

Quick Start Guide

TrackPIN™

Step 1»

Visit app.TrackPIN.com and click on +New/Setup at the top of the screen. Follow all the prompts to setup your new TrackPin account. Refer to your equipment keys below.

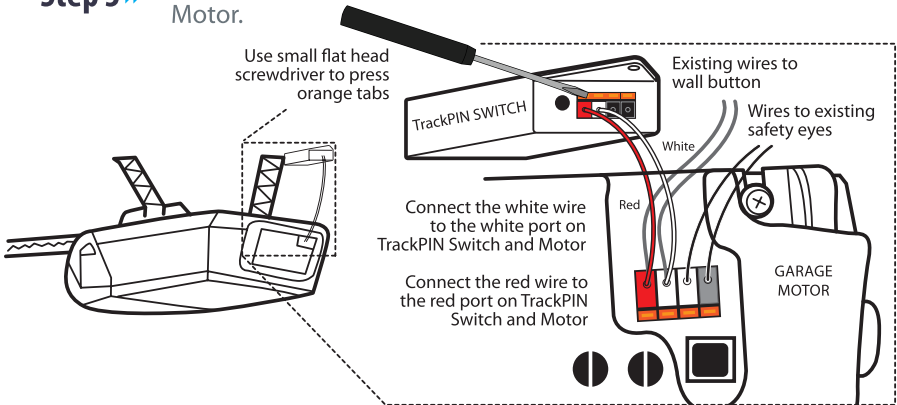

Step 2»

Connect the ethernet cable between the TrackPIN Hub and your existing Internet Router. Connect the TrackPIN Hub power cord. Avoid obstructions such as metal objects and other electronics between the TrackPIN Hub and your garage

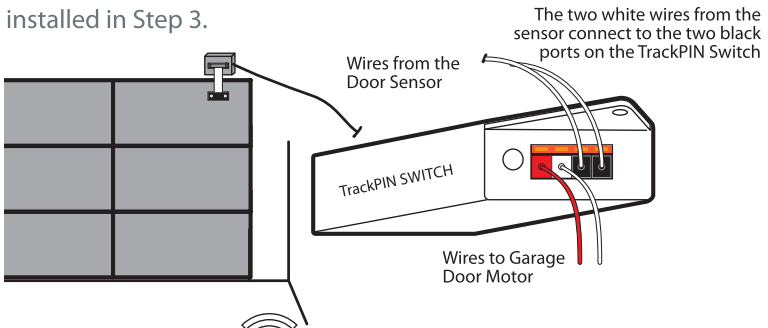

Step 3»

Mount the TrackPIN Switch and connect the wires to your Garage Motor.

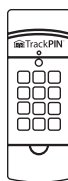

Step 4»

Mount the Door Sensor and run the wires to the TrackPIN Switch installed in Step 3.

Step 5»

Replace your old keypad with the new TrackPIN Keypad and install the battery.
