic Bracket **\$29.95**

LV47612UBK Security Shelf Bracket **\$34.95**

LV476094X4 4x4 Breakout Module **\$19.95**

SMC PHONE DISTRIBUTION

Twist & Mount Panels

- Offers essential phone and data distribution
- Includes Retention Force Technology
- Universal T568A and T568B wiring cards for 100-style terminations
- Fits into any Structured Media Center enclosure

LV476TM612 Twist & Mount Panel with 12 Cat6 Ports **\$124.95**

LV476TM654 Twist & Mount Panel with 12 Cat5e Ports and 12 Cat6 ports **\$184.95**

LV476TM524 Twist & Mount Panel with 24 Cat5e Ports **\$159.95**

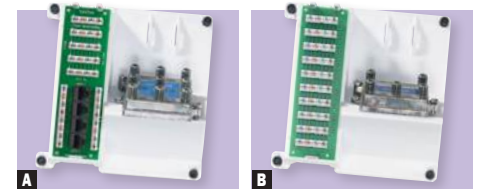

LV476TM624 Twist & Mount Panel with 24 Cat6 Ports **\$219.95**

Telephone Distribution Panel

- 4-pair 110 input
- 12 modular RJ45 jack outputs
- 4 RJ11 jack inputs
- Ports are labeled
- Fits into any SMC enclosure

LV476TLT12 Telephone Input Distribution Panel (TIDP) **\$79.95**

Compact Pre-Configured Panels

Fit easily into the SMC Enclosures or can be used as stand-alone panels.

- Size: 6.5"H x 6.5"W

A LV47603DP6 1x4 Bridged Telephone, 4 Data & 6-Way TV Compact Panel **\$69.95**

B LV476031G4 1x9 Bridged Telephone & 4-Way TV Splitter Compact Panel **\$44.95**

LV476031G6 1x9 Bridged Telephone & 6-Way TV Splitter Compact Panel **\$54.95**

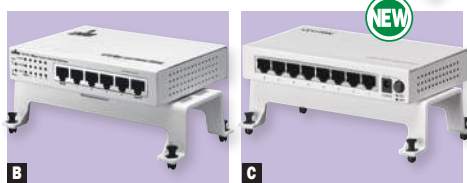

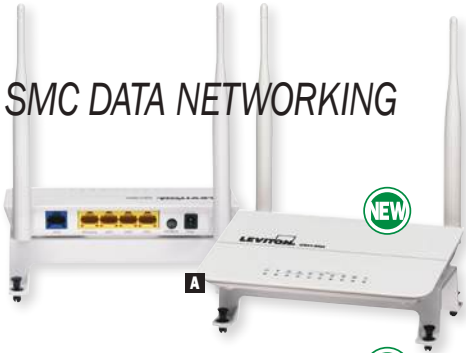

LV476031G8 1x9 Bridged Telephone & 8-Way TV Splitter Compact Panel **\$59.95**

LV47603TSV 1x7 Bridged Telephone, Security Interface, & 6-Way TV Splitter Compact Panel **\$69.95**

EXPAND WITH HOME AUTOMATION & EVEN AUDIO

The Leviton Structured Media Center (SMC) is designed to accommodate Omni home automation and security systems (see page 6) plus the Hi-Fi 2 whole home distributed audio system (see page 63).

SMC DATA NETWORKING

Internet Gateway

Leviton offers Ethernet switches to provide additional ports for the in-home Local Area Network (LAN), and a complete collection of connectivity products for Cat5e and Cat6 high-speed networking.

- A LV47611WG4** Wireless 802.11n Dual-Band Gigabit Router **\$124.95**
- B LV47611GT4** Internet Gateway, 4-Port **\$79.95**
- LV476115PT** Ethernet Switch, 5-port **\$49.95**
- LV476118PT** Ethernet Switch, 8-Port **\$69.95**
- C LV476118GB** Gigabit Ethernet Switch, 8-Port **\$109.95**

SMC TV DISTRIBUTION

Premium Modules

Distribute incoming RF signals (cable TV, HDTV, antenna or other modulated sources) to different locations throughout your home with Leviton's Premium CATV Modules.

- LV47693xP** Premium CATV Module **\$149.95-\$289.95**
Choose 1x1, 1x8 or 1x16 Modules.

Passive Splitters

- LV47690xC** Passive Video Splitters (with SMC Bracket), 1GHz **\$24.95-\$34.95**
Choose 1x4, 1x6 or 1x8 Modules
- LV47690xC2** Passive Video Splitters (with SMC Bracket), 2GHz **\$19.95-\$39.95**
Choose 1x4, 1x6 or 1x8 Modules

SMC POWER MODULES

J-Box Kits

- LV47605ACS** Duplex Receptacle (Surge) **\$29.95**
- LV47605ACN** Duplex Receptacle (Non-Surge) **\$14.95**

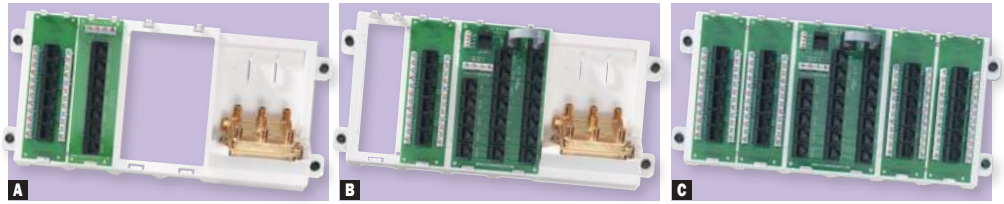

AC Power Block

- LV47605DP** 2 Duplex Receptacles (Surge) **\$79.95**
- LV47605NDP** 2 Duplex Receptacles (Non-Surge) **\$44.95**

Universal Power Supplies

- LV47605PSB** Universal Mini DC Power Supply **\$89.95**
3 12VDC connectors
- LV47605PSA** Universal DC Power Supply **\$184.95**
9 12VDC connectors
- LV47605PSC** Versatile AC/DC Power Supply **\$179.95**
6 12VDC connectors with 2 upward facing AC receptacles

SMC VOICE, DATA, TV PANELS

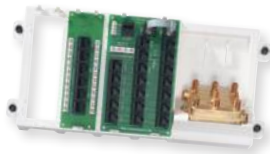

Standard Pre-Configured Panels

Leviton's Pre-configured Panels combine some of the most popular voice, data and video modules to create an economical home distribution point.

- Size: 6.25"H x 13.06"W x 2.5"D

- LV47606BTV** Basic Home Telephone & Video Distribution Panel **\$69.95**
1x9 Bridged Telephone Board, 6-Way 2GHz Video Splitter
- A LV47606BNP** Basic Home Networking Distribution Panel **\$99.95**
1x9 Bridged Telephone Board, Cat5e Voice & Data Board, 2GHz Video Splitter
- B LV47606AHT** Advanced Home Telephone & Video Distribution Panel **\$129.95**
Telephone Line Distribution Module, Cat5e Voice & Data Board, 6-Way 2GHz Video Splitter
- LV47606ASO** Advanced Small Office Telephone & Video Distribution Panel **\$154.95**
Telephone Line Distribution Module, 2 Cat5e Voice & Data Boards, and 6-Way 2GHz TV Splitter
- LV4760312P** 12-Port Structured Media Distribution Panel **\$159.95**
Telephone Line Distribution Module, and 2 Cat5e Voice & Data Boards
- LV4760318P** 18-Port Structured Media Distribution Panel **\$189.95**
Telephone Line Distribution Module, and 3 Cat5e Voice & Data Boards
- C LV4760324P** 24-Port Structured Media Distribution Panel **\$219.95**
Telephone Line Distribution Module, and 4 Cat5e Voice & Data Boards
- LV4760312M** 4x12 Telephone Distribution Panel **\$54.95**
4x12 Telephone Distribution Board
- LV47603412** 4x12 Telephone Distribution Panel with Splitter **\$74.95**
4x12 Telephone Distribution Board and 8-Way 2 GHz TV Splitter
- LV4760318M** 4x18 Telephone Distribution Panel **\$79.95**
4x18 Telephone Distribution Board
- LV476038C1** 4x18 Telephone Distribution Panel with Cat5e Board **\$104.95**
4x18 Telephone Distribution Board and Cat5e Voice & Data Board

Panels include multiple expansion boards combining video, data and TV boards into a single distribution point.

Modules include an expansion board on a single mounting bracket.

Expansion boards mount in panels or single mounting brackets.

Modules

- LV47689B** 1x9 Bridged Telephone Module **\$29.95**

ELK9022 ELK Gel Filled B-Connectors (500 Pack) **\$30.97**

HOW TO CHOOSE THE RIGHT WIRES

Whole House: In most installs, professionals use UL Listed Class 2 speaker cable, 14 gauge/4 conductor. 16 gauge/4 conductor is next most commonly used. For those demanding the highest quality cable, use Class 3 cable.

Media Room: Monster size cable is a favorite for media rooms, from Hi-Fi equipment directly to speakers in the same room. We recommend 12 gauge. A larger size 10 gauge is available for long wire runs.

Gauge: The lower the gauge size, the thicker the wire. For example, 12 gauge wire is thicker than 16 gauge wire.

EASILY IDENTIFY YOUR HOME SYSTEM WIRES

Rhino 4200 Portable Label Printer

The Dymo Rhino 4200 gets labeling jobs done fast – and done right.

Easily navigate the familiar QWERTY keyboard. Use one-touch “Hot Key” shortcuts to quickly create and format wire/cable wraps, flags, Code 39 and Code 128 barcodes, fixed-length labels, breaker labels and more.

Print labels up to 3/4" wide in flexible nylon, permanent polyester and durable vinyl materials – plus print directly on heat-shrink tubes. Save even more time with great features – like the “Favorites” key which provides single-key access to commonly used labels, symbols and terms; and the “Custom” key which eliminates repeated steps by saving customized settings.

DY1801611 Rhino 4200 Label Printer **\$104.95**

Bundled Cables

Includes a combination of Cat5e or Cat6 voice/data cables, RG6 coaxial cables, and multi-mode fiber optic cables – all in one wire pull.

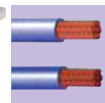

WR2R2C2FJ 2 RG6 Coax, 2 Cat5e, 2 Fiber Optic (Jacketed), 500' **\$463.95**

WR2R2C62FSJ 2 RG6 Coax, 2 Cat6, 2 Fiber Optic (Jacketed), 500' **\$556.95**

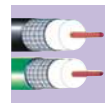

WR2R2CJ 2 RG6 Coax, 2 Cat5e (Jacketed), 500' **\$255.95**

WR2R2C6J 2 RG6 Coax, 2 Cat6 (Jacketed), 500' **\$395.95**

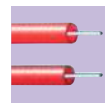

WR2R2C6S 2 RG6 Coax, 2 Cat6 (No Jacket), 500' **\$559.95**

Cat5e twisted pair for telephone, computer networks, IR, receive/transmit, ISDN or ADSL.

Coaxial cable for cable and satellite TV, security cameras, cable modems, and video conference.

Fiber optic connections provide higher bandwidth and speed for current or future applications.

SELF-TERMINATING CONNECTORS

Platinum Tools EZ-SnapJack

You may never again need a punchdown tool. At least not for your wall jacks! The patented EZ-SnapJack is self-terminating and quickly installs for professional results in a snap.

- Save time - No need for punch downs
- Repair damaged jacks on the spot
- EZ-SnapJacks are re-useable
- Wire guide ensures pairs stay in proper order for fast, easy termination
- No Punchdown Tool required (does require a Flush Cutter)
- Colors: Choose White, Light Almond, Blue, Green, Brown, Almond, Ivory, Black, Yellow, Red or Orange

- PL705_x1** EZ-SnapJack, Cat5e **\$4.65**

Installation Tools

PLATINUM
TOOLS

Platinum Tools EZ-RJPRO Termination Pod

Packed in a durable, clear case, this kit comes with everything you need for simple twisted pair terminations in Category 3, 5, 5e and 6 compliant data networks.

KIT INCLUDES

- EZ-RJPRO HD Crimp Tool (100054)
- Cat5e/6 Cable Jacket Stripper (15015)
- Electrician's Scissors (10517)
- 100 EZ-RJ45 Cat5e Connectors (105003)
- 100 EZ-RJ45 Cat6 Connectors (105004)
- 50 EZ-RJ12/11 Connectors (105005)

PL90173 EZ-RJPRO Termination Pod **\$279.95**

CUSTOMER FAVORITE!

PUNCHDOWN TOOLS

PRO-Strike Punchdown Tools

- Terminate and cut Cat3, Cat5, Cat5e and Cat6 cables
- Spring loaded for fast, low effort termination

PL13155C PRO-Strike Tool (66 Blade) **\$49.95**

PL13156C PRO-Strike Tool (110 Blade) **\$49.95**

PL13157C PRO-Strike Tool (110 & 66 Blades) **\$64.95**

PL13159C PRO-Strike Tool (110/66 Combo) **\$49.95**

Legrand Punch & Go Tool

Seat and terminate all wires at once with a squeeze of the handle.

- Consistent terminations
- No more compromised connections or wasted jacks

OQAC3400 Legrand Punch & Go Tool **\$34.95**

For use exclusively with Quick Connect connectors.

QUICK CONNECT CONNECTORS

- Colors: Choose Black, Brown, Blue, Grey, Ivory, Light Almond, Orange, Red or White

OQWP3475x RJ45 Quick Connect Insert, Cat5e **\$3.45**

OQWP3476x RJ45 Quick Connect Insert, Cat6 **\$6.45**

CABLE STRIPPERS

"Big Red" Multi-Stripper

The easy-to-use professional cable and wire stripper/cutter is for most cable types/sizes in the networking world of voice, data and video.

- Coax cassette blades are pre-set
- Adjustable stripper for twisted pair and audio cables

PL15041 Multi-Stripper **\$15.95**

Cable Jacket Stripper

- For Cat5, Cat5e and Cat6 cables
- Will not nick the inner conductors

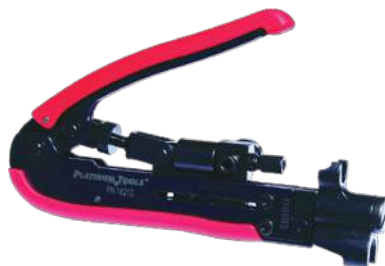

A PL15015 Cat5 Cable Jacket Stripper **\$13.95**

Cyclops Cable Jacket Stripper

For many types of twisted pair, multicore and fiber optic cables. The tool self-adjusts to automatically cut PVC, plenum-rated materials.

E PL15010 Cyclops Cable Jacket Stripper **\$29.95**

SealSmart PROCON Compression Tool

The compression tool's connector positioner rotates to support all standard compression connectors, including F, BNC, RCA and right angle. Its head also rotates to switch between RG6Q/6 and RG11/7 cable sizes.

