

Renovia® (RVZA50) Features

Little to No Wiring	All content is being delivered over the power lines in your home -- from room to room.
1 to 8 Zones of Audio	Music can be shared in just one room, or in up to eight different rooms, all playing the same song or different tunes at once.
Music Inputs	A variety of six different inputs (DVD, Internet Radio, SIRIUS, etc.) allows each room or person to customize and listen to whatever they want.
Digital Amplification	High-efficiency amplifier operates coolly and saves energy.
High-Fidelity Audio	Engineered by audiophiles who are dedicated to providing a listening experience that is as close to live as possible, our products are designed to deliver an impeccable audio experience free of distortion and noise.
USB 2.0	Using USB 2.0, Renovia® can conveniently be programmed directly from the computer.
NuVoNet Platform	Displays Song and Album information from any NuVoNet Smart Audio Source Component for easy navigation.
Independent Zone Control	You are the master of your domain. Every room in your system can play and be controlled independently, so you listen to your favorite album on the deck, while the kids listen to SIRIUS Radio in the den.
Sleek Control Pads	Several elegant controllers that install into the wall offer a low profile way to manage your system. Complete control of what's playing, where it's playing and more is at the touch of a button.
Wireless Control from Apple	Wirelessly manage your music, change your listening selection, edit your playlist, change volume and more, all from the palm of your hand. With your personal Apple device you have absolute control. *Music Port App requires use of the Music Port (MPS4) or Music Port Elite (MPS4-E).
Home Automation Integration	Using RS-232, music can be accessed and controlled through a whole home automation system.
IR Control	Music can be controlled through a remote control.
High-Speed Transmission	Renovia® applies the latest standard of digital transmission over the power lines, Powerline 1.0, to deliver high-speed, uninterrupted digital music.
AM/FM Stereo	Two built-in tuners provide instant access to AM/FM music and can be used simultaneously.
Data Encryption	With encryption built in, all information is secure.
Small In-wall Design	The small amplifier installs neatly and discreetly into the lower section of the wall.
