MedReady 1650 Function Description and Website Reporting

(<http://www.medready.net>)

- The system can e-mail the appropriate message to a designated party.
- If there is a non-compliance, jammed/broken unit, or an extended power outage, the website is notified via the modem. The website will then call up to three phone numbers and/or e-mail a notice to that effect. The machine requests a response of pressing the #1 on the phone to indicate a receipt of the message. If the #1 is pressed, the message on the web page will resemble the code 6 [orange] below. If there is no answer, the message will resemble the code 7 [red] below. If there is only a e-mail required the message will resemble the code 8 [yellow] below.

Serial #	Date	Time	Code	Type of Activity	Client's Date	Client's Time
17254	2/2/2010	12:52:03 AM	2	Next call back time 12:49 AM	2/2/2010	12:51:44 AM
			2	Since the last call, the device had no alarms set. Every 24 hours the device calls to make sure the line is working. [WHITE]		
17254	1/28/2010	12:55:38 AM	4	Sched 05:03 Taken 05:04 Sched 09:03 Taken 09:03 Sched 14:02 Taken 14:02 Sched 17:31 Taken 17:31 Callback:1435 Last Time Called:00:59	1/28/2010	12:54:37 AM
			4	Medications were taken at the scheduled time [GREEN]