PL16213C SealSmart PROCON Tool **\$69.95**

CRIMP TOOLS

All-In-One Crimp Tool

The All-In-One Modular Plug Crimp Tool from Platinum Tools combines a rugged design with multipurpose functions. This is the primary tool for all telecom and network installers working with RJ45, RJ11, RJ12 and RJ22 (Handset) modular plugs. Manufactured to provide precise, repeatable and reliable terminations every time!

- Three separate crimp cavities
- Ratchet mechanism with quick release
- Built in cutter and stripper for round and flat cables

C PL12503 All-In-One Crimp Tool **\$34.95**

SealSmart Crimp Tool

This four-in-one tool includes adapters for crimping F, RCA and BNC style connectors.

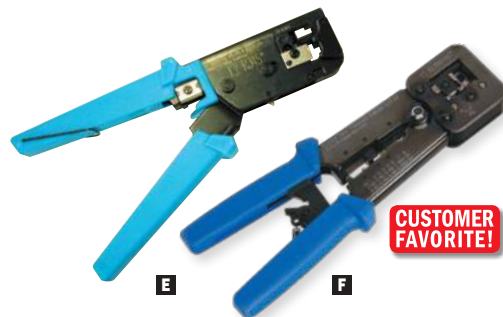

D PL16201 SealSmart Compression Crimp Tool **\$44.95**

SEALSMART COMPRESSION CRIMP TOOL ACCESSORIES

PL16202C SealSmart BNC Adapter & Nut **\$5.95**

PL16203C SealSmart F Adapter & Nut **\$5.95**

PL16204C SealSmart RCA Adapter & Nut **\$5.95**

EZ-RJ Crimp Tools

These crimp tools are designed to quickly crimp and cut the wires of the EZ-RJ connector in one simple operation!

E PL100004B EZ-RJ45 Crimp Tool **\$64.95**

For use with EZ-RJ45 Cat5/5e & EZ-RJ45 Cat6 Connectors; Also works with RJ-11, RJ-12 and RJ-45 connectors (Except AMP)

F PL1000054B EZ-RJ Pro Crimp Tool **\$89.95**

For use with EZ-RJ45 Cat5E, EZ-RJ45 Shielded Cat5E, EZ-RJ45 Cat6 and EZ-RJ12/11 connectors; Also works on RJ-11, RJ-12 and RJ-45 connectors (Except AMP)

EZ-RJ CONNECTORS

PL100 EZ-RJ45 Connectors, Cat5/5e **\$34.95-\$64.95**

Available in 50 or 100 piece packs

PL100010x EZ-RJ45 Connectors, Cat6 **\$34.95-\$69.95**

Available in 50 or 100 piece packs

COMPRESSION TOOLS

SealSmart II Compression Tool

Easily terminate F, BNC and RCA connectors with a single tool - without switching adapters!

- Compact and lightweight design
- Universal head designed to work with all standard compression connectors - including right-angle and RGB mini

PL16220C SealSmart II Compression Tool **\$29.95**

SealSmart Compression Connectors. See page 53.

TEST EQUIPMENT

Platinum Tools VDV MapMaster 2.0 Kit

Conveniently carry all the tools you need for voice, data, and video testing and mapping with the Platinum Tools VDV MapMaster 2.0 Test Kit.

- MapMaster identifies and maps up to 19 locations at one time
- Accessories expand MapMaster functionality and facilitate testing
- Packaged in a rugged case with high-density foam padding

The kit's main attraction is the VDV

MapMaster 2.0, an advanced edition of the original MapMaster that combines standard continuity testing, mapping, and tone generation with a length measurement upgrade. This all-in-one tester and its included accessories come packaged in a rugged double-walled, blow-molded carrying case with custom cut-out, high-density EVA foam to protect your equipment wherever you take it.

PLT129K1 Platinum Tools VDV MapMaster 2.0 Test Kit **\$219.95**

T62 Recon Test Set

The Platinum Tools T62 Recon Test Set is a professional telecommunication line analyzer that offers sophisticated data in-line discovery and protection. This set features a complete array of options for measuring data, actively monitoring lines, and detecting high line voltages. It also includes a Digi-Secure feature that protects digital lines from disruption by outside test equipment.

- Advanced data detection and identification
- Large backlit display with glow-in-the-dark keypad
- 100-percent data safe
- Rugged, weatherproof case

PLT62 T62 Recon Test Set **\$294.95**

Avana LED Work Lights

With two Lithium batteries and a 20W Epistar LED chip, the Avana LED Work Light (Lithium Battery) is perfect for lighting up particularly dark work areas. Whether you have a power outlet or not, this battery-powered industrial work light provides bright white light without hassle. It's built to be knocked around, dropped, and even used in rainy weather!

- Powered by rechargeable battery pack (20W includes 2 battery packs)
- Generates only minimal heat

A AVWKL31692 Avana LED Work Light, 10W, Lithium Battery **\$79.95**

B AVWKL32916 Avana LED Work Light, 20W, Lithium Battery **\$139.95**

Avana LED Pen Lights

Designed as a convenient, pocket-sized industrial work light, the Avana LED Pen Light provides bright white light whenever you need it. The pen light has six SMD LEDs along the side. These SMD diodes are constructed without a standard LED epoxy enclosure to create a wide viewing angle, perfect for quickly illuminating a small work area.

C AVWKL30675 Avana LED Pen Light **\$5.99**

D AVWKL30639 Avana LED Rechargeable Pen Light **\$13.95**

POWERLINE CONDITIONING

Smart Online UPS

Offer high performance power protection ideal for critical server and network equipment in data centers, computer rooms and network closets.

TPSU750RTXLCD2U SmartPro UPS 1kVA 800W **\$834.95**

Power Conditioning Centers

8 outlet isobar rack mount/console, EMI/RFI filtering, surge/spike protection, full equipment depth.

TPAV3500PC Power Conditioning Center, 5700 joules **\$279.95**

Line Conditioner

For large A/V installations requiring automatic voltage regulation (AVR) in addition to surge suppression.

TPLCR2400 Tripp Lite Line Conditioner, 14 Outlet, Advanced AVR, 12' **\$404.95**

Whole House Surge Suppressor

This heavy duty surge suppressor will handle unlimited main breaker panel current, a transient surge capacity of 680 Joules, and 50,000A of surge current all with an instantaneous response time! The 51120 Series Panel Protectors are inexpensive insurance for your whole-house X10 automation system and stereo components.

LV511201 Whole House Surge Suppressor **\$249.95**

AV Backup Power Block

Provides a safety net by switching your equipment to battery back-up during power anomalies.

- Recycle/reset button with 60-second outlet delay for proper reboot of router and modem
- 4 12VDC output connections for cameras, modulators, etc. – reduces number of bulky transformers
- Auto restart after long-term outage
- Complete Surge and Spike protection
- EMI/RFI filtration

TPAV550SC Backup Power Block **\$199.95**

A Must For Any System That Includes A Router & Modem!

Home Audio

How To Distribute Music Throughout Your Home

1 SELECT A MUSIC SYSTEM

NUVO GRAND CONCERTO: 6-SOURCES, 8-ZONES

NuVo's Grand Concerto is an elegant, intelligent, whole-home audio system that combines unparalleled performance with the industry's most innovative technology – at an affordable price. With the Grand Concerto system, enjoying uninterrupted, pure, digital sound is a reality in your home.

FEEL THE POWER

Get a truly powerful audio experience with 80W per listening zone – enough to drive several speakers in one zone. Listen at loud or soft levels, and get crystal clear sound. Our unique Generation D design protocol provides energy conservation, lower heat generation and higher power output.

INTEGRATE SEAMLESSLY

Considered to be one of the most uncomplicated systems for integration and control, the Grand Concerto comes equipped for home automation. Because NuVo products are designed for compatibility, it's easy to incorporate your audio distribution system into a complete home automation installation with full connectivity and control.

INSTALL WITH EASE

Concerto's unique Ez Port connection hub neatly integrates the entire system while concealing all keypad wiring. When you compare the Grand Concerto with competitors' products – on performance and price –

you'll quickly see and hear the difference NuVo makes.

- 6 audio source inputs for multi-source capability, and up to 8 zones of music (expandable)
- 80W of power per zone
- Generation D design with digital amplification – runs cooler, saves energy, outputs more power
- The Concerto has versatility in keypad selection. You can pair the Concerto with any mix of E6GCP Single gang OLED, I8GCP Double gang OLED, WCP Wireless OLED or CTP LED Color Touch Control Pads

- Flexible setup options: Source Grouping, Security, Volume Reset, Master Mode and much more
- 2 unpowered zones – for use with the NuVo Stereo Amplifier auxiliary satellite amplifier to power up to 6 speakers in a zone. Ideal for large living spaces or outdoor applications
- Built-in IR receiver for wireless control – designed to block adverse interference of plasma displays, sunlight or fluorescent lighting
- Fixed and variable line outputs – for use with high-power external amplifiers

NV18GMS NuVo Grand Concerto System **\$4,199.00**

Includes Amplifier, 6 Control Pads (With White, Ivory, Almond & Black Wallplates), Remote Control, Ez Port, Network Cable, Power Cable, 6 IR Emitters & Rack Ear Mounts

NV18GZPKD2120 NuVo Grand Concerto Zone Pack **\$839.00**

For Zones 7 & 8 – Includes the NuVo Amplifier (NVD2120) & a Grand Concerto Control Pad (NV18GCP)

NV18GXS NuVo Grand Concerto Expander System **\$4,095.00**

Includes Amplifier, 6 Control Pads (With White, Ivory, Almond & Black Wallplates), Remote Control, Source Link, Digital Link Cable, Power Cable & Rack Ear Mounts

GRAND CONCERTO ACCESSORIES

NV18DLS Ez IR Learning Station & Software (required for programming) **\$314.00**

NVLSI24 Passive Local Source Interrupt **\$115.00**

CONTROL WITH YOUR SMART PHONE

Wirelessly control your NuVo multi-room audio system from your iPhone, iPod touch or iPad, and be closer to your music, anytime, anywhere. Play any music selection from iTunes or Windows Media Player, and even access audio from the Internet (Pandora, XM, SIRIUS, and over 100,000+ RadioTime stations), all throughout your home.

... OR AN AUTOMATION SYSTEM

When an OmniTouch 7 is connected to any other compatible system from a Connectivity Partner – including the NuVo Grand Concerto – you have complete control over your home's audio. Just touch a button and enjoy your music! See page 6 for details on the HA/Leviton Omni Automation system.

2 INSTALL SPEAKERS

From in-ceiling and in-wall configurations to outdoor and specialty designs, Home Controls offers just about any speaker you might need for a distributed audio system.

» SEE PAGE 64

NUVO ESSENTIA E6G: 6-SOURCES, 6-ZONES

Essentia delivers the startlingly clear sound of NuVo from up to 6 different sources, and 6 different listening zones in the house. It's diverse, expandable and surprisingly affordable. Essentia includes a stunning Control Pad interface, with OLED display providing full meta-data feedback. Coplanar buttons provide a smooth, clean finish with the overall polycarbonate surface, making the entire Control Pad water-resistant.

Essentia's RS232 bi-directional control interface allows it to be controlled from most home automation systems – just one of the many features that makes Essentia an incredible value in today's home.

- 40W per zone for high-quality sound
- Allport connection hub consolidates all speaker and Control Pad connections into one connection hub
- Built-in IR receiver blocks adverse interference of plasma displays, sunlight or fluorescent lighting

NVE6GMSDC NuVo Essentia E6G System **\$2,625.00**

Includes Amplifier, 6 Control Pads (With White, Ivory, Almond & Black Inserts & Trim Plates), Remote, Allport, Allport Cable, 2 Network Cables, Power Cable, 6 IR Emitters & Rack Ear Mounts

NVE6GXSDC NuVo Essentia E6G Expander System **\$2,519.00**

Includes Amplifier, 6 Control Pads (With White, Ivory, Almond & Black Inserts & Trim Plates), Remote, Allport, Allport Cable, Network Cable, Power Cable, 6 RCA Stereo To Y Cables & Rack Ear Mounts

ESSENTIAE6GACCESSORIES

NVI8DLS Ez IR Learning Station & Software (required for programming) **\$314.00**

NVLSI24 Passive Local Source Interrupt **\$115.00**

The NuVo Essentia E6G consumes less than 1W while in standby mode, making it a very eco-friendly as well as user-friendly system!

The Grand Concerto, Essentia & Simplese pair perfectly with NuVo's speaker lines. Choose from the AccentPLUS1 & AccentPLUS2 in-wall, in-ceiling and specialty selections. » Available online at www.HomeControls.com/NuVoSpeakers

NUVO SIMPLESE D: 4-SOURCES, 4-ZONES

Keeping things simple is literally what NuVo's Simplese is all about. A perfect fit for just a few rooms of multi-room audio, or expandable to accommodate up to eight different zones, Simplese delivers clean, crisp audio and incredibly straightforward control, affordably.

Use the backlit buttons of the system's keypad to select your source and control the volume, then sit back and enjoy the great sound and great value. Never before has luxury been so easy.

- Direct wiring for clean audio transfer without distortion or interruption

- Music can be shared in four rooms, all playing the same song or different tunes at once
- Four different inputs (CD Player, Satellite, tuner, etc.) allows each person to customize and listen to whatever they want
- The easy to use controller installs into the wall offering a low profile way to manage your system

- Using RS-232 protocol, music can be accessed and controlled through a whole home automation system
- A second Simplese system can add up to four additional rooms of music to accommodate more areas of the home, for a full system of eight zones

NVA4DSDC NuVo Simplese D **\$1,259.00**

Includes Amplifier, 4 Keypads With White, Ivory & Almond Wallplates For Each, Remote Control & 4 IR Emitters

1 SELECT A MUSIC SYSTEM

NUVO MUSIC SOURCE EQUIPMENT

NuVo Music Port

Consolidating networked computers' digital audio content from iTunes and Windows Media Player into a single, easily navigated library, the Music Port Server provides superior access to a home's music collection.

Additionally, the Music Port Server opens a system up to streaming audio from online sources like Pandora, Sirius and XM Internet Radio, plus more than 100,000 stations through RadioTime. Operation is simple through any of NuVo's control options, including a sleek client software interface.

NVMP54V2 NuVo Music Port, Standard **\$2,625.00**

NVMP54E NuVo Music Port, Elite **\$3,675.00**

Enhanced features like cloud synchronization, networked storage, and easy integration with automation systems.

- 4 Simultaneous outputs
- Internet Radio featuring Pandora, RadioTime, SIRIUS and XM online (subscriptions required)
- Auto synchronization tool for music on the network
- RS232 pass through for home automation control
- Music Port Client for control from any network-connected computer or compatible touch screen
- Compatible with numerous NuVo Control Options, including: E6G Control Pad, I8G Control Pad, Wireless Control Pad and the Color Touch Pad

Wired NuVoDock

The Remote NuVoDock for iPod is designed to communicate with the Grand Concerto System without any programming. Now you can listen to your iPod collection from any zone in and around your home.

