

Electronic Hearing Aid Dryer

Designed to remove moisture from your hearing aids and earphones and help to maintain peak performance.

Operating Instructions

In the Evening:

1. Push the switch on the back of the Dri-Dock to the ON position. The green light indicator should illuminate.
2. Place your hearing aid(s) inside the Dri-Dock with the battery compartment of the hearing aid left open. Place the earmold with the canal aimed down. This is the same for both in-the-ear and behind-the-ear hearing aids.
3. Close the lid of the Dri-Dock. The Dri-Dock will remove moisture from your hearing aid(s) while you sleep.

In the Morning:

1. Turn the switch on the back of the Dri-Dock to the OFF position. Open the lid and remove your hearing aid(s). Allow them to cool to room temperature.
 2. Wipe the hearing aid(s) with a dry tissue.
3. Insert hearing aid(s) and enjoy another day of better hearing.

Should you experience any difficulty with your hearing aids, contact your hearing healthcare professional immediately.

Limited Warranty:

The warranty for the TV Ears Dri-Dock Electronic Hearing Aid Dryer is limited to defects in material and workmanship for 1 year from the date of purchase. Warranty is voided should any repair be attempted by anyone other than TV Ears, Inc.
