

Product Bulletin for JBL Speakers

Leviton Architectural Edition[®] Powered by JBL[®]

Studio Quality Sound from the Professionals

JBL has a reputation for incorporating the most advanced audio materials, technologies, and precision engineering available. Through Leviton's longstanding partnership with JBL select products have been chosen for the Leviton Architectural Edition Powered by JBL family of speakers.

Whatever the application, when the specs call for JBL In-Wall, In-Ceiling, Outdoor, or Home Theater speakers, Leviton Architectural Edition performance is guaranteed to deliver high sound quality and aesthetics.

Specially designed with a nearly invisible zero-bezel and paintable magnetic grille, speakers blend into any environment's wall or ceiling architecture. This is equally pleasing to audiophiles and interior designers for integration into any configuration or setup.

Expertly crafted, Leviton Architectural Edition powered by JBL speakers will leave you wondering how such spectacular sound seems to come out of nowhere.

Product Features

- Signature JBL Loudspeaker performance providing room filling sound with clean powerful highs.
- Paintable, nearly invisible zero-bezel magnetic grilles seamlessly blend into wall or ceiling architecture.
- Long-throw woofers with rubber surrounds provide high output with low distortion.
- Optional rough-in kits available for pre-construction installation
- Engineered for the custom installer in mind with a whole-room, seamless audio and visual design and superior installation brackets.