A NVRIPS NuVoDock for iPod, Wired **\$419.00**

B NVMIPSDC NuVoDock for iPod, In-Wall **\$525.00**

NUVO AUDIO AMPLIFIERS

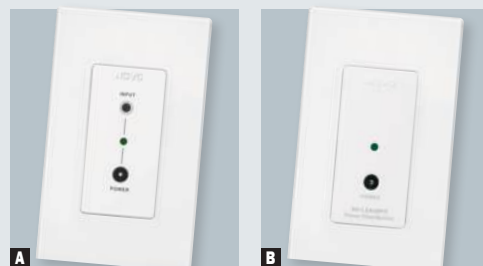

NuVo Digital Power Amplifier

The new Digital Power Amplifier delivers quality stereo amplification in a compact and high-efficiency package. Sounding off at 2 x 120 watts, this amp is first in a new generation of digital power amplifiers that offer a powerful and versatile answer to any installation's needs, even in large rooms and outdoor areas. Easily compatible with most third-party sources, the amp offers great flexibility without any sacrifice of performance.

- Perfect for large rooms, outdoor areas, or zones 7 and 8 in a Grand Concerto System
- 2 Channels at 120W
- Selectable speaker impedance of 4 or 8 ohms
- Light, single-rack unit design
- Multiple power On/Off triggers, including external voltage or audio signal
- Simple compatibility with third-party equipment

NVD2120 Digital Power Amplifier, 2x120W, Rack Mount **\$475.00**

NVD460 Digital Power Amplifier, 4x60W, Rack Mount **\$475.00**

Local Source Amplifier

A NVLSA40S Local Source Amplifier **\$169.00**

Use With Local Power Supply

Use With The NuVo Power Distribution Hub

NuVo Power Distribution Hub

Powers up to 4 individual NuVo Local Source Amplifiers.

B NVLSA40PDS Power Hub **\$199.00**

NUVO CONTROL CHOICES

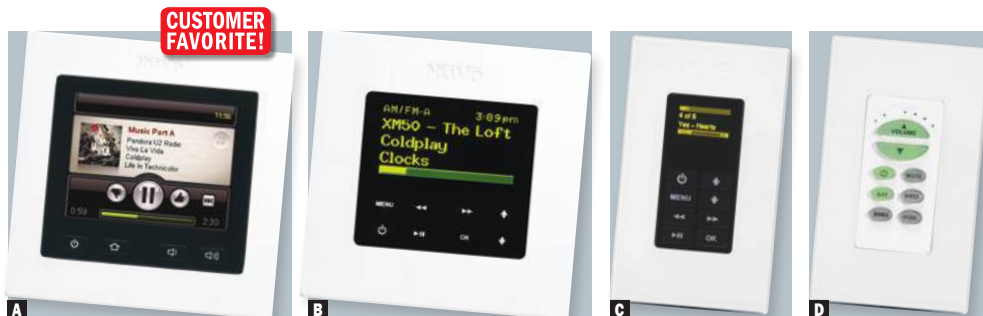

Color Touch Pad

The new Color Touch Pad provides the most user-friendly full system control, from a sleek, easy-to-navigate touch screen. Now manage an entire house of music from one central location.

- Full color 3.6" LCD display shows full color album art viewing with artist, song, and album details
- Source-specific control options: offers complete control of all music from zone to zone
- Offers power, volume, party mode, music and room selection, and treble and bass control, and advance setup and control options
- IR pass through
- 4 hard buttons for commonly used functions
- No programming necessary

COMPATIBLE WITH GRAND CONCERTO & RENOVIA

NUVO

NUVO WIRELESS AUDIO DISTRIBUTION SYSTEM

Nuvo offers the luxury standard for wireless music – audio that effortlessly accessible through our wireless whole home audio systems. This system reproduces every instrumental detail with unflinching clarity, from the deepest bass to the highest ping, because your home, your life, deserves the total range audio experience.

- **Music Anytime, Anywhere:** Access music from your computer and play it anywhere in your home.
- **Streaming Online Music:** Pandora, TuneIn, Rhapsody, and SiriusXM are all at your fingertips

with Internet Radio streaming.

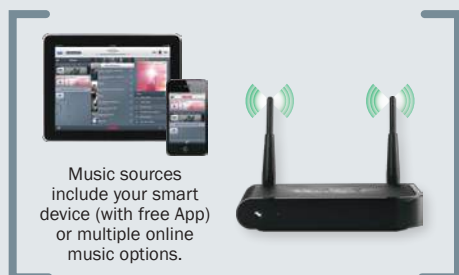

- **Lossless Audio Delivery:** Mastering-grade, high-fidelity audio is delivered to every area of your home, and kept perfectly in sync.
- **Closed Loop, Class D Digital Amplification:** High-performance amplifier operates coolly and saves energy while minimizing distortion.
- **Wi-Fi:** 802.11n wireless transmission, delivers the fastest signal speed and broadest coverage available.
- **USB Port:** Connect any storage device to

the USB port and play its music through your NuVo system.

- **Audio Line-In:** Connect any analog device.
- **Independent Zone Control:** Every room in your system can play and be controlled independently, so you can listen to your favorite album on the deck, while the kids listen to SiriusXM Radio in the den.
- **Wireless Control from Apple, Android, and NuVo Controller:** Wirelessly manage your music, all from the palm of your hand.

1 GATEWAY SETUP

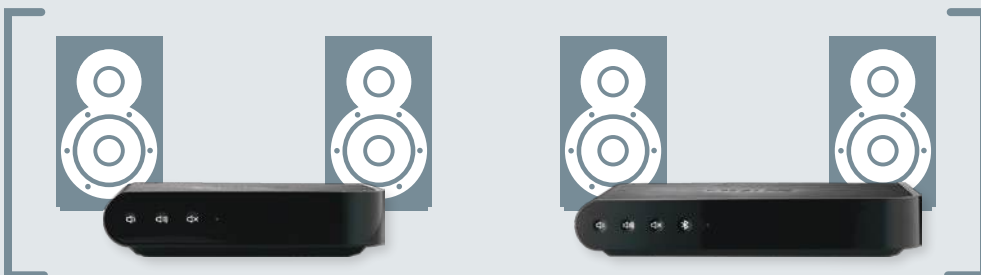

NuVo Gateway

The NuVo Wireless Audio System starts with a robust, dual band concurrent wireless Gateway, allowing the players to communicate with one another, access your music from the network, and stream audio from online options. To start the fun, simply connect the Gateway to your home network and connect a NuVo wireless zone player to your favorite speakers.

NVGW100NA NuVo Wireless Gateway **\$199.00**

2 ADD A WIRELESS ZONE PLAYER

NuVo P100 Wireless Zone Player

Connect the NuVo P100 Wireless Zone Player, 40W Stereo Amplifier to your wireless network, and let the deluge of music sources bring your home to life. This wireless single-zone amplifier provides 40 Watts of output power and instant remote control access to any audio source imaginable.

- Expand the system by adding players in other zones

NVP100NA NuVo P100 Wireless Zone Player **\$479.00**

NuVo P200 Wireless Zone Player

The NuVo P200 Wireless Zone Player offers all the great features of the P100 model, plus 120 Watts of output power and Bluetooth connectivity! This wireless single-zone amplifier connects to your wireless network and provides instant remote control access to every audio source imaginable, including any Bluetooth device.

- Expand the system by adding players in other zones

NVP200NA NuVo P200 Wireless Zone Player **\$599.00**

+ EXPAND WITH PRO-GRADE ACCESSORIES

NuVo Professional-Grade Players

Stream 3 different audio sources in 3 separate rooms with the NuVo Professional-Grade 3-Zone Players, 40W or 200W Per Channel. Designed for a professionally developed multi-room audio system, this amplifier/switcher mounts in an equipment rack.

They are also IP-based players that connect to the Internet and provides instant remote control access to every audio source imaginable, including Bluetooth devices.

- Provides three independent zones, bringing audio to multiple areas of your home
- Access digital music on your PC, storage devices,

home theater and more

- Stream music from Internet radio (Pandora, TuneIn, Rhapsody, SIRIUS/XM)
- Control the player with the NuVo controller, or your Apple or Android device

From the convenience of your smart phone or the NuVo controller, choose to listen to Internet radio, your personal digital music collection, external audio devices (such as a CD player), and other audio sources. Whichever source you select, mastering-grade high-fidelity audio is delivered to every area of your home, creating an exquisite audio experience to sing about!

NVP3100NA NuVo Professional-Grade 3-Zone Player, 40W Per Channel **\$1,699.00**

NVP3500NA NuVo Professional-Grade 3-Zone Player, 200W Per Channel **\$2,999.00**

NuVo P300 Player Preamplifier

The NuVo P300 Player Preamplifier integrates into a NuVo audio system to enable streaming of Internet radio through sources such as Pandora, Sirius/XM, Rhapsody, TuneIn, Deezer, and more.

- Enables streaming of Internet radio and networked audio sources
- Compatible with any NuVo Player Portfolio system
- Connects via Wireless Gateway (GW100) or Ethernet
- Provides remote control with free Apple/Android apps
- Compact design fits neatly into tight spaces

To achieve optimum performance, you can connect the NuVo P300 Player Preamplifier to home theater (A/V) receivers, storage devices, or analog equipment.

NVP300NA NuVo P300 Player Preamplifier **\$349.00**

1 SELECT A MUSIC SYSTEM

ON-Q DIGITAL AUDIO SYSTEM: 4-SOURCES, 16-ZONES

Listening freedom comes easier with the On-Q Digital Audio System, delivering streaming source variety, quality audio, and the convenience of app control, all through a structured wiring platform.

Installation Simplicity: Easy to learn and fast to install, so you can repeat the process from home to home in short order

Content Variety: Incredible access to Internet Radio, personal libraries, and files stored on mobile devices

Intuitive App Control: Put the power in the palm of customers' hands with convenient apps for iOS and Android devices

Distributing audio from four sources to up to 16 zones, the modular and scalable Digital Audio System fits into a standard On-Q enclosure for a simple and straightforward

install, while providing unprecedented source variety through access to streaming services, Internet Radio, networked content, audio stored on mobile devices, and analog components.

Utilizing the 20W Digital Audio Amplified Keypads in each zone, you can take control at the wall or by using the Apple or Android apps for tablets and smart phones.

- Accesses online streaming services Pandora, Rhapsody, SiriusXM, TuneIn, and Lastfm
- Streams networked digital content from iTunes, Windows Media Player libraries, and mobile devices
- Allows use of favorite analog sources, such as cable boxes, game systems, or CD players

OQAU7254WH On-Q/Legrand Digital Audio 4 Room Multi Source Kit **\$1,314.95**

Includes Digital Audio Distribution Module, Digital Audio Input Module, Digital Audio Global Source Input, 4 Digital Audio Amplified Keypads, Digital Audio Power Distribution Module, Power Supplies & Mounting Accessories.

OQAU7154WH On-Q/Legrand Digital Audio 4 Room Single Source Kit **\$1,233.95**

Includes Digital Audio Distribution Module, Digital Audio Input Module, 4 Digital Audio Amplified Keypads, Digital Audio Power Distribution Module, Power Supplies & Mounting Accessories.

OQAU7252WH On-Q/Legrand Digital Audio 2 Room Multi Source Kit **\$1,021.95**

Includes Digital Audio Distribution Module, Digital Audio Input Module, Digital Audio Global Source Input, 2 Digital Audio Amplified Keypads, Digital Audio Power Distribution Module, Power Supplies & Mounting Accessories.

OQAU7152WH On-Q/Legrand Digital Audio 2 Room Single Source Kit **\$939.95**

Includes Digital Audio Distribution Module, Digital Audio Input Module, 2 Digital Audio Amplified Keypads, Digital Audio Power Distribution Module, Power Supplies & Mounting Accessories.

SYSTEM COMPONENTS

Distributes audio from four sources to four zones

B OQAU7010x Digital Audio Amplified Keypad **\$154.95**

Colors: Choose White, Almond or Nickel

C OQAU7007x Digital Audio Global Source Input **\$85.95**

Colors: Choose White, Almond or Nickel

D OQAU7008x Digital Audio Local Source Input **\$102.95**

Colors: Choose White, Almond or Nickel

E OQAU7001 Digital Audio Input Module **\$314.95**

Built-in streaming and online service access: Pandora, Rhapsody, Napster, SiriusXM, TuneIn, Lastfm & Deezer

F OQAU7004 Digital Audio Expansion Module **\$119.95**

Expands a system to four additional zones; Allows up to three expansion modules for sixteen total zones

G OQPW1020 Digital Audio Power Module **\$69.95**

Provides power to up to four digital audio keypads with use of PW1060 Power Supply.

OQPW1060 PW1060 Power Supply **\$124.95**

The modular and scalable Digital Audio System fits into a standard On-Q enclosure for a simple and straightforward install. » See page 48.

Legrand Digital Audio pairs perfectly with evoQ speakers. See page 66 for details on the 1000, 3000, 5000 & 7000 Series. » Or online at www.HomeControls.com/On-Q-Legrand-evoQ

CHANNEL VISION

The A-BUS Cat5 Audio line provides single and multi-source, multi-zone audio distribution via Cat5 wiring for easy-to-install whole-house audio for reasonable audio quality at a reasonable price.

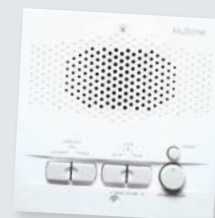

» HomeControls.com/ChannelVision

NUTONE

NuTone's NM system is both a full-function intercom and music distribution system designed for residential use. The system supports up to 15 remote stations and up to three door speakers.

» HomeControls.com/NuTone-NM-Music-Systems

HI-FI 2: 8-SOURCES, 8-ZONES

With double the zones, more than double the power, more sources, and an all new keypad with OLED display, the Hi-Fi 2 is reinvented for today's demanding homeowners.

- 8 source, 8 zone system with all 8 zones amplified (Hi-Fi 2 Expansion adds 8 more zones, 16 total)
- Built-in universal power supply
- Super efficient digital amplification with
- 50 watts per zone
- VSC features a keypad interface with graphical display
- Equipped with both serial and Ethernet ports for control

The amplifier utilizes state-of-the-art digital technology. Power output is up substantially to 25 watts per channel at 8 ohms (50 watts per zone). The 8 ohm rating allows more power delivery to speakers over longer wire runs. This is the most compact 8x8 (expandable to 8x16) system on the market today.

LV95A001 Hi-Fi 2 8-Zone, 8-Source Kit in Enclosure **\$2,699.72**

Includes 8x8 Hi-Fi 2 In Enclosure, 8 Volume Source Controls & 4 Remote Input Modules

LV95A002 Hi-Fi 2 8-Zone 8-Source Kit for Structured Wiring Enclosures **\$2,699.72**

Includes 8x8 Hi-Fi 2 On Mounting Plate, 8 Volume Source Controls & 4 Remote Input Modules

LV95A121 Hi-Fi 2 8-Zone, 8-Source Expansion Kit in Enclosure **\$2,996.67**

LV95A122 Hi-Fi 2 8-Zone, 8-Source Expansion Kit for Structured Wiring Enclosures **\$2,996.67**

SYSTEM COMPONENTS

A LV95A011 Hi-Fi 2 8 Zones, 8 Sources Amp **\$2,331.05**

LV95A181 Hi-Fi 2 8 Zones Expansion Amp **\$2,247.57**

B LV95A031 Hi-Fi 2 Volume Source Control **\$215.25**

C LV95A041 Hi-Fi 2 Remote Input Module **\$64.95**

D LV95A042 Hi-Fi 2 Bluetooth Remote Input Module **\$254.51**

LV95A091 Hi-Fi 2 Vented Enclosure **\$109.95**

LV95A051 Hi-Fi 2 Remote Control **\$34.95**

4-SOURCE, 4-ZONE SYSTEM

The new Hi-Fi 2 4x4 provides an affordable distributed audio option with 20W per channel that fits directly into a Leviton SMC wiring enclosure at half-width. As with the entire Hi-Fi 2 line, the new 4x4 model allows users to listen to and share music sources with any room that has speakers connected to the device.

E LV95A023 Hi-Fi 2 4-Zone, 4-Source Amp **\$1,164.53**

Control your Hi-Fi 2 with a smart phone or tablet with the BitWise Controller & Touch App. » See page 11 for details.

The Hi-Fi 2 pairs perfectly with the Leviton Architectural Edition powered by JBL Speakers. See page 67 for details.
» Or online at www.HomeControls.com/JBL-Speakers

UNIVERSAL IPOD DOCK

iPod Dock

The HAI/Leviton Dock allows you to access music on an iPod through IP-enabled devices over a wired or wireless network.

The attached iPod/iPhone is controlled from IP-enabled devices, including HAI/Leviton OmniTouch IP-enabled Touchscreens and the Hi-Fi 2. Metadata (play list, genre, artist, album, and track) is sent to IP-enabled devices on the network and displays on Touchscreens and Hi-Fi 2 Volume Source Controls. Send the iPod control commands including play, pause, stop, next/previous track, rewind, fast forward, next/previous chapter. IP-enabled devices navigate and browse the iPod/iPhone music library.

- Wired: Works over a wired 10/100 LAN network
- Wireless: Works over a wired 10/100 LAN or wireless 802.11 b/g network

In addition to seamless integration into Leviton's Hi-Fi and Hi-Fi 2, the iPod Dock works with other supported audio systems like NuVo, Russound, Xantech, Speakercraft and Proficient.

LV96A001 HAI/Leviton iPod Dock, Wired **\$399.95**

LV96A002 HAI/Leviton iPod Dock, Wireless **\$509.95**

LV96A011 HAI/Leviton iPod Dock Power Supply **\$34.95**

IST

The I2000 Music Distribution and Intercom Systems provide a wide variety of features at an affordable price so you can enjoy the luxury of music throughout every room in your home without moving a muscle.

» HomeControls.com/IST-I2000-Music

M&S SYSTEMS

Designed to accommodate Cat5 wiring with quick connectors, the DMC1 was engineered with both the homeowner and installer in mind, by simplifying installation and improving performances.

» See page 79

ARCHITECH PREMIUM

GOOD: High quality in-wall speakers by OEM Systems feature Carbon Fiber cone woofers with 10 oz. magnets and 1" titanium tweeters. In-wall subwoofer features 8" Carbon Fiber woofer with a 25 oz. magnet, dual channel (stereo) high temperature voice coil and a built-in crossover network. Each speaker includes grilles, screws, cut-out templates and paint mask templates. All round speakers include the OEM Speaker Hole Compass for a perfect size mounting hole every time.

- Rigid captive clamp-ring mounting system
- Perforated metal grilles
- Lifetime Limited Warranty

ARCHITECH KEVLAR

BETTER: Kevlar strength helps the cone of the ArchiTech Kevlar speaker retain its shape at very high energy levels, and its low mass ensures quick, accurate response. The cone's woven surface delivers smooth, uncolored mids. The kapton voice coil former and butyl rubber surround mean these woofers are designed for years of consistent, reliable audio enjoyment.

Phase Plug Technology: The phase plug pole piece extension improves driver performance and clarity.

Pivoting Textile Soft Dome Tweeters: Ferro Fluid lubricates and cools the voice coil enabling high power handling.

IR Receiver Knockouts: The 6½" and 8" in-wall speakers feature a mounting provision for a remote control signal receiver behind the speaker grille.

PRESENCE

PREMIUM: Practical engineering and the best materials available are present throughout the Presence line – namely Kevlar woven fiber woofers with butyl rubber surrounds and ferro fluid cooled silk dome tweeter and midrange drivers, thick fiberglass crossover network PC boards populated with high-grade electronic components, over-drive tweeter protection, heavy gauge oxygen-free copper wiring and stout gold plated high tension connection terminals. The In-Wall speakers utilize Phase Plug technology designed to keep the midrange clean and minimize critical phase disturbances at the center of the mid-woofer driver. The Ceiling speakers utilize pole-mounted pivoting (lens-less) dome tweeters.

OER1B82 Installation Bracket **\$23.95**

PREFERENCE

BEST: Featuring the very finest driver materials, crossover and baffle designs. The Preference Accurate Imaging Baffles (AIB) utilize a ribbed design, which contributes strength and rigidity factors to the baffle, thereby simultaneously eliminating baffle flexure and early reflections from the drivers. Baffle mounted Midrange and High Frequency level switches provide tonal adjustments to compensate for sonic differences due to room acoustics and varying loudspeaker locations.

Preference

- Kevlar long throw woofer cones with butyl rubber surrounds
- Kapton voice coil formers
- Phase plug pole piece extensions
- Teteron soft dome pivoting tweeters
- High-grade crossovers
- Polyswitch overdrive protection
- IR knockouts on In-Wall Speakers

LEVITON ARCHITECTURAL EDITION BY JBL

Leviton and JBL have partnered together to create the Leviton Architectural Edition powered by JBL. The Leviton/JBL multi-room speakers feature Elliptical Oblate Spheroidal (EOS) Waveguide technology for improved high-frequency dispersion throughout a listening area. Titanium-laminate drivers ensure musical accuracy and clarity. The outdoor speakers have the same quality as their indoor counterparts but are engineered to withstand exposure to the elements.

Leviton/JBL 5.1 Channel Home Theater Speaker System

An extremely versatile performer, the Leviton/JBL 5.1 Channel Home Theater Speaker System is ideal for use in any application where an in-wall/in-ceiling installed home theater speaker solution is impractical but full performance is desired. The satellites can be mounted on walls or ceilings to open up as much living space as possible. Video magnetic shielding means that the satellites can be located right next to a TV screen without causing any problems.

2 INSTALL SPEAKERS

Pro-Wire Speaker Switchers

- Maintain minimum 8 Ohm load
- Amplifier protection against impedance loads
- Great barrier termination strip construction
- 4-Speaker: Handles up to 100 Watts per channel
- 8-Speaker: Handles up to 125 Watts per channel

OESW4SPKR Pro-Wire 4-Pair Speaker Switcher **\$84.95**

OESW8SPKR Pro-Wire 8-Pair Speaker Switcher **\$129.95**

Legrand Speaker Switchers

- With the Legrand 4-Location Speaker Selector, you can easily distribute impedance matching audio signals to up to four pairs of speakers. This speaker selector features protection circuitry that prevents damage to your audio equipment from undercurrents or overcurrents.
- Handles up to 100 Watts per channel

OQAU1100WHV1 4-Pair Speaker Switcher **\$39.95**

VOLUME CONTROLS

Channel Vision Volume Controls

The VC-302 is an impedance matching volume control with an IR receiver knockout. The knockout allows Channel Vision's IR-2400 to be integrated with the volume control for applications that require IR repeating.

- Impedance Matching Volume Control
- Protects your amplifier against low impedance loads
- Supports up to 8 pairs of speakers
- Supports 14- 24 AWG speaker wire
- 300 watts peak
- 100 watts RMS per channel
- Wallplate included
- Color: White (Ivory and Almond color change kits available)

CVVC302 Channel Vision Volume Control **\$34.95**

CUSTOMER FAVORITE!

Pro-Wire Slider Volume Controls

- Smoothly transition between 12 volume steps
- Removable Input/Output terminal strip
- 12-tap, high-grade 100-watt autoformer
- Optimum Performance with Autoformers

Optimum Performance with Autoformers: These controls utilize autoformers to efficiently transfer power from the amplifier to the speaker. Autoformers are the electrical equivalent to a gearbox in an automobile. Each of the 12 volume positions works like a different gear. It is common to locate these controls in either the same room as the speakers, or a different room.

- Colors: Choose White, Ivory or Almond

BLUETOOTH MEETS AUDIO!

Legrand Bluetooth Receiver

Most audio systems aren't equipped with Bluetooth, and you would normally need a wired connection to play music from your smart phone, tablet, or any other Bluetooth device. Not anymore!

- Enables Bluetooth connectivity for any audio receiver/amplifier
- Plugs into a standard electrical outlet
- USB port charges smart phones, tablets, etc.
- Class 2 Bluetooth with 30' range

The Bluetooth 4.0 Audio Receiver is simple. You plug it into a power outlet, and connect it to your audio system. Now your audio system has Bluetooth, just like that. You can pair the receiver with your musically-loaded Bluetooth device.

OQAU8001V1 Legrand Bluetooth Audio Receiver **\$84.95**

IST Bluetooth Receiver

The IST Bluetooth Receiver enables Bluetooth pairing for any set of speakers or audio system with a 3.5mm jack. Simply plug the receiver into your stereo or home audio system, and then pair it with a Bluetooth-enabled audio device, such as a smart phone or tablet. You can then stream music from your Bluetooth device! 

ISBTRECEIVER IST Bluetooth Receiver **\$74.95**

In-Wall Audio

IST I600 IN-WALL AUDIO SYSTEM

Create a whole-home music system by connecting up to 8 speakers (sold separately) to the all-in-one IST I600 In-Wall Digital Stereo Music System. This 80-Watt Music System delivers music from the radio, Bluetooth devices, MP3 players, and other external sources (CD player, etc.) to your connected speakers. It's easy to control with a backlit color touchscreen interface, and even features a built-in charging dock for iPods and iPhones.

- Built-in Bluetooth connectivity
- AM/FM radio tuner with six presets
- Programmable alarm with radio alert
- 3.5mm jack and RCA inputs accept external sources
- Charging dock for Apple mobile devices
- USB port plays and charges USB-connected devices
- Available Colors: White, Almond or Black

Color Touchscreen Interface: The I600 In-Wall Digital Stereo Music System can be easily controlled through the customizable backlit touchscreen, which includes

a 12/24 hour time and date display. You can select audio sources, control volume, turn the system on/off, and change settings using simple icon-based menus. The interface allows you to choose one of five different screen backgrounds and your preferred language (English, Spanish, French, Chinese traditional or Chinese simplified).

Installation & System Expansion Details: The unit installs in-wall using an electrical box and screws. Its compact size requires only minimal wall space and provides a clean, modern appearance. Installation is easy with the unit's cam-lock design, requiring only speaker wires and power (110V or 220V).

ISI600x OEM In-Wall Audio System **\$399.95**

OEM SYSTEMS IN-WALL AUDIO SYSTEM

Enjoy music throughout your home or office with the dual-zone OEM Systems In-Wall Audio System. This traditional, space-saving audio system plays CDs as well as AM/FM radio stations, and includes both a USB port and an AUX input for streaming audio from any external device (iPod, iPad, flash drive, etc.). With two internal stereo amplifiers and two pairs of outputs, the system is capable of driving eight pairs of 8-Ohm loudspeakers to distribute clear, synchronized audio from the kitchen to the bedrooms.

- Drives up to 8 pairs of 8-ohm loudspeakers
- Front USB port for playing MP3 devices
- Alarm clock with timer and sleep functions
- Adjustable LCD display with backlight

The audio system mounts on a wall at a convenient location in your home or office. Up to eight pairs of 8-ohm speakers (without impedance compensation) connect directly to the unit. Once installed, you can wirelessly control the entire system using the included IR remote control. Local control is also provided by a comprehensive button configuration and an adjustable, backlit LCD screen.

OEIWSYS3 OEM In-Wall Audio System **\$279.95**

The In-Wall Audio System from OEM Systems pairs perfectly with the ArchiTech, Preference or Presence speakers. See page 64 for details.

Home Networking

WIRED

A structured wiring system provides the fastest, most reliable high-speed Internet connections for homes.

» See page 48

WIRELESS

Create your own hot spot! Wi-Fi networking gives users the freedom to enjoy high speed Internet connections anywhere and everywhere.

DESKTOP

Provide plug-and-play capability for hassle-free installation and configuration with desktop wireless access points, routers, switches and more.

POWERLINE

Powerline adapters turn any receptacle into a robust hard-wired Internet connection, creating a strong network using existing electrical wiring.

WIRELESS NETWORK

802.11n Indoor Wireless Access Point

The Legrand 802.11n Wireless Access Point combines stylish design with blazing speeds and flexible install options to create the best, most reliable network solution for today's homeowners.

With built-in IEEE 802.11b/g/n wireless network capability, the N-WAP allows any computer and wireless-enabled network client to connect to it without additional cabling. The 802.11n wireless capability gives users the highest speed of wireless experience ever. With an 802.11n compatible wireless adapter installed in your PC, the files can be transferred at up to 300Mbps.

The N-WAP ships with both in-ceiling and in-wall mounting brackets and covers included for maximum install versatility, as well as a 48-volt power supply and Power over Ethernet (PoE) injector.

OQDA1101 Legrand 802.11n Wireless Access Point **\$279.95**

802.11n Outdoor Wireless Access Point

The Legrand 802.11n Outdoor Wireless Access Point extends the range of your wireless network to outdoor areas, such as the backyard, porch, balcony and patio. With its weatherproof design, including IP55-rated casing, this outdoor WAP is perfect for most outdoor environments, operable even in rain and harsh wind.

The WAP offers speeds of up to 150Mbps.

- Waterproof casing protects WAP in rain and wind
- Provides robust Wi-Fi access both indoors and outdoors
- Supports speeds up to 150Mbps
- Sends power and data through a single Cat5 or Cat6 cable
- Mounts on a wall or pole

OQDA2131V1 Legrand 802.11n Outdoor Wireless Access Point **\$139.95**

DESKTOP NETWORK

Legrand Desktop 802.11n Wireless Router

The router offers speeds up to 300Mbps and features dual antennas to enhance signal strength. In addition to providing Wi-Fi, the router also includes a four-port Ethernet switch for hard wired connections.

- Dual antennas deliver broad coverage; Includes a 4-port Ethernet switch for hard wired connections
- Supports the latest encryption technologies
- Simple setup wizard enables easy installation

OQDA2154V1 Desktop 802.11n Wireless Router **\$42.95**

Legrand Desktop 802.11n Wireless Access Point

Extend the range of your Wi-Fi signal. This access point connects to an existing Internet router, and provides wireless speeds up to 150Mbps. The included software guides you through a simple setup wizard for easy installation and configuration onto your home network.

- Enables Wi-Fi speeds up to 150Mbps
- Built-in antenna optimization for best coverage
- When in Range Extender mode, it boosts the wireless signal so it can reach previously unreachable or hard-to-wire areas

OQDA2155V1 Legrand Desktop 802.11n Wireless Access Point **\$57.95**

Legrand Desktop Gigabit Ethernet Switch

If you need more bandwidth to support all the network connected devices in your home, the Desktop Ethernet Switch is your solution. The switch upgrades an existing home network to deliver high-speed (1000Mbps) connectivity, providing faster, fluid communication for networked TVs, gaming systems, and other bandwidth demanding devices.

OQDA1015V1 Legrand Desktop Gigabit Ethernet Switch, 5 Port **\$43.95**

OQDA1018V1 Legrand Desktop Gigabit Ethernet Switch, 8 Port **\$57.95**

POWERLINE NETWORK

Legrand Powerline Network Adapters

Imagine being able to extend an existing Ethernet network over your home's electrical power lines. By plugging two network modules into power outlets in the home, a network connection is automatically confirmed in seconds. Each module contains Ethernet ports and can act as both the transmitter and receiver of the data signal.

The 1-Port Powerline Network Adapter connects to your Internet router and plugs into a nearby power outlet. The 4-Port Powerline Adapter plugs into another power outlet where you want to set up a second connection.

A OQDA2301V1 Legrand 1-Port Powerline Network Adapter **\$84.95**

B OQDA2304V1 Legrand 4-Port Powerline Network Adapter **\$104.95**

Legrand Powerline Network Starter Kit

Easily deliver high-speed Internet to an electronic device without running new wires by setting up the Legrand Powerline Network Starter Kit. This complete kit allows you to connect an Internet-capable device to an Ethernet interface, which receives Internet from your router or modem through the existing power lines.

Connect any device to the Internet nearly 1,000 feet away from the source!

- Delivers speeds up to 500Mbps
- Supports bandwidth-intensive applications
- Signal range up to 984 feet (300m)
- Compatible with other DA2300 Powerline Adapters (left)

OQDA2300V1 Legrand Powerline Network Starter Kit **\$109.95**

Includes 2 HomePlug AV Powerline Adapters & 2 Ethernet Cables

COAX

MoCA (Multimedia Over Coax) creates a robust home network using existing coax wiring, and supplies high bandwidth connectivity.

COAX NETWORK

Legrand 4-Port Coax Network Adapter

Easily create a high-speed home network using existing coax wiring with a 4-Port Coax Network Adapter. It attaches to any coax connector, delivering a high-speed Internet connection to as many as four devices – including Internet-capable TVs, Blu-Ray players, computers, set-top boxes, and gaming systems – from one coax cable.

- Forms network using existing coax cable wiring
- 4 port 10/100 Network switch
- Enables streaming of HD content
- Speeds up to 170Mbps
- MoCA 1.1 compliant
- Does not interfere with cable or off-air antenna signals

OQDA2204V1 4-Port Coax Network Adapter **\$134.95**

Digital Cable Splitters with Coax Network Support

These professional-grade digital cable splitters distribute HDTV Antenna/Digital Cable and coax data network signals to one, two, three or four devices.

OQVM2201V1 1-Way Splitter **\$44.95**
OQVM2202V1 2-Way Splitter **\$4.95**
OQVM2203V1 3-Way Splitter **\$6.95**
OQVM2204V1 4-Way Splitter **\$8.95**

Coax Network Signal Blocker

The Coax Network Signal Blocker minimizes signal loss and provides increased performance and security for a MoCA network and isolates the coax network inside the home.

- Isolates coax network inside the home
- Ensures the integrity of the network
- Provides increased performance

OQVM2200V1 Coax Network Signal Blocker **\$11.95**

CONNECT ALMOST ANY DEVICE TO A NETWORK

Global Caché iTach Flex

Global Caché's iTach Flex is an industry first: a smart end-point that Wi-Fi or network enables electrical devices instantly. The iTach Flex adds intelligence to an enabled device, allowing events and tasks to be triggered with simple web-based commands. The Flex includes on-board memory, allowing for stored web pages and files, and web page control of devices. In addition, the Flex supports HTTP for web browser control from anywhere on the network.

The iTach Flex provides powerful, inexpensive and simple connectivity to almost any electrical device so it can be controlled and automated using an app on a smart phone, tablet or any other user interface.

The iTach Flex introduces a new concept of distributed automation and control with smart end-points that enhance and connect stand-alone devices, allowing for them to be accessed and controlled.

- 4 conductor Flex Link Port allows for Flex Link cables
- Access, monitor, automate and control equipment
- Web-based control protocol using HTTP
- 4 MB flash memory

Global Caché iTach

The Global Caché iTach is a family of products designed to connect almost any electrical device to a network in a matter of minutes.

Based on open systems and industry standards, the ultra-compact device fits almost anywhere (even the palm of your hand), and includes a choice of wireless (Wi-Fi) or wired connectivity to IR, serial (RS232), and contact closure (relay) equipment.

The innovative design of the Global Caché iTach allows for easy and flexible integration into any networked control

solution. The iTach is a simple wired or wireless conduit between you and your device over a network or the Internet.

This is instant network-enabling at its best, delivering the power of choice at a cost-effective price.

- Connects almost any electrical device to a network
- Access, monitor, control standalone equipment
- Supports 8 simultaneous connections
- Ultra-compact design, stylish enclosure
- On-board web server for easy setup, HTTP, DHCP

HDMI Distribution

SECO-LARM

HDMI PRODUCTS FROM SECO-LARM

HDMI Matrix

Play up to four HDMI sources on any four HD displays (TVs, monitors, etc.) by connecting them to the Seco-Larm Enforcer HDMI Matrix. With four HDMI inputs and four HDMI outputs, the matrix can send signals from any of your connected sources to any of the connected displays. It handles 3D video and HD resolutions up to 1080p. Status LEDs indicate power status, as well as the status for each input and output.

SEMVMHA4401YQ Seco-Larm HDMI Matrix **\$464.95**

HDMI Splitter

You can show video from one HDMI source on four high-definition displays (TVs, monitors, etc.) when you connect them with the Seco-Larm Enforcer HDMI Splitter. The splitter handles 3D video and HD resolutions up to 1080p. Simply plug your HDMI source and displays into the splitter. The splitter's status LEDs indicate power status, as well as the status for each output.

SEMVDHA1401NQ Seco-Larm HDMI Splitter **\$79.95**

HDMI Over Cat5e/6 Extender

The Seco-Larm HDMI over Cat5e/6 Extender uses low-cost Cat5e/6 cables to transmit HDMI signals instead of heavier, less-flexible and more-expensive HDMI Cables.

Using integrated circuits in the receiver and transmitter, HDMI formats as large as 1080p can be transmitted between the two units with zero signal loss up to 164' (50m) with the single cable model or up to 328' (100m) with the two cable model.

- Connect HDMI equipment using low-cost Cat5e/Cat6 UTP cable.
- HDMI over Cat5e/6 without any signal loss.
- Supports 480i, 480p, 576i, 576p, 720p, 1080i, 1080p.
- Built-in equalization and signal boost function.
- Auto adjusts the equalization and amplification to eliminate feedback.

SEMVEAH010Q Seco-Larm HDMI Over Two Cat5e/Cat6 Extender Set **\$124.95**

- Compact size.
- Signaling rates up to 2.25Gbits.
- Power supply included.
- Support DDC, EDID and hot-plug detection.
- HDMI 1.2a and HDCP 1.1 compliant.

HDMI Switch

You can easily connect multiple HDMI sources to one HD display (HDTV, monitor, etc.) with the Seco-Larm Enforcer HDMI Switch.

Designed for use with most HD audio/video components, the switch supports 3D video and HD resolutions up to 1080p. Status LEDs indicate power status, as well as the status for each input.

Included remote control switches between inputs.

SEMVSAH4101NQ Seco-Larm HDMI Switch **\$49.95**

HDMI Over IR Adapter

If your HDMI source (DVD player, Blu-Ray player, etc.) is in a different location than your HDMI display (HDTV, monitor, etc.), you can still control the source with a remote by adding the Seco-Larm Enforcer IR Over HDMI Adapter.

- Adds IR remote pass-through for HDMI devices
- Discreet design, easy installation

SEMVEPN1101Q Seco-Larm IR Over HDMI Adapter **\$34.95**

HDMI Inserts & Wallplates. See page 55.

SMART HDMI

NetMedia Intelligent HDMI Switch

The NetMedia iSwitchHD Intelligent HDMI Switch is an auto-sensing four-port High Definition Multimedia Interface (HDMI) switch. It automatically senses and connects to the component that was last powered up, providing quick and easy access to multiple HDMI devices such as Satellites, Blu-rays, video game consoles, or computers.

- Auto-senses and connects when source turns on
- DVI/HDMI computer resolution up to 1920x1200
- Manual override source-select button
- Cascade multiple units for 7x1, 10x1, 16x1, etc.
- Serial port for computer and automated control
- Equalization/pre-emphasis for long cable runs

NMISWITCHHD4X1 NetMedia iHDMI 4x1 **\$104.95**

Includes iHDMI-4x1 Switch Assembly & Power Supply

Smart Power Management

POWER STRIPS

360 Electrical PowerCurve Surge Protectors

Finally, you can stop covering up outlets with large, bulky plugs! The 360 Electrical PowerCurve 6-Outlet Surge Protector allows you to plug in those large cell phone adapters and laptop chargers, and still use all the other outlets. The surge protector features power outlets that rotate 360 degrees in either direction, providing room for all your large plugs. Features 4' cord.

EL36051 PowerCurve 6-Outlet Surge Protector, 1080 joules **\$24.95**

EL36052 PowerCurve 7-Outlet Surge Protector with USB, 2160 joules **\$34.95**

Advanced PowerStrip

The TrickleStar 7 Outlet PowerStrip features power outlets that can sense when an individual plug-in component is turned off. While components that are turned on remain powered, the powerstrip knows not to send electricity to its "off" outlets, radically reducing vampire/standby energy consumption.

TS180SSUS7XX TrickleStar 7 Outlet PowerStrip **\$34.95**

TS180SSUS7CX TrickleStar 7 Outlet PowerStrip (with Coax) **\$39.95**

Motion Sensor Advanced PowerStrip

Perfect for avoiding unnecessary energy waste, the TrickleStar Motion Sensor PowerStrip detects human movement to determine whether or not its plugged-in devices should remain turned on. If the surrounding area is vacant for 30 minutes, the powerstrip will automatically switch off all peripheral devices.

TS183SSUS8XX TrickleStar Motion Sensor 8 Outlet PowerStrip **\$39.95**

IsoBar AV Surge Suppressor

Provides protection (3134 joules), stopping damaging surges and filtering disruptive line noise! Perfect for medium Audio/Video installations: high-definition video displays, HD cable/satellite sources and AV receivers, DVD/CD players and more.

- Choose 6 or 10 Outlets

TPAVBARx IsoBar AV Surge Suppressor **\$114.95**

PLUGS & OUTLETS

360 Electrical PowerCurve Mobile Surge Protector

This compact surge protector plugs into an existing outlet, providing two power outlets and two USB ports. Better yet, the two AC power outlets rotate 360 degrees in either direction to make room for two large, bulky plugs, like that of a cell phone charger.

- Features folding plug for travel use

EL36053 360 Electrical PowerCurve Mobile Surge Protector **\$19.99**

1-Outlet Rotating Mobile Surge Protector

Protect your sensitive electronics and make room for large, bulky plugs with the 1-Outlet Compact Rotating Surge Protector. This compact surge protector plugs into an existing outlet and rotates upward (360 degrees) in either direction so you can plug in large adapters without covering up other outlets.

EL36083W 360 Electrical 1-Outlet Compact Rotating Surge Protector **\$5.25**

360 Electrical Rotating Outlet

Tired of bulky plugs covering up your electrical outlets? Try replacing your old traditional outlet with the 360 Electrical 15A Rotating Duplex Outlet. Each receptacle rotates in a full circle to accommodate two large plugs. Simply plug in one device and turn the outlet to make room for a second device. The outlet's "turn and hold" system keeps rotated plugs in place. Now you can use both sockets!

- Unlimited clockwise and counterclockwise rotation
- Powers plugged-in devices during rotation
- Fits standard size electrical box
- Wallplate built in
- Colors: Choose White, Ivory, Almond or Black

EL3601xx 360 Electrical Rotating Duplex Outlet, 15A **\$4.99**

360 Electrical Revolve Surge Protector

Expand a single power outlet to four outlets and introduce rotating outlets into your home with the 360 Electrical 4-Outlet Rotating Adapter. This unique adapter simply plugs into an existing outlet and features four outlets that all rotate 360 degrees in either direction.

You can plug in large, bulky cell phone chargers and more without covering up your other outlets.

REVOLVE SURGE PROTECTOR

- 918 joules surge protection
- 4 rotating outlets fit large plugs

EL36036W Revolve Surge Protector **\$16.95**

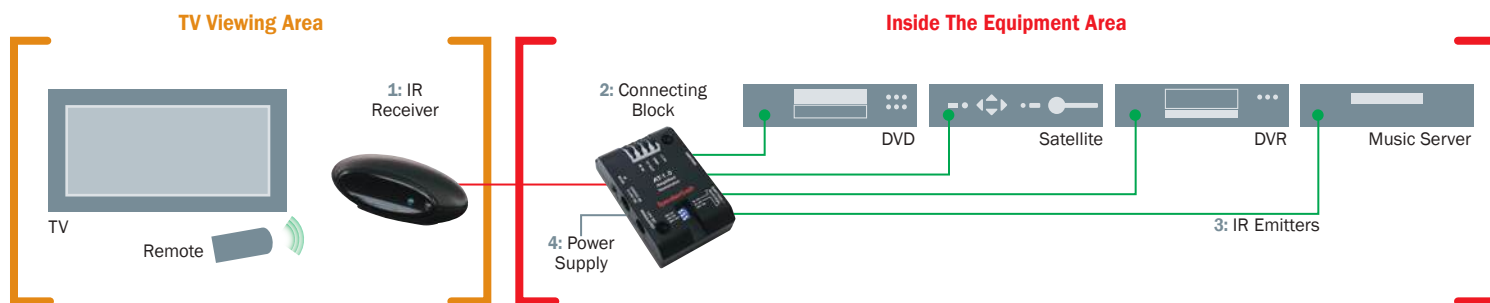

REVOLVE+ SURGE PROTECTOR

- 918 joules surge protection
- 4 rotating outlets fit large plugs
- 2.4 amp 12 watt dual USB charging

EL36037 Revolve+ Surge Protector with USB Chargers **\$25.95**

Remote Control IR Extenders

- 1** At least 1 IR receiver to read the signals from your remote control
- 2** A Connecting Block to control the entire IR system
- 3** As many emitters as needed to control the AV components
- 4** A power supply to provide power to the system

SPEAKERCRAFT IR

SmartPath IR Kit

Everything you need for a complete SmartPath system all in one convenient package! Includes one desktop IR receiver, 4 IR emitters, one amplified connecting block and a power supply.

The SmartPath IR Receiver is a small, attractively-styled IR device designed to sit on a shelf, cabinet or any flat surface. Among with its unique features is an exclusive Ambient Noise Suppression (ANS) system. It acts to push down IRI, CFL, EMI, or ESI noise sources so that stronger signals from IR remotes have adequate margin for command of the controlled component.

The SmartPath Connecting Block includes a wide bandwidth amplifier for robust operation. It has blaster drive power capability and is reverse voltage protected.

SCIRC30KIT SmartPath IR Kit, with Shelf-Top IR Receiver **\$169.95**

Includes Connecting Block, Shelf-Top IR Receiver, 4 Single IR Emitters (Without LED) & Power Supply

SCIRC30KIT SmartPath IR Kit, with Surface-Mount Mini IR Receiver **\$169.95**

Includes Connecting Block, Two-Piece Surface-Mount Mini IR Receiver, 4 Single IR Emitters (Without LED) & Power Supply

CHANNEL VISION IR

Channel Vision Plasma-Proof IR System

Hide your plasma receiver, audio source, cable box, and DVD equipment in a cabinet or separate room and control it without ever having to open the doors again. The Plasma Proof IR Kit is ideal for IR distances up to 1,000'.

- Ideal for components behind closed doors
- Control up to 4 devices in a single-room

CVIR5010 Plasma-Proof IR System **\$91.95**

Includes IR Receiver, IR Repeater Hub, 4 IR Emitters, Mounting Accessories & Power Supply

Channel Vision All-In-One IR System

- Creates 1-room IR system

The 2-piece design allows the IR sensor to be placed in an inconspicuous location, where its larger piece can be placed behind the TV or other components.

- Feedback LED for IR signal confirmation
- Plasma proof; Fluorescent friendly
- Compatible with any standard 12V IR system

CVIR5000 Channel Vision All-In-One IR System **\$80.95**

IR OVER CAT5

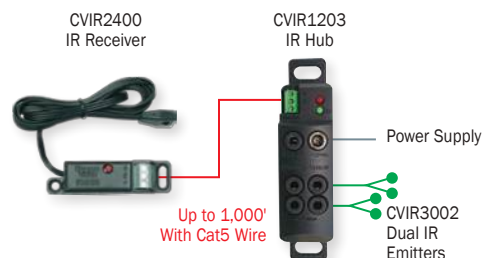

Channel Vision IR Hub

The IR Hub can be used in a variety of applications and provides power to multiple IR receivers from one central location. Utilize the Hub to expand an existing IR system by simply adding IR emitters and extending the distance with the IR Receiver.

CVIR1203 IR Hub **\$27.95**

CVIR2400 IR Receiver **\$62.95**

CVIR3002 Dual IR Emitters **\$8.95**

X10 IR REMOTE SET

X10 Powermid IR Remote Set

Use your remote to control audio/video components in an entirely different room by setting up the X10 Powermid IR Remote Set. This complete kit allows you to control TVs, cable boxes, DVD players, stereo equipment and other IR remote controlled devices up to 100 feet away, even through walls. It's the perfect addition to any home theater.

- Enables remote control from a different room
- Signals travel up to 100 feet through walls
- Works with any IR remote controlled A/V component
- Installs in only a few minutes

XTPM5900 X10 Powermid IR Remote Set **\$59.95**

HOT LINK IR

Hot Link

Double the distance of remotes with Hot Link's super sensitive IR eye that is 5 times as sensitive as other IR targets. The Hot Link Eye is so sensitive it can be hidden on the back of flat panel displays and does not require direct line of sight; no holes to drill and one eye works for all applications.

Hot Link Pro and Hot Link XL repeats all frequencies all the time and works with virtually all AV gear.

HOT LINK PRO

- Control hidden AV gear in cabinets and closets
- Totally hidden IR Eye does not need direct line of sight
- Doubles remote control performance for up to 6 AV components
- Blue Confirmation LED ensures communication and performance.
- Works with virtually all AV gear including difficult brands

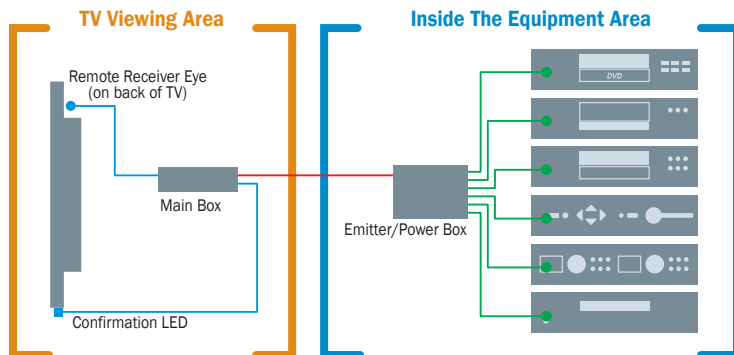

MCHLPRO Hot Link Pro (6 Emitters) **\$139.95**

MCHLPROX12 Hot Link Pro X12 (12 Emitters) **\$159.95**

HOT LINK XL

- Same features as Hot Link Pro
- Extends 6 to 24 emitters over 200 feet with Cat5 cable
- Power supply located in equipment closet

MCHLXL Hot Link XL **\$179.95**

GLOBAL CACHÉ IR

IR Learner

The Global Caché IR Learner is used with a PC to learn the full spectrum (30KHz to 500KHz) of IR codes that control IR driven equipment. When used in conjunction with the free IR Utility, the learned code is displayed, converted into other formats, and automatically copied into the Windows clipboard. Stored codes can be used to control and automate devices that accept IR control signals from networked computers.

GCIRL IR Learner **\$99.95**

IR Extender

The Global Caché IR Extender extends IR capability by converting signals into digital data, which can then be read from any PC or RS232 serial port. It is for use with various IR input devices to capture IR commands that can be recorded, played back and used to initiate actions across a network. It is the first extender to support the full IR frequency spectrum.

GCIRE IR Extender **\$74.95**

Home Entertainment Connection Center 7.1

The Home Entertainment Connection Center 7.1 (HECC) provides a single connection point for satellite/cable, video, phone, data and speakers. It conceals messy wires behind the wall and features universal keystone insert support for easy installation and use. The HECC ships with a bracket for new construction, IyriQ Source Input Mounting Plate, and a cover for seamless installation.

- Features connections for CATV, digital satellite, and auxiliary video input; and telecom connections for data and telephone
- Rugged metal pre-wire bracket mounts on standard 16" on-center studs

OQHT1000 Home Entertainment Connection Center 7.1 (HECC) **\$104.95**

OQ36458101 Home Entertainment Connection Center Bracket **\$13.95**

VIDEO MODULATORS

CableTronix Digital Modulators

Now with infrared capability! The CableTronix modulators are frequency agile modulators that allow for insertion of a video and left and right audio signals from a satellite receiver, VCR, laser disc, DVD or security camera to be inserted on selected TV channels. These units are switchable between off-air and CATV signals, so that one unit can be used for both applications.

NACTARM4IR Digital Agile Modulator, 4 Input, IR capable **\$219.95**

Digital Agile Modulator

Multiple video content distribution to all TVs without the purchase of additional video devices.

- Output level: 25dBmV
- Audio and Video AGC
- Precise digital PLL control
- Extended channel range, UHF 14 to 78 and CATV 65 to 135 (excluding 95 -99)
- Dual RCA inputs directly on the unit
- Built-in RF amplifier

NACTMM10 Digital Agile Modulator **\$34.95**

Digital Micro Modulator

Make your own TV channels with these ultra-compact modulators!

- UHF 14-69 and cable 70-125 channels
- Compact size and weight
- Internally generated test pattern
- Built-in video amplifier
- Combined stereo inputs
- Precise digital channels

NM70 1-Channel Micro Modulator **\$104.95**

Size: 3 1/2" x 2 1/5" x 9/10" & Weighs 4.2oz.

Multi-Channel Modulators

These input modulators output on a single coax to any distribution system. All models provide loop-thru capability to be used when maintaining MTS Stereo at the modulator location. Features CATV 65-125 (excluding 95-99) and UHF 14-64 and 115V AC power supply.

MP5515 1-Channel Modulator **\$119.99**

MP5525 2-Channel Modulator **\$196.99**

Home Intercoms

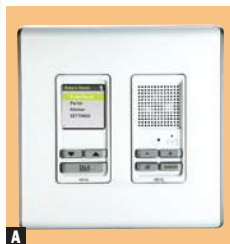

LEGRAND STUDIO INTERCOM

Seamlessly blending leading edge technology with stunning design, Selective Call is the most advanced intercom in the industry. The system allows broadcast or room-to-room communication at the touch of a button, and enables up to 3 simultaneous conversations – the only intercom in the industry to do so. And it's all based on efficient Cat5 wiring.

- Up to 32 locations per system
- Simple, intuitive user interface
- Up to 3 simultaneous conversations
- No main console
- 96 customizable room names
- 20 built-in digital door tones
- Convenient RJ45 connection
- One-person installation via system auto-discovery
- Room unit features a high-resolution color LCD interface
- Units include a high-quality speaker and microphone
- Access live camera feed from any web-enabled device, like your smart phone, with Video Door Internet Enabling Kit.

IST I2000 MUSIC & INTERCOM

Enhance the way you experience music and communication in your home by installing the IST I2000 Music Intercom Kit. Designed for new construction applications, this complete whole-home system combines music distribution and intercom communications to provide an all-in-one audio solution.

The sleek Master Station features a built-in speaker, connection points for all types of external audio sources, radio and more. The four included Room Stations produce crisp, clear audio for four additional rooms. The system can play up to three different audio sources at once, so your family members can listen to what they want, where they want. Need to talk to someone in another room? Just pause your tunes and make an intercom call. This system even allows you to answer your door via intercom.

- Built-in AM/FM radio with 10 presets
- Docking station and ports for external audio sources
- All stations support 8-ohm external speakers
- System can expand up to 20 zones
- Colors: Choose White, Almond or Black

IST RETRO MUSIC & INTERCOM

Upgrade your home's outdated intercom system with the IST RETRO Music & Intercom System (4 Zones). This unique intercom system is designed to replace pre-existing 3, 4, or 6-wire in-wall intercoms without requiring drywall repair or new wiring. Once it's installed, you will have a modern, full-featured music distribution and intercom system that interconnects four rooms of your home (expandable to 13), as well as the front door and your Master Station.

- Replaces existing 3, 4 or 6-wire intercoms
- Built-in AM/FM radio with 10 presets
- Docking station and ports for external audio sources
- All stations support 8-ohm external speakers
- System can expand up to 13 zones (rooms)
- Colors: Choose White, Almond or Black

ISRETROMV4PACx IST RETRO Music & Intercom Kit **\$1,094.95**

Includes Master Station, 4 Indoor Room Stations (plus Adapter/Cover Plate Kits for each), Door Station and Mounting Screws.

ISRETRO5Px IST RETRO Intercom Patio Station **\$94.95**

Colors: Choose from White, Almond, Nickel, Gold, Bronze or Black

ISBTRECEIVER IST Bluetooth Receiver **\$74.95**

RETROFIT OPTIONS

The IST RETRO is specifically designed to retrofit an older 3-wire, 4-wire or 6-wire intercom system. (It is not designed for new installations.)

M&S SYSTEMS INTERCOM

The VMC1 Video Security Intercom - the only residential system that integrates complete intercom functionality with live video and home automation control - gives homeowners multiple communication and security features in one efficient package.

Far from a simple door-to-video screen entry system, the VMC1 seamlessly combines security video, lighting control, e-mail notification and active camera viewing - all with hands-free response capability - to offer exceptional whole-house communication and entryway security. Supports up to 20 remote stations (including up to three color video camera stations), and controls multiple output switches that automate home security.

- Turn lights on or off remotely or automatically
 - Activate a security panel panic alert
- These combined capabilities make the VMC1 Video Security Intercom attractive to homeowners.

DOORBELL FON

DoorBell Fon replaces the doorbell to let you answer the door from any telephone, even cordless phones. Also open the door with one simple keystroke.

When a visitor presses the button on the doorbox, it rings your home's phones with a distinctive ring. You greet your visitor by simply picking up the phone. If you're on the phone, you'll hear a call-waiting tone that is answered with a simple switch-hook or push of your flash button. The DoorBell Fon connects to 2 doorboxes and allows you to flash between the 2 doors.

- Doorbell button rings your phones
- Uses existing single pair doorbell wires
- Distinctive tones at each door
- Can be used as an Indoor Intercom
- Call waiting tone indication
- 1- or 2-lines, key or home PBX systems
- Each controller supports 2 door stations

S-SERIES SLIMLINE DOORBELL

These super thin Door Stations are designed to easily fit on door trim like a regular doorbell switch.

- A built-in awning provides protection from the elements plus a stylish look
- No external power required: power drawn from DoorBell Fon Controller
- Colors: Choose Aluminum or Black

Smart Phone Accessories

NEVER LOSE YOUR PHONE – OR YOUR SANITY!

ZOMM Wireless Leash Plus

Using the latest in Bluetooth technology, the ZOMM Wireless Leash Plus combines several amazing features into one small and compact keychain device. It connects with your cell phone and provides a portable speakerphone, alerts you when you forget your phone, operates as a panic alarm and even calls 911 in an emergency.

Never Lose Your Valuables: Your mobile phones are not just about making a call, they are a lifestyle – photos, contacts, movies, emails and more! The Wireless Leash Plus tethers to your phone wirelessly and will alert you if it ever separates from you.

Speakerphone: With a tap of the Z-button, the ZOMM becomes a speakerphone. You can answer your mobile phone from ZOMM, as well as transfer an existing call to and from your phone. Now you can answer calls safely and hands-free while driving.

In Case of Emergency: The ZOMM Wireless Leash comes with a built-in PANIC alarm that is designed to draw attention to you if you are in an emergency situation.

PORTABLE SMART PHONE CHARGER

ClearPower Battery Backup & Portable Charger

Make sure you always have power for your mobile device or landline phone with the ClearSounds ClearPower Battery Backup & Portable Charger. The charger features two USB ports (one 1A port and one 2A port) to accommodate smart phones, tablets, and other USB charged devices.

- Provides up to three days of backup power
- Each USB port supports any 5V charger
- LEDs indicate charger's remaining battery life

CLCSCP12BB ClearSounds ClearPower Battery Backup & Portable Charger **\$109.95**

Leviton Mobile Device Station

The Leviton Mobile Device Station creates a convenient wall cradle for your cell phone, music player, and more. Now you can dock your mobile device right next to a power outlet or the controls for your home entertainment system.

The Mobile Device Station allows easy access to your device's touch screen so you can listen to your favorite music, stream video, and charge your device all from the same wall-mounted location.

- Fits iPhone, Android, Blackberry and more
- Colors: Choose White, Light Almond or Black
- Wallplate not included (see page 71)

LV47112x Leviton Mobile Device Station **\$11.95**

BOOST CELL PHONE RECEPTION INSIDE & OUTSIDE YOUR HOME

weBoost Connect 4G Cellular Signal Booster Kit

Amplify cellular signals for an area measuring up to 5,000 square feet with the complete weBoost Connect 4G Cellular Signal Booster Kit (Medium-Size Home). Designed for DIY installation, this kit comes with everything you need to increase 4G LTE/3G data speeds, boost signals, and extend battery life for any cellular device. Weak or shadowed signals are continually enhanced to deliver cell service normally found in areas

of high cell network coverage.

This booster is FCC certified and compatible with all major U.S. cell carriers (except WiMax and iDen).

- Increases data speeds, signal range and battery life
- Covers up to 5,000 sq ft depending on outside signal
- Compatible with 4G LTE/3G mobile devices
- Amplifies signals both to and from the cell tower

NOTE: weBoost was previously known as Wilson.

WI470103 weBoost Connect 4G Cellular Signal Booster Kit for Medium-Size Home **\$645.95**

Includes Connect 3G Dual-Band Cell Phone Amplifier/Repeater, Inside Wall Panel Antenna, Outside Directional Antenna, Power Supply, Coax Cables & Instructions.

Doorbells & Chimes

MUSICAL CHIMES

iChime "Play Anything" Doorbell

The iChime "Play Anything" Doorbell replaces your existing wired door chime. This doorbell comes with dozens of built-in songs and sounds in 6 different categories. It can play any single built in selection or for more variety, it can cycle between all built-in sounds within a category. You can also record up to 60 seconds total in 6 different locations and select the one you want when you want. The iChime features a large speaker for full, rich sound and can be extended with up to two optional speakers.

- Includes dozens of built-in songs and sounds
- Fully recordable to play anything you want
- Records live, or from your CD or MP3 player

NuTone Universal Wired/Wireless MP3 Doorbell

Create your own door chimes with the NuTone Universal Wired/Wireless MP3 Doorbell! This doorbell mechanism features 128MB of built-in memory, providing plenty of space to upload high-quality MP3s via USB. When visitors ring your doorbell, they'll hear your chosen song, tone, or any other digital audio sound.

- Upload any MP3 song or sound via USB
- Comes pre-loaded with 8 chimes
- Suitable for new or retrofit installation
- Mounting hardware included

The doorbell also comes pre-loaded with 8 chimes (various Westminster, 2-Note and Single-Note sounds), so you can start using it right away while deciding which song is best for your guests! Simple audio controls allow you to select your desired volume, and a timer allows you to play a sound for 5, 10, or 20 seconds, or play the full song.

NuTone Central Vacuum System

NUTONE CENTRAL VAC

NuTone's Central Vacuum System is the quietest and most powerful cleaning system for doing more than just cleaning floors.

A complete system enhances your home's environment by improving indoor air quality and reducing noise while providing exceptionally clean carpets and other surfaces. Now cleaning can be accomplished while the baby is sleeping or the family is enjoying their favorite television show.

More Cleaning Power: Up to five times more powerful than upright and canister systems, NuTone central vacuum systems pull more dirt and dust out of the house and exhaust it outside of your home.

Better Dust Filtration: Dirt and dust are captured inside the Power Unit – away from living areas. With HEPA filtration and anti-stick technology, dust and bacteria are trapped in the bag.

Built-in Convenience: The lightweight hose is all you have to carry upstairs or from room to room. No heavy canister or upright vacuum to lug around. And, the handy VacPan makes small clean ups in the kitchen a breeze.

Quiet Performance: The internal sound suppression system reduces noise disturbance. In addition, with the power unit mounted in the basement, garage or utility area, the noise is away from your living area.

Did you know 56% of the home's energy bill is just for heating and cooling? Save up to 10% with a programmable thermostat that automatically adjusts the temperature.

RCS

RCS Communicating Thermostats

The RCS RS485 Communicating Thermostat with HVAC Control Unit is designed to control the majority of HVAC systems. It contains a robust thermostat interface and an HVAC control unit, both designed for use with home communicating systems (security, automation, etc.) where thermostat remote control and/or remote monitoring are desired.

- Remote control of all thermostat functions: supports up to two remote sensors
- Local temperature, heating/cooling set points, and fan mode displays on a backlit LCD
- On-screen setup of Type, Fan Type, Changeover type for HP systems, F/C mode and sensor calibration
- Text messaging via network

- Includes SmartVent Fresh Air venting and Fresh Air damper control

RCTR65 Serial Thermostat \$249.95

Includes HVAC Control Unit & Wall Display Unit

Integrate Your HVAC Controls Into Your Home Automation System With The RCS Z-Wave Thermostat.
» See page 16.

RCS RD & RDM Dampers: Ideal for HVAC zoning or switch applications, allowing for variable damper blade positioning.

Automated HVAC System Controller

Connects your HVAC system to the Internet and allows you to control your Aprilaire Thermostats remotely and efficiently. Rather than walking from thermostat to thermostat, make changes through a single web-enabled device.

The simple-to-use point and click interface can be accessed from your smart phone, laptop, PC and more.

RP8826 Aprilaire Automated HVAC System Controller \$889.95

TOP SELLER: MAKITA DRAPERY OPENER SYSTEM

The Makita Automatic Drapery Opener (ADO) system allows you to control your curtains remotely, manually or automatically by time of day. Consider the installation of Makita's Drapery Opener in your home, office, show room or entertainment center. It is a wise investment that is sure to provide comfort and enjoyment for many years to come.

- Configure for Right, Left or Center Pull
- Not just a motor – a complete system
- Reliable matched components and direct drive
- Timer is included for programming the system to open and close up to 4 times per day
- Home theater masking is possible through the contact closure interface
- Rated for a minimum 30,000 openings/closures

Remote Control: With the Makita Remote Control (included), you can operate your draperies easily from your bed or favorite chair up to 33 feet away. The IR signal can penetrate most draperies, eliminating the need to expose the infrared receiving eye. You can even control several drapery systems with a single remote.

Timed Control: With the Makita Drapery Timer, you

can open and close your drapes based on time of day. The timed operations can be set up to four times a day. This allows for hands-free operation and provides security, energy savings and furniture protection.

Manual Control: The automatic clutch mechanism in each motor permits drapes to be opened manually without compromising the system.

MAKITA AUTOMATIC DRAPERY OPENER KITS

All kits include motor, timer, remote control, rod assembly, tracks, mounting brackets and installation video

MKDRP20 Makita Automatic Drapery Opener (ADO) Kit, 9' Single Rod **\$699.95**

Home Controls Carries The Complete Line Of Makita Accessories » www.HomeControls.com/MakitaUSAInc

ADD-A-MOTOR SYSTEM

Add-A-Motor's Automatic Drapery Opener (ADO) provides an economical way to open and close your draperies and vertical blinds.

Installation takes about 15 minutes! The motor attaches to the loop end of your window covering cord or chain without modification. The motor has a loop-end system for cord or ball chain; no need to cut or replace drapery cords. It can traverse drapery or vertical blinds up to 12' wide (center opening) and 10' wide one-way opening. Stop positions are independently adjustable: all the way open, all the way closed, and all in between.

AD80 Automatic Drapery Controller **\$99.95**

XPPHK05KIT X10 Remote Kit **\$31.95**

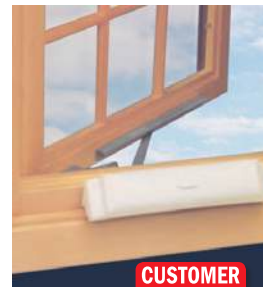

Adds remote control for your drapes

OPEN & CLOSE WINDOWS BY REMOTE CONTROL!

Sentry II WLS System

Control your windows with the Sentry II WLS - automatically or by remote control. With a sleek design and quiet motor, the Sentry II WLS (window and light skylights) system retrofits casement or awning windows formerly operated

CUSTOMER FAVORITE!

by Truth or Pella hand cranks. Individual power units drive existing window hardware so you'll have an easy, automatic system to control your windows and skylights. Now closing and locking will all be at the touch of a button.

A low profile design and quiet running motor are two of the exciting and powerful features engineered into this new motorized system. No special preparation is required by the window manufacturer, making the Sentry II Power System suitable for on-site installation on new and existing (retrofit) windows.

Building automation systems can be easily connected; the system can be hooked up to a thermostat, an electric smoke detector, or even home control or security systems.

TR435100005 Sentry II WLS for Truth **\$604.95**

Includes Motor, Wall Box With Faceplate & Rain Sensor

Medication dispenser provides remote access to settings via secure website. Connects to the Internet through a wireless cell network.

Personal Alerts

Bellman & Symfon Visit

Bellman Visit is a wireless detection system that helps those with hearing loss detect important signals and alarms. The system was developed to catch your attention and alert you to events in your home, including a doorbell, telephone ring, fire alarm and more. With Bellman Visit, life is safer, more flexible and more free. The Visit alerting system offers a broad-ranging suite of transmitters and receivers, which fully integrate to work as one.

STEP 1 CHOOSE A RECEIVER

Pager

Notifies you with vibrations and a lighted symbol when a transmitter is activated. It is small and can be carried in your pocket or on your belt.

BSHCVISITPAGREC \$196.95

Clock

Wakes you in the morning with a combination of sound, flashing lights and vibrations from the accompanying bed shaker.

BSHCBAVISITCLK \$149.95

Portable

Notifies you with sound and colored lights when a Visit transmitter is activated. It's wireless, so you can take it out on the balcony or the porch.

BSHCVISITPORREC \$135.95

Flash

Notifies you with flashing lights and a lighted symbol when a Visit transmitter is activated. Place it on a shelf or mount it on a wall.

BSHCVISITFLSREC \$173.95

STEP 2 CHOOSE A SENSOR/TRANSMITTER

Door

Designed for those who have difficulty hearing the doorbell. When someone rings the doorbell, it detects the sound and signals the Visit receiver.

BSHCVISITDTR \$81.95

Telephone

Suggested for those who sometimes have trouble hearing when the telephone rings. When someone is calling, it will signal the Visit receiver.

BSHCVISITTTR \$81.95

Push Button

Works as a wireless doorbell. Just attach it by the front door, and you will be notified when someone pushes it. It can also be used as a portable alarm.

BSHCVISITPBTR \$69.00

Smoke

If a fire should occur, the Visit smoke detector will instantly signal the Visit receiver. This means you will always be given an early warning.

BSHCVISITSATR \$110.00

BELLMAN & SYMFON VISIT KITS

Door Transmitter, Phone Transmitter & Pager Receiver.

BSHCVISITVP1 \$269.95

ALL-IN-ONE FALL PREVENTION

StandDown

The StandDown all-in-one, self-contained sensor offers caregivers the ultimate in convenience in every fall prevention monitoring situation. Simply place StandDown on a chair, bed or floor. Switch to On and monitoring begins automatically! The system will not alarm as long as the patient remains seated. If the patient attempts to stand, alarm will sound. If the patient sits again, alarm will stop, the system will automatically reset, and monitoring will resume.

USSD1 Wheelchair StandDown **\$109.95**

Size: 15"x18"

USSD2 Bed StandDown **\$129.95**

Size: 18"x25"

USSD4 Floor StandDown **\$159.95**

Size: 15"x25"

Communication Systems

AMPLIFIED PHONES

ClearSounds iConnect

The ClearSounds iConnect bundle provides a whole-home phone system with two handsets right out of the box. Designed for cell phone users with mild to moderate hearing loss, the Bluetooth-enabled ClearSounds iConnect phone allows you to answer, dial, and switch between landline and cell phone calls – all from a single amplified handset. When you pair your Bluetooth cell phone with iConnect, your two phone lines are combined. Now, any call can be amplified no matter which line you're using.

In addition to amplifying any call, iConnect also enhances your overall phone communication capabilities. A big-button, easy to read backlit keypad benefits anyone with mild vision loss. Users also enjoy enhanced ring tone volume and visual ring notifications.

- 50 dB amplification with full range tone control
- Full duplex speakerphone in handset and base
- Expandable up to five handsets total
- 95 dB adjustable base ringer and 85 dB adjustable handset ringer

- Bright visual ringer on base and handset
If you misplace your cell phone around the house, no problem – your iConnect phone will ring and allow you to answer any cell calls.

CLCSA1600BTBUN ClearSounds iConnect **\$264.95**

Includes iConnect Phone Base & 2 iConnect Handsets

CLCSA1600EBT Extra iConnect Handset **\$69.95**

PowerTel 7 Series

The Ampicom series of amplified phones and accessories is designed as a modular phone system that allows you to mix and match different components. Start with a main telephone unit and add onto the system as you wish! All Ampicom phones are compatible with one another, making it easy to create a custom system that works for your unique family, complete with corded phones, cordless phones, answering machines, and wrist shakers.

Ampicom phones are packed with features that allow you to customize the listening experience through simple, voice-guided settings. Built-in voice notifications can also confirm which button was pressed, indicate when the battery is low, and warn you when the cordless handset is out of the base's wireless range.

A B C AM95545 Ampicom PowerTel 785 Responder Amplified Corded Phone Kit **\$189.95**

Includes Corded Phone, Cordless Handset & Wireless Wrist Shaker

A B AM95514 Ampicom PowerTel 780 Assure Amplified Corded Phone Kit **\$149.95**

Includes Corded Phone & Cordless Handset

A C AM95022 Ampicom PowerTel 765 Responder Amplified Corded Phone Kit **\$139.95**

Includes Corded Phone & Wireless Wrist Shaker

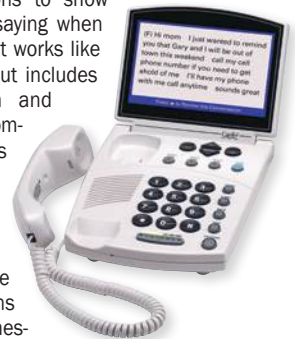

CAPTIONED PHONE

Hamilton CapTel 840i Telephone

The Hamilton CapTel 840i Telephone provides accurate, real-time captions to show you what a caller is saying when you're on the phone. It works like a traditional phone, but includes volume amplification and text display to solve communication difficulties caused by mild to severe hearing loss.

This latest version includes a built-in answering machine that provides captions for recorded voice messages. It even supports digital cable or VOIP telephone services. Remove frustration and enjoy your conversations with a CapTel phone.

- Captions appear automatically on all calls
- Adjustable font sizes and colors
- Large display screen tilts for comfortable reading
- Captions can be turned on or off at any time
- Adjustable volume control
- One-touch access to CapTel Customer Service
- Easy-to-follow menu system with Yes/No questions
- Supports English and Spanish speakers

INTERNET CONNECTION IS REQUIRED

The Wi-Fi compatible CapTel 840i Telephone connects to both your phone service and the Internet. The Internet connection links the phone to a Captioning Center where a Captionist uses voice-recognition technology to transcribe your conversations at no additional charge. The captions are sent back over the Internet to your CapTel 840i phone, and appear in the display window for you to read.

HT756002600 Hamilton CapTel 840i Captioned Telephone **\$99.00**

To be eligible to use Captioned Telephone Service, any individual purchasing a Captioned Telephone must register and certify that they have a hearing loss and need IP Captioned Telephone Service to communicate over the telephone. Some restrictions apply.

CapTel is a registered trademark of Ultratec, Inc.

COMPUTERLESS EMAIL PRINTER

Presto Computerless Email

While most seniors prefer to stay in their own homes as they age, loneliness can be an issue. And if they are among the 58% of adults over 65 who don't go online, keeping in touch with family and friends can be difficult. With Presto computerless email, seniors can receive email, digital photos, and other documents without the hassle and expense of a computer or Internet connection.

HOW IT WORKS

Anyone on the approved senders list simply sends email just like they would to anyone else. Presto transforms the messages into beautiful, easy-to-read e-letters, and prepares them for delivery. Up to five times per day, on

a schedule you choose, the Printing Mailbox dials into the Presto service to check for messages. If there are messages, they are automatically printed. There is nothing the senior needs to do – no mail program to log on to, no attachments to download – they don't even need to push a button. They simply pick up the automatically printed messages, read and enjoy!

- No spam
- No computer or Internet needed
- Connects to the existing analog phone line
- Selection of puzzles and articles available

PRESTOPM10 Presto Computerless Email **\$99.99**

A subscription to the Presto Mail service is required.

ClearSounds Amplified Answering Machine

This answering machine helps ensure that you never misses information. With the Slow Speech playback and ten levels of amplification, messages from even the speediest callers become comprehensible.

CLCSANS3000 ClearSounds Digital Amplified Answering Machine **\$54.95**

ClearSounds QH2 Bluetooth Hub and Phone Amplifier

The ClearSounds QH2 Bluetooth Hub and Phone Amplifier performs two key functions to help people with mild to moderate hearing loss hear phone conversations better.

First, the hub adds up to 30 dB of volume amplification to an existing home phone. Second, the hub adds Bluetooth connectivity, allowing you to talk hands-free with a Bluetooth headset, neckloop (such as the ClearSounds Quattro), or

other Bluetooth phone accessory.

- Adds Bluetooth to any landline phone
- Adds up to 30 dB amplification to all calls
- Wireless range up to 33 feet
- Works with 99 percent of telephones
- Supports up to 8 paired devices

CLCSQH2 ClearSounds QH2 Bluetooth Hub & Phone Amplifier **\$209.95**

TV LISTENING DEVICES

Serene TV Amplifier System

The TV-Direct 95 TV Amplifier System is designed with your comfort in mind. The lightweight receiver features an "over the collar" design that rests naturally on your shoulders, making it comfortable to wear for hours. Simply connect the system with your TV for amplified TV volume up to 115dB through your headset.

The system comes with noise isolating, high-fidelity earbuds that deliver clear dialogue and lifelike stereo sound to your ears. Adjustable Digital Tone control enhances dialog clarity and intelligibility to suit your hearing, while High Definition Sound (HDS) technology makes sure you get the highest sound quality possible.

SNHCTV95 Serene TV-Direct 95 **\$89.95**

Personal Health

SMART BLOOD GLUCOSE METERS

MyGlucoHealth

The MyGlucoHealth Starter Kit's key element – the blood glucose meter – provides testing results in seconds by means of modern technology. With the use of a mobile phone, diabetics can evaluate their blood glucose readings quickly and transmit them immediately to their doctor when necessary.

- Wireless meter works with a real-time online website
- Improves accuracy by eliminating manual logging of test results
- Personalize your blood glucose thresholds
- Test strips work with minimal blood samples
- Tracking Your Health Data Online

MGHBT1SK MyGlucoHealth Starter Kit **\$229.95**

Includes Meter, Case, Lancing Device, 150 Test Strips, Lancets & myglucohealth.net trial subscription.

Telcare BGM

The Telcare BGM wirelessly uploads each glucose reading to Telcare's online server. This online hub gives patients, their health care providers, and their family members secure, 24/7 access to automatically organized health data, viewable through any web-enabled device, anywhere in the world.

- Automatically uploads test results to the Telserve database
- Stores up to 300 of your most recent readings
- Only requires a small blood sample
- Receives personal messages from your health care team
- Test strips automatically calibrate with the meter

TCTM0001 Telcare BGM **\$169.95**

Includes Meter, Manual, 10 Test Strips, Glucose Control Solution, Lancing Device & Lancets

OPEN YOUR DOOR BY REMOTE CONTROL!

Open Sesame Automatic Door Opener

At the touch of a button, the Open Sesame automatic door opener gives complete independence to enter and exit home.

This professional grade disabled access system unlatches a locked door, then opens, pauses and closes it – all automatically.

This remote controlled door opener can be operated with a variety of wheelchair mounted remote controls, wall push pads and other specialty controls customized to accommodate almost any physical disability.

Most installations take less than 2 hours. Plus there's no need to hire an electrician, since the Open Sesame door opener is a safe low voltage device. Just plug in the 24 volt AC adapter to the nearest (within 30 ft) wall outlet, plug in the door opener to the small wall mounted junction box, and you're set.

OSRSPD Open Sesame Automatic Door Opener **\$1,919.95**

Includes Door Operator, Electric Strike Plate To Release The Door Latch, Remote Control, A Low Voltage Wiring Kit, With An AC Adaptor, Wiring, & Junction Box.

KEEP RECORDS SAFE

Medi-Lok Storage Lock Box

The Medi-Lok Storage Lock Box allows you to safely store up to five keys, so you or your loved one has reliable, secure access whenever needed. Medi-Lok is a must have for homes with medical alarms. Simply dial in the right combination code to open the built-in key compartment. With over 10,000 possible code combinations, your keys are safe all the time.

More than 140 manufacturers online!
www.HomeControls.com/Manufacturers_List

Your Satisfaction Is Guaranteed!

For more than 25 years, Home Controls has been supplying homeowners and dealers with a wide variety of easy-to-install home automation products at competitive prices, and your satisfaction is guaranteed! We're not happy unless you are! And we back that up with:

Huge Product Selection

This catalog is only the beginning of the wide variety of home automation and networking products available through Home Controls. If you don't see what you're looking for, visit our website or call 1-800-266-8765 – we'll be glad to help!

Low Price Guarantee

We guarantee the lowest prices on items we sell! If you find a lower price from any other retailer or distributor, simply notify us within 30 days of your order and we'll gladly match it!

Same Day Shipping

Place your order by 3:00 p.m. PST, and we'll ship in-stock products the same day!

Free Product Advice & Tech Support

We are committed to providing the best free technical support in the industry to help you with product advice, system design and of course, troubleshooting. Just call 1-800-266-8765 weekdays between 8:00 a.m. and 5:00 p.m. Pacific Time.

30 Day Refund

Our money back return policy guarantees you are happy with your product upon receipt, or we'll refund your money. See *Terms and Conditions* below.

24/7 Shopping Convenience

Order any Home Controls product online at any time of day or night. Our website offers thousands of products with images and full detail. Visit www.HomeControls.com.

RECOGNIZED LEADERS FOR 25 YEARS!

CEA TechHome's Mark of Excellence Awards recognize the finest achievements in home automation. Each year manufacturers, distributors and installing dealers enter a competition that is judged by experts within the industry representing manufacturers, installing dealers, distributors and the media. Home Controls has been honored with three Mark of Excellence Leadership Awards. The Leadership Award is bestowed on a company that best personifies industry leadership. As the trade association of the home automation industry, TechHome has elected to acknowledge these leaders, and in doing so bestows a single award annually to the company and its executives. Home Controls is widely recognized for its leadership, time, and financial contributions to the home automation industry.

TERMS & CONDITIONS

Payment Options: You may pay online or by phone with Visa, MasterCard, Discover, American Express and PayPal.

Money orders, checks, cashier's checks and wired funds are also accepted for phone orders only. Call 1-800-266-8765 for more information. Make checks and money orders payable to Home Controls, Inc.

Sorry, no COD orders are accepted.

Prices are subject to change without notice.

Shipping: Home Controls offers same-day shipping on in-stock products on most credit card orders received before 3 p.m. Pacific Time. Our huge inventory ensures the most timely delivery possible!

Post Office Box addresses are not accepted for online orders. Orders must be shipped to a physical street address. For Post Office Box options, contact Customer Service at 1-800-266-8765.

Our standard shipping method for domestic orders is by ground service. We also offer Second Day Air, Next Day, and Saturday shipping for an additional charge. Please specify when ordering.

Returns: To return a product, simply call our Customer

Service Department at 1-800-266-8765 to obtain the required RA (Return Authorization) number. This number must appear on the outside of the shipment you make to us or it will not be accepted at our receiving dock. We recommend you insure your package, as we cannot be responsible for refund or replacement should your package get lost in shipment.

Merchandise returned within 30 days of purchase with the appropriate RA number will receive a full product cost refund or credit, provided it is in perfect unused condition in original undamaged and unmarked packaging, and is complete with all instructions and warranty card.

Defective products will be replaced or repaired according to the manufacturer's warranty policy. Call us at 1-800-266-8765 if you have any questions.

Shipping costs are not refundable, but Home Controls will pay the UPS ground freight to ship your exchanges or replacements of defective merchandise. Upgraded air shipping is available at customer expense.

Products not eligible for returns: Books, Plans and Software are not returnable due to copyright laws;

Wire products are not returnable; All sales on Surplus and Discontinued Products items are final, and are not returnable.

International Orders: Home Controls routinely ships products all over the world, and would like to do business with you. Online orders less than \$1,000 can be paid for by credit card, in U.S. currency, if issued by a U.S. bank or lending institution. All other orders must be paid for in advance with a money order, cashier's check, or wired funds. Cashiers' checks or money orders must be received prior to shipment and must be drawn on a U.S. bank. Wired funds must be received prior to shipment; call +1-858-693-8887 phone, +1-858-693-8892 fax, or send email to service@homecontrols.com to get instructions on wiring funds.

All duties, custom fees and any other fees are the responsibility of the customer.

International dealers are welcomed and encouraged to contact us for dealer pricing.

Questions? If you have any questions, just call our Customer Service Department at 1-800-266-8765 and a friendly, courteous representative will help you.

On The Road

SURVEILLANCE CAMERAS FOR YOUR CAR

SecurityMan Mini HD Car Camera Recorder

Hang this little camera from your windshield and have peace of mind knowing you'll record video evidence of any accident or other unexpected event on the road. The SecurityMan Mini HD Car Camera is a smaller, more cost-effective edition of the original full-sized Car Camera. This model includes all of the key features of the original model, including "impact sensing recording". Only a few advanced capabilities are left out to save you space and money!

- Compact size saves money and viewing space in your windshield
- Mounts in any vehicle to record evidence of events on the road
- Continuous or event-activated recording modes
- Records video clips and snapshots to SD card
- Built-in LCD screen, microphone, and speaker
- Mounting bracket rotates and adjusts vertically

TLCARCAMSDE SecurityMan Mini HD Car Camera Recorder **\$64.99**

SecurityMan Car Camera

Protect yourself when driving by recording activity within and around your vehicle. The SecurityMan HD Car Camera with Impact Sensing Recording installs in your car, truck, van or other vehicle and automatically starts recording in the event of a collision. It's a great way to prepare for any legal complications, especially for commercial drivers, such as taxi drivers and delivery staff.

- Continuous or event-activated recording modes
- Records video clips and snapshots to SD card
- Built-in LCD screen, microphone, and speaker
- Mounting bracket rotates and adjusts vertically

TLCARCAMSDE SecurityMan HD Car Camera **\$94.99**

GARAGE DOOR REMOTES

Home Controls carries a great selection of garage door remote controls, including **AllStar**, **MegaCode**, **Multi-Code**, **Genie**, **Skylink**, **Stanley** and more. » www.HomeControls.com/Wireless-Garage-Transmitters-Receivers

EMERGENCY POWER

Power Dome NX

All-in-One emergency and outdoor companion can be used to jump start your car engine, pump your tires, or inflate sports equipment. This power supply also has a radio, AC and DC power source, USB port, audio input socket, LED light, and a storage compartment.

- Functions: Portable & Rechargeable Power; 400Amp Cranking Power Jump-Starter; Heavy duty cables & clamps; 260 PSI air compressor; Tire pressure gauge; 2 AC outlets; 1 DC outlet; AM/FM radio; 1 USB port; LED lights; Storage Compartment

WT2485 Power Dome NX, 200W **\$144.95**

CELL POWER

weBoost Drive

If you have trouble with slow data speeds or dropped calls when using your 4G/3G cell phone, slip it into the weBoost Drive Cellular Signal Booster Kit. The Drive installs in your vehicle or sits on a tabletop to enhance signal range, increase data speeds, and consequently, conserve battery life. It even has a USB port, so you can charge your phone!

WI470107 weBoost Drive 4G-S Cell Booster **\$234.95**

WI470106 weBoost Drive 3G-S Cell Booster **\$152.95**

OUTDOOR GADGETS

CHICKEN COOP MOTOR

Chicken Coop Motor

Add this motor to your chicken coop and it automatically opens and closes the door on a time schedule you choose. Simply plug it into your lamp timer switch and it protects your hens and eggs, and saves you valuable time every day.

- Includes motor, mounting hardware, AC-DC Adapter, lift-cable, and illustrated instructions
- Works similar to a fishing reel. Has a reversible motor with adjustable stop settings. Motor stops door at open and closed positions you set
- No counter-weight needed
- Motor can lift and lower a door up to 5 lbs., with door openings up to 25". If your door swings open, then you can convert it to vertical lift by installing it in side-channels

AD20 Chicken Coop Motor **\$99.95**

PORTABLE SECURITY

Mugger Stopper Plus

With the Mugger Stopper Plus, you can go out at night knowing you're prepared. If you trip and fall or suddenly become attacked, simply pull the plug. Immediately, a piercing alarm sounds and a bright strobe light flashes, drawing attention to you and giving you time to get away. The compact device is lightweight enough to carry in a pocket or purse, or clip onto your belt.

STI12006 STI Mugger Stopper Plus **\$10.95**

BARK! BARK!

Rex Plus II Electronic Watchdog

The STI Rex Plus II offers a versatile way to deter intruders, receive visitor chime alerts, or trigger a siren upon motion detection. Rex Plus II can sense motion through thick doors, walls or glass. When motion is detected, the device sounds one of eight selectable alerts, including an angry, barking watchdog.

STIED55 Rex Plus II Electronic Watchdog **\$109.95**
